AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 22 State Street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him to the applicant, on receipt of patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER.

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs,* by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom

AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

READ! READ! READ!

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND, }
Genoa, Sardinia, January 17, 1853. }

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,

DISCOMFORT AT THE CRYSTAL PALACE.—A New York correspondent of the Transcript speaks thus of the Crystal Palace in that city:—

You will be surprised to know that the hottest place in New York is, perhaps, the Crystal Palace. Sheltered from any stray sea breeze by the huge reservoir which frowns over it, and exposed on all sides to the direct rays of the sun, its extensive surface of iron and glass seems to attract and concentrate within it all the heat that the atmosphere contains. This is a result not unexpected, but very troublesome. Ventilators have been placed along the top and bottom of the glass walls, but still the air within is hot and almost stifling. When night comes, the heated air within is condensed upon the glass walls, and water runs down in copious streams; so that it has been found necessary, even on these sultry days, to build fires in some parts of the structure, in order to dry the moisture. How often the plans of scientific men are ruined by reason of their ignorance or carelessness in regard to a very common phenomenon of nature. How the directors will now manage to cool their palace is a question. The prospect is that the ice cream saloons and the drinking saloons of all qualities, which line the Sixth avenue, facing the Palace, will invite the perspiring curiosity-seeker, as he puffs his way out of the hot glass-house, with as profitable results as the Crystal speculators themselves.

The editors of the Home Journal were among those invited to Niagara Falls, on the late excursion of the Legislature of New York, and among other incidents noted is the following:

We had the luck to see a horse go over the falls on Sunday afternoon. We say *luck*, because, though we were sorry the horse should end his useful life in so summary a manner, yet since he was so destined, we considered it a piece of luck to see him do it. How he got into the river, or where, no one knew.—We caught sight of him when he was in the midst of the rapids, above the American side of the Horseshoe Fall; and those rapids tossed him up, and whirled him on, as they would a chip—as they would an elephant. Whether he was alive or dead before he reached the fall, we knew not; but if he had been endowed with life of a thousand horse power, he would have been tossed, whirled, and rolled and hurried just the same. Over he plunged into the roaring abyss. In less than a minute he re-appeared in the comparatively still water near the spiral staircase with a gash across his body that half severed it; and there, in the curious eddies of that part of the river, he continued to float, and turn about, and over, for a long time. Probably he is there at this moment, for the water in which he floats is hemmed in on one side by a precipice of rock and on the other by a precipice of water rushing away from the terrors of the cataract. It is impossible to convey to any one, not familiar with the falls, an idea of the interest with which this scene was overlooked by the people on the shore.

A writer in the Florida News strongly advocates the immediate removal of the Indians from the State. The writer declares that he knows persons in Carolina and Georgia, owning over a million of dollars worth of property, who are deterred from settling in Florida merely on account of anticipated difficulties with the Indians.

Commodore Crane committed suicide in 1846, while insane, and his widow has been put upon the pension roll for $600 a year from that time, although the commissioner of pensions at first decided against her.

The horse trade has of late years assumed an importance in Philadelphia and New York which few persons attach to it. A fact is mentioned by the Lancaster Independent Whig, which shows this strikingly. It is, that a single forwarding house in that city, Messrs. Powl & Mishler, has, since the beginning of the present year, sent 1183 head of horses, by railroad to Philadelphia. So exceedingly great has been the growth of this city, as well as New York, that the number of horses required for use is immense, and constantly augmenting. Hard work, warm weather, disease, causalty, age, and other causes diminish the number of our horses continually, and the chief supplies to replace them and meet the growing demand, are derived from the interior of our own State and the great West.—*Phil. U. S. Gaz.*

NAVIGATING THE AIR.—Another Frenchman has recently attempted to solve the problem of aerial navigation. He ascended with a balloon from the Paris hippodrome, in a parachute which was to be cut from the balloon at the height of 3000 feet, (something over half a mile) and the inventor was then to set his wings in motion, by which he hoped to impress any direction he pleased upon his descent. At the height of about half a mile the balloon was observed to collapse, and it and the parachute began to fall rapidly.—When they were within 800 feet of the ground the car was cut, and the boasted discoverer of aerial navigation came down to the ground with frightful rapidity, his wings proving of no use whatever. He was not disheartened, however; the fault was laid to the balloon, and he would repeat the experiment.

The Albany Express thinks that the cholera cannot be far off, for that the advanced guard—water melons and green apples—have already made their appearance in that market—the latter "tasting like pasteboard dipped in sweetened vinegar."

LAW CASES.—*Kissing.*—A young lady of Wakefield, England, rejoicing in the name of Lucy Serle, was recently brought before the magistrate, charged with an assault, though not of an *aggravated* nature. Miss Lucy, in open daylight and in the open street, attempted to kiss a surly inn-keeper of Wakefield.—Her lawyer, in justification of the offence, quoted Burns's couplet of,

"If a body meet a body coming through the rye,
If a body kiss a body, need a body cry?"

and the justice admitted the plea and discharged the case amidst the laughter of the spectators.

Ditto.—Samuel White has been sent to the House of Correction in Lowell, for three months, for putting his arm around a lady in the streets, and attempting to kiss her.

Henry Coleman, a German, has been arrested at Worcester for stopping Mrs. Elthina Baker and her two daughters while riding in a wagon between Fitchburg and Gardiner, attempted robbery, and assault upon one of the daughters who was running for assistance.

There are now five paper mills in operation in North Carolina. They consume about 30,000,000 pounds of rags annually, which, at $3 per cwt., cost $90,000.

Report says that Miss Bronte, the authoress of Jane Eyre, Shirley and Tillette, is coming to this country shortly.

Albert C. Greenleaf, lately connected with the Southern Press, has been appointed Chief Clerk of the Navy Agent's office, at Washington.

DR. CONINE'S
SYRUP OF GINSENG & MALVA.
The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it alone removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KIDNEY REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom
AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

READ! READ! READ!
DR. HAMPTON'S VEGETABLE TINCTURE!
The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND,
Genoa, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

Yours respectfully yours,

PORTSMOUTH, N. H., May, 1853.

This is to certify that I consider Devines' Compound Pitch Lozenges a valuable article for what they are designed—the best remedy before the public. My son had a very severe cough, which threatened speedily to carry him off; and nothing seemed to give relief, until I tried these Lozenges, —which produced signs of relief in a few hours, and after the taking of a few boxes, wholly removed his cough. MILEAGE IN NEW HAMPSHIRE.

The Great Falls Journal tells the following good, (and we doubt not true,) story, of a member of the Legislature from one of our back towns, up among the bears somewhere, who had to travel a round about route from his domicil to the State House.

When the mileage question was brought up considerable excitement was occasioned, each member, of course, looking sharply that his own number of miles were not to be decreased. The member referred to, appearing before the committee to whom that subject was referred, in order to have his number of miles fairly established, so that there need be no dispute about the amount to be paid him, said that upon his starting for home he was compelled to take his valise in his hand and travel a distance of twenty miles in a cow-path, before he came to any public road. He said he was also compelled to cross a toll bridge, and claimed that an extra amount be allowed him for the payment of the toll.

One of the members of the committee thought he had never before heard of a toll bridge located upon a cow-path, but however, the extra amount claimed was allowed.

The member, after this amount of interruption, said, after arriving at a public road he took stage fare as far as the Atlantic and St. Lawrence Railroad, he there took the cars for Portland, Me., from Portland he took fare in the Portsmouth, Saco & Portland Railroad cars and came to Portsmouth, N. H., where he took seat in the Portsmouth & Concord Railroad cars, and in due time arrived at Concord. The mileage of this member, as represented by himself amounted to about thirty-six dollars. The committe at the last accounts were engaged in a violent discussion of the question "shall a member of the New Hampshire Legislature be allowed mileage for any number of miles he may be compelled to travel in Maine, in order to get to the place of sitting of said Legislature." The persecuted member it is also said, was before the committee urging his claims to the full amount of money asked for.

CRYSTAL PALACE.

It appears by a letter writer from New York to the Boston Courier, who has been permitted to go through the Crystal Palace, that the progress of the work at the present time, is quite encouraging. He says:—

Altogether, there is considerable foundation for the hope that the exhibition will be open to the public by the 15th of July, the day named by the Superintendent. From present appearances we are led to believe that the exhibition will be entirely successful. Mammoth packages are to be seen, marked "Paris," "London," "Florence," "Naples," "Stockholm," "Copenhagen," etc., etc.; and there is but little doubt, notwithstanding the dark prophecies of last winter, that, in everything but magnitude, *our* "exposition" will compare favorably with that of London. In one respect I think we shall bear the palm: our Palace will have more dependencies, in the form of low, miserable groggeries, than that of the metropolis of Britain. This insufferable nusance is a disgrace to the country, and especially to this city, (if this city, so far as police arrangements are concerned, can by any *means* be disgraced.) A few Sundays since, some honest blacksmiths were arrested, near the Palace, for pursuing their noisy trade on Sunday; but Thompson, and Jones, and a host of lesser lights, pursued *their* noisy trade of rum selling, and no doubt the energetic policemen who made the arrest of the smiths, drank bumpers at the conclusion of the achievement. So wags the world; aldermen lead and policemen follow in their footsteps.

MODERN MAGIC.—Among the most successful experiments *a la Chinese* are those being made by Monsieur Herbert, a French gentleman, who has been exhibiting for some time in Paris, and has lately established himself temporarily in London. In our foreign files we find full descriptions of his mode of operating. He plants geraniums in a deep box of garden mould, which has been prepared with some chemical manure, and then covers the whole with a glass shade. He next proceeds to pour over the roots, a chemical mixture, which uniting with the ingredients already in the earth, produces apparently a great heat, for an intense steam or vapor is evolved under the glass. This vapor is partially allowed to escape through a small hole in the top of the shade, which had previously been kept closed. In about five or six minutes, the buds begin to blow, and in ten minutes the plants are in full bloom. To satisfy the spectators, that what they see is not an optical illusion, the exhibitor plucks the flowers, and distributes them among the ladies of the audience, as Signor Blitz of immortal memory is wont, about Christmas time, to dole out sugar plums among wondering children, at the Chinese Museum. Rose bushes in like manner, are made to bloom.—*Philadelphia Bulletin.*

THIEF CAUGHT.—A man by the name of George Drew has been arrested in Manchester, on a charge of having broken into the store of Mr. Daniel Sanborn of Chester, on the night of the 21st of July last, and stealing therefrom goods and money to the amount of $80. His arrest has led to some curious disclosures, from which it appears he has carried on the nefarious business of "thieving" for a long time. His neighbors have lost property of various descriptions, and although suspicion has rested upon him, he has never been detected until now. He has been in the habit of secreting stolen property in the woods, some of which has been recovered through the agency of his wife, who says he has broken open several stores and stolen more or less goods therefrom. Upon his house being searched, counterfeiting tools were found, consisting of a press, copper plate for bank bills, engraving tools, &c., &c. His examination was held before justice Greenough of Chester, which resulted in his being committed to Exeter jail to await trial.

DAILY
Morning Chronicle.

PORTSMOUTH:
SATURDAY, JULY 2, 1853.

FAIR PLAY.

"The Portsmouth, N. H., Chronicle, a very nice little paper by the way, when first started was as impartial in its strictures upon Catholics, as we could wish. But lately it has taken a different course, finding, we suppose, it did not pay to be just towards the Catholic body. We have said enough upon the subject of "complaint answered," and therefore shall pass by the base insinuation of the Chronicle, that the priests "keep the Catholics in a state of bigotry by keeping the Irish in this country in a state of ignorance."—*Boston Pilot.*

We are not aware that we have changed our course, as we certainly have not changed our opinions, in the above mentioned respect, since we commenced this paper. We had no idea that we had a catholic subscriber till we lost him, though no doubt some of that persuasion sometimes buy papers. What the Pilot styles a *base insinuation*, we are inclined to frame into a direct assertion, that can be proved true, or shown to be false, and therefore repeat what we said.

A subscriber found fault with the Chronicle, for publishing, (as he said) articles *"against the Catholics and Irish."* We replied to this charge, that we were not against either, but were decidedly against the craft and fraud of those [priests] whose business it is to keep the Catholics in a state of bigotry by keeping the Irish in this country in a state of ignorance.

So much for the statement: now for the proof. In the course of a controversy about a mixed school, the year before last, a priest stated in writing, which we read, that it was better for the youth to be without learning altogether than to attend such a school. The same priest, by threats and maledictions, took all the people of his charge who would obey him, [some did not go,] out of the school, promising, in the newspapers, to get up a similar school, (only free from heresy,) the next year, for the same class of persons; but he never did it, and the fair presumption is, he never will.

Having disposed of this subject, we thank the Pilot for its compliment, and return it by saying that the Pilot is worthy of every Irishman's patronage, for the best account of Irish affairs to be found this side the Atlantic—and that we rely upon it for accurate information in regard to all affairs of the Roman church, as well as for its opinions.

Moreover, we advise all our Protestant friends who wish to understand Catholicity as it is, to buy and read the Pilot, and judge for themselves. We can only give little scraps from it with our scanty limits;—and what we say may be partial, perhaps, as well as brief—but in the Pilot they will have Catholicism in all its beauties and deformities. Error of opinion may be safely tolerated, while reason is free to combat it. "Prove all things—hold fast that which is good."

THE GOOD OLD TIMES.—The people of Lancaster, a town in Middlesex county, from which five or six new towns have been at various times cut off, met together the other day, to celebrate the two hundredth anniversary of the settlement of the town. Among the after dinner speakers was

Rev. Mr. Sears, an ex-minister of Lancaster, who responded to a toast to the memory of Rev. Dr. Thayer, and the early ministers of Lancaster, now dead. He spoke feelingly of them, both of their virtues and their faults.—Rev. Mr. Harrington, one of their number, excommunicated a member from his church for having criticised one of his sermons. He refused to baptize children born on Sunday, for he said they broke the Sabbath in their very birth. But it happened that he had a child born to him on Sunday, and after that he relaxed the rigor of his views on the subject.

"It frequently happens (says the Boston Pilot) that men change their views in this way. If that anecdote were told of a Catholic, what a capital instance of Popish bigotry and superstition it would be!"

So it would. Superstition and bigotry are both odious and ludicrous, in all sects and under all shapes. They are by no means confined to the Catholic fold, but are found all round.

METHODIST TABERNACLE IN NEW ORLEANS.—A correspondent of the Christian Advocate, writing from the South, mentions a plan entertained by "Harry Hill," a well known wealthy cotton merchant, and a liberal hearted methodist, for building a Methodist Tabernacle in that city, in an eligible position, at a cost of $150,000. The writer says:

"It is to be capable of seating three thousand persons; and occupied by preaching alone. He proposes to deed it to the Bishops, placing it under their control and that of the General Conference. Once in four years a programme is to be made out, setting forth the appointments to this grand arena, on this plan; the greatest men of each Conference are to be detailed for one, two, or three months service. The strangers, thronging our hotels and boarding houses by thousands in the winter, will have an opportunity to hear the 'great guns' of the Church."

FANASTICS!

This tasty and unique display will take place on the morning of the 4th of July.

The Procession will form at the southeast corner of Mason's hill at 5 o'clock, and will proceed through State, Court, Daniel, Cabot and Water streets, to the place where the oration is to be delivered; after which it will return.

All persons interested are requested to be present as early as possible.

The cavalcade will meet in the third story of the building No 146 Market street, at 4 o'clock, to prepare for escort duty. By order of the Committee.

ODDS AND ENDS!

The remains are suspected to greet at 7 o'clock on the conjunction of Joshua and Hunking streets, and recede at the centre. They will be proceeded by the Calithumpian disband, in a baker's dozen, and march till they derive there, when they will expand. All are divided to intend. Per odor.

SUDDEN DEATH BY CARELESSNESS.—Three men, rushing through Boston in a light buggy wagon from Chelsea Beach, on Wednesday evening, at 20 minutes past 9 o'clock, ran into and opened the railway gate in Causeway street, just as the train for Medford was starting. The locomotive struck the buggy and killed one man, named Sewell W. Brown, breaking his neck and one arm.

DEATH BY DROWNING.—Samuel Swazey, Esq., of this city, has received a telegraphic dispatch informing him of the death of a son, Frank Holmes, by drowning at Haverhill, in this State, on Thursday evening last. The boy was 8 years of age, a bright, intelligent lad, and his untimely loss must be a severe affliction to his parents.—*Gazette.*

A CATACOMB IN "FROG LANE."—Mr. John Burrowscale narrowly escaped serious injury on Thursday afternoon. While standing upon the sidewalk in Boylston street, Boston, in conversation with some gentlemen, the pavement gave way, and he sank into the earth four feet. He was instantly extricated and found to be uninjured. Upon examining the cavity, it was found to be fifteen feet deep, and was probably, in the days of "Frog Lane," the entrance to a well. In laying the sidewalk on Boylston street, many years since, the surface was covered with plank, which had decayed to such a degree as to crumble beneath the weight of Mr. Burrowscale.

THE FIRST BAPTIST CHURCH, BOSTON.—The new edifice for the First Baptist Church which is to be erected in Somerset street, will have a front of 70 feet, a depth of 90, and a spire of 180 feet. It will be of the Gothic style of architecture, and will be coated with mastic. Its cost will be about $40,000.

Charleston, June 29.—The steamship James Adger sailed from this port, for New York, on Saturday afternoon, and crossed the bar at about o'clock in the evening. Intelligence of her non-arrival in New York has created some apprehension for her safety.

LOCAL.

☞ To each new subscriber who pays for the Daily in advance for a year commencing August 1st, 1853—we will supply the paper without charge to that date.

For the Chronicle.

A GOOD LAW.

Messrs. Editors:—One of your readers, and probably hundreds more, approve of the Ordinance by the City, forbidding the sale of fire works, cigars or liquors, on the tent-ground chosen for the fourth. This is especially gratifying, because it had been whispered round, by some evil-minded or suspicious persons, that spiritous or intoxicating liquors were to be a part of the entertainment, which of course would be unpleasant and annoying to many who would like to attend, as well as to many of the visitors from abroad.

A SUBSCRIBER.

We also approve of the ordinance—but have never given any credence to such an idle rumor as would change our whole usage for a dozen years or more, during all which time no great public feast among us has been furnished with strong drinks. We have no idea that any of the committees intend any such change.

PICKPOCKETS.

Our well advertised celebration of the Fourth will bring down upon us an indefinite number of Pickpockets. So let every citizen deposit his money in the bank or other safe—and every visiter keep a sharp look out for his pocket book.

SONS OF PORSTMOUTH.—All natives and former residents of Portsmouth now belonging in Boston or its vicinity, who may be present in Portsmouth (this day) Saturday, July 2, are requested to meet at the Rockingham House, at 8 1-4 o'clock this evening.

SAM'L H. GOOKIN,
Chief Marshal S. of P.

STATE OFFICERS.—The Governor and Council have made the following appointments:

County Judges.—Aaron Whittemore of Pembroke, and John Woodbury, Jr., of Wilmot, for Merrimack county, and John Scammon of Stratham, for Rockingham.

School Commissioners.—Albert H. Hoyt of Exeter, T. J. Greenwood of Dover, King S. Hall of Gilford, Sanborn B. Carter of Ossipee, Hall Roberts of Concord, Solomon Laws of Temple, A. H. Bennett of Winchester, Wm. M. Ladd of Claremont, John S. Woodman of Hanover, and Daniel A. Bowe of Lancaster. Messrs. Hall, Laws and Bowe are new members.

THE SONS OF PORTSMOUTH IN NEW YORK, held a meeting at the Irving House on Wednesday evening, to perfect arrangements for an excursion to Portsmouth, by invitation of the Common Council there on the 4th of July. Hon. Wm. A. Walker presided, and Mr. G. W. Wendell acted as Secretary. Mr. James L. Wise, on behalf of the Committee of Arrangements, reported that he had gone among the members of the society (150 in number,) and that those who were not able to go themselves were yet in favor of the excursion. About fifty would be likely to go. The financial affairs were favorable. Their friends in Portsmouth, N. H., were anxious that as many would visit them as possible. The probable expenditure of the excursion would amount to about $1000. Already $900 was subscribed. The inhabitants of Portsmouth were more enthusiastic in their preparations for this celebration than on any former occasion.

Mr. Ralph C. Cutter hoped that the example shown by the city of Portsmouth, in inviting her absent children home on this interesting occasion, would be followed by other cities. He was happy to know many men in New York who had married Portsmouth wives. He thought that the sons-in-law of Portsmouth would be very welcome, and he therefore begged to move, "That on this occasion, the husbands of the daughters of Portsmouth be considered as sons of Portsmouth."

The motion was put from the chair, and carried unanimously.

Mr. Wise stated that the arrangements were to start on the Stonington line of boats on Saturday at 5 P. M. They will be accompanied by the band attached to the North Carolina.

For the Chronicle.

NEW YORK, June 30, 1853.

To the Editors of Portsmouth Chronicle:—

We are all enthusiasm here about going home, and every man who can get away will go. Those who read the remarks of a gentleman at the meeting last evening, as reported in the Express, are requested to substitute "daughters of Portsmouth," for "daughters of Temperance."

If you publish a handsome pamphlet of the proceedings of the 4th, it will go like hot cakes. Each visitor will subscribe for 10 or 20 copies, I imagine.

THE GRANITE BOYS FROM NEW YORK.—The "Sons of Portsmouth" in Boston, are reminded that their brethren from New York will arrive at the Providence station at an early hour Saturday morning, and from thence will march to the Eastern Railroad station. They will reach Portsmouth at 10 o'clock, A. M., and devote the day to visiting their friends and relatives.—*Boston Transcript.*

AUCTION.—Furniture sale at the Auction Store, State street, this morning, at 10 o'clock.

FATAL RAILROAD ACCIDENT.—The early freight train upon the Taunton Branch Railroad, on Thursday morning, run over and killed an Irishman. It is supposed that he was intoxicated.

LECTURES AT THE TEMPLE.—Mr. G. W. F. Mellen, of Boston, proposes to deliver three lectures on the 5th, 6th and 7th of July, each lecture commencing at 8 o'clock, P. M., upon the following subjects:

One on the Cause of Color, as it appears in the different races of men.

One on the Financial Bearings of Slavery on the Commercial, Manufacturing and Industrial interest of the country.

One on what constitutes a free American citizen, including a concise history of the Writ of Habeas Corpus.

THURSDAY, June 30.

SENATE.—Mr. Bennett, from the Committee on Judiciary, reported a bill to aid in the erection of a monument commemorative of the Declaration of Independence, without amendment; read a third time and passed, under a suspension of the rules.

Adjourned, to meet at 8 o'clock to-morrow morning.

HOUSE.—Mr. Sinclair of Bethlehem, from the committee on Incorporations, reported that the bill to incorporate the Exeter Gas Light Company be indefinitely postponed.—Accepted.

Another Liquor Law.—Mr Hubbard of Washington, from the select committee on Temperance, reported a bill in addition to, and in amendment of Chapter 620 of the Pamphlet Laws—in respect to licensing agents for the sale of spirituous and intoxicating liquors for medicinal and mechanical purposes only.

Mr. Brown of Ossipee moved that the bill be laid on the table and printed. On a division the motion was rejected—115 to 56; and the bill was read and referred to the committee on the Judiciary—by a vote of 122 to 68.

Some action was taken on a Map of New Hampshire, ending in the passage of a resolution to appropriate $200 for a commissioner to procure information and estimates.

The House by a vote of 105 to 81, refused to alter their vote to adjourn—so they are to adjourn on Saturday.

Mr. Ayer's Resolutions on National Affairs were adopted; and Mr. Emery's negatived.

The House then adjourned to 9 o'clock to-morrow morning.

[The remaining business will be rushed through in a heap.]

SINGULAR ACCIDENT.—At the Tyrone station, on the Central Railroad, an Irishman who was waiting the arrival of a train in which his wife and children, just from Ireland, were passengers, got into a good-natured tussle with another man. The latter ran boyishly away, the first pursued, and in the chase the foremost tripped and fell; the Irishman (being close upon his heels) fell over him, and by a singular fatality dislocated his neck and died instantly! His wife and children arrived shortly after the melancholy accident.

HEALTH OF NEW YORK.—Solomon, in his beautiful song, says: "Let us go forth into the field; let us lodge in the villages. Let us get up early to the vineyards; let us see if the vine flourish; whether the tender grape appear and the pomegranates bud forth."—When our readers note this morning the alarming increase of deaths in the city during the past week, we suspect they will agree with us, that Solomon is eminently timely in his advice. Death took 329 victims from our midst in the course of the week that ended on the 18th. The number last week amounted to 561, yet we have no special epidemic here, nothing that need alarm a sojourner among us. The exceedingly hot weather accounts for this fatality in part, though we can hardly believe that, if as much had been done as could and should have been done to lay the dust, to clear the nuisances from the streets, and to prevent the poisoning of the air, such a terrible mortality would have attended the sudden elevation of the mercury in the thermometric tube.—*N. Y. Times, 27th ult.*

PERSONAL.—Mr. James T. Fields has been chosen to deliver the Phi Beta Kappa Poem at Bowdoin College, at their next anniversary, in September, and the same gentleman has also been chosen Poet of the Phi Beta Society of Harvard University. The anniversary at Cambridge occurs on the 21st of July.

The annual commencement exercises of Dartmouth College takes place at Hanover, N. H., on the last Wednesday and Thursday of July. Hon. Ogden Hoffman, of New York city, will address the Phi Beta Kappa Society, and the Hon. Rufus Choate, of Mass., will deliver his eulogy upon the life and character of Daniel Webster.

There is a law in St. Petersburgh requiring every man and woman arrested for drunkenness, to sweep the streets of the city, a certain number of hours on the following day. Were such a law in force in some of *our* cities what a figure some of our "fast young men" would cut, occasionally, on a Monday morning!

LYON'S KATHAIRON,

For Preserving, Restoring & Beautifying the Hair,

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralizes the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff;* and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache,* and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, & c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Katharon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N. Y."—This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

PROF. ALEX. C. BARRY'S

Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus we built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The higher point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot and manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity. Sold by all the principal Merchants and Druggists throughout the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22*

MARRIAGE.

Happiness and Competence,

WHY IS IT?

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when general health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of this class of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without the opportunity of procuring the means of competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in reverence to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—health in bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S

Private Medical Companion.

BY DR. A. M. MAURICEAU,

PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., pp. 250. Price 50 Cents.

[ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been **SENT BY MAIL** within the last few months.

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Buy no book unless "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y." is on the title page, and the entry in the Clerk's Office on the back of the title-page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Table-page and Index of Contents,* together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

When Knowledge is Happiness, 'tis culpable to be Ignorant.

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the Islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER.

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom

AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

READ! READ! READ!

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the best family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunn, and others. I also cheerfully testify to the high standing of the house of Mesars Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND, Genoa, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the first ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,

PORTSMOUTH, N. H., May, 1853.

My son had a very severe cough, which threatened speedily to carry him off; and nothing seemed to give relief, until I tried these Lozenges,—which produced signs of relief in a few hours, and after the taking of a few boxes, wholly removed his cough. A New, Delicious Temperance Beverage.

AMBROSIAL MEAD!

THIS excellent Compound is prepared from the best SPANISH SARSAPARILLA, without its dark, repulsive appearance, being beautifully transparent and entirely free from all impurities. Its qualities as a beverage, a single trial will give it a pre-eminence over all other preparations, by its freedom from noxious ingredients, agreeableness of flavor, and its *exceeding cheapness*; one bottle being sufficient to make thirty glasses of the beverage.

CAUTION!—The proprietors of this excellent preparation have spared no expense to bring it to perfection, and would caution purchasers to buy none without the fac simile of Wilson, Fairbank & Co. on every bottle.

PATENTS.

American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 322 State Street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

IMPORTANT DISCOVERY.
DOCTOR ALFRED G. HALL,

AUTHOR of the New Theory of cure by the NUTRITIVE PROCESS, in Physiology and Medicine, sustaining the laws of life and removing the cause of disease, confirmed as a NATURAL SCIENCE by the Nutritive Process; expelling dead and depositing living matter at the same time in the Body, increasing its weight and strength while under treatment, being the great discovery of the constitutional power resisting desease; ample proof can be given in the person of any invalid.

Dr. H. receives visits, makes examinations, ascertains the cause of disease, describes the *precise* condition of the *patient*, furnishes prescriptions, medicines and recipes for his Nutritive Fluids and cordials.

Three months' attention and treatment is requisite in all cases, with printed instructions, for diet and washing, and the use of the Alkaline Girdle for the spine and kidneys—a restorative action is produced in all parts of the system immediately by the natural laws sustained by nutrition.

He is the inventor and sole proprietor of 12 nutritive fluids; they can be made by any family—are adapted to the several temperaments, and to every form of disease. His works, "Views of the New Theory, &c.," "Womanhood," and the "Mother's Own Book," are furnished to invalids under his supervision. It is now before Congress.

Doctor Alfred G. Hall may be consulted by letter, or in person at his rooms, **No. 15 Winter St., Boston,** from 10 A.M. to 5 P.M. ☞ Medicines, &c. forwarded by Express to any part.

PROF. ALEX. C. BARRY'S
Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself.—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot and manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity. Sold by all the principal Merchants and Druggists throughout the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22

DAILY
Morning Chronicle.
PORTSMOUTH:
MONDAY, JULY 4, 1853.

THE FOURTH OF JULY.

The memories of boyhood's hours are stirred, by the noise and confusion which always usher in this day, when boys and gunpowder come in contact and explode. No precept of Washington, no principle of Jefferson, has been so faithfully remembered or so diligently obeyed, as that of John Adams, to let bells and guns, pomps, games and shows, keep the fourth day of July in remembrance, as our nation's birth day.

Our celebration of the anniversary, this day, will have enough of this character; and the pomp and show for us is quite uncommon. A fine industrial procession took place here two years ago—and one, we trust as fine, takes place to-day. Then the decorations, the arches, the evergreen, the mottoes, have never been exceeded here, and probably never equalled.

But the peculiar character of this day's celebration in this city, is imparted to it by its paternal and fraternal features. Portsmouth welcomes home her children:—the present residents welcome those who have been their fellow citizens, but who now reside elsewhere. The whole occasion is one in which the better feelings rule; in which each aims at his own happiness through that of others;—in which, in short, every one aims to please and be pleased.

It is a New England Family Thanksgiving on a large scale, and at a new time of the year. National Independence is fitly remembered—while the feeling of good neighborhood and brotherly love is cherished, and cultivated, and made to bear good fruit abundantly.

For the Morning Chronicle.

ODE.

Welcome! welcome! sons and brothers,
Welcome to your homes once more;
Welcome to the homes your fathers
Purchased with their blood of yore.

May this sacred day, forever,
Glorious in our annals be;
May her children ever gather,
To swell the chorus of the Free.

Let our Eagle, proudly sweeping,
O'er our festive board to-day,
To her holy trust be keeping
Vigil ever faithfully.

O'er the lofty and the lowly,
Lovingly thy pinions spread,
Till our stars in radiant glory,
O'er the earth their lustre shed.

Let the banner floating o'er us,
Ever more our Ensign be,
Stars and stripes and eagle guard us,
Keep our Anniversary. IOLA.

For the Chronicle.

A WELCOME TO THE PORTSMOUTH BOYS.

Portsmouth, dear old Portsmouth, see,
How thy children flock to thee!
Shout thy greeting loud and long,—
Welcome! welcome! noble throng!
Thrice, thrice welcome, ye who come,
To your boyhood's pleasant home;
Where fair childhood's transient tears,
Rainbowed all those sunny years!

Welcome ye, whose hearts obey
Love, that beckons you away
From the world of toil and strife,
To the scenes of early life.
Swiftly sped youth's golden years,
All too bright for sorrow's tears—
All too brief for care to throw,
O'er the heart, his shade of woe!

When ye left us (and, perhaps,
Since that time, a dream-like lapse
Of long years, hath passed away,)
Ye, perchance, were young and gay.
When old Time, from Childhood's bowers,
Ravished all the sweetest flowers,
Then, oh! then ye left us—yet,
Portsmouth, ye could ne'er forget!

Now ye come—a noble throng,
Full of manhood—firm and strong—
To old Portsmouth's heart, once more,
As in sunny days of yore.
And the songster, on yon tree,
Seems not half so glad as we,
Nor his breast so full of joys,
As we hail the Portsmouth Boys!

ADJOURNMENT OF THE LEGISLATURE.

CONCORD, July 2.

The Legislature finally adjourned this morning. All the laws to regulate the sale of liquor, and the greater part of the bank bills, have been indefinitely postponed. A very stringent enactment concerning railroad accidents and the management of trains on railroads has been passed. The amount of business referred to the next session of the Legislature is large, and mostly of a private nature.

SONS OF PORTSMOUTH DINNER.

The Sons of Portsmouth from New York, gave a dinner at the Rockingham House, on Saturday afternoon, at which the Mayor, City Council, ex-mayors Toppan and Greenleaf, Chief Marshal Beck, the chief marshal of the Sons of Portsmouth in Boston, and numerous other invited guests—among which the press was well represented—were present.

The dinner was furnished in Major Coburn's best style. The tables were set in a tent brilliantly lighted with gas, which was put up for the purpose, in the yard adjoining the Rockingham House, and the ends of the tent being open, a current of air passed through making it one of the coolest and most delightful places imaginable, for such an occasion.

At about seven o'clock the company went into the tent, and Mr. Walker, M. C. from New York, made a few appropriate remarks, after which they became seated and partook of the bountiful repast. The evening was enlivened with excellent music by the band from the receiving ship North Carolina, which accompanied the Sons from New York.

Dinner being over, Mr. Walker of New York, made a short address and gave a sentiment, which was responded to by Ichabod Goodwin, Esq., and also by ex-Mayor Greenleaf, after which the company separated.

TICKETS to the Collation for the "Sons and former residents of Portsmouth" who are not connected with the Boston or New York delegations, may be found at Preston's apothecary store, Congress Block, or by applying to either member of the Committee on Collation.

TO THE "SONS OF PORTSMOUTH" RESIDENT ABROAD—A HINT.

Of course we would recommend to all with whom the seasonable procuring of it is practicable, to subscribe for the Daily Chronicle—but to those who are interested to know what is going on in and about Old Strawberry Bank—who though absent, are yet present with us—we would suggest that perhaps they would do well to cause

THE WEEKLY CHRONICLE

to be forwarded to their address, each Friday evening. Much of the "local" matter, which occupies so prominent a place in our Daily, is arranged for the Weekly—forming a full record of events about home, and in a form convenient for preservation.

TERMS $1 a year in advance. Postage—free within the County, 13 cts. per year within the State, 26 cts. per year without the State.

☞ An extra train on the Eastern Railroad, will leave Portsmouth for Newburyport and the way stations, at the close of the Fireworks, this evening.

A train will also leave about the same time, on the Portsmouth & Concord Road.

☞ Our neighbor Larrabee, the saddler, across the way from the Chronicle office, says that what is lacking in his display of his own craft, must be laid to the Marshals in the Procession, who insisted upon his distributing so much of his handiwork among them, that he was unable to do full justice to himself.

☞ To each new subscriber who pays for the Daily in advance for a year commencing August 1st, 1853—we will supply the paper without charge to that date.

☞ As the Chronicles are all engaged in celebrating the 4th, we shall issue no paper to-morrow.

FOURTH OF JULY TOAST.

The memory of the man
That owned the land,
That raised the corn,
That fed the goose,
That bore the quill,
That made the pen,
That wrote the Declaration of Independence.

LOOK OUT FOR PICKPOCKETS!—Don't be frightened, reader. We only desire to state that thieves follow crowds much the same as sharks follow ships. From present appearances there will be a crowd in Portsmouth today, and New York and Boston theives are well aware of the fact. A word to the wise, &c.

DENTISTRY.—We have omitted to call the attention of the public to the advertisement of Dr. Fuller, which appears in another column of this paper. This gentleman comes to us well recommended as an educated and skilful dental practitioner, and is well deserving of public patronage. We copy the following notice, from the Old Colony Memorial of October 6, 1849:

Dr. Fuller's advertisement in another column, should receive the attention of all persons requiring dental operations. The doctor has resided one year among us, and has inserted numerous sets of teeth for our citizens, and performed many other operations, which, we learn, have invariably proved satisfactory. It is therefore unnecessary for us to speak of his skill, it having been fairly tested, and we believe, acknowledged by all. Employ him friends, and take our word for it, you will have no cause to complain.

TERRIBLE THUNDER STORM.—*New York July* 2.—The thunder storm of last evening did an immense damage to property in this vicinity, and caused the death of several persons. At Williamsburgh many houses were unroofed, thrown down or otherwise damaged. Dr. McLane's church in Sixth street, were almost entirely demolished. The Methodist church in South Second street, and the Gothic church in Grand street, were unroofed, and otherwise damaged. The ropewalks belonging to Waterbury & Co., and Mr. Lawrence, were completely destroyed. The roof of the half-way house was blown off, and carried two or three blocks. An immense quantity of glass was broken by the hail, which fell as large as hen's eggs. The whole number of buildings more or less damaged in Williamsburgh, are not less than 100. Loss is estimated at $40,000.

The thunder gust passed over the upper part of this city on its way to Williamsburgh, doing great damage, and creating a panic among the citizens. A large building belonging to Dr. Townsend, on which 40 or 50 men were at work, was blown down, and several persons killed or injured. Three were taken from the ruins dead.

The Crystal Palace was much injured, glass being broken by the hail; the iron work was bent and goods damaged by water.

A building on the Ninth Avenue was blown down and one man killed.

At Jersey City the store of Brown & Derwent was injured and two persons prostrated.

A thunderbolt fell in a lumber yard in Williamsburg, scattering the boards in all directions. Several persons were injured by the hail stones.

During the storm, a man named Conrad Datz, was struck in this city, while walking in the Tenth Avenue, and instantly killed.

New York, July 1—Three of the men scalded by the explosion of the steamer New World died in the hospital, making five in all dead; two others, one of them, Washington Hawes, engineer, lay at the point of death.

The bakery of John Donegan in the 1st Avenue was burnt this morning. Two journeymen named John English and John Cushing, were asleep at the time, in the bakehouse.—English escaped, whilst Cushing was burnt. An aged woman named Haley leaped from the upper window, and was instantly killed.

The ship "State's Right," which sailed from Savannah on Wednesday, took out a cargo of one and a half millions of pounds of cotton.

Cumberland, Pa., 1st.—A terrific hail storm passed over this place from the west at 3 o'clock P. M., extending five miles in width. Nearly every farmer lost almost his entire harvest. Fruits suffered much. Several thousand window lights were broken here. No estimation of the damage can be made. Hail stones measuring 7 3-4 inches in circumference were picked up in our streets.

MARRIAGE.

Happiness and Competence.

WHY IS IT?

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during childhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents*, together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom
AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

READ! READ! READ!

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & *Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,*

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND,
Genoa, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,
VERNON ESKRIDGE, Chaplain U.S.N.

My son had a very severe cough, which threatened speedily to carry him off; and nothing seemed to give relief, until I tried these Lozenges, —which produced signs of relief in a few hours, and after the taking of a few boxes, wholly removed his cough. A TRAMPING PRINTER.

Among the prisoners before the Mayor this morning, says the Cincinnati Dollar Weekly, was one Washington Frank Thompson, who was found by a city officer, sleeping in an open lot. A plush cap, jean coat, and a striped pair of casinetts, completed his dress, and although much the worse for wear, had been so nicely brushed in the watch house, that he made quite a respectable appearance in the dock. He seemed impatient for his turn, and when called up, rose with dignified air and solemn demeanor.

"The watchman tells me you were intoxicated last night," said his Honor to him.

"Quite likely," he replied, "but greater men than I have been in the same condition. The whigs say Frank Pierce is a drunkard, and the locofocos always urged that 'Old Harry' took his toddy in his young days."

"That may all be true, sir, but drunkenness is punishable here. Where did you come from?"

"That's rather a tough question. I have no particular abiding place."

"What is your business?"

"A printer by profession, and a pedestrian by practice."

"Do you work at the printing business?"

"When my stomach or my pockets require it, I do. To explain, I have always had a strong desire to see the world, and although as poor in pocket as Bill Allen in flesh, I have endeavored to gratify this burning curiosity. I have tramped through twenty-three States, three territories, and the British provinces, and am now on my road to California, by way of the plains."

"But you say you are poor—how do you manage to clothe and feed yourself?"

"Easy enough. When I tramp, country people are always glad to accommodate me with meals or lodging for the news I bring them. I generally manage to replenish my wardrobe by sharp trades with verdant persons. My refreshment money I earn by the sweat of my brow, at printing offices in small towns."

"But do you not often suffer in your travels?"

"Never, unless I get into a temperance country. I own nothing—therefore have no fear of loss. Walk on turnpikes—have no fear of tolls. Am a good talker—have no fear of losing a meal. Always keep within the bounds of civilization, and am confident I can humbug somebody."

"But you get drunk; was drunk last night."

"That was purely accidental. I started from Columbus for Indianapolis, but took the wrong road, and before I was aware of the mistake found myself here. This induced me to take an extract, and the liquor you keep down here is so bad, that it destroyed my equilibrium. Miserable liquor down here—haven't been dead drunk for ten years before."

"You said you were anxious to your journey?"

"Nothing shorter, as the b'hoys say, and by your leave, will forthwith turn my face towards the father of waters, on the bosom of which Tom Benton once saw the 'yellow boys' floating up stream. Do you know that of all your statesmen, Tom's my favorite?"

"Indeed!"

"Yes—and Bill Allen stands second best with me. What does your honor say—shall I depart?"

"Why, if you'll promise—"

"Promises I never make, but if any of your vigilant watchmen catch Franklin inebriated again, punish him, that's all. I have never yet visited the interior of a prison, except in the capacity of a philanthropist, and by your leave, never will."

"From your manner, I think I can trust you. You may go."

"Much obliged. If I should turn my attention to mining, after I get to California, and I return this way, you shall have a snuff of my maiden dust. I wish you good morning, and you, (to the watchman,) I wish you promotion in the ranks.

So saying, the tramping printer left the court. At the door he inquired the shortest road to Dayton, and being told, moved off at a regular travelling pace.

SINGULAR COINCIDENCE.—A correspondent of the Placer Herald is responsible for the following:

"A marriage took place on the night of the 15th ult., at the Nevada Hotel—a lady not unkown to the California public to a gentleman from Kentucky, now a citizen of this state, he being the *fifth* upon whom she has conferred Hymencal honors, and the *third* whose heads are yet above the sod. By a strange concatenation of circumstances, her two last husbands, between whom and herself all marital duties ceased to exist by the operation of the divorce law, had put up at the Nevada House on the same evening, ignorant of the fact that their former *cara sposa* had rested under the same roof with themselves, and also that they had both, in former years, been wedded to the same lady.

Next morning they occupied seats at the breakfast table opposite the bridal party.—Their eyes met with mute, but expressive astonishment. The lady bride did not faint, but bravely informed her newly acquired lord of her singular situation, and who their guests were. Influenced by the nobleness of his nature and the happy impulses of his heart, he summoned his predecessors to his bridal chamber, and the warmest greetings and congratulations were interchanged between the four in the most unreserved and friendly manner. The two ex-lords frankly declared that they ever found in the lady an excellent and faithful companion, and that they were the authors of the difficulty which produced their separation, the cause being traceable to a too free indulgence in intoxicating drinks.

The legal lord and master declared that his affection for his bride was strengthened by the coincidence, and that his happiness was increased, if possible, by what had occurred. After a few presents or specimens from their well-filled purses, the parties separated—the two ex-husbands for the Atlantic states, with the kindest regards of the lady for the future welfare of her former husbands.

PROF. ALEX. C. BARRY'S
Tricopherous, or Medicated Compound.
FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.
It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself.—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.
Depot and manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.
Liberal discount to purchasers by the quantity. Sold by all the principal Merchants and Druggists throughout the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22*

DAILY
Morning Chronicle.
PORTSMOUTH:
WEDNESDAY, JULY 6, 1853.

FOURTH OF JULY.

The day has passed, and the occasion has closed; but the memory of it remains fresh and fragrant. While it is so, we will endeavor to give our impressions of it, with as much detail as our limits will permit.

The visit of the Sons of Portsmouth was the most prominent feature of the day. They came in goodly numbers, many with wives and children; and a few of the daughters came with the husbands whom they found abroad. The city was alive with them. The trains of Saturday morning and evening were loaded down with them, and they were present in every congregation on the Sabbath.

On Monday morning, which was cloudy and threatened rain, there was the usual Portsmouth din, of crackers, small arms, &c., beginning faintly about midnight, and gaining gradually until sunrise, when the bells and guns by authority waked up every body, (except the very few who can stand fire without winking or waking.)

The programme arranged for the day and evening, was carried out with more than ordinary fidelity, punctuality and success. The Industrial and Municipal Processions were seasonably formed and posted in their assigned positions, waiting for the arrival of the morning train from Boston, with the main body of the "Sons" from that place. On that arrival at Frenchman's Lane, they were saluted by the discharge of cannon, fired by the Rockingham Guards; and the Boston Delegation were formed into a procession by their own Marshal. They were then received by the City Government and Committee, in behalf of whom, and in the name of the City, Mayor Walker extended to them a cordial welcome, happily expressed; to which an equally happy response was made by Marshal Gookin, of the Boston delegation.

This delegation, accompanied by the Boston Brass Band, then took up the line of march with the municipal procession, for the City; and on their march, at the proper point, near the Creek Bridge, were joined by the Lowell delegation, which arrived via the Concord Railroad, just in season.

The Municipal procession, escorted by the Greys, under Capt. Towle; and the visitors, escorted by the Guards under Maj. Hill, and the Continentallers under Master Rowe; were joined in Islington Street by the Industrial Procession, from Cabot Street, which completed the Grand Procession.

The streets through which it passed, in exact accordance with the published order, were decorated with arches, evergreens, festoons of flowers, flags and banners, and crowded with spectators, as were also the houses and every other place commanding a view of the pageant.

The weather, putting off its cloudy and threatening aspect, had become a sunshine, and the little rain of the morning had refreshed and benefitted the appearance of almost every thing; and the noon peal of bells and salve of artillery closed most of the outdoor show, to the entire satisfaction, we believe, of all concerned in it, and the gratification of the spectators.

INDUSTRIAL PROCESSION.

The first car, drawn by four oxen, was that of the Shipwrights, bearing the motto, "Our work speaks for itself." On the outside of the car, arranged with symmetry, were the actual models of the following Vessels, all built by Geo. Raynes, with their names and the dates of their completion:—

Following this car were a company of ship carpenters from Mr. Raynes' yard, who were entertained by Geo. Raynes jr. and Joseph Perkins (foreman of the yard) with a collation at the ship-yard, after the procession closed.—These gentlemen, with Mr. S. G. Folsom and others, deserve much credit for their exertions in bringing out this most important feature—and it is to be regretted that this was the only yard represented.

Next came the Blacksmith's Shop, drawn by two horses, and bearing the inscription, Our forgery is no counterfeit. A forge was in operation.

The next vehicle was a boat on wheels, with oakum, pitch kettle and fire, drawn by one horse, and commanded by S. P. Wilson, Shipwright and Calker.

The Portsmouth Cordage Manufactory, drawn by four oxen, presented specimens of various kinds and sizes of ropes, and tools of the art, with a label, Portsmouth Cordage defies competition, and others.

Ship George Washington, Capt. Harratt, passed along street, propelled by a three horse power. The pilot was William Pierce. The ship was fully rigged, and was an object of much interest.

The House Carpenter's and Joiners' shop was drawn by four oxen, and contained men at work.

The House, Sign and Ornamented Painters occupied the next car, drawn by two horses.

Cabinet Work, by all our Cabinet Makers, "Luxurious, Useful and Ornamental," occupied the next Car, drawn by four horses.

The Bricklayers and Stucco Workers were in a car, drawn by four oxen, with a brick house going up on the front, and this inscription,—Our Work stands the fire. Inside, the men were plastering, and as we thought, laid on the mortar rather thick.

Stoves, Sheet Iron and Tin Ware Manufactory, on a pretty large scale, with a fire, and "the Tinmen" at work, looking quite natural: drawn by four oxen.

Chapman's Mammoth Coffee Pot, in a neat wagon, drawn by one horse.

Shoemaking was carried on with much activity in a large and comfortable shop, drawn by four oxen; the whole presenting a fine appearance.

J. Larrabee, Saddler, with handsome specimens of work, but not a large assortment.—Mr. L. regarded the beautiful decorations of many of the Marshals' horses, as a part of his display.

Charles T. Emery, Silver Ware, exposed on a conical set of shelves, in a carriage with one horse. This was as neat and attractive a feature as any in the procession.

Barouche, drawn by two grey horses, and filled to overflowing with editors, reporters, &c. containing representatives of the four papers in this City, Boston Journal, Times and Transcript, New York Herald, &c. Labels on each side, "The Quill."

This was an erratic Car, and often shot out of its place in the Industrial procession, to see what was going on elsewhere—being as often loudly cheered wherever it went.

Next came the Printers, with a small printing office, crowded as if rent was high, containing four presses; viz: an old screw press, an ancient card press, a Ruggles fast job press, Foster's card press, with men at work, and mottoes, and other small affairs for distribution. All the presses were in operation; but the telegraphic apparatus which was in the same office, did not operate, the wires getting down, as it often happens to those lines of telegraph which do not go by ox power. This was drawn by four fine oxen; the hubs and every spoke of the wheels, were covered with mottoes.

Expressmen, Jackson & Co. with two wagons, one horse each, loaded up with packages.

Thacher, Apothecary, labelled and decorated wagon, with lozenges, which were distributed *ad libitum*.

Preston, Apothecary, labelled wagon, with packages of goods.

Farmers, in a one horse wagon, with tools.

Grocers, represented by Mathes & Varrell, 48 Market street, with a large load of goods, for distribution to customers: drawn by one horse.

OUT DOOR DECORATIONS.

These were very fine. We can mention only a few. The southerly part of Market street, exactly the length of Old Paved Street, was entirely filled with uniform groined arches, thirteen in number, tastefully decorated. From the apex of each of these, depended the name of one of the original thirteen States.

There were also handsome arches, in Pleasant street, opposite the Mercantile Library Association Rooms—three arches in one; at the junction of State and Pleasant streets; at the junction of Austin and Cabot streets; three on Islington street; finely decorated arches on the South Mill Bridge; and at the junction of Deer and Vaughan streets.

The banners, flags, and tastefully decorated house fronts, were altogether too numerous for to-day; we mention two or three only of the latter, viz.: the Franklin House, the houses of Messrs. J. K. Pickering, S. R. Cleaves and I. Goodwin. The suggestions in regard to the tri-colored banners, were acted on very generally.

The following Mottoes, chiefly those on the street arches, are all we are able to give. Many of equal excellence shone on private residences.

At the entrance from Market Square.

As Cornelia, the Roman mother, exhibited to her guest the young Gracchi, just returned from school, and exultingly exclaimed, "Behold, these are my jewels," so Portsmouth proudly exults to-day in her returned sons, and says, "These are my ornaments."

Was adorned by three beautiful arches, the centre bearing on one side the motto—

"The Spirit of '76 lingers yet."

On the reverse—

"Union and Liberty."

The southern arch bore the inscription—

"The King Bird sings, Oh hear!
South End claims her share of flowers."

And the Northern—

"South end rejoices o'er her sons,
And proudly bids them welcome home."

From among the numerous beautiful decorations and appropriate mottoes on dwellings, we noted that the house of Col. Sam'l Gookin, father of the Boston Delegation's Chief Marshal, was decorated, and bore the inscription:

Early friends again united;

and the house of Mrs. Wm. Weeks, whose son was Treasurer of the Boston delegation, bore on its front, the greeting:

All hail the eventful now!

THE COLLATION.

At 9 o'clock P. M. the sons from abroad, the subscribers at home, with the military companies and four bands of musicians, to the number of twelve hundred in all, filled the tent and occupied the tables. The organization of the party was as follows:

President of the day,
HORTON D. WALKER, Mayor of Portsmouth.

Vice Presidents.

Ex-Mayor Greenleaf,	Frederick W. Fernald,
" Laighton,	Thos. J. Whittem,
" Toppan,	George Raynes.
Hon. Ichabod Goodwin,	Geo. Wallace Haven;
" Richard Jenness,	J. M. Tredick,
Wm. P. Jones Esq.,	Isaac F. Nelson,
Albert R. Hatch Esq.,	Geo. W. Towle,
James W. Emery Esq.,	Lyman D. Spalding,
Augustus Jenkins,	John Knowlton,
Col. Joshua W. Peirce,	Samuel Rowe,
Brackett Hutchings,	Edmund M. Brown,
Edward J. Laighton,	Alfred W. Haven,
W. H. Y. Hackett,	John Harratt.

On the platform were Mayor Walker, presiding, assisting by Alfred W. Haven and Albert R. Hatch, Esqs., Vice Presidents; Rev. Dr. Burroughs, Chaplain; Samuel Storer, Esq., Toast Master; Oliver March, Esq., Chairman Lowell Delegation; Hon. Wm. A. Walker, M. C., Pres. of New York Delegation; Francis E. Parker, Esq., Pres. of Boston Delegation; Wm. C. Harris, old Teacher; and Hon. Wm. Plumer, late M. C., of Epping. The other Vice Presidents above named, presided at the several tables. T. G. Senter acted as Assistant Toast Master.

On entering the tent the Boston Delegation cheered their New York brothers, and were answered by a similar cheer from the New Yorkers, who were, as their President remarked, fewer in number, but loud in thunder.

Mayor Walker welcomed the company, and Rev. Dr. Burroughs said grace. After the collation, which was soon disposed of, Alfred W. Haven, Esq. addressed the Sons from abroad, greeting them, not as stranger guests, but with outstretched arms as brethren of one family, in the exercise of one of the best feelings of our nature. As the Swiss heart responds to the music of the Rans de Vaches, so did our hearts in this city respond to the first suggestion [by B. P. Shillaber] in the Boston Post, "Let us go home,"—and we answered Come.

Francis E. Parker, Esq. of Boston, replied, that the hand thus offered, the Portsmouth Bostonians had taken. The beating of six hundred hearts which had obeyed the call, was the best evidence of their love of home. The Portsmouth boys went out one by one; they had returned an army: they went out with uncertain hearts and doubtful hopes; they had returned bearing their sheaves with them. But they went out children, and he added, most beautifully, children they had returned; they had never ceased to feel that this Rocky Shore was their home. To them old Strawberry Bank was one of the pleasantest spots the sun ever shone upon. The festival was the first of its kind: on the anniversary of the nation's birth-day this old matron gathers home her children; setting an example in this respect, that will be followed by other cities in coming years. He alluded to the reported toast of an eminent civilian, [Jeremiah Mason] "New Hampshire; an excellent state—to emigrate from!"—and said it was so, in that its emigrants were supposed to have character and strength if they came thence; but he added, it is also a good place to come back to.

The toasts were then read from the platform, and loudly repeated from the centre in the clear tones of the assistant toast-master.

TOASTS.

1—*The President of the United States*—A Son of the Granite State, and a former resident of Portsmouth.

Music—"President's March."

Mr. Hatch responded (by request) to this toast: it used to be said of barren Africa, that she was the dry nurse of lions—but of New Hampshire it may be said she is the fruitful mother of men. She sends out her sons to other States because she cannot keep them at home—but in so doing she often furnishes them with their rulers,—and as in the case of Webster and Pierce, brings them to Portsmouth for education before she lets them go. He closed by speaking of Pres. Pierce's warm attachment to this city, and regard for its citizens.

2—*The day we celebrate*—Its annual return has ever found the nation to which it gave birth, increasing in power, improving in the arts and sciences which constitute a great an enlightened people, and cherishing more dearly the blessings of a free government.

"Hail Columbia."

3—*The Army and Navy of the United States*—Their laurels have been nobly won.

"Hull's Victory,"

This sentiment was pertinently answered in few words, by Maj. Austine of the army, who concluded with the following sentiment:

Daughters of Portsmouth—May health and happiness attend them at home and abroad.

4—*Our visitors, the Sons of Portsmouth*—While they gladly recognize their parentage, we as gladly recognize their worth.

"Auld Lang Syne."

James T. Fields, in responding to this toast, spoke of Portsmouth as the wanderers' ample harbor, the pilgrims's welcome home. He had feared, when the visit was first spoken of, that our old mother town might be in regard to her numerous children, like another old matron, who lived in a shoe: there were so many of them, she did not know what to do: but now the thing was tried, the shoe did not pinch any where. After a few remarks of a general nature, he expressed his sentiments in some beautiful poetic lines, which we hope hereafter to see in print, but of which we attempt no report.

5—*The City of Boston*—Adorned in her literature, science, art and commerce by many who have gone from us.

"Boston Grand March."

Rev. Thos. Starr King responded to this toast in a speech of some length, remarkable in some parts for boyish simplicity and naturalness, and in others for sublimity and beauty. He began with the idea of the Chinese Geographers, who place China in the centre of their map, and all other kingdoms as mere specks round the edges,—and was moved to make Portsmouth his centre in like manner. And he closed with this sentiment, The germ and the principle of pure patriotism—the filial love of our mother town.

6—*The City of New York*—The great metropolis of our country in which we all have a common interest; we gain in the common honor what we individually lose by contributing our quota of high principled and intelligent men to add to her greatness.

"Manhattan Quick Step."

Hon. Wm. A. Walker of New York, spoke in reply, of the instinctive self-government of the Anglo-Saxon race, and after some historic references, gave as a sentiment, the Memory of Wm. Chadbourn, who built the Great House at Strawberry Bank.

7—*Woman*—The virtues of the son are but the reflection of he noble qualities of the mother.

"Home, Sweet Home."

Mr. Gookin replied in an appropriate, amusing and humorous speech, filled with personal and local hits—hitting finally on Mrs. Partington's genius, and intimating that all men (?) of genius are lazy.

This raised a call for B. P. Shillaber, Mrs. P's amanuensis, who said he did not exactly know what he should say, but he felt exercised to say *something*, and therefore must say it: it might be a song, or a sermon—probably the former,—and so it turned out. (See the poem in another column.)

8—*The heroes of the Revolution, natives of New Hampshire.*—The names of Stark, Sullivan, Scammell and their compatriots will never fade from our memories; nor shall we forget how nobly our heroes in the late war with Great Britain and in the war with Mexico maintained the rights and the glory which their fathers won.

"Rest Warrior, Rest."

The appropriate response was from Alfred Gilman Esq. of Lowell.

9—*The memory of John Langdon, and the patriots of the Revolutionary War*—Who made the first seizure of the enemy's military stores; namely, at Fort William and Mary at the mouth of the Piscataqua.

"Liberty for me."

10—*The State of New Hampshire*—The Sparta of America—while her sons have extended her fame through all lands, her women have never seen the smoke of our enemy's camp fires.

"Old Granite State."

After this toast, a letter was read from John McClintock, Esq. of this city, 93 years of age, and a compatriot of the revolutionary war. Chs. L. Woodbury also made some patriotic remarks.

At this point of time a telegraphic message was received from Mayor Seaver in Faneuil Hall, with the toast—

Boston and Portsmouth—The electric chain of communication which now unites them, is but a type of the living sympathy which bound them together in the days which tried men's souls.'

This sentiment was received with great enthusiasm. Mayor Walker sent the following reply to Faneuil Hall—

We are proud of that part of Boston which belongs to Portsmouth.

The Sons also responded:

The City of Boston—The nurse of Freedom—when we forget *her* may our right hands forget their cunning.

A sentiment came in from the Hon. Ichabod Bartlett:

The Sons of Portsmouth resident abroad who are present on this occasion: Old Portsmouth may now, like the mother of the Gracchi, point to them and exclaim, these are my jewels.

11—*Mason, Woodbury, Webster*—Statesmen and Jurists whose names are known in every civilized land—they first obtained fame and reputation in our city.

Dirge.

Samuel A. Badger, Esq., of New York, responded, and gave as a sentiment—

The President of the U. S.—A son of New Hampshire.

12—*The Union of these United States*—As well as on written Constitutions, we rely on the Railroad and the Telegraph to preserve it.

"Star Spangled Banner."

Matthew Hale Smith, Esq., was called for and replied in a neat and patriotic speech.

13—*Our United States*—however bounded; our Brothers wherever scattered—for us, "one country, one constitution, one destiny."

"Yankee Doodle."

Charles L. Frost responded in a speech full of feeling.

In spite of the lateness of the hour, and the departure of a large part of the distant listeners, the hundreds that remained called up Ichabod Goodwin, Esq. who spoke a few minutes to good purpose.

At the close of his remarks, by request of the Mayor, Rev. Dr. Peabody pronounced the benediction, at about half past 7 o'clock, and the assembly had all left the tent at a quarter before 8—after which time the floor was cleared for the promenade concert.

THE PROMENADE CONCERT.

About 9 o'clock in the evening the tent was filled with a brilliant company, which diminished but little till the concert was finished at 11—reinforcements constantly taking the place of the earlier comers, who retired. This was one of the most pleasant and beautiful features of the celebration. The cheerful company, the gas lights, the grateful music of Bond's Band and that of the New York Band, the novelty of the thing—all tended to render this a most fitting wind-up to a happy festival.—Dancing was kept up with good spirit for the last hour before breaking up.

There was a brilliant and successful display of fire-works, from 9 to 10 o'clock in the evening, on Market square.

THE MUSIC

On the 4th was supplied by the following Bands:—The Band from the U. S. receiving ship North Carolina, which accompanied the New Yorkers; Bond's Boston Cornet Band, which came with the Boston Boys; the Saco Brass Band, procured by the City for the Industrial Procession; and the East Boston Brass Band, also hired by the City to lead off the entire procession. The latter band numbers among its members three or four Portsmouth boys. Every body knows we had good music and a plenty of it.

Serenade.—In the evening, after all other exercises were closed, the Boston Brass Band, under the direction of some of the Boston Committee, serenaded several of our citizens with their excellent music. Before the house of the late Dea. John W. Foster, a dirge was played, as a token of respect to the former Sabbath School teacher of many of the visitors.

ACCIDENTS ON THE FOURTH.

Wm. Nutter had his arm severely injured by the explosion of a gun on board of the ship in the Industrial Procession in this city.

A young man at Christian Shore, was somewhat injured by the bursting of a gun.

A horse in a team from South Berwick, was frightened by the noise of crackers in Russel street, causing him to rear and kick; his foot struck a boy and broke his leg. A lady was also throws from the carriage and somewhat injured.

A boy aged ten years, son of Mr. Timothy Hilliard, at South Berwick, had the thumb and fore-finger of his hand blown off by the bursting of a pistol. It was feared the hand must be amputated.

☞ We understood Madame Anna Bishop intends visiting Portsmouth professionally, about the 20th inst.

☞ During the session of the General Court, which closed on Saturday, 40 public and 27 private acts, 42 resolutions and 1 address were passed. The N. H. B. P. SHILLABER'S POEM,

Read at the Portsmouth City Dinner, July 4th.

A phalanx strong and true we come
To meet amid the scenes of home—
Again to mingle heart and heart,
As in life's early morning-start,
When, with stout nerve and earnest soul,
We parted for the distant goal.
And we have wandered wide and far,
Led onward by Hope's guiding star;
Through ways diversely wide we've passed,
With varied fortunes on us cast;
Felt much of good and much of ill
From Fate's o'erbending skies distil;
But, though afar, we've ne'er forgot
Each olden well-beloved spot,
And every hill and rock and stream
Has been recalled in many a dream,
And life's pursuits, of high or low,
Have paled no beam of filial glow,
That with renewing ray has burned
As oft the heart has homeward turned.

Fancy unchecked has roamed at will,
And led our steps to *Breakfast Hill;*
We've felt the breezes round us blow,
As on May mornings long ago,
When, left our beds for phantom flowers
In early dawn's ungenial hours,
In aching hands and glowing noses
Has merged our hope of vernal roses!

Once more we've roamed from *Seven-Pine Rock,*
In dreamy shoes, to *Puddle Dock,*
And bathed again beneath the waves
That ceaseless lave the *Point of Graves,*
Where, in eternal slumbers deep,
The "fathers of the hamlet sleep."

We've walked once more in memory o'er
That sacred precinct *Christian Shore,*
And heard the hum of *Walker's Mill,*
And stood enrapt on *Dennett's Hill,*
Where the big fish perpetual glides
On steady fin through airy tides,
And saw that pond beneath us rest,
Upon whose placid stormless breast,—
(In days full well remembered yet,)
Our little sails in pride we set,
Nor deemed that in the world's wide round
A fairer sea could e'er be found,
Or mightier gales than those which bore
Our shallow ships from shore to shore!
Beyond its clear and glossy side
Rock Pasture rests in pristine pride.
In memory only is it seen—
In memory may it still be green,
As when, in days of ancient peace,
Old Mr. Mifflin reared his geese,
And *Sherburne's Wharf,* a spot revered,
In willowy garniture appeared,
And *Cellar old* and *Great Rock* gray
Saw rudimental men at play,—
For innovation's iron hand
Has marred the features of the land,
And the Rock Pasture now we are shown
Is not the one we erst have known!
Though other streams more wide may be
Of import more and majesty,
Yet none from *one* can e'er bespeak
A warmer love than *Walker's Creek.*

And thou, remembered *Sagamore!*
Some fairy pencil traced thy shore,
With most artistic beauties rife,
Ere sturdy Nature gave it life!
The woods that skirt thy verdant side
Bow over thee in love and pride,
And lay their shadows there to rest
Upon the pillows of thy breast;
No sounds of harsh discordance press
To mar thy blessed peacefulness;
The old pines murmur whisperingly
As if in earnest praise of thee;
And troops of brilliant loving birds
Sing their delight in joyous words,
Responsive to thine own sweet speech
That breaks in music on thy beach.
Among thy haunts again we've played,
Again along thy shore we've strayed,
And bowed like pilgrims at a shrine
Before thy beauties so divine!
Again our foreheads warm and glowing
Have felt thy crystal coolness flowing
And love has strengthened in the beam
Reflected from thy shore and stream.

And oft-remembered *Frenchman's Lane*
Comes up before the mind again,
With brooding shadows dark and dread,
From elms enlacing overhead;
And on a broad flat stone we read
The trace of that perfidious deed,
Where on this spot, long long ago,
The Frenchman met his mortal woe.
Dread spot! where boys scarce dared to roam
Beyond the evening's early gloom,
For fear lest they might happily meet
The Frenchman in his winding sheet.
Oh, glorious myth! that urchins scares,
And saves to Ham his sugar pears!

And sense and soul must all be dead
When we forget the *Fountain Head,*
That shrine to which our footsteps strayed,
For rest and solace in its shade,
When parched beneath the summer heat
We've coveted its treasures sweet,
And dipped our pails within the pool
Where bubbled up the waters cool,
In ceaseless never-tiring flow,
And icy stillness from below,
The while the fife-bird poured his song
Upon the slumbering air along,
Till, taking captive boyhood's ear,
It bowed in still delight to hear!
Full many a name on that old shrine
Was written in the days long syne—
Few scarcely dreaming *deeper* fame
Than that which registered their name!

And memories, like railway trains,
Comes freighted, full, of *Portsmouth Plains*—
That greater field, in boyhood's view,
Than New Orleans or Waterloo!
With mighty deeds of arms 'tis rife,
And rattling drum and squealing fife,
And Berry's buns, and weary legs,
And apple juice, and hard boiled eggs!
Again hear how the music rings,
Where Myers thumbs the catgut strings,
Where, answering to the sounding fiddle,
'Tis "down outside and up the middle,"
And waves of flaming calico
In mighty surges come and go!
Again we see the grand display
Of many a famed "green leaf hunting day,"
When soldiers brave in fixings fair,
(And some by far the worse for wear)
Meet there in warlike trim to wait
And show themselves and serve the state—
The glory and the crowning pride
Of boys and men who stand outside!

Spring Market!—how affection clugs
To thee, best of remembered things!
Delightful 'twas in days of old,
Thy mighty commerce to behold,—
Where, spread around thy circuit wide,
Was seen the fertile country's pride,
That Naiads ere the morning's gleam
Had ferried down the rapid stream.
And vivid thoughts arise of her,
The awful ancient *Mariner.*
Before whose stern and chilling frown
All predatory schemes went down;
With whom the fruit-vested pence
Was sole atonement for offence.
There, trickling out from 'neath the hill
Runs merrily that ceaseless rill,
That never from its fulness shrank
Though myriads from its bounty drank,
And wastes itself in coy flow
Upon the "flagrant" beach below.
How often has that iron bowl
Been blissful to his thirsty soul,
Who, bending double for the prize,
Has crushed his beaver o'er his eyes,
But compensated for his pain
By tasting of its sweets again.
Grey, honored, warm Venitian pile
Which modern Goths have dared despoil!
Though stateler fabrics rear their forms
Upon thy site, my spirit warms
As it thy glories doth restore,
The pride of swift Piscataqua's shore.
Piscataqua! that mighty tide,
With all our youthful thoughts allied,
Yet rools its eddying waves along,
Untiring, ceaseless, free and strong,
As when with pole and hook and string
We fished for pollock by the "Spring."

In endless task it is to trace
Each olden, well-remembered place,
Or give our heart emotions tone—
The *heart* must treasure them alone.
There are they evermore portrayed
The pictures that in youth were made:
The church, the school, the wood, the stream,
All, all return in memory's dream,
And friends and old delights we knew
Still live in retrospection's view.

And olden *feeling* is restored—
The pleasure beaming round the board
Reveals, in colors strong and clear,
The Spirit of THE PAST is here!
No figment of the brain alone,
But flesh and blood and nerve and bone.
The hands we clasp are *real* things;
That smile no ghostly radiance flings;
Those eyes are lit by friendship's beam,
That fades not out as fades a dream;
There hearts with living pulses beat;
There tongues with living tones are sweet;
Those waves of blue that yonder flow
Have naught etherial in their glow;
The bright forms glancing by our side
Are objects of terrestrial pride,
Although, adoringly, were given
To deem them less of earth than heaven.

Then give to love the sovereign power;
Let its blest influence rule the hour;
And, waked anew, may it impart
A warmer sunshine to the heart,
That shall, as once again we roam,
Relume the path that leads to HOME!

NEW YORK.

EDWARD LAMBERT & CO.,

51 *Broadway, (opposite U. S. bonded warehouse)*

IMPORTERS AND JOBBERS OF
Rich Silks, Paris Dress Goods, Shawls, Gloves, Embroideries, White Goods, Ribbons, &c., invite the attention of Merchants from all sections to their unrivalled assortment of

Silk and Fancy Dry Goods,

Imported with special reference to the wants of first class buyers, and in three important particulars, viz.: TASTE, VARIETY AND PRICE, believed to be unequalled.

Messrs. E. L. & Co., having been engaged in this business for many years in Philadelphia, where the taste is not unlike, in many respects, to that of the Northern and Eastern States, they would call particular attention to their style, many of which are controlled entirely by them.

It having been remarked that our business is almost exclusively Southern, we would beg leave to say that our goods are adapted to every section of the United States, *Northern, Southern, Eastern and Western,* and that in style and price they will be found equal to any other House.

On and after Dec. 1st next, we shall occupy our New Marble Warehouse, now being erected, No. 55 CHAMBERS ST., 4 doors from Broadway, directly opposite the Park.

MARRIAGE.

Happiness and Competence.

WHY IS IT!

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which she could spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her child the blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S
Private Medical Companion.

BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.

One Hundred Edition. 18mo., pp. 250. Price 50 Cents.
[ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriage, and no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been SENT BY MAIL within the last few months.

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Buy no book unless "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y." is on the title page, and the entry in the Clerk's Office on the back of the title-page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents,* together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

When Knowledge is Happiness, 'tis culpable to be Ignorant.

☞ On receipt of One Dollar (for the fine Edition, extra binding,) "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION" is sent (*sealed free*) to any part of the United States. All letters must be post-paid, and addressed to Dr. A. M. MAURICEAU, Box 1224, New York City. Publishing Office, No. 129 Liberty Street, New York.

THE ATHEIST AMONG THE ALPS.—A traveller among the scenery of the Alps, surrounded by the sublimest demonstrations of God's power, had the hardihood to write against his name in an album kept for visitors, "an atheist." Another, who followed, shocked and indignant at the inscription, wrote beneath it "If an atheist, a fool; if not, a liar!"

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing
DISSOLVENT POWER,
By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom
AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

READ! READ! READ!

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 28, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Duncan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.
JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND,
Genoa, Sardinia, January 17, 1852.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,
VERNON ESKRIDGE, Chaplain U.S.N.

INTERESTING FACTS

are constantly coming to light, from different parts of the country, showing the astonishing effects of the fair and faithful use of these Lozenges.

HERE IS ONE LETTER,

from a citizen of Portsmouth—and but a sample of hundreds:

PORTSMOUTH, N. H., May, 1853.

This is to certify that I consider Devines' Compound Pitch Lozenges a valuable article for what they are designed—the best remedy before the public. My son had a very severe cough, which threatened speedily to carry him off; and nothing seemed to give relief, until I tried these Lozenges,—which produced signs of relief in a few hours, and after the taking of a few boxes, wholly removed his cough. IMPORTANT FROM CHINA.

By the steamship Africa, the New York Commercial has received a copy of a private telegraphic despatch received in London from Trieste, by one of the first mercantile firms in the British metropolis, containing information that the insurgents after capturing Nankin on the 6th of April they were defeated in an engagement with the Imperial troops, about 30 miles south of the city. There was a report also that Shanghae had been abandoned.

The New York express states that the house of Messrs. James Walter & Co., of Front street, tea importers, have received a telegraphic despatch from Trieste, which reports that a state of extreme consternation prevailed throughout the whole north of China, that all business at the ports and at Canton was at a stand still. The slaughter in small engagements was large, and no produde of any kind coming down, the canal communications being closed.

The Express adds, that in confirmation of these accounts received by Messrs. Walter, it is reported that all teas were withdrawn from London market on the day of steamer Africa's sailing. One other house in New York, besides Messrs. Walter, has received similar news.

The tea dealers in Boston have received instructions from their correspondents at New York, not to sell teas, but to wait for higher prices. The price of green teas has advanced 30 per cent., and blacks 15 per cent., and there is every prospect of a further advance. Teas and silks must maintain high prices until the troubles of China are definitely settled.

NEW YORK LEGISLATURE.—The Albany Argus says:

One of the most exciting scenes which ever occurred in the Assembly, took place on Thursday afternoon. The question before the House has the endorsement of the inaugural of President Pierce, proposed by the Hon. D. B. Taylor of New York, at the opening of the regular session—the "dodge" proposed by Mr. Gale of New York, endorsing the inaugural with Gov. Marcy annexed, and Mr. Holley's proposed reaffirmance of the Buffalo platform, being the pending amendments.

The Argus states further that the previous question was applied, which cut off all amendments, and that consequently a stampede of members took place, 28 Democrats (including the Speaker) and 15 Whigs quitting the hall, leaving but 69 members present—a bare quorum. The speaker was among the first of the "fugitives," leaving the chair in possession of a whig. The resolves passed—46 to 23. Four Whigs voted in the affirmative. The Argus concludes by calling the attention of the Democracy of the Union to "this significant illustration of what is called the 'united and and harmonious Democracy of New York'—they will be able to determine who among us stand on the Baltimore, and who on the Buffalo platform."

Governor Trias, of Chihuahua, and Col. Miles, U. S. A., commanding fort Fillmore, recently indulged in a fandango for fourteen hours. Good! This was better than fighting about the Mesilla question. When that professorship of dancing is established in the naval school at Annapolis, our naval officers will be able to dance off those little international affairs, which are so apt to trouble government.—*Boston Chronicle.*

A man was drowned near New Albany, Indiana, on Sunday last. The Coroner's Jury brought in a verdict that he fell from Behrrell's mill, while intoxicated, and that *"he got the liquor at George Keiser's.*

STEAMER OCEAN AFLOAT.—The steamer Ocean, after lying on the rocks off Cape Ann for three days, was finally got off on Friday evening at seven o'clock, and was towed into Boston on Saturday by steamers Boston and Rescue. She did not receive so much injury as might have been expected from the critical position in which she was placed. Her bottom is badly stove, but otherwise she has received no great damage. She will be taken immediately upon the Dry Dock at East Boston, where she will be thoroughly repaired and be ready to resume her station in August.

Mr. Ingersoll, the U. S. Minister to Great Britain, was recently present at a dinner in London, at which Mrs. Stowe, authoress of Uncle Tom's Cabin, was toasted and applauded. The Washington Union seems to feel greatly shocked that Mr. Ingersoll did not either leave the table instantly after such an indignity, or openly and eloquently resent it! What dignified representatives our country would have at foreign courts, if they were only to act upon the hints of the organ!—*Louisville Journal.*

PHYSICIANS ABROAD.—Perhaps a larger number of American physicians were never before in Europe, than at the present time.—nearly every school and city in the Union is represented, and there is a flood of American students distributed through the schools of London, Edinburgh, Dublin, Paris, Berlin, Vienna, and other celebrated cities. There is something at each place worth seeing.—*Medical Journal.*

TOO FAST.—The report that S. S. Moulton had been appointed Mail Agent on the Boston & Maine Railroad, which was current when the Enquirer was issued last week, we have since learned was unfounded. No such appointment has yet been made.—*Dover Enquirer.*

The Home Journal styles the rioters who were knocked from the pulpit by Father Gavazzi, "vigorous droppings of the sanctuary."

AN UGLY CUSTOMER.—A grizzly bear was killed recently on the South Fork of the American river, California, which weighed nine hundred pounds.

WANTED,

At the Vegetable Medicine Store,

No. 18 Pleasant St.,

PROF. ALEX. C. BARRY'S

Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself.—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot and manufactory, No. 187 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity, and by the principal Merchants and Druggists throughout the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22

PORTSMOUTH:
THURSDAY, JULY 7, 1853.

DANCING IN THE NAVY.

Dancing is better than fighting; at least we thought so. The Philadelphia Bulletin has taken up the same thought, and expanded it into a good article, which we adopt with a few variations.

The United States government has found leisure, in spite of the troubles with Mexico, the expected troubles with Spain, the appointments to office, the dressing of diplomats, and the affairs of the nation generally, to turn its attention to the fine arts. The rumor goes forth that the navy department designs to erect a professorship of dancing in the Naval Academy, as a proficiency in the accomplishment is deemed essential to secure the respect of foreign nations, and to enable our naval officers to cut a genteel figure abroad. It is surprising that the matter should not have been thought of before, for a subject of such immense moment ought not to have been overlooked by former administrations, by the fathers of the republic,or the framers of the constitution themselves. They never conceived of the immense importance in international affairs, of a "light, fantastic toe," they were "old fogies," and it is reserved for the present new generation to raise the art of dancing to its proper consequences as a means of maintaining the national dignity.

So, hereafter, we shall have our midshipmen trained to a perfect knowledge of all the mysteries of the Terpsichorean art. Skill in dancing will be classed with proficiency in navigation and gunnery, and the graduates will take rank in the service as much from their agility in the polka as from their knowledge of mathematics. Every student will have to learn how to navigate through a quadrille as well as through a shoal, and must study the manouvres of the feet, as well as of a fleet. To render the dancing branch of the service complete, a corps of midshipwomen will have to be organized, so that the gallant officers may not want partners at sea; and thus the advocates of woman's rights may make a step further, and finally women may obtain supremacy on the sea as well as on land—a position for which there is a precedent in the fact that Britannia who "rules the waves," is a woman; and also that a woman now rules Britannia, commissions Admirals, and orders her ships all round the globe. Then may the progressive spirits of the age begin to look forward to a navy list of female officers—commodores in petticoats, lieutenants in flounces, and midshipwomen in ribbons and pantalets. For as women make the best dancers, they will speedily rise above men in the navy.

We imagine that this governmental sanction of the art of dancing, will speedily overcome all prejudices against it, that general assemblies and other religious bodies may have created. No man, however scrupulous he may be, can expect to rise in the navy, unless he is expert in cutting the pigeon wing, or a good partner in the waltz. We shall have to judge too,of our heroes' characters as much by their gallantry in a ball-room engagement as by their bravery in a cannon-ball engagement.—Our future conquerors of Cuba, Japan, China, and the rest of the world, must attest their bravery by their lightness of foot, and on our future naval monuments we must write something like this:

"Sacred to the memory of *Commodore Jonathan Lightfoot, the Conqueror of Japan*, who fell while *dancing gallantly* in his country's service at the battle of Nangasaki."

☞ The Newburyport Herald says, the conductor of the 6 o'clock, P. M. train from Boston, on the Eastern Railroad, Mr. Geo. H. Lord, of Newburyport, was brutally assaulted and beaten by about a dozen Irishmen, on Monday, one or two of whom refused to pay their fares. Three of the ringleaders were arrested when the train reached West Lynn.—An immense number of passengers were carried over the Eastern road on Monday, and it speaks well for the care of the conductors, that none were injured, not even those who were intoxicated, of whom there was not a small number, especially upon the Fireworks train, which were crowded like a bee hive.

We see that Albert C. Greenleaf, son of the late Abner Greenleaf, of Portsmouth, has been appointed to the chief clerkship in the Navy Agency at Washington.—*Manchester American.*

We protest against making our old friend Greenleaf into a *kate* man at all. He is alive and apparently well; and bids fair to live many years. An early riser; industrious; careful, temperate, now and ever—may he live a thousand years and his shadow never be less. By the way his son's name is Albert only, without the C.

The Tribune gravely professes to recognize the whig party upon the basis of the Maine liquor law! This is a "suggestive" joke.

LOCAL.

☞ To each new subscriber who pays for the Daily in advance for a year commencing August 1st, 1853—we will supply the paper without charge to that date.

THE CELEBRATION—CONTINUED.

DECORATIONS AND MOTTOES.

In addition to the list of these given on Wednesday, we glean the following, partly from the Boston Journal report, corrected, and partly from our own observation.

ISLINGTON STREET.

Rufus K. Oxford, nearly opposite Frenchman's lane, had the front of his premises handsomely decorated.

William Plaisted, No. 69, had a couple of tri-colored flags suspended across the street, neatly trimmed, bearing the inscription—
"Welcome—All Welcome Home."

And. H. Jones, No. 59, gate decorated with flags, evergreens, &c.

Mr. Waddell, No. 70, had the front of his residence neatly fitted up.

Thomas Martin, No. 49, displayed a beautiful Gothic arch reaching across the street, handsomely decked with evergreens, festoons and flowers, and pendant from the centre a fine basket of various flowers.

[Mottoes already printed.]

Hon. Ichabod Goodwin, No. 34, formerly of North Berwick, had erected across the street in front of his residence a very fine arch, handsomely trimmed with evergreens, wreaths of flowers, &c. It bore the inscription—
"The Adopted Welcome You."

Opposite his residence on a beautiful green plot, this gentleman had constructed a convenient platform for the benefit of spectators assembled to witness the procession as it passed. The whole affair was highly creditable to his liberality and good taste.

Mrs. Halliburton's house front was neatly dressed, and ornamented in the centre with a fine old portrait.

Capt. Lewis Barnes displayed the inscription—
"Welcome to the Sons of old Strawberry Bank! Welcome to its former residents! Welcome to all! Sons of Portsmouth! Be ever prompt in Virtue's Cause; be strong for God, your country, and yourselves."

Charles W. Brewster, Esq., editor of the Journal, displayed an American flag, gathered in the centre, under which the words—
"United as these glorious stripes, we give our ☞ ☜!"

John Knowlton, Esq., No. 10, had his doorway finely trimmed with folds of blue and white cambric, and displayed the inscription—
"Our Sons—We Welcome you on this Joyful Occasion."

Joseph M. Edmonds, Esq., No. 9, residence decorated in very good taste.

Mrs. Thompson, No. 2, gateway tastefully arranged with arches of evergreens and flowers.

CABOT STREET.

The Arch, already described, formed a most beautiful sight. It cost about one hundred dollars, and was erected by subscription among the patriotic residents of the neighborhood. It was designed by Reed V. Rand.

CONGRESS STREET.

The Franklin House was decked with flags pending from each window.

The Messenger office exhibited the motto—
"Young, but precocious—welcome! boys, welcome!"

PLEASANT STREET.

At the junction of Pleasant and State streets, was a splendid double arch,springing from the four corners of the two streets, the whole trimmed with evergreens, flowers and small flags, while the stars and stripes waved proudly from the top, and on the one side the cross of St. George, and on the other the Hungarian tri-color. This pleasing affair was erected by H. F. Wendell, E. A. Moulton, and J. H. Thacher.

Mr. John K. Pickering, No. 36, had his house most beautifully dressed with American flags in folds and festoons. On a fine shield, bordered with oak leaves, was a pair of hands clasped, encircling which were the words—
"Boston, New York, Portsmouth—Wherever we may roam, there is no place like home."

Jacob Wendell displayed a miniature ship, made by an absent "son," under which the words—
"Welcome the present and remember the absent."

At the corner of Gates street a handsome decoration by sons of A. F. Nowell.

Mr. James F. Shores,No. 46, exhibited the motto—
"A proud day for the 'Old Folks at Home'."

Abraham Wendell, at No. 47, displayed a bronzed eagle, holding in his talons an American flag.

DEER STREET.

Peter Jenness, and Mrs. Pray exhibited handsome decorations at their respective residences.

VAUGHAN STREET.

At the junction of this street with Deer street a noble arch spanned the road. It was finely decorated, and was designed by T. P. Moses, who, with John S. Harvey, secured subscriptions in the neighborhood to defray the cost of its erection.

Robert Gray, at No. 20, had his gateway handsomely trimmed.

WATER STREET.

Mrs. Shaw, at No. 55, had her gateway elegantly and appropriately decorated.

STATE STREET.

J. Wesley Moses, Mrs. Ellen Hurd, Mrs. Wm. Weeks, and Frederick Dodge, had their residences decorated in good taste.

James F. Shores, Jr., presented the motto, "A Hundred Thousand Welcomes! I could weep and I could laugh—in light and heavy welcome."

At the corner of Middle street, Samuel R. Cleaves, at "Glen Cottage," decorated his house and grounds in fine taste. Along the sidewalk, and attached to the shade trees which line it, were eight unique flags, on which was inscribed the simple word,
"Welcome."

His dwelling was also beautifully hung with evergreens and flowers.

COURT STREET.

George Melcher, at No. 2, had his dwelling fitted up with much taste with evergreens and flags, and displayed the greeting,
"Home again—home again,
We joy to greet thee here."

Opposite the Court House, F. W. Fernald had his portico decorated with flags, festoons of evergreens, wreaths of flowers, &c., arranged with great taste.

The office of the Gazette was appropriately decked, and displayed a handsomely trimmed American flag, with the inscription—
"N. H. Gazette—established 1756, by Daniel Fowle."

ELM STREET.

An arch extended across the street, trimmed, and surmounted by a Wild Cat: [not a politician bearing that name, but a veritable panther's skin,with claws extended.] Mr. Raynes erected the arch, which was a novel display.

DENNETT STREET.

A fine arch was raised at the residence of Solomon Seymour.

FANTASTICS—ODDS & ENDS.

We didn't mentson these *outre* features of the celebration, in the Chronicle of Wednesday; but we now copy a faithful portrait of them from the Messenger:

The parade of Fantastics between six and seven o'clock was a happy burlesque of a militia training. The pompous reviewing officers attended in a carriage, and as is generally the case, attracted a large share of public curiosity. Following it was a party from the country, whose steed exceeded not the speed the law allows, although "moral suasion," in the shape of two ears of corn fastened two inches in front of his nose, was evidently to the beast a great incentive to exertion. Close following as a natural accompaniment to a "training," was a band of sable minstrels, whose performances, which created much merriment, concluded with the Camptown races, in which they distanced all competitors. There was in this exhibition nothing to offend the strictest delicacy, which has not always been the case in these exhibitions in other places.

The boys made a laughable exhibition as "Odds and Ends," in which Mrs. Partington and Ike, Lucy Long and her baby, were conspicuous features. They were about most of the forenoon, and their grotesque appearance elicited great merriment.

THE MARSHALS.

We give below a list of the Marshals of the Procession on the 4th:

A. J. Beck, Chief Marshal of Civic Procession—his Aids and Assistants being John H. Jackson,Charles W. Martin,Robert Lefavour, Wm. H. Sise, Geo. L. Treadwell, H. F. Wendell, B. B. Swasey, and Jas. W. Lefavour.

Thos. Norton, Chief Marshal of Industrial Procession—having as Aids and Assistants, Jos. D. Akerman, A. Q. Wendell, Frank W. Miller, C. C. Jackson, James M. Locke, B. M. Parker, and Augustus W. Simpson. Joseph Perkins led the Ship Carpenters, with Geo. Raynes, jr. and Assistants.

The New York Delegation was led by Marshal Archibald A. Peterson.

The Boston Delegation was led by Samuel H. Gookin, Chief Marshal.

☞ In speaking of the serenade by Bond's Cornet Band, on the night of the 4th inst., we should have stated that the New York Band, under direction of the New York visitors, also serenaded a number of our citizens; among them Mayor Walker, and ex-mayor Toppan. They discoursed exquisite music.

WELCOME TO THE WANDERERS.

Written for Portsmouth celebration July 4, 1853, and printed in the travelling printing office for distribution, as the Industrial Procession moved through the city.

Brothers, from life's cares retreating,
Gathering here in joyous meeting,
Listen to our cordial greeting,
Borne upon the breeze along!
Welcome! is the salutation,
Welcome! wakes our acclamation,
Welcome! is the glad ovation,
Poured in strains of joyous song.

Come, from life's encounter turning,
Come where home's bright flame is burning,
Come where loving hearts are yearning
All their wealth for you to shed;
Come, the wasted years redeeming,
Where fond memory's light is streaming,
Realize your ardent dreaming,
Of the days and joys long fled.

Though those scenes ye've long forsaken—
Paths diverse from ours have taken—
Still, adhering and unshaken,
Love has traced your wanderings wide,
Ever in its strength unbroken,
And your names, wherever spoken,
Joined with many an honored token,
Feelings waked of joy and pride.

Time his traces has imparted
To the young and buoyant hearted
Who from us in spring-time parted,
And *our* brows his blossoms mark;
But, though fate our course shall sever,
We'll abate remembrance never,
Still enduring on forever
Love's bright ray shall ne'er grow dark.

Welcome, then, with joyous greeting,
Let glad honors crown our meeting,
Crowding present moments, fleeting,
With the Spirit of the Past;
All forgot be care and sorrow,
Let us not one arrow borrow
From the dark quiver of to-morrow,
At our happiness to cast.

WHITE MOUNTAIN NIGHTINGALES.

These Vocalists, four in number, give their first Concert in this city, at the Cameneum, this evening. Their programme is a good one; and the celebrated Ossian E. Dodge pronounces their singing to be excellent. He described them two years ago, as singers of remarkable promise, and predicted their success, which they seem to have deserved and received. For particulars see bills.

From the testimony taken before the coroner's jury in the case of the Montreal riots it is pretty conclusively proved that the order to fire was given by the Mayor of the city. The bugler who was in close attendance upon Lieut. Col. Hogarth, the commanding officer, positively swears to this point.

DOCTOR ALFRED G. HALL,
AUTHOR of the NEW Theory of cure by the NUTRITIVE PRINCIPLE, in Physiology and Medicine, sustaining the laws of life and removing the cause of disease, confirmed as a NATURAL SCIENCE by the Nutritive Process; expelling dead and depositing living matter at the same time in the Body, increasing its weight and strength while under treatment, being the great discovery of the constitutional power resisting desease; ample proof can be given in the person of any invalid.

Three months' attention and treatment is requisite in all cases, with printed instructions, for diet and washing, and the use of the Alkaline Girdle for the spine and kidneys—a restorative action is produced in all parts of the system immediately by the natural laws sustained by nutrition.
He is the inventor and sole proprietor of 12 nutritive fluids; they can be made by any family—are adapted to the several temperaments, and to every form of disease. His works, "Views of the New Theory, &c.," "Womanhood," and the "Mother's Own Book," are furnished to invalids under his supervision. It is now before Congress.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

☞ We learn by a telegraphic despatch from Bangor, on Wednesday evening, that Mr. Locke (a son of Joseph L. Locke, Esq., of this city,) was killed by the fall of a derrick, at the New Custom House, where he was at work as a joiner.

☞ The brig Benjamin Worrall, from New York for this city with coal, was last evening reported by telegraph ashore abreast of the Brandywine Banks, full of water. Vessel and cargo probably a total loss.

FIRE IN GREAT FALLS.

The store of J. M. & E. A. Tibbets, on Market street, Great Falls, was destroyed by fire, together with its contents, on Sunday morning, at about 3 o'clock. Loss total.—Insured on store for $1500 by the Haverhill Mutual; stock $3000 in the Rockingham.—Loss $8000. Their books, cash, &c., were insured by one of Edwards & Holman's safes. The Great Falls and Conway Railroad Company had their office in the same building; books, &c., insured by the same firm.

WASHINGTON NEWS.

July 5.—The President has accepted the invitation to be present at the opening of the Crystal Palace, in New York city, on Monday next. He will be accompanied by Hon. Mr. Guthrie, Gen. Davis, Gen. Cushing, and his private secretary, Mr. Webster. He will stop at Baltimore and Philadelphia on the route, reaching New York on Wednesday evening.

Hon. Geo. Briggs was to-day fined $50 and costs for striking Postmaster General Hubbard last winter.

The "Star" appears under its new auspices this evening. It says the steamers Princeton and Fulton and sloop-of-war Decatur, the two former now fitting out for sea at Norfolk, and the latter at Boston, were to-day ordered to proceed to Portsmouth, N. H., navy yard, to await instructions to sail for the fishing grounds.

The whig state convention of Alabama, which recently assembled for the nomination of a candidate for governor, adopted a resolution pledging the whig party of that state to oppose the acquisition of additional territory, unless the equal rights of the south are guaranteed in such acquisition by the articles of the deed of cession.

[This *may* all be true—but we would rather see the ships, than to read such a statement by the telegraph, on the authority of nobody knows who.—*Eds. Chron.*]

GREAT FIRE AT OSWEGO.

A great fire occurred on Tuesday, the 5th of July, at Oswego, N. Y., which extended over a space of about forty-five acres. Every mill north of Bridge street, viz., Fitzhugh's, Doolittle's, Penfield's, and Wyman & Co.'s, was burnt. Also, Ames & Hall's elevators. Nearly two hundred dwellings and stores are also in ruins. The section of the town consumed is bounded on the west by the river, on the east by Sixth-street, and on the north by the fort grounds. The only property saved within the limits is Randall's elevator, the Second Methodist church, and half a dozen dwellings. The loss is not less than a million and a half of dollars, including goods in stores. There were over 300,000 bushels of grain consumed. All the insurance offices will suffer severely.

Some fifteen blocks are entirely burnt over, comprising the stores, &c., of a large number of tradesmen, whose losses range from one to ten thousand dollars. Many persons were injured by falling timbers. It is believed no lives are lost. The heat of the fire was so intense that some engines took fire and had to be thrown into the river to save them. The scene baffles all description, thousands being driven from their homes and places of business.

THE NORWALK DISASTER.—The New York and New Haven Railroad Company have paid $5,000 to William Sparks, of Pittsfield, whose wife was among the killed at Norwalk. Mrs. Sparks, it will be recollected was doing business as a milliner, at the time of her death. The above sum was the amount claimed by Mr. Sparks, and was promptly paid by the Company.—*Springfield Republican.*

Hon. Shepard Cary being called to address the late democratic convention in Maine, said the circumstance of his being a candidate for governor would not deter him from speaking openly and frankly the opinions he entertained and the hopes he cherished. He trusted he was not over anxious to succeed, for he could bear defeat a good deal better than some of the other candidates. He would tell a story. A little boy once said to his grandmother—"Grandmother, I hope you will die first." "Why so, my shild?" "Because I can stand trouble better than you can." This hit occasioned great laughter.

DISGRACEFUL TO VIRGINIA.—A correspondent of the Journal of Commerce says: "The rumored sale of Mount Vernon to a joint stock company, is the subject of universal comment, and may be mentioned in connection with the fact that *the grave of James Madison, twice President of the Republic, cannot now be recognized!*"

THE NEW ORLEANS CONSPIRATOR.—Alfred, the negro who was the chief mover of the late contemplated servile insurrection, made a fierce assault on the keeper of the police jail. He hit him, struck him with a chain, and caused the blood to flow. He will be examined on the 27th, and probably ordered for execution.—*N. O. Orleanian, 25th.*

THE subscriber having taken a lease of the well-known, popular and beautifully-located Boarding-House on Kittery Point, belonging to Mr. R. F Gerrish, (who has recently extensively add tastefully enlarged the same,) will be ready by the *Sixth of June next,* for the reception of such *Regular Boarders and Transient Visitors* as may favor him with their patronage.

The house is mostly new, and all in thorough order. The rooms, especially the sleeping rooms, are commodious and admirably ventilated; the opportunities for *Bathing* are unusually safe and convenient; the neighborhood quiet; and the scenery and rides thereabout and in the vicinity of the *sea-shore,* (which is in full view,) are delightful. The post-office is within three minutes' walk of the house; and a coach runs regularly *twice a day* to and from the Point, via the U. S. Navy Pard, arriving at and leaving the city of Portsmouth (three miles distant) on the arrival and departure of the cars.

The undersigned lessee, respectfully solicits for himself, from Mr. Gerrish's former patrons in the business, a continuance of their wonted patronage to him—assuring them and all others who may be disposed to patronize him, that he will use his best endeavors to fully merit their favors.

NEW YORK.

EDWARD LAMBERT & CO.,

51 *Broadway, (opposite U. S. bonded warehouse)*

IMPORTERS AND JOBBERS OF
Rich Silks, Paris Dress Goods, Shawls, Gloves, Embroideries, White Goods, Ribbons, &c., invite the attention of Merchants from all sections to their unrivalled assortment of

Silk and Fancy Dry Goods,

Imported with special reference to the wants of first class buyers, and in three important particulars, viz.: TASTE, VARIETY AND PRICE, believed to be unequalled.

Messrs. E. L. & Co., having been engaged in this business for many years in Philadelphia, where the taste is not unlike, in many respects, to that of the Northern and Eastern States, they would call particular attention to their styles, many of which are controlled entirely by them.

It having been remarked that our business is almost exclusively Southern, we would beg leave to say that our goods are adapted to every section of the United States, *Northern, Southern, Eastern and Western,* and that in style and price they will be found equal to any other House.

On and after Dec. 1st next, we shall occupy our New Marble Warehouse, now being erected, No. 55 CHAMBERS ST., 4 doors from Broadway, directly opposite the Park.

MARRIAGE.

Happiness and Competence.

WHY IS IT?

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years? And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, secure the blessings of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S

Private Medical Companion.

BY DR. A. M. MAURICEAU,

PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., pp. 250. Price 50 Cents.

[ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriage, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been SENT BY MAIL within the last few months.

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Y." is on the title page, and the entry in the Clerk's Office on the back of the title-page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents,* together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

THE JUVENILE INCENDIARY.—On Friday morning in Boston, a little boy named James Dalton was brought before the Police Court on charge of setting fire to the stable of Bowker & Torrey, in Thatcher avenue. The boy is but eight or nine years old, and is of weak intellect. The complaint was dismissed, and he was sent to the Farm School.

Last Sunday forenoon, a young Frenchman named Burgess, in the employ of Mr. S. McGriffin at the North End, went to bathe in the Merrimack river, and in the efforts to wade across, went beyond his depth and was drowned. His body was recovered in about four hours after. His age was 23.—*Concord Ind. Dem.*

SERIOUS LOOKS.—The Home Journal, in noticing the poems of Mr. Shillaber, remarks: "Like every other *remarkably* humorous man, whom we know or know of, Mr. Shillaber looks as serious as an ancient church. But his book is neither serious, nor will make its readers so."

A New, Delicious Temperance Beverage.

AMBROSIAL MEAD!

THIS excellent Compound is prepared from the best SPANISH SARSAPARILLA, without its dark, repulsive appearance, being beautifully transparent and entirely free from all impurities. Its qualities as a beverage, a single trial will give it a pre-eminence over all other preparations, by its freedom from noxious ingredients, agreeableness of flavor, and its *exceeding cheapness*, one bottle being sufficient to make thirty glasses of the beverage.

CAUTION!—The proprietors of this excellent preparation have spared no expense to bring it to perfection, and would caution purchasers to buy none without the fac simile of Wilson, Fairbank & Co. on every bottle.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 22 State Street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered by inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and they were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs,* by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom

AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the best family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & *Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,*

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND,
Genoa, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,

My son had a very severe cough, which threatened speedily to carry him off; and nothing seemed to give relief, until I tried these Lozenges, which produced signs of relief in a few hours, and after the taking of a few boxes, wholly removed his cough. A TRIBUTE TO LANG SYNE.

Portsmouth, July 4, 1853.

Written by B. P. Shillaber, for the Collation of the Sons.

To pour the choral tide along
Let every heart incline,
And bathe, in floods of joyous song,
The memory of auld lang syne.
For auld lang syne, kind friends,
For auld lang syne,
'Tis sweet again to sound a strain
For auld lang syne.

We've wandered o'er the world's wide field,
And bowed at many a shrine;—
Few joys we've found the world to yield
Like those of auld lang syne
For auld lang syne, kind friends,
For auld lang syne,
Those early joys when we were boys
Still cling to auld lang syne.

Like parted ships upon the main,
Tossed as the winds incline,
We've felt our bosoms warm again
With thoughts of auld lang syne.
For auld lang syne, kind friends,
For auld lang syne,
The early flame still burned the same
As in the days lang syne

We've known fair scenes, 'neath brighter suns
Whose beams perpetual shine,
But never such endearing ones
As those of auld lang syne.
For auld lang syne, kind friends,
For auld lang syne,
Fond memory brings those cherished things
From days of auld lang syne.

We joy amid these scenes to meet,
In friendship's ray divine,
To dwell, in kindly memories sweet,
On auld lang syne.
For auld lang syne, kind friends,
For auld lang syne,
The scenes return, the lights here burn,
Of auld lang syne.

And now we bid a fond adieu,
And as our hands we join,
Let's pledge our loving faith anew
For auld lang syne.
For auld lang syne, kind friends,
For auld lang syne,
The kindled glow shall with us go
Of auld lang syne.

BROWNSON'S REVIEW.—The July number of this Quarterly contains a review of The Life of Gen. Pierce by Hawthorne, from the pen of Mr. Brownson, which is marked by his peculiarities of style. We quote a passage of the review:

As we expected, General Pierce was elected by a small majority on the popular vote, and by an overwhelming majority in the electoral colleges. In due time came his inauguration and his Inaugural Address, and our worst fears were confirmed. The Inaugural Address was a flimsy production, and hardly rose to the level of the Inaugural Address of Jas. K. Polk, and in doctrine and solid sense fell even below that of General Harrison. It was declamatory, frothy, and lacked dignity and condensation. It was composed after the model of a Fourth of July oration, abounding in unmeaning professions, and breathing the spirit of a demagogue of the first water. It proved very clearly to us that the Filibusters and Young America had got their President, and that "expansive democracy" was solemnly inaugurated as the avowed policy of the government. We tried to be pleased with it, but could not succeed. Its avowed policy, so far as it avowed any peculiar policy, was on almost every point objectionable, and precisely the policy our only formidable commercial and manufacturing rival, we mean Great Britain, must wish us to pursue, and which no American statesman desirous of gaining the commercial and manufacturing pre-eminence for his own country could for a moment recommend. The essential points of its policy are free trade, insults to Spain and Mexico, and sympathy with the European revolutionists? What else could Great Britain ask of us?

WHAT IS RESPECTABILITY?—To judge from the conduct and ideas of some persons among both sexes, respectability consists in driving fast horses, wearing rich laces, drinking champagne, or idling away life. To cut a figure in society, on the promenade, or at a watering place, appears to be the sole aim of many women, who surely were born for better things. To cultivate a moustache, sport a "two forty" trotter, or act as a model exhibitor of coats for some fashionable tailor, seems to be the conception of a dignified and respectable career formed by not a few of the men.

Now being respectable, in either man or woman, is, to our notion, doing what is duty. The poorest person, even in what is considered popularly the humblest avocation, who pays his debts, obeys the law, and fulfils his other obligations to society and to his fellow creatures, is a thousand times more respectable than the wealthy idler, the educated spendthrift, the callous miser, or the fashionable fool. So the modest female, whether seamstress, book-folder, press-tender, store-keeper, or even house-servant, is in the world, infinitely more respectable than the extravagant wife who is ruining her husband, than the thoughtless votary of fashion, than the butterfly flirt. In a word, worth, not wealth, constitutes respectability.—*Philadelphia Ledger.*

RATIOCINATION.—This morning a little bright eyed boy, four or five years old, who was playing on the common with a handsome dog, was accosted in a bantering way by a gentleman passing, as follows:

Gentleman—What will you take for your dog, little boy?

Boy—I won't take anything for him.

Gentleman—Oh, then you will let me have him for nothing, will you?

Boy—No, sir.

Gentleman—What will you take for him, then?

Boy (emphatically)—*I won't take anything for him!*

Gentleman—If you won't take *anything* for him, of course you will let me have him for *nothing*.

The little fellow saw the point, but was puzzled how to explain. Looking up, however, in a moment triumphantly, he said:

If you *give me anything* for him, you shan't have him; if you *don't give me anything* for him, you shan't have him; *that fixes you!*—*Boston Journal.*

PROF. ALEX. C. BARRY'S
Tricopherous, or Medicated Compound.
FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.
It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself.—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.
Depot and manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.
Liberal discount to purchasers by the quantity, and by the principal Merchants and Druggists through the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22*

PORTSMOUTH:
FRIDAY, JULY 8, 1853.

CONSTRUCTION OF THE FUGITIVE SLAVE LAW.

The New York Commercial Advertiser gives the decision of United States Commissioner Morton in the case of Van Norden, an apprentice, whose rendition to his master in New Jersey was claimed under the act of Congress commonly known as the "fugitive slave law." Mr. Morton holds that the act does not apply to apprentices. This decision is important, as it has been the practice, heretofore, we believe, to surrender apprentices who had fled here from "service or labor due in another State."

The Commissioner in his elaborate opinion, says:—

The word "person" in the constitution and in the sense used therein is synonimous with slave, and the whole scope and object of that clause of the instrument, in my judgment, is exhausted and answered in its application to fugitive slaves, exclusive of any and all other description of runaway servants.

In 1837, this clause of the constitution was before the Supreme Court of the United States, in the case of Prigg *vs.* The Commonwealth of Pennsylvania, and the opinion delivered by Mr. Justice Story, and that of all the individual members of the Court, occupying almost one-third of 16 Peters' Reports, 611, has rendered it now impossible to hold other than that apprentices are wholly excluded from having been within the intention of the framers of the constitution, and of the acts of Congress passed to carry out the true object of that clause—providing for the recovery of fugitives from justice, and fugitive slaves described as held to service or labor.

Mr. Justice Story, also, in his work upon the constitution, when commenting upon the various clauses where slaves are described as persons, in respect to their migration, importation, and scale of representation, expresses in the most unequivocal terms, the conclusions now recognized. *No judicial decision appears to have been made directly upon the case of an apprentice, by any judge of a United States Court.* But the decision referred to gives so clear an intimation of what are the views of that tribunal, that it would not become a commissioner to initiate a construction which would in truth be adding "to persons held to service or labor," the words, "including apprentices and all other servants."

The idea that apprentices, &c., were within the meaning of the constitution seems to have been taken up at a very recent period, as up to 1837, no vestige of its existence has been found. One or two cases are believed to have occurred within a few years, where commissioners in other States have delivered up apprentices, but the only question there raised was, the validity of the indenture; and the question now presented was never raised or passed upon.

Now we don't know who Mr. Commissioner Morton is, nor can we therefore pin much of our legal faith to his sleeve: but we have heard of Judge Story, and suppose the quotations from his opinions are correctly copied. If so, we are given to understand, on the highest legal authority, that the Constitution, when it speaks of "no person, held to labor or service," means "no slave," and nothing else. If so, the question comes up, Why did not our statesmen say plainly what they meant? Were they afraid the word would do mischief? or were they ashamed to use it? We can see no good reason for affirming either. If we tolerate any particular thing, let us call it by name, without disguise or subterfuge.

There were, however, in the earlier days of our republic, a class of men called Redemptioners, sold into servitude for a limited term, to pay their passage to this country. This class may be included in the interest of the passage. And the language may include apprentices also, maugre the decisions. The fact that no master of apprentices used the law for fifty years, only proves that they were not mean enough to resort to it. Nevertheless, we are right glad of the decisions, and hope they will stand.

☞ Hon. Arthur Livermore, formerly Judge of the Superior Court of New Hampshire and member of Congress, died recently at Campton, N. H., aged 87. The deceased, the third son of Hon. Samuel Livermore, was born at Londonderry, July 26, 1776; was upon the bench of the Superior Court from 1799 to 1817; a representative in Congress for six years—the last two years in Monroe's administration; and from that time till 1823 upon the bench of the Common Pleas.

At New York about 9 o'clock on Monday morning, a riot arose in the 9th ward from an omnibus with frightened horses, running into an Irish procession. The driver was pulled from his seat and beaten without mercy. Fire arms, clubs and paving stones were used, and many badly wounded. Thirty-six rioters were arrested. The omnibus driver's name was Carpenter, and he died of his wounds on Tuesday.

Charles Johnson escaped from prison in Philadelphia on the 4th, and was seen in the ranks of the Fantasticals, but escaped when the officers tried to arrest him. There was a fight in the evening between two fire companies, during which the police were forced to fire upon the combatants.

LOCAL.

☞ To each new subscriber who pays for the Daily in advance for a year commencing August 1st, 1853—we will supply the paper without charge to that date.

FRENCHMAN'S LANE.

This green lane,—which has been used of late as the railroad station for the Sons of Portsmouth arriving from Boston—was formerly a part of the carriage road from one of these old towns to the other. The road, like all the roads of New England at that day, abounded in curves; and this Frenchman's lane was one of them. By the very simple and obvious improvement of a straight road, this curve was cut off, so as to leave a ten acre lot between the old road and the new, almost in the shape of a semi-circle. The old piece of road, leading only to a few fields, but to no house, was neglected, and soon grassed over, remaining nearly in the same state for many years, and until the creation of two railroads cut it up and destroyed half of it.

The name of the lane thus left, was given to it in consequence of a murder. The French Fleet, under Admiral Vandreuil, which lay in Piscataqua Harbor for many months during the year 1782, often sent or suffered its sailors to go on shore, where they generally behaved well, but sometimes got intoxicated. One poor fellow, whose fate named the lane, was in the latter predicament one afternoon, and was seen round the Creek with some companions of mean repute: but the next morning his body was discovered with the throat cut and pockets rifled, his head lying on or near a well known rock, which was besmeared with his blood, and which was ever after called Frenchman's Rock—till the Railroad graders carried it off or buried it beneath their track. The late celebration here has revived the memory of the simple legend, which nevertheless was sufficiently frightful to the boys who had to go by it alone about the evening twilight.

MORAL ASPECTS.

There appears to be an alarming increase of arrests and evils on the fourth of July in many places, on account of drunkenness;—from which we are compelled to infer that the community are rapidly falling back into their old usages of sacrificing largely to Bacchus on that day. We have seen that usage happily broken in upon, and as it was suspended for ten or a dozen years, we had hoped it would disappear and die in solitude; we can only say we are sorry to see it show its head again. We did not see many drunken men here, nor a great deal of drinking; but we saw a few specimens of both; and have heard of many cases, chiefly among unknown persons.

A correspondent complains that our promise is broken, which we founded on a city ordinance passed for the occasion, and as we supposed, intended for the preservation of order. In answer, we can only express regret that ordinances, so obviously proper as that which prohibited the sale of liquors &c. on the tent ground on the 4th, should be in the least degree broken or evaded in spirit or letter.—But we have learnt long ago, that all laws are of little force without a penalty to back them, and public opinion to give them support.

One thing, however, is certain: no amount of public opinion, right or wrong, can change the moral or physical effects of indulgence in artificial stimuli, for good or evil. They mark themselves on the man's mental and bodily habits, and betray them to his neighbors, perhaps, a long time before he is himself aware of them.

What is true of individuals, is true to a great extent of communities. We may choose our habits and customs; but with them we must take the consequences. A natural and divine law is a wonderfully different thing from a human statute. The latter is often broken or disregarded with impunity; while the former executes itself with inevitable certainty. Men do not gather grapes of thorns, or figs of thistles.

☞ Samuel Hartt, Esq., Chief of the Bureau of Construction, &c., yesterday visited the Navy yard in this harbor, prior to his departure for Washington. On leaving the yard he received the salute due his official position.

☞ The young man from this city who was accidentally killed at Bangor, on Wednesday, was named William Locke; his age was 19, and he was the youngest son of Major Joseph L. Locke. He was a worthy young man, an apprentice at the trade of a mason, (not a joiner,) and had just commenced work on the Custom House at Bangor.

☞ Mr. Wm. Berry, of Greenland, has a hen of no extraordinary pretensions as to blood, which has several times laid eggs weighing a quarter of a pound—one of which is now on our table. Precious hen, that—her owner thinks she can't be beat.

Mr. Wm. Hanscom, of Eliot, Me., has accepted an appointment in the Naval Constructor's department at the Portsmouth yard, with a salary of $2000.

THE WEEKLY CHRONICLE, printed this morning, will contain all particulars of interest respecting our late celebration, which have appeared in the Daily. $1 a year in advance—single copies 3 cts.

☞ The fine Steamer "Grace Darling," Capt. Billings, arrived in port on Thursday morning, and will commence her regular trips at once—leaving Sheafe's Wharf, foot of Deer street, this morning at 10 o'clock. See bills.

VISIT OF THE SONS.

One of our New York Correspondents suggested the idea of printing the sayings and doings of their visit, in a pamphlet. On this suggestion, or on a similar thought of their own, Messrs. C. W. Brewster & Son, of the Portsmouth Journal, are about to prepare such a pamphlet, which will be printed in good style, and is to contain a full report of all the proceedings on that occasion. Every speech and verse will be submitted to the authors for revision; and the whole will form a fine record of the visit. The pamphlet will be issued to subscribers at 20 cts each.

FIRE.—The woods on Gerrish's Island, Kittery, were seen from this city to be on fire yesterday afternoon, for some hours.

Sundry individuals at Salisbury and Amesbury Mills village, have got themselves into trouble, in consequence of having caused to be published certain articles in a notorious publication called "Life in Boston;" which reflected upon the character of Mr. Wm. Alley. There have grown out of the matter, one horse-whipping, one lawsuit, and three humiliating acknowledgments from as many different individuals, which are published in the last number of the Villager.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

LATEST FROM EUROPE.

Steamship America brings Liverpool dates to June 25.

In the Cotton Market, eastern difficulties and operatives strikes had counteracted the favorable influence of American advices per Europa and Atlantic. There had, however, been a good demand from the trade, which holders freely met at late quotations for qualities below middling. In middling and better qualities and American, quotations are advanced 1-16th to 1-8.

The weather in England was propitious, the crops of grain luxuriant, and prices of breadstuffs slightly declining. A decline of 2d on wheat; and no demand for corn.

The political state of Europe and Asia, remains unsettled; but the news of governmental movements are not to be relied upon, and the speculations are not worth copying.

THE FISHERIES.

The New York Journal of Commerce of Wednesday, has the following:—

IMPORTANT FROM WASHINGTON.—We learn from Washington that the Cabinet held a consultation on Monday last, on the subject of the fisheries. It was agreed to act with the utmost promptness and forbearance, and to bring the subject to an early adjustment.—Mr. Dobbin, Mr. Marcy, and the President, have acted in this matter in a conciliatory, yet decided manner.

The administration are convinced that an adjustment of the difficulty will soon be effected, and will endeavor to prevent any collision between our fishermen and the British and colonial vessels.

Mr. Crampton, the British Minister, actuated by the most just and peaceful sentiments, has left Washington for Halifax, to obtain a personal interview with Admiral Seymour on this subject,—the matter being too important to be trusted to a letter, or to an agent. Reciprocating the wishes of the administration, he will endeavor to procure a suspension of British orders, until time shall be afforded for the completion of the pending diplomatic arrangements. The Princeton will, if no difficulty occurs, take in coal at Halifax, and thence proceed to the East Indies.

Mr. Crampton arrived at Boston on Tuesday evening, and left yesterday in the Niagara for Halifax.

FIREMEN'S RIOT AND BRUTAL MURDER.—On the 4th inst., two parties of young men, belonging principally to rival fire companies in Philadelphia, made excursions up the Delaware, professedly of pleasure, but their real object was evidently, as circumstances subsequently proved, to meet one another in hostile array. For this object they had contrived to conceal deadly weapons on their persons and in the cabins of their respective vessels. They met on the river near Bristol, where a fight with pistols commenced and continued for some time. One of the parties finally brought out a swivel, which they fired at their opponents. One man was shot. One of the parties engaged in this fight landed at Beverly, N. J. and paraded through the streets firing loaded pistols with reckless disregard of human life. One of them shot a poor orphan boy who was looking at their parade, completely riddling his back with shot. An officer who attempted to arrested the murderer was beaten down and the fellow escaped.

TEXAS.—The New Orleans Picayune contains later advices from Texas, received, by the steamship Yacht at that port. The Yacht brought $42,000 in specie on freight.

The Democratic State Convention of Texas had met, and adjourned without succeeding in making their usual nominations. The attendance of members was quite small. Col. Blanton had been named as a Whig candidate for Congress.

Refreshing rains had occurred throughout the state, which proved highly beneficial to the crops, and also caused a rise in the Colorado river of seven feet.

NEW YORK.

EDWARD LAMBERT & CO.,

51 *Broadway, (opposite U. S. bonded warehouse)*

IMPORTERS AND JOBBERS OF
Rich Silks, Paris Dress Goods, Shawls, Gloves, Embroideries, White Goods, Ribbons, &c., invite the attention of Merchants from all sections to their unrivalled assortment of

Silk and Fancy Dry Goods,

Imported with special reference to the wants of first class buyers, and in three important particulars, viz.: TASTE, VARIETY AND PRICE, believed to be unequalled.

Messrs. E. L. & Co., having been engaged in this business for many years in Philadelphia, where the taste is not unlike, in many respects, to that of the Northern and Eastern States, they would call particular attention to their styles, many of which are controlled entirely by them.

It having been remarked that our business is almost exclusively Southern, we would beg leave to say that our goods are adapted to every section of the United States, *Northern, Southern, Eastern and Western*, and that in style and price they will be found equal to any other House.

On and after Dec. 1st next, we shall occupy our New Marble Warehouse, now being erected, No. 55 CHAMBERS ST., 4 doors from Broadway, directly opposite the Park.

MARRIAGE.

Happiness and Competence.

WHY IS IT!

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years? And what days and nights of anguish might we have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, the husband sickness and poverty to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in little work entitled

THE MARRIED WOMAN'S

PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., pp. 250. Price 50 Cents.
[ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriage, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been **SENT BY MAIL** within the last few months.

Y." is on the title page, and the entry in the Clerk's Office on the back of the title-page; get it of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon, the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents*, together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

For Preserving, Restoring & Beautifying the Hair,

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralizes the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all mineral properties, or any substance which can color the skin, or stain a white vest.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

Its immediate effect is to allay all irritation, and gently remove the phlegm and other morbid secretions from the Throat and Air-passages, thus relieving the Cough, by subduing the inflammation and other causes which give rise to it. DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and intrinsic merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER.

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KIDNEY REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom

AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Delility,

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND,
Genoa, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,

ALEXANDRIA FISHERMEN.

In a lively letter to the Newburyport Union, the writer, whom we suppose to be the editor of that paper, having named several classes of inhabitants in Alexandria, whites and blacks, says:

One class of the whites are of a migratory character. The fishermen for two or three months in the spring, from all the surrounding country, collect here; and one district is called Fishtown. The boats are generally manned by whites, but the fish thrown out upon the wharves, are dressed by blacks, men and women; and a more filthy set it would be difficult to find. The women with wet ragged dresses, setting down in the piles of herring to head them, are shunned by this world, and look as though they were forgotten by the other.

Near by are long rows of rough, white-washed sheds, similar to the sheds of our fishing towns, but used for quite different purposes. There may be forty of them in all; and between them are narrow passages that take the names of the streets of the great cities, such as Broadway, Commercial, &c.; and one I noticed, was called *Shad Row*, a very appropriate name, it being so in more respects than one.

The sheds go by the titles of the 'Astor,' 'United States,' &c.; and each one is inhabited by more or less white persons, being leased by a man, or woman, or both, and kept for infamous purposes. They are licensed during the fishing season; and to the whole may be attached fifty dissolute women, who assemble from Washington, Baltimore and Philadelphia, for the pursuits in which they are engaged; and lounging around them are the fishermen, seamen, and loafers in general. They have three apartments; a large room for dancing, in which the bar is; a recess, separated by a curtain; and a third that may remain shut. Life is only safe here by the protection of a strong police, one of whom showed us over the grounds, and the entertainments given are of the vilest sort. The days are consumed in drinking and smoking, with an occasional fight to give variety, in which the men and women engage alike. At night comes on the dancing, with a little gambling, some robbing, and now and then a general row. Sunday is the grand day for their performances; and men gather for their sprees for fifty miles around, and not unlikely a member of Congress will participate.

Upon the occasion of our visit, the whole was in full blast. The rough floors were full of dancers, some in slippers and some in boots, and the most awful performances upon violins and tamborines that ever greeted human ears, were to be heard. Around the rooms on board seats, were the spectators. At the close of each dance, all repaired to the bar to invigorate by fresh stimulants, and another set commenced; and so it goes on through the night.

It always seemed to me that the members of Congress had a false estimate of our fishermen; but it was not until I saw these fishermen, and learned that the more lax members of our national legislature not only witness these scenes, but sometimes practice at these bars, and patronize the other appurtenances, that I could account for their false views.—Undoubtedly many of them take these to be fair representatives of fishermen everywhere, and therefore, it is, that they care nothing for their interests or their rights.

☞ The Boston papers all compliment our celebration highly,—perhaps too much so.—The Times says:

We only have to say, that the celebration, as a whole, was the grandest we ever witnessed. The guests were delighted, and the "old folks at home" were overjoyed. The greeting, in every respect, was the most cordial that could be extended. The ladies, God bless them, rivalled, in beauty and loveliness, those of any other city that we ever visited. We have ten thousand thanks to return to each and all for the many courtesies shown to us, an humble member of the press, by Brother Fuller of the *Gazette*, Brewster of the *Journal*, Messrs. Millers & Gray of the *Chronicle*, and to the Committee of Arrangements; to our particular friend Cleaves of the lovely "Glen Cottage," whose bountiful hospitality we enjoyed, and last, though not least, to Maj. Coburn of the Rockingham House, for his many kindnesses.

WEATHER WISE.—During the shower at Portsmouth on Monday morning, Mrs. Partington, feeling deep interest in the procession and services of the day, and wishing to know as much as possible in regard to the prospects of rain, applied for information to a milk-man, whose knowledge of watery matters was supposed to be unequalled. This person prophesied that the sky would "come off," a prediction which was fulfilled, as the "Sons" were soon blessed with the sight of the sun.—*Boston Transcript.*

MRS. PARTINGTON, RELICT OF P. P., CORPORAL, AT PORTSMOUTH.—This estimable old dame was rapturously honored at Portsmouth on the 4th. The public voice made itself hoarse in her praise, and eloquence lent its power to sound her fame. Three cheers were given for the "birth place of Mrs. Partington," and three cheers for the "brother of Mrs. Partington," as a respectable looking individual who resembled her stood gazing upon the scene. Her humble representative lost his identity completely—but let no insidious thoughts arise to attach champagne to a name long booked for propriety—and he actually found himself looking in a miror at the Rockingham House to detect the cap and specs which he deemed might meet his gaze. In behalf of the old lady, he requests us to tender his thanks to the universal Portsmouth people for the many kindnesses he received at their hands, on his own account and hers.—*Boston Post.*

DAILY
Morning Chronicle.

PORTSMOUTH:
SATURDAY, JULY 9, 1853.

THE UNION AND EVENING POST.

We have been, for many days, so busily engaged in getting up fourth of July matter, prospective and retrospective, that we have scarcely noticed the controversy between the Washington Union and the New York Evening Post.

They are both distinguished Democratic papers; that is, they have been; but now the Union proceeds in a very delicate and formal manner, to read the Post out of the party, on account of its anti-slavery character; and the Post as deliberately refuses to go, but gives the Union a similar liberty to depart.

We do not propose to go into the merits of the quarrel, not being quite sure that we understand them all; but we copy a brief article, throwing some light on the subject, from the Newburyport Union, whose editor, lately appointed to office under the new administration, is himself a coalitionist:

The Washington Union, in a recent article, attempts to read out of the democratic party the New York Evening Post and the Buffalo Republic, the Barnburner organs, as abolitionists. It repudiates all sympathy and connexion with them, and says it washes its hands from all further association with them. Both these papers very ably advocated the election of Gen. Pierce, and now support his administration; and the Evening Post in reply, says, that it does not recollect having had any association with the Union—that between the two a mutual repulsion exists.

The Union seems to be taking ground not dissimilar to what Burke has assumed in New Hampshire, and though the New York Tribune affirms that the President approves of the article, yet we do not believe that the administration sympathises in the least with these sentiments. The Baltimore platform was against the further agitation of slavery as a political question in the democratic party.—The Barnburners and coalitionists acquiesced in that decision, and ceased the agitation; the extreme hunkers by their present action, are the men who abandon the platform in attempting to make slavery a political test. If they succeed, it will be a sorry day to the democratic party and to the country at large. The question would never again be put to rest as easily as it was in '52.

There are men now favoring this new test of democratic orthodoxy, that will find it to cut further than they at present imagine.—Knock away the outside tier of men at which it is aimed, and proscribe the first class of papers upon which it operates, and somebody else must then bear the brunt of the battle, and they will do well to book themselves up in their own antecedents, and if it escapes them, see who of their friends it cuts down.

DR. BOYNTON IN PORTSMOUTH.—Our readers will be pleased to learn that this brilliant lecturer is about to visit this city, and repeat the course of Illustrated Lectures upon Geology, which were recently given with such distinguished success at the Lowell Institute, Boston. In Boston and Lowell Dr. B. gave two courses of lectures, and in both cases, sold every ticket to the course before the commencement of the lectures. In the published card of invitation, requesting the delivery of the lectures in Boston, we notice the following names: Benj. Seaver, Rufus Choate, Robt. C. Winthrop, Wm. H. Prescott, Nathan Appleton, John P. Bigelow, Walter Channing, Rev. Dr. Blagden, Rev. Dr. Lothrop, Rev. Dr. Stow, Rev. Lyman Beecher, Rev. E. W. Kirk, Rev. Otis A. Skinner, Rev. T. Starr King, Rev. F. D. Huntington and many others. As a specimen of the notices given of the Doctor's lectures, we cut the following from the the N. Y. Musical World:

"To be able to *popularize* science—to invest rocks and shells and gas and air and water and dirt with an interest which sends one's blood tingling and thrilling through the veins, and chains the attention by the hour, is a rare and precious gift—a power which is vouchsafed to but few. Dr. Boynton is one of the few who can do this. He can show off the beauties and wonders and other "strong points" of nature, with as much ease and tact and grace as can a young mother those of her first baby; and like the young mother, the Doctor "glories in it."

We learn that the course (of six lectures) will commence with a *free introductory* lecture on Wednesday evening next, at the Temple. The cost of a Ticket for the course will be but *fifty cents!* Three lectures per week.

At Bangor recently the City Marshal turned into the gutter near the City Hall, 27 barrels of liquor, condemned under the law. It ran into the culvert, and into the spaceway between the abutment of the bridge and the wharves, and was set on fire by boys, and the services of the fire department were found necessary in order to prevent the burning of buildings.

☞ The freight train which left Wilmington, Del. on Wednesday morning at 2 o'clock, for Philadelphia, ran off the draw into the Brandywine Creek. The engineer, named Girvin, and a fireman were drowned.

The Tribune gravely professes to recognize the whig party upon the basis of the Maine liquor law! This is a "suggestive" joke.—*Boston Post, July 6.*

It suggests that those who printed it hadn't got over the 4th. For "professes" read proposes, and for "recognize" read reorganize.—*Boston Post, July 7.*

LOCAL.

MORE MORAL ASPECTS.

Our correspondent to whom we alluded in Friday's Daily, and who from his position and character must and will be heard, complains that our remarks did not reach the case,—and urgently requests the insertion of the following earnest communication,—with which request we comply,—remarking as we do so, that we made our premissory remarks before the collation, in good faith, not willing to believe for a moment, that any one would attempt on such a public and general occasion, to introduce any thing that could mar the general good effect of the day. We do not in the least regret our promise, or expression of good opinion. We are only sorry it was broken or destroyed. The next time we stand sponsor for the temperance character of a feast, we will previously get the written promise of some officer.

For the Chronicle.

Mr. Editor:—I feel desirous to say a word through your columns at this time, to those individuals who, at the collation on the fourth, made themselves conspicuous by circulating and drinking champagne. Familiar as they were with the fact that the friends of temperance had made vigorous efforts to exclude all intoxicating drinks from the entertainment—that the ordinance of the city government had prohibited their sale, I wish to ask them whether the position which they assumed on the occasion was not, to say the least, uncourteous and ungentlemanly. I wish to ask them if they can, from their present stand point, refer to their position at that dinner, and regard themselves as high-minded, honorable men—men possessing true nobility of soul. Was their vitiated appetite so craving that the brief hours of that dinner could not be passed without the stimulus of the intoxicating draught? Would it not then have exhibited a truer sense of the courtesies and refinements due to the occasion to have withdrawn silently from the company and indulged their sensual gratification at some the numerous drinking establishments with which, to our shame be it spoken, our otherwise attractive and beautiful city, is so infested? By taking this step they would, certainly, have escaped the disgrace of insulting our clergymen, our temperance mayor and numerous friends of temperance who were enjoying the festivities of the occasion.

But there is another aspect of this question more intensely interesting still—one which places the wine-bibbers at that collation in a more frightfully responsible position. I tremble as I think that there were young men sitting at that table who by the prayers and labors of their anxious parents have been kept, hitherto, in the paths of virtue and sobriety, and who perhaps took their first lesson in a course of shame and ruin from the example of those who intruded this nefarious article upon that festal occasion. Is it not enough for these drinkers of champagne that they destroy themselves and bring reproach and ruin upon their own families? Must they incur the deeper guilt of tempting our youth, and thus blasting the rising hope of our community?

From one of your subscribers who with many others regrets exceedingly the doings of the champagne drinkers on this occasion.

SENTIMENTS NOT OFFERED.

Of these there were a number, we cannot tell how many, in the pockets of the guests on the fourth. Some of them are drawn forth, and a few, which have been sent to us, we copy, as a fit close to our account of the matter.

PORTSMOUTH, July 6.

Messrs. Editors:—A sojourner among you, who witnessed the enthusiasm with which the fair—sarpassingly fair—daughters of Portsmouth devoted themselves to the ornamental preparations for celebrating the Fourth, wished to hear some more decided acknowledgement of their unwearied exertions in their natural sphere of ornamenting, but being obliged to keep up the "*electric chain*" of communication with Faneuil Hall, was unable to do so. I had also prepared the enclosed, which owing to a want of "*independence*" was not "sent up."

Yours, J. D. HAYDEN, of Boston.

The Ladies—However much those of "'76" may have awakened a spirit of Independence in the hearts of the young men of their day, the ladies of Portsmouth inspire *any other* than a love of *Independence* in our hearts.

By JERR. JOHNSON:

The Sons of Portsmouth—We give them a hearty welcome—may the same calling that took them from their homes, soon call them back again, viz. business and employment.

By same:

"It is impossible not to love the thought, and the man who made the thought,—that the States of the Union, distinct as the Billows, are one like the Sea,"—and may we not add; the wisdom of our forefathers, rising from the mighty deep, which beseeches us to avoid the breakers which they so safely shunned.

By JOHN CHRISTIE:

The Declaration of Independence—May the Supreme Judge of the world, to whom the signers of that glorious instrument appealed for the rectitude of their intentions, grant that the truths therein promulgated may speedily pervade the globe.

By Lieut. J. A. UNDERWOOD, U. S. R. M.:

Our old Teacher—Wm. C. Harris, Esq.—Wherever we rove, other teachers we see—Others to love, but none like thee.

By B. D. LAIGHTON, of Stratham:

The 4th of July, 1853—Its celebration in "old Strawberry Bank" will furnish materials for a bright page in her history; in that upon that day the dust which had gathered upon the "old family record" was swept away.

BOSTON, July 7.

Friend Chronicle:—When Mr. Fields was called out at the Dinner, the south end boys gave him three cheers. If I had been in the tent when Shillaber was called for, I should have given the following:

What if the south end boys have their Fields, we of the north have our Mifflin's Geese to roam independently over them; and then it is the residence of the far famed Mrs. Partington, and the birth place of that young rascal Ike,

Who stole
The sugar from the bowl,
And put it in his Carpet Bag.
In haste, J. Dearborn.

INCIDENTS.

Among the visiters at the late gathering here, was Wm. Bailey, Esq., printer, of Bristol, R. I., where he is the publisher of a newspaper, and was under the late administration connected with the Custom House. He was an apprentice in the office of the N. H. Gazette, to Mr. Wm. Weeks, and his family belonged here, but he believes them to be all dead.

Another visiter, who had not been here before for twenty years, was here at that distant period at the burial of his mother, and ordered and paid for a gravestone to mark her resting place; but at his late visit he could find no such stone or grave, (though they may be together and all right.)

THE WHITE MOUNTAIN NIGHTINGALES filled the Cameneum with their melody on Thursday evening—and the auditory filled the boxes—but the pit would have held a hundred more. We are sorry it didn't: for these two girls of 13 and 15 years or so, are a duett of rare power and sweetness. They are not only juvenile singers of great promise, but could even now take a very respectable rank among older vocalists.

☞ Those friends who have occasionally furnished us with beautiful boquets, have our sincere thanks for their anonymous favors. That "last best" token of remembrance, in the shape of a basket of goodies, alas! we fear was more acceptable to *some* of the Chroniclers, than things more ideal.

I. O. OF O. F.—At the regular weekly meeting of New Hampshire Lodge No. 17 I. O. of O. F.—held on the 5th inst., the following officers were installed for the current term:—Samuel Gray, N. G.; Wm. B. Grogan, V. G.; S. D. Scriggins, P. S.: Wm. C. Hatch, R. S.; James M. Locke, Treasurer.

☞ The Fire at Gerrish's Island, on Thursday, as we understand, burnt over a surface of fifteen acres of woodland; and is supposed by the islanders, to have been kindled by a chowder-party from this city, who went on shore there that day to cook their fish.

☞ The Universalist Church in this city will be closed to-morrow and the next Sabbath.

☞ To each new subscriber who pays for the Daily in advance for a year commencing August 1st, 1853—we will supply the paper without charge to that date.

"Dear me!" said Mrs. Partington, and so she is dear—not that she meant so; because under that black bonnet is humillity, and self-praise forms no part of her reflection. It was a simple ejaculation, that was all; our word for it. "Dear me, here they are going to have war again over the sea, and only for a Turkey, and it don't say how much it weighed either, nor whether it was tender, and Prince Knockemstiff has gone into a miff, and the Rushin bears and Austriches are all to be let loose to devour the people, and heaven knows where the end of it will leave off. War is a dreadful thing—so destroying to temper and good clo'es, and men shoot at each other jest as if they was gutter purchase, and cheap at that." How sorrowfully the cover of the snuff box shut, as she ceased speaking, and the spectacles looked dewy, like a tumbler in summer-heat filled with ice water, as she looked at the profile of the corporal with the sprig of sweet fern above it, and the old sword behind the door. What did Ike mean as he stole in, and deposited some red articles under the cricket upon which her foot rested, and then stole out again? A hissing sound followed—crack! snap! bang! whiz! went a bunch of crackers—and Mrs. Partington in consternation and cloth slippers, danced about the room forgetful of distant war in her present alarm. Ah, Ike!—*Boston Post.*

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

DARING ROBBERY.—The jewelry store of Cushman & Hobbs was broken open and robbed on the evening of the 4th,—the clerks of the store were absent at the fireworks. The robbers obtained entrance by breaking the window sash and glass in the rear, accomplices firing bunches of crackers all round the building, so as to drown the crash of the falling glass. Some 60 or 70 watches were taken, a large portion of which belonged to customers; besides these, the store was swept of all its highest costly gold rings, pencils, watch chains, ear rings, &c.—the whole amount carried off being between $2500 and $3000 in value.—*Portland Advertiser.*

THE NEW YORK RIOTERS.—James Sanders, the Marshal of the Irish Society which was engaged in the riot in New York on the 4th inst., has been held to bail in the sum of $5000 to answer to the charge of riot and assault. The rest gave bail in the sum of $500 each to answer to a similar charge. Not content with beating the driver so badly that his life is despaired of, the Hibernians dragged a boy about 15 years of age out of the omnibus, and maltreated him cruelly. It said that two Irish policemen interfered with their brother officers, and tried to prevent them from arresting the rioters; and one of them who was entrusted with a prisoner let him go. They have been discharged.

Pierre Toussaint, an aged negro, died last week in New York city, of the gout, and left about $50,000, and a noble character; although rigidly religious, he was generous in his charity, and kind and sympathizing with all who suffered. He was a slave in St. Domingo, fled from that island with his mistress in 1778, and after arriving in New York was her sole support during her life. As a lady's hair-dresser he was long patronized by rich families.

NEW SHIP BURNT.—The Portland Advertiser states that a new ship on the stocks on Cape Elizabeth side, of about 1500 tons, was discovered to be on fire about 2 o'clock Wednesday morning, and was entirely destroyed. She was of the clipper model, and was all ready to be planked up. The fire, which was doubtless the work of an incendiary, took in the work shop. Loss estimated at $30,000 to $40,000—no insurance.

The Argus states that she was building by Mr. Thos. E. Knight, for Nath'l Blanchard Esq., Portland, and was to be called the India.

FIRE AND LOSS OF LIFE.—On Wednesday night a fire took place in Hanover street, Manchester, burning the second story of a house occupied by Irish families, and also badly burning several of its inmates. One of them, named John Sullivan, has since died. Three women with children in their arms jumped out of the second story windows, and escaped with slight injury. The Mirror states that an old lady, aged 50 years, and her daughter, aged 18, jumped from the third story windows, and both escaped with slight bruises.

☞ The Post Office Department has notified Mr. Nesbitt that they will receive no more envelopes with his seal on the back.

MR. H. O. Macomber and others have obtained from the New Hampshire Legislature, just adjourned, a charter for building a carriage road to the top of Mount Washington, with a capital of $50,000. It is, we understand, to be commenced immediately, and is to start from some point in the Peabody valley.

The Kennebec Journal of Thursday, published at Augusta, Maine, says:—"Marshal Jones, has, within a week, taken possession in the name of the law, of several parcels of liquor arriving at the Augusta depot, comprising five barrels of rum and a keg of brandy."

James McMann, aged 15, was killed in Chicopee, on Tuesday of last week, by being thrown from a race-horse belonging to James Turner. The horse became frightened at the explosion of fire crackers.

A poor man named Henry, died at Richmond, Va., in the "valley," and his wife, going up to town for the hearse, was overcome by heat and heat, and fell dead in the road. Both were borne to the same grave.

Rev. Mr. Bingham, an Episcopal minister, formerly of Vermont, died very suddenly, recently, in Dodge County, Wisconsin, as is supposed from nightmare.

Dr. H. receives visits, makes examinations, ascertains the cause of disease, describes the *precise* condition of the *patient*, furnishes prescriptions, medicines and recipes for his Nutritive Fluids and cordials.

PROF. ALEX. C. BARRY'S
Tricopherous, or Medicated Compound.
FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.
It is unnecessary to present at length the evidence of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself. The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales for this year will be a million and a half of bottles.
Depot and manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.
Liberal discount to purchasers by the quantity, and to the principal Merchants and Druggists throughout the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston.

IMPORTERS AND JOBBERS OF
Rich Silks, Paris Dress Goods, Shawls, Gloves, Embroideries, White Goods, Ribbons, &c., invite the attention of Merchants from all sections to their unrivalled assortment of
Silk and Fancy Dry Goods,
Imported with special reference to the wants of first class buyers, and in three important particulars, viz.: TASTE, VARIETY AND PRICE, believed to be unequalled.
Messrs. E. L. & Co., having been engaged in this business for many years in Philadelphia, where the taste is not unlike, in many respects, to that of the Northern and Eastern States, they would call particular attention to their styles, many of which are controlled entirely by them.
It having been remarked that our business is almost exclusively Southern, we would beg leave to say that our goods are adapted to every section of the United States, *Northern, Southern, Eastern and Western*, and that in style and price they will be found equal to any other House.
On and after Dec. 1st next, we shall occupy our New Marble Warehouse, now being erected, No. 55 CHAMBERS St., 4 doors from Broadway, directly opposite the Park.

MARRIAGE.

Happiness and Competence.

WHY IS IT!
That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of perfect health, should be predominant.
Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.
IN AFTER YEARS,
When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.
What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is
MELANCHOLY AND STARTLING
To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still—not incurred, if every
WIFE AND MOTHER
Possessed the information contained in a little volume, (within the reach of all) which would space to herself
YEARS OF MISERY,
And to her husband the constant toil and anxiety of mind, occasioned by denying him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.
SECURE THE MEANS OF HAPPINESS
By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.
In view of such consequences, no wife or mother is excusable if she neglect to acquire herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly
HALF A MILLION COPIES
should have been sold.
It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as she can well every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

Mauriceau, as there are spurious and surreptitious infringements of copy-right.
LET EVERY WIFE AND HUSBAND PONDER!
No excuse for Ignorance, when Ignorance is likely to those we hold near and dear, and when to dispel our Ignorance is within our reach.
To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravage upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents*, together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

POLYGAMY.—On Tuesday afternoon a young woman about 20 years of age, handsomely attired and wearing a bridal hat, applied at the Police Court in Boston, for a warrant for the arrest of a young man to whom she had been married two weeks only. She briefly stated the facts in the case to Constable Vialle. The court granted a warrant, and on Wednesday morning Mr. Vialle arrested at his place of business in Blackstone street, Mr. Dolfro P. Gonsalves, a Spaniard by birth, who is charged with the offence of polygamy.

The young woman states that he represented to herself and friends that he was a widower with one child, a girl; that he wooed and won her, and that two weeks since they were married. On the 4th inst. the little girl came running into the house where they resided, and said she had seen her other mother in the street, and she wanted to go and live with her real mother. This circumstance led to the discovery that Gonsalves had a wife alive in this city. The man will be examined to-day or to-morrow. The young person thus imposed upon is represented as a worthy, virtuous woman, and her friends will see that all lawful means are taken to the end that justice may reach the offender.

DR. CONINE'S
SYRUP OF GINSENG & MALVA.
The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom
AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

READ! READ! READ!
DR. HAMPTON'S
VEGETABLE TINCTURE!
The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & *Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,*

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

JNO. H. T. JEROME.

A Voice from the Birthplace of Christopher Columbus, the Discovery of America.

U. S. SHIP CUMBERLAND,
Genoa, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,
VERNON ESKRIDGE, Chaplain U.S.N.

INTERESTING FACTS

are constantly coming to light, from different parts of the country, showing the astonishing effects of the fair and faithful use of these Lozenges. HERE IS ONE LETTER,

from a citizen of Portsmouth—and but a sample of hundreds:

PORTSMOUTH, N. H., May, 1853.

This is to certify that I consider Devines' Compound Pitch Lozenges a valuable article for what they are designed—the best remedy before the public. My son had a very severe cough, which threatened speedily to carry him off; and nothing seemed to give relief, until I tried these Lozenges, —which produced signs of relief in a few hours, and after the taking of a few boxes, wholly removed his cough. PROF. ALEX. C. BARRY'S

Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 250,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself.—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot at the manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity, and by the principal Merchants and Druggists throughout the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22*

DAILY
Morning Chronicle.
PORTSMOUTH:
MONDAY, JULY 11, 1853.

SOUTHERN CONVENTION.

That widely circulating journal, the New-York Herald, in a late editorial, speaking of the late Southern Convention, says,

"The South will stretch every nerve to build the great Pacific Railroad, she will arouse her sons to industry and the pursuit of wealth, and then she will appeal directly to the North to assist her in crushing her enemy fed upon its soil. It is well understood that after not more than one or two years the Southern Convention will adjourn to assemble in the heart of the Northern States, for the very purpose of testing public opinion; to see whether a moral alliance can be effected between the North and South, which shall forever crush this opposition to Southern slavery. And if such an end cannot be consummated, then dark are the predictions for the future. We cannot look upon this Southern Convention but as a proof that the Union and Northern hostility to Southern institutions cannot live and thrive together. The fact has gone forth that one of the two must be sacrificed."

We wish the Pacific Railroad all good success, and hope the South will arouse her sons to industry. If so, all will be well. Industry, honorable industry, is exactly what she wants.

The idea of a southern convention in the heart of the Northern States is odd enough, for any purpose—but when it comes to be added that its subject is to convert the north into a love of slavery, it is utterly preposterous.—All that is said about northern hostility to *southern* institutions, is founded in a grand mistake. Northern education and religion is hostile to slavery, not because it is southern, but because in their view it is an evil and a wrong. And therefore there is no such thing possible, as making a moral league which can "crush opposition" to it.

The business of crushing opposition by a moral league, has been carried on by the British government in Ireland for a hundred years, but it is not yet crushed: The people have been crushed, and the island greatly injured, but the opposition and hatred of the British civil and ecclesiastical institutions are as intense and as bitter as ever.

The way to catch Yankees is not to crush or drive,—but to buy, coax or wheedle. And as for fears about the Union, the common people laugh at the old bugbear cry of politicians who have used "Dissolution" as a clap-trap, ever since the days of the Hartford Convention

COMMON SCHOOLS IN NEW HAMPSHIRE.

A friend has laid on our table the Seventh Annual Report upon the Common Schools of of New Hampshire; the same being the third annual report of the Board of Education, June 1853. It is a handsome pamphlet of 200 pages, containing an immense mass of valuable information relating to schools.

There are 90,297 pupils on the school lists: pupils in the summer schools 57,193; in the winter 69,665. Average attendance in summer 44,507; in winter 54,606. Teachers, males, in summer schools 52; females 2025; males in winter 1166; females 1082.

The number of chilren between 4 and 14 years of age not attending school anywhere, is 3536—and the number of persons between 14 and 21 who cannot read and write is 76.

Correspondence of the Chronicle.

SOUTH BERWICK, July 9, 1854.

A sad accident occurred here yesterday.—Two young men by the names of Ezra Durgin and Charles Goodwin went to Rocky Hill, a gunning; as Durgin was about to get over a stone wall, he put his foot up to tie his shoe, and rested his gun by his side with the muzzle near his throat. The foot on the wall displaced a stone which fell against the gun and discharged it; the whole charge entered his neck and came out at the back of his head killing him instantly. He is the son of Chas. Durgin, and is the first who has died out of a family of thirteen children.

HARD CASE.—Mary Hay, a Protestant Irish woman, who had been drinking some strong beer, in Boston, on the 4th, got into a quarrel with a Catholic family, and was sentenced in the Police Court on the 7th, to the House of Correction for two months. Mary has twins at home, and the "maternal founts" were nearly bursting with the milk for which her children were pining at home. J. C. Clure interested himself in the case, and procured the woman's release upon bail. Her religion must have been of a strange description.

☞ The Rev. J. T. Bowen, J. H. Lacy, and J. S. Dennard, Baptist Missionaries to Central Africa, with their wives, embarked at Boston, Wednesday, for Lagos.

A fiend in Providence, named Cushman, who had a fine, but contrary horse, finding the whip of no avail, took the singular and cruel mode of making him draw his load, by placing under him a bundle of straw and setting it on fire—this even did not make the animal start, although burnt in a most shocking manner: he has been in the most excruciating torment ever since.

LOCAL.

SHORT PASSAGES.

The Boston Daily Advertiser says, the clipper ships Staffordshire, and Witch of the Wave, have in succession made the shortest passages from Calcutta to the United States. We have now to notice the shortest from this country to Gibraltar, made by the new clipper bark Wildfire, Capt. Mosman, of and from Boston, May 13, for Malta, which passed Gibraltar in only fourteen days. This run to Gibraltar, we believe to be without a parallel. A gentleman intimately acquainted with the intercourse between Boston and Gibraltar, says the passage between the two places has never been made in less than sixteen days and three quarters.

"Upon the authority of a mercantile house of the first standing in Batavia, we learn, says the Advertiser, that the clipper ship Nightingale, of Boston, Capt. Mather, has accomplished the distance between London and Anjier in the shortest space of time known. The Nightingale left London, Feb. 5, bound to Shanghai, touched at Portsmouth, and sailed thence Feb. 10. She passed Anjier April 23, in seventy-two days. This was accomplished under the disadvantage of springing her bowsprit and losing several sails during boisterous weather, in latitude 10 S., longitude 102 E."

Now two of these fast ships, the Witch of the Wave and Nightingale, are Boston ships exactly in the same sense as the Portsmouth sons, who were down here on the fourth, are Boston Boys—and in no other sense. The boys were born here, and the ships Witch of the Wave and Nightingale were built on this river. The boys moved to Boston and so did, the vessels;—both now hail from thence.—But when we see a fast ship or a great man named, we always look to see if the brilliant career did not commence on old Strawberry Bank, or on some other bank on the old harbor of Piscataqua.

A FORGERY.

Mr. Carl Meinerth, of this city, teacher of music, authorizes and requests us to say that he is not the writer of some "Musical News," in a letter dated from this city, and published in the Musical World and Times, which is signed Karl Meinerth, and which assumes Mr. Meinerth's character and occupation here.

Some suspicions are entertained as to the writer, and Mr. Meinerth pledges himself to ferret out and expose him if possible.

The article contains several libels and falsehoods, as we can easily satisfy the editor of the Musical World and Times, who has been grossly imposed upon in the matter, and who will doubtless take due care of the Manuscript, envelope, &c., and aid in exposing the thief who steals the name of one neighbor to slander all the rest.

Since writing the above, we have received the following card from Mr. Meinerth:

Messrs. Editors Chronicle:—Permit me simply to state through your paper that the article in the last Musical World and Times is not from my pen, although my name is signed (wrongfully Karl, I write always Carl,) to it. It needs scarcely this my statement, as it is evident, that no man with common sense will ever believe that another man with common sense would write such an article for publication with his name fixed under it. Notwithstanding, I will endeavor to give every one interested in the matter, clear evidence of the forgery. CARL MEINERTH.

LECTURES ON GEOLOGY.

We rejoice at the prospect of having Lectures on Geology delivered in this city, by a lecturer so competent and so popular as Dr. Boynton, whose advertisement for the course is in our columns to-day. Dr. Boynton's credentials from abroad are ample, and in this city he has liberty to use the following recommendations.

We hope he will fill the house, and meet an adequate reward, while he shall interest and greatly instruct the attendants on his lectures.

PORTSMOUTH, N. H., July 9, 1853.

We, the undersigned, understanding that Dr. Boynton proposes to repeat in this city his valuable Geological Lectures, recommend him to the patronage of the public:

Charles Burroughs, A. P. Peabody, William Lamson, Ichabod Bartlett, Thomas Holmes, Robert O. Treadwell, Henry D. Moore, C. W. Brewster, Edward N. Fuller, B. Hutchings, T. H. Miller, W. H. Y. Hackett, Geo. W. Haven, Lewis Barnes, N. L. Folsom, Ichabod Goodwin, John H. Boardman, Samuel P. Long, Geo. W. Storer, N. W. Oliver, Albert R. Hatch.

ITEMS.

The editor who can make a good item, can make a good paper, unless he is too lazy.—The City Advertiser, in Charlestown, Mass., overshadowed as it is by Boston papers can rarely give us news, but we always read it when we get time; for it often gives us prime items. Here is one of them.

"The Boston Chronicle cautions the Portsmouth Chronicle to beware of the 'new-fangled drinks,' such as ambrosial mead, muscadine nectar, and Turkish sherbet, which the latter occasionally recommends to the public. We notice that the Cambridge Chronicle also sometimes recommends such drinks, and we have come to the conclusion that the Chronicle family are very dissipated characters any how.

NAVAL.

The U. S. steamer Fulton, one of the fleet ordered to this port, and hence to the fishing ground, arrived at the Navy Yard on Sunday, having left Norfolk on the 6th. The first night out she passed the Princeton, which is also ordered here, and which is to be the flag-ship of Commodore Shubrick.

The following are the officers of the Fulton:

J. W. Watson, Lieut. Com'g;
L. Paulding, Act'g Master;
A. B. Cummings, Henry Wilson, W. Mc Gunnegle, I. Irwin, Passed Midshipmen;
W. Lowber, Pass'd Ass't Surgeon;
R. H. Long, 1st Ass't Engineer;
J. H. Warner, 2d Ass't Eng.;
S. O. Shorey, G. R. Woodend, R. B. Quinn, 3d Ass't Engineers;
O. W. Turk, Captain's Clerk.

☞ The Joiners' shop of the 4th of July Industrial Procession, was sold at auction on Thursday last, for $24.50. On Saturday evening, the arches in Market street were sold for $6.25, to be removed to-day.

PRESENTATION.—On the recent arrival of the ship Frank Pierce, at Boston, the *attaches* of the Custom House in that city presented Capt. Marcy with a fine portrait of the President, as an ornament for the cabin.

☞ To each new subscriber who pays for the Daily in advance for a year commencing August 1st, 1853—we will supply the paper without charge to that date.

A KNOWING HORSE!—The New Haven Republican is responsible for the following:

"Two carriages, one double and the other single, were near being destroyed with their passengers, yesterday afternoon on the New York Railroad. The drivers did not see the passing train until it was close upon them.—The double carriage, however, got over the track. The single horse had his forefeet almost upon the rail. He reared upon his hind legs, *and stood thus like a statue till the train passed by!* It came so near him that it struck the projecting shafts and broke them, but did no other injury. We understood our informant, a respectable gentleman, to say, that he witnessed all this."

OBSCURE WRITERS.—Putnam, at the close of the first volume of his magazine, states that he has received, during the six months of its publication, the greater portion from writers who were previously unknown to him. All this mass of MS. was carefully read, and large numbers of the celebrated articles which have appeared in the magazine, and which have been attributed to the most eminent authors of the age, were produced by obscure writers. The system adopted by Putnam of refusing to publish the names of authors, with their articles, works so well that it will be continued. Each article has to stand on its own merits, which fact gives young men a fair field before the public.

A TRULY NATURAL CURIOSITY.—Capt. Welch of bark Lucilla at Salem, from the coast of Africa, has the only true Ourang Outang that has ever been secured. A person who owned two, and lost them before they had become acclimated, says this is the only true hardy and healthy one he has ever seen. He was taken at Analaboo, and his captor, understanding this medium of humanity and how to treat him, he has arrived in excellent condition.

A GOOD THREE DAYS' WORK.—The whole number of passengers conveyed over the Eastern Railroad on Saturday, Monday and Tuesday, July 2d, 4th and 5th, was *twenty-eight thousand and forty-nine*, exclusive of season and package tickets, which numbered 4000 more. The Essex Railroad carried 2526, and the South Reading branch 1870 during the same time. That this was done without the slightest accident or derangement shows great care on the managers of the road. Indeed we know of no route where more attention is paid to the safety and comfort of the passengers than upon the Eastern.—*Salem Observer.*

The new school law of Ohio, provides for the instruction of "colored" children in every township of the State, and for purchasing libraries for the common schools, in which there shall be no books of sectarian or denominational character.

From the giving away of a ringbolt, on board the London, belonging to the British navy, the cable flew round with such force as to kill Lt. Chapman and six men who were sitting down to dinner, and wounded nine others.

CHEVALIER WIKOFF.—There have been rumors in the papers lately that Chevalier Wikoff is actually going to be married to Miss Gamble, the young lady at whose suit he was sent to prison, in Genoa, for the term of two years. We are happy to know that the rumor is not unfounded. Mr. Wikoff has written to a friend in this city that his marriage with Miss Gamble will soon be consummated, and that they are now on the best terms possible.—*N. Y. Sunday Courier.*

A new mosquito, a tremendous fellow, has appeared in New Orleans. He is such a horrible bore that the Delta has no fears of yellow fever after him. Delightful place, New Orleans, for such of its editors as can afford to live at the north, or in Paris!

The railroad depot at Cecil, opposite Havre de Grace on the Baltimore railroad, has been destroyed by fire. It originated by a spark from a locomotive. The cars, wharves, &c., with the books and papers in the office were saved.

"Down in front! down in front!" shouted an excited individual whose view of the fireworks on the Common was intercepted by a tall chap. "Down! down!" "Whisht," said an Irishman near, "don't be splittin yer trote in that way. Be gorra its likely the man's a *cripple and can't get down!*"—*Boston Herald.*

DOGS.—The Lake Superior Journal has the following talk about dogs, which it will be seen, are decidedly useful animals in that vicinity:

"However much they may play the popular part of 'gentlemen of leisure' in summer, they are far from being 'drones' in winter.—Instead of 'holding up the trains of their long dresses,' they go still further here, and carry the ladies themselves on their *trains;* and not only do dogs draw females on their light sledges, but they transport in the same way, all our *mails* for many hundreds of miles during the winter. No one thinks of making the journey through this snowy region without one or more of these useful animals. Every day in winter these dog trains may be seen in our streets, with dashing harness and tinkling bells, drawing about men, women and children. In their fishing and hunting excursions, the Indians could scarcely do without their dog trains, and this is no doubt the secret of their being surrounded in summer by such an army of fierce looking curs. A respctable train dog will draw a barrel of flour with all ease, over our winter roads, and their power of endurance is wonderful; they will tug before their heavy trains day after day, with only one meal in the twenty-four hours, and that such as your city dogs would turn up their noses at."

RESTITUTION.—The Washington County Post says a chap in a certain village, with whom he is acquainted, having had *sanded* sugar sold to him, inserted in the weekly paper the following:

"*Notice.*—I purchased of a grocer in this village a quantity of sugar, from which I obtained *one pound of sand.* If the rascal who cheated me will send to my address seven lbs. of good sugar, (scripture measure of restitution,) I will be satisfied; if not, I shall expose him."

On the following day *nine seven pound packages of sugar* were left at his residence from as many different dealers, each supposing himself the person intended.

One hundred and eighty seven different articles will be contributed by Ireland to the Crystal Palace Exhibition. A large number of these consist of works of art and fancy. The collection is the result of the efforts of a single individual.

RAILROAD ACCIDENT.

Philadelphia accounts of the 8th, state that the name of the fireman who was killed at the railroad accident near Wilmington, is Reuben Titus. The accident was caused by the carelessness of the draw-tender, who set the wrong signal. The engine, tender, and four cars went over. The coroner held an inquest at Wilmington to day upon the bodies of Charles Girvin, engineer, and Reuben Titus, the fireman, at which James Darly, the bridge tender, stated that after closing the draw at midnight for the down train, he opened it again to permit vessels to pass; feeling weary he entered his house, a few yards from the bridge, sat down and fell asleep, without intending to do so; was suddenly aroused by the whistling of the approaching train; ran out greatly alarmed, and in a bewildered state; thinks he may have waived his lamp, but was not certain; before he could recover his presence of mind the train was through the draw. The wife of Darley confirmed the above; saw her husband run out and raise the light. The rules of the road are that the engineers are to run slow on approaching the bridge; the tender is to raise a light if all is right; if no light is exhibited the train is to halt. Darley is almost crazy, and attempted lo commit suicide by drowning. He is now, however in custody. The verdict of the jury is, that James Darley, giving the engineer the usual signal that all was right when he had neglected to put on the draw, the engine and cars were precipitated into the Red river, causing the said Charles Girvin and Reuben Titus to suffer death. Girvin and Titus were both young unmarried men.

ACCIDENTS OF THE FOURTH.—At Mount Carmel, Ohio, William Stewart was blown to pieces by a bursting swivel, and died in agony. In Cincinnati a lady's clothes were set on fire by a "serpent," and she was badly burnt.

At South Williamstown, Mass., Mr. Comstock was thrown from a carriage and killed, his horse having been frightened by a fire cracker. At Sandisfield, Henry Spencer, a colored boy, was fatally burnt with powder.—John Forrest, of New Marlboro', lost a hand by the bursting of a gun, and John Leonard a foot by the bursting of a connon.

Mr. Hughes, an aged gentleman, formerly an Indian interpreter, and in the employ of the Hudson Bay Company for forty years, was instantly killed while crossing the track of the Mon real and New York railroad at Montreal on Thursday evening. His horse rushed on to the track, the carriage was smashed, and the horse torn to pieces.

Samuel Terry, and Mrs. Hill, wife of Cary Hill, were drowned in Mystic river, Conn., by the upsetting of a small boat in which they were taking a holiday sail. Both of the deceased left families.

On the evening of the 4th a fracus occurred in Norfold, Va., between George J. Churchwood and Wm. Searls, during which, the former discharged three shots at the latter, all of which took effect. Searls then turned upon his antagonist and stabbed him in four places, killing him on the spot. Both were young men, under the influence of liquor. It was thought Searls would also die of his wounds.

THE FOURTH IN SALEM.—Our Salem friends made a little fun on the fourth out of Mrs. Partington. The Register says that Mrs. P. and Ike were arrayed and appointed with exemplary regard to the fitness of things. Mrs. P.'s spectacled countenance was irradiated with her well known benevolent expression, which even Ike's furtive inroads upon the sugar basin could not alter. Among the inscriptions on the carriage that bore them was the following:—

"It does my heart good to see them old gentlemen in the carriages. They are the *revolutionary soldiers* of 1812. Poor Paul was out in that war, and, Ike, take warning from their virtues."

FATAL ACCIDENT.—The North Adams Transcript says that an elderly man, named Comstock, was killed at South Williamstown, on the 4th. While riding in his wagon, his horses were frightened by the explosion of fire crackers, which were thrown under them by boys, and the horses running, Mr. Comstock was thrown out, and injured so that he died in a short time.

"IN DEATH THEY WERE NOT DIVIDED."—Yesterday, a pretty little boy, scarcely five years old, while playing on some logs in the Hamburg canal, suddenly slipped and fell into the water. His little sister, a brave child ten years old, being near and seeing him sinking, flew to his assistance, and throwing himself fearlessly into the canal, and struggled to rescue her perishing brother. Alas, a two-fold fate was there for them. The poor boy sank for the last time, and his noble sister was herself drowned in her fruitless efforts to snatch him from a watery grave.—*Buffalo Republic* 27th.

THE GREAT EXHIBITION.—It is stated that Queen Victoria has sent to the Crystal Palace, a striking picture by Winterhalter, the subject of which is "The Opening of the London Exhibition." It is said to be a remarkable painting. The N. Y. Herald says that there is good reason to expect that a collection of articles from Turkey will yet be added to the exhibition. The collection of products and articles of curiosity from Japan are expected in New York in a Dutch sixty gun ship of war, during the present month.—The Dutch government has appointed a commission to attend the exhibition.

The corner stone of the first Protestant church in New Mexico was laid at Sante Fe, on the 21st of May, with addresses in English and Spanish.

IMPORTANT DISCOVERY.

DOCTOR ALFRED G. HALL,

AUTHOR of the New Theory of cure by the NUTRITIVE PRINCIPLE, in Physiology and Medicine, sustaining the laws of life and removing the cause of disease, confirmed as a NATURAL SCIENCE by the Nutritive Process; expelling dead and depositing living matter at the same time in the Body, increasing its weight and strength while under treatment, being the great discovery of the constitutional power resisting disease; ample proof can be given in the person of any invalid.

Dr. H. receives visits, makes examinations, ascertains the cause of disease, describes the *precise* condition of the *patient*, furnishes prescriptions, medicines and recipes for his Nutritive Fluids and cordials.

Three months' attention and treatment is requisite in all cases, with printed instructions, for diet and washing, and the use of the Alkaline Girdle for the spine and kidneys—a restorative action is produced in all parts of the system immediately by the natural laws sustained by nutrition.

He is the inventor and sole proprietor of 12 nutritive fluids; they can be made by any family—are adapted to the several temperaments, and to every form of disease. His works, "Views of the New Theory, &c.," "Womanhood," and the "Mother's Own Book," are furnished to invalids under his supervision. It is now before Congress.

Doctor Alfred G. Hall may be consulted by letter, or in person at his rooms, No. 13 Winter St., Boston, from 10 A.M. to 5 P.M. ☞ Medicines, &c. forwarded by Express to any part.

IMPORTERS AND JOBBERS OF

Rich Silks, Paris Dress Goods, Shawls, Gloves, Embroideries, White Goods, Ribbons, &c., invite the attention of Merchants from all sections to their unrivalled assortment of

Silk and Fancy Dry Goods,

Imported with special reference to the wants of first class buyers, and in three important particulars, viz.: TASTE, VARIETY AND PRICE, believed to be unequalled.

Messrs. E. L. & Co., having been engaged in this business for many years in Philadelphia, where the taste is not unlike, in many respects, to that of the Northern and Eastern States, they would call particular attention to their styles, many of which are controlled entirely by them.

It having been remarked that our business is almost exclusively Southern, we would beg leave to say that our goods are adapted to every section of the United States, *Northern, Southern, Eastern and Western*, and that style and price they will be found equal to any other House.

On and after Dec. 1st next, we shall occupy our New Marble Warehouse, now being erected, No. 55 CHAMBERS St., 4 doors from Broadway, directly opposite the Park.

MARRIAGE.

Happiness and Competence.

WHY IS IT!

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of exhibiting that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaint, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been SENT BY MAIL within the last few months.

Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents*, together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom *AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.*

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. R. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND,
Genoa, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,

My son had a very severe cough, which threatened speedily to carry him off; and nothing seemed to give relief, until I tried these Lozenges, —which produced signs of relief in a few hours, and after the taking of a few boxes, wholly removed his cough. MR. FIELDS'S SPEECH AND POEM.

The 4th regular toast at the late collation in this city, was

4. Our visitors, the Sons of Portsmouth.

James T. Field's was loudly called for in answer, and after receiving the cheers of his brethren of Boston, was saluted with "three cheers to the schools of Portsmouth, and the teacher of James T. Fields," from the New York delegation. With some emotion he proceeded to say:

"What shall I say to you? How can I find wordsto thank you for this kind,kind welcome? I was afraid, when I saw this morning, the gathering crowds nestling about our common mother, this dear and beautiful old town, I was afraid she would be placed in the same awkward situation with that elderly dame spoken of in the story book, who dwelt in the tenament of learner, *and had so many children she did not know what to do.* But my fears were groundless, for we discovered at once that the shoe did not pinch anywhere. We found a welcome so warm and earnest that we felt assured there was room enough and cheer enough for all; that this is indeed the wanderer's amplecharbor and the pilgrim's welcome home.

It is reported of an expedition to the Holy Land, that when the army came within sight of Jerusalem, beholding the glories of that ancient city, filled with the memories of its buried past, they were so transported with joy that the earth rang with their shouts of rapture.—Something akin to that feeling, then and there expressed, seem to animate and burn within us to day. Self possession and calm collected thought are entirely out of the question. Belted round with troops of friends, every face beaming a welcome, every eye kindled with affectionate interest, every voice taking the tone of recognition, no wonder that a man loses almost his power of utterance in that choking sensation which somehow quite overmasters him and will not be subdued.—Thus vanquished, thus deprived of the power adequately to acknowledge what we all feel, here and now, the unbidden tear, which speaks the universal language of the human heart, seems to me the most natural and fitting expression of what is throbbing at the great seat of life. If we had come among you unknown and unknowing, strangers from a far off country, claiming your hospitality simply on the ground of humanity, we might be more ardent in our words and bolder in our thanks. But you take us by storm, you flock around us like a band of brothers, and make us feel like children of the same kind mother who has called us back under the old maternal roof, to sit once more around the family table, and listen again to those words of love and counsel that fell so like music upon the listening ear of childhood. But if I may trespass longer on your kindness, I must try to tell you my thoughts about the matter in a few simple, hasty, but hon rhymes.

Mr. Fields then read the following poem:

Hark! 'tis the ringing bugle's swell,
The crashing cannon's flame,
The echoing shout, the pealing bell,
Our festal mom proclaim!
Whose blood can creep thro' sluggish veins?
What pulse will leg to-day?
Look where among the hills and plains
Our native banners play!

Stand still, thou ever-restless tide,
Thou stream with memories rife,
And let us muse once more beside
The fountain-springs of life.
Ye days of boyhood's golden prime,
Ye hours that flew so fast,
Oh, stay—come back, thou vanished Time!
Return, thou buried Past!
Thou stern and silent mouldering Past,
Unveil thy marble tomb,
And let the lifted blazing torch
Thy pallid form illume!
In vain; 'tis dumb and will not speak
Till memory's magic wand
Calls back the life-blood to the cheek,
And bids those lips respond.

I see the dark-hung drapery rise,
The dusty folds unclose,
And view beyond our childhood's skies
In calm and sweet repose.
One moment, and the curtains fall,
The *present* hides the scene,
While other voices round us call,
And fades what once has been.

Go, seek the rosy western light,
That yester eve was there;
Bring back to manhood's longing sight
Forms that were once so fair!
Alas! those shining hues are fled,
Gone like that closing day;
And we must seek among the dead
Beneath yon churchyard clay!
This wandering breeze that fans the stones
Where oft we've gone to weep,
Will almost bear these idle tones
To where our loved ones sleep.
But here, unseen, we know they meet,
Who left this spot in tears;
Yes, viewless saints! your forms we greet
Who nursed our infant years!

Ah, changing world! ah, fleeting joys!
Hopes that like suns arose
On us a troop of happy boys
Have melted like the snows!
The very games that once were fun
Are grim and tedious now;
'Tis *toil* that rules each weary son,
'Tis *care* that stamps the brow.
We used to "run the gauntlet" then,
And think the sport divine;
Ah me! the gauntlets *now* we run
Are very far from fine!
To grub and dig—for *ampler* time
How hard we used to beg;
But now we groan and shudder when
We kneel to "gnaw the peg!"

Too long our weary feet have trod
The thorny paths of care,
But now above our native sod
We feel life's purer air!
Too long the wanderer turned his eyes
In quest of worldly gain;
To-day he seeks for brighter skies,
And walks his *native* plain!

Oh, take us back with all our years,
Ye treasured haunts of youth!
Forgive a few fond foolish tears,
The heart's warm stamp of Truth!
We come in manhood's riper hours
To lay our garlands down,
And braid a wreath of fresher flowers
For thee our native town!

God bless the spot we love so well—
The earth has none more fair;
'Tis honest pride,—our bosoms swell
To breathe their native air!
Come, lads, a cheer to speak our joy,
While here our flag unfurls—
A health for Portsmouth man and boy,
And don't forget the girls.

PROF. ALEX. C. BARRY'S
Tricopherous, or Medicated Compound.
FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself.—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The high point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot and manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity. and by the principal Merchants and Druggists through the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22

PORTSMOUTH:
TUESDAY, JULY 12, 1853.

COURTESY AND CONTROVERSY.

The Pilot contains a correspondence between the Rev. Dr. Cahill, a clergyman of the Roman church, at Letterkenny, Ireland, and five clergymen of the English church, also resident in Ireland. These five clergymen had heard Dr. Cahill deliver a doctrinal and controversial sermon; and they sent to him a request that he, (and four other priests if he pleased) would meet them in a public discussion, on one or two of the controverted points which he handled in his sermon.

They made this request in so neat and unexceptionable a letter, that Dr. Cahill himself speaks of it as a "polite note, dictated in a spirit of great courtesy, and having stamped on it the clear impress of the distinguished character of the gentlemen whose names it bears."

Notwithstanding this, he goes on to answer them in the most approved style of priestly assumption, of which we cut out some choice specimens. We refer all who would read it in full, to the Pilot of July 2.

"Firstly, then, I solemnly deny, and I conscientiously protest, against your unauthorized assumption of calling yourselves "The ministers of God and the ambassadors of Christ;" and I complain loudly of your most unjustifiable intrusion in designating your modern local conventicle by the name of "the Catholic church." Gentlemen, I assure you I do not mean, even remotely, to utter one offensive sentiment to you personally by telling you that you are *libelling God*, and *calumniating the apostles* in using this language."

He then speaks of the thirty-nine articles, and of the acts of Parliament and the power of the Crown, touching the church, and says.

"You are, therefore, judicially and officially the mere creatures of the State, and you wear your surplices and preach by precisely the same authority with which a midshipman wears his sword or a Queen's counsel appears in a silk gown—you derive your jurisdiction from an authority at which the very Mahomedans stand in stupid amazement, viz.—an authority which places a child in a cradle, a young girl in her teens, or a toothless old hag, in the place of the twelve Apostles, standing in the footsteps of Christ, the seat of wisdom, the oracle of divine truth, and the expounder of revelation." * * * * * * *

"Again, all Christians of all denominations admit that the repeated pledges and promises of Christ guarantee the indestructible existence of a true church for ever on the earth.—The word of God the Father, fixing our sun in our skies for ever, is not more clear and emphatic than the word of God the Son, in placing the true church in a permanent, unclouded existence on the earth for ever. At the time of your separation there was only this one universal church on the earth; there being but *one* in existence, it must have been this true one so guaranteed. You have avowedly separated from this church: and at that time, in order to mark the doctrinal character of your conduct, you called yourselves by the appropriate name of Protestants.

Come in your own clothes as Protestant ministers, parliamentary ambassadors, modern biblemen, from a petty district, but you shall not assume the mark of the universality of time and place while I am present. Like sparrows hatched in an eagle's nest, I shall teach you that, although you have been born near us, you have neither the shape, colour, nor genealogy of the royal breed of the apostles under whose wings your church has been fraudulently introduced and nurtured into an illegitimate existence." * * * * * *

"In consequence of the existence of an infallible authority of framing our laws and promulgating our faith, it would be clearly an act of the most palpable inconsistency to subject to your decision or to the award of a public meeting of fallible men the doctrines already fixed by an unerring tribunal." * * * *

"Within the last twenty-five years, I have seldom read the proceedings of any Protestant assembly on matters of religion, in which the principal topics have not been, viz., "The *usurped* infallibility of the Church of Rome and the *new* articles of faith of the Roman church." The ancient Protestant clergy of Ireland did not utter these falsehoods—they lived contented with their tithes and enjoyed their glebes and drunk their claret without this eternal calumny of the plundered Catholics. But within the last quarter of a century, a swarm of young clerical aspirants invade all the public places, and stand in all the thoroughfares, and are heard on the four winds roaring and bawling, wherever you turn, against the church of Rome. * * * * We cannot in these days instruct our people without public insult, nor can we defend our doctrines from misrepresentation without sickening challenges from schoolboy declaimers, raw *jejune* clerical graduates seeking notoriety in the service of God (!) by falsehood, malignity, and sedition." * * * * * *

"*If*, then, our doctrine of an infallible tribunal *be true*, as it is, it follows that a general council, directed by the Holy Ghost, stands in similar circumstances (as far as Revelation goes) with this Theocracy, and hence that these new decisions, so far from being new acts of faith are, on the contrary, the best evidence of the already universally received opinions on the point decided." * * * *

Now we have cut these patches out from their connexion somewhat, but the whole letter is fully equal to these samples;—and to us they are beautiful specimens of begging the question, of assuming the point at issue, and of berating opponents with whom we will not or cannot argue fairly.

The whole letter is a fair specimen of the manner in which the Roman church assumes infallibility and supremacy in all matters whatever—and of the manner in which the priests answer all who dare to call in question the propriety of her assumptions.

Our intelligent men of all opinions, ought to keep posted up in the modern phases of Catholicity, on both sides of the Atlantic They are liable to constant mistakes, if they do not.

WORLD'S FAIR YACHT RACE.

The New York Spirit of the Times thus speaks of a novelty in ship building, represented in a well executed painting from drawings and designs made by a New Yorker, of a three-masted schooner rigged as a new model yacht:

She certainly presents a very rakish trim, and if when built she realizes the calculations made in relation to her sailing qualities, ship builders and nautical men will be surprised with a speed never before attainable with a sailing vessel of any size. She is designed to be one hundred and fifty feet long, thirty-five feet beam. Upon her three masts she will carry, when under full sail, the immense spread of 15,000 square feet of canvass. The main jib, fore, mizzen and main sails, will contain 10,000 feet—the remaining 5000 feet will be spread aloft in light weather in ten additional sails, rigged so as to be quickly run up or down from the deck without going aloft,—these additional sails consisting of gaff topsails, flying jibs, stay-sails, square-sails, &c. Many new features will be introduced in the rigging and spars of the vessels, to give her lightness and great strength aloft.

With these features, combined with the peculiar cut and manner of working the sails, and the advantage of the model, she can be run closer hauled on the wind. A new and ingenious device will be applied to the jib, fore and mizzen sails, by a self-operating sliding boom, to stretch the lug part of the sails past the masts. She will be steered by a new plan, and many new features will be introduced in the construction of the hull, to give it lightness and strength. A new feature in ballasting the vessel will be introduced, by which she will be very stiff under her great spgead of canvass in a heavy wind and rough sea. She will be very sharp, and yet from her peculiar model will have great buoyancy and easy displacement of water.

"BLUSHING HONORS THICK UPON HIM."—The editor of the Nashua Telegraph has been commissioned by the Governor of New Hampshire a Justice of the Peace. He remarks in relation to the appointment—

It is none the less gratifying that it is not the reward of any political service, but a token of good will from one with whom we have shivered many a political lance, and an evidence that however men may differ politically or otherwise, it does not follow that there may not be underlaying and modifying all, the sincerest personal respect.

As soon as we are "qualified" in other respects, we intend to be "qualified" in a legal respect. We shall then be prepared to start our young friends on the road of matrimonial bliss, if they prefer our services to those of the minister, and we promise them in advance that it shall be done up strong. For this important service we design to be eminently "qualified." We shall commence a course of law reading upon this subject forthwith, and as soon as we can bring our reading up, our office will be open. Of this, due notice will be given. Till then let our friends be patient.

This notice of an editorial Gretna Green at Nashua, reminds us of the fact that we* are legally qualified to perform the marriage ceremony both in New Hampshire and Maine.

*We, in this case, means "Uncle Toby," and not the publishers.

A SWINDLE.—Yesterday, about 2 o'clock, a well dressed young man stepped up to the desk in the Burnet House and registered his name as Francis Benjamin, and asked to be shown to his room. Producing a well filled carpet bag, Mr. Drake directed him to a room. In a few minutes he returned and handed Mr. D. a closely sealed package, which he represented to be money, and requested that it be deposited in the safe, which was done, and a receipt given, as is the custom. Mr. B. then went down to the jewelry establishment of T. Oskamp, on Main street, a few doors above Second street, and purchasing two gold watches valued at $100 each, and four guard chains worth $100 more, he directed that the goods should be sent by a boy to his room, at the Burnet House, with the bill for the same.

Mr. B. left, and the boy soon followed and presented the goods to Mr. B. in his room, who endorsing the receipt sent it down stairs by the boy for the package of money. When the boy returned the gentleman was gone.—After waiting a few minutes the boy suspected that all was not right, and in the presence of the clerks of the house, the sealed package was broken open and found to contain slips of blank paper and two coppers. The valise was also opened and found to be filled with new hay. The swindle was apparent.—*Cincinnati Gazette, July 6.*

PARTIAL RESTITUTION.—The Biddeford, Me. Journal, says that about two years ago, Flanders Newbegin, Esq., of that town, had stolen from his house, a carpet-bag, containing 10,000 or 12,000 dollars. The bag was afterwards found in the woods near the village, cut in pieces, and rifled of its contents. Nothing had ever "turned up," as Mr. Micawber would say, *but* the bag, till last week, when Mr. Newbegin received through the mail, a letter, of which the following is a copy:

Boston, June 30, '53.

Enclosed please receive 19 100 dollar bills on the York Bank, Sace, for the benefit of of your wife and family.

A constable who interfered in an Irish fight at Hazelton, Pa., on the 4th, being likely to get the worst of it, shot three of the combatants dead with his revolver.

For the Chronicle.

Messrs. Editors:—I perceive by the last number of the Musical World and Times, that some of our most worthy and most talented musicians are attacked and insulted by some malicious make-believe musical character, *forging* the name of Mr. Meinerth against citizen musicians. I understand that Mr. Meinerth and Mr. Moses are taking vigorous steps to ferret out the real author. Suspicion points to a quarter that well may tremble.

ANNUAL MEETING OF THE EASTERN RAILROAD.

The annual meeting of the Railroad Corporation was held in Boston on Monday.

The meeting was called to order by the President, Albert Thorndike, Esq.

The following gentlemen were unanimously chosen directors:

Albert Thorndike, Beverly; D. A. Neal, Salem; Isaiah Breed, Lynn; B. T. Reed, Boston; Ichabod Goodwin, Portsmouth; Samuel Hooper, Boston; Micajah Lunt, Newburyport.

The Stockholders voted at the same time upon a motion offered by David A. Neal, Esq., authorizing the Directors to purchase the franchise and all the rights of the Saugus Branch Railroad, as provided in the act of the Legislature passed April 30, 1853—provided such purchase can be made on equitable terms.—The motion was adopted by a vote of 6,644 ayes to 15 noes.

From the annual report we gather the following statistics in regard to the affairs of the road:—Total cost of road in Massachusetts, $5,778,769 25; equipment $341,622 42; property accounts and balances of accounts, 4,771-975 52. The following are given as the liabilities:—Capital stock, $2,850,000; state of Mass., and funded debt, $1,210,000; notes payable, $520,903 59; dividend of former years unpaid, $,231 50; dividend on stock in Mass. July 1, 1753, $85,500; dividend on stock in N. H. July 1, 1853, $14,775; truckage account $6,730 65; surplus income, $80,834 55—$4,771,975 52.

INCIDENTS OF A PASSAGE.—The bark Jenny Pitts, Captain W. H. Thorndike, of this port, from Gottenburg, arrived at New York on the 24th ult. A letter from Captain Thorndike to one of the owners of the barque in Rockland, states that for the first 20 days of his passage he experienced very bad weather, and had masts, spars, and rigging carried away. Captain T., however, managed to refit sufficiently at sea to bring the bark safely into port, greatly to his credit as a thorough seaman. He had a number of passengers on board, who managed to contribute to the noticeable incidents of the voyage, by getting up two weddings, and adding six to the number of their "companions in arms." With these facts in view, no one will be at a loss to discover reasons for a particularly *squally* passage.—*Rockland Advertiser.*

A NEW PENSION.—The Biddeford Journal says, Mrs. Holmes, the excellent Cook at the Biddeford House, has, or is about to receive from Uncle Sam's treasury box, the munificent sum of *thirteen thousand* and some odd dollars, it being the amount—pension and interest—due to her as the relict of a husband, a Lieutenant in the U. S. Navy. 'Tis but due rendition for gallant services had and received. Mrs. Holmes is about fifty-eight years of age, still hale and hearty. Her good fortune sits well upon her, and she has already, by presents to the less fortunate, shown that the talents have fallen into good and liberal hands. The old lady will, the present summer, visit Saratoga, Niagara, and the White Mountains—desirous of viewing "the wild and wonderful," as it exists in this great country. We subjoin the wish that her future life may be as happy, as her past has been industrious and useful.

Old Mr. Weller warned Samivel to beware of vidders. We would make an exception in favor of this rich one.

The factory labor law of Rhode Island went into operation the 1st inst. The Warren Star says it is intended to limit the hours of labor and the employment of children in factories, and provides that no children under twelve years of age shall be employed in a manufacturing establishment, under a penalty for every offence. From 12 to 15 they are allowed to work eleven hours per day.

RHODE ISLAND TEN HOUR LAW.—The Mills in this city were all closed Thursday morning, on account of the new law regulating the hours of labor, going into effect.—During the morning the operatives were collected together in groups about the streets, and subsequently they held a mass meeting on the Willow lot. The meeting was addressed by a number, and a committee was appointed to confer with the proprietors and agents of the mills.—*Newport Mercury*

FIFTEEN DAYS LATER FROM CALIFORNIA.

ARRIVAL OF THE ILLINOIS.

New York, July 11.—The steamer Illinois. from Aspinwal, arrived at an early hour this morning, with California dates of June 10th. She brings 500 passengers and $1,836,000 on freight.

The ship Carrier Pigeon, Capt. Doane, from Boston for San Francisco, went ashore on the 9th June, in a fog, on Point New Year, about 30 miles south of San Francisco. In fifteen minutes after she struck, there were seven feet of water in her hold, and in half an hour water was above her lower deck. Two steamers were sent to the wreck, and 1200 packages of light merchandise were saved.

The ship will be a total loss, as also much of her cargo. At the last accounts the tide water was ebbing and flowing through the wreck, her deck having been broken.

The steamer Seabird, which had been sent to the assistance of the Carrier Pigeon, was beached while taking out her cargo. At last accounts she was breaking up.

A duel was fought June 11, near the Mission Dolores, between Edward Tobey, Clerk of the Assistant Aldermen of San Francisco, and Dr. Alfred Crane, late of Alexandria, La.—At the second fire Crane was shot through the body, and died on the 12th. He was 25 years old.

On Friday, the 10th, a duel was fought near San Francisco, between Timothy Hayes, an Assistant Alderman, and John Nugent, editor of the Herald. At the second fire Nugent was wounded and the affair was terminated.

The duel between the Hon. W. M. Gwinn and Hon J. W. McCorkle, was fought on the 1st of June. Three ineffectual shots were exchanged, when the matter was satisfactorily adjusted.

The weather was very warm in California, the thermometer varying in the shade from 98 to 107 degrees.

The mining intelligence from all quarters was of the most cheering character.

The Pathfinder had arrived with dates from Kong to the 27th April, and Shanghae to the 15th. The capture of Nankin by the rebels and their subsequent defeat, is fully confirmed.

ARRIVAL OF THE ATLANTIC.

FOUR DAYS LATER FROM EUROPE.

The Collins steamship Atlantic, from Liverpool, Wednesday the 29th ult, arrived at New York Sunday, July 10, with 145 passengers.

ENGLAND.—The income tax has become a law. Very little relative to Turkish affairs, there being a general belief in the maintainance of peace, but insurance to the Danube keeps advancing. The Prince of Wales has been suffering from an attack of the measles. The young Prince was christened Leopold George Duncan Albert. Hon. Henry Berkley has been spoken of as Governor of Jamaica. The Australian Steamship Company via Panama, have received a charter. The strike at Stockport and Blackburn operates partially: but Manchester employers and workmen have not come to an open rupture. Iron coin, electrotyped, is in circulation; its spuriousness can scarcely be detected.

Mr. Van Buren was at Birmingham. Mrs. Stowe was visiting Wales. The crops in Ireland are luxuriant. The weather in Britain is generally favorable to the growing crops.—In the north of Scotland rain is wanted.

FRANCE.—The proposed action of France in the Turkish question is not known officially. It was reported that the Emperor had prepared a formal note to Russia, demanding whether his proceedings meant peace or war, France being ready for either. Reports add that Napoleon consents to withold this note on the earnest entreaty of M. Kisselef, the Russian minister. This may or may not be correct.

LATEST FROM LONDON.—Dates from Paris of Tuesday state Funds opened with a rise, but in consequence of rumors of Russian invasion of Danubean Provinces, received a sudden check, and closed at a decline.

Paris, Monday.—A private letter from Jassy, Moldavia, 17th, says that an extraordinary courier from St. Petersburg passed through there on the day previous, on his way to Constantinople, with another ultimatum, with notice that if not accepted in eight days, the Russian army would immediately cross the frontiers and commence hostilities. A division of the Russian army, 40,000 strong, is already within two leagues of Jassy.

Paris, Tuesday.—The corn trade has been more than usually active during the last few days. The thunder storms of Sunday, Wednesday and Friday nights last, which were accompanied by torrents of rain, have caused the most serious apprehensions for the safety of the wheat harvest. The flour market on Saturday was crowded with speculators and an immense quantity of wheat and flour changed hands, and outside the market flour rose from the maximum price of last week, 63f by the sack, to 69f. The price of wheat has risen simultaneously with that of flour.

Letters from Arzeroun, Persia, of June 3d, state that Shiraz had been entirely destroyed by an earthquake, and 1200 persons killed during the shock. A plague had broken out, caused by the number of unburied dead bodies. The cholera had broked out at Seheran.

HURRICANE AND LOSS OF LIFE.—A tremendous hurricane, accompanied by lightning and rain, passed over New York and vicinity on Saturday evening about 6 o'clock, doing great damage. Many trees and buildings were injured. At Brooklyn a very large building in the course of erection, was entirely demolished. The workmen had left a few moments before, and it is believed no one was killed.

Tarrytown was the scene of a terrible catastrophe. A large building occupied by several poor families, and containing at the time over fifty persons, many of whom had taken shelter in it from the storm, was blown down, and the inmates buried in the ruins. It was not known at last accounts, that more than six persons had escaped. Seven dead bodies had been taken out, and the citizens were busy in clearing away the ruins.

MARRIAGE.

Happiness and Competence,

WHY IS IT!

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the causes of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of securing that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S
Private Medical Companion.

PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., pp. 250. Price 50 Cents.

[ON FINE PAPER, EXTRA BINDING, $1 00.]

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been SENT BY MAIL within the last few months.

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Buy no book unless "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y." is on the title page, and the entry in the Clerk's Office on the back of the title-page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents*, together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

When Knowledge is Happiness, 'tis culpable to be ignorant.

QUERIES.

PORTSMOUTH, July 8, 1853.

Messrs. Editors:—I send you the following "Selected Queries" for insertion in that spicy little sheet, called the "Portsmouth Daily Chronicle," by publishing which, you will oblige *one of* its *many* readers. A LADY.

Is it any body's business,
If a gentleman should choose
To wait upon a lady,
If the lady don't refuse?
Or, to speak a little plainer,
That the meaning all may know,
Is it any body's business
If a lady has a beau?

Is it any body's business
When that gentleman does call,
Or when he leaves the lady,
Or if he leaves at all?
Or is it necessary
That the curtains should be drawn,
To save from further trouble
The outside lookers on?

Is it any body's business
But the lady's, if her beau
Rides out with other ladies,
And doesn't let her know?
Is it any body's business
But the gentleman's, if she
Should accept another escort,
Where he doesn't chance to be?

Is a person on the sidewalk,
Whether great or whether small,
Is it any body's business
Where that person means to call?
Or if you see a person,
As he's calling anywhere,
Is it any of your business
What *his* business may be there?

The substance of our query,
Simply stated would be this—
Is it *any body's business*,
What *another's business is?*
If it is, or if it isn't,
We would really like to know,
For we're certain if it isn't,
There are some who make it so.

If it is, we'll join the rabble,
And act the noble part
Of the tattlers and defamers,
Who throng the public mart;
But if not, we'll act the teacher,
Until each meddler learns
It were better in the future,
To mind his own concerns.

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.
The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.
It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom
AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.
Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.
It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.
Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

READ! READ! READ!

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the best family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & *Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility*,

With all Diseases arising from Impure Blood.
As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.
Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.
We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.
I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.
JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND,
Genoa, Sardinia, January 17, 1853.
Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.
Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.
The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.
I am respectfully yours,

THE WRONG HAT OR THE WRONG MAN.

About the time of the inauguration of President Pierce, a gentleman, named Parker, belonging to Concord, joined in the general rush to witness the great ovation. Our friend, who is an attorney of some note, has not been much of a traveller, but he takes the New Hampshire "Patriot," and is well aware that there are such things as the swapping of umbrellas and hats, at big hotels. To guard against the loss or exchange of his new "tile," therefore, Mr. P. got a printer to strike him off a four-inch square card, upon which looked out of the crown of his hat, in bold two-line pica, "Asa Parker, Attorney at Law, Concord, New Hampshire."

There was a great rush at Willard's on Inauguration Day—indeed there was a perfect jam everywhere—and our friend Parker found some difficulty in getting down to the dinner-table along with some of his fellow townsmen. The dinner was a fine one, the champagne delicious, and after an hour's sitting, the New Englanders left the table in the merriest mood imaginable.

"Now, fellows," said Parker, as they emerged from the dining-room, "every man look out for his own hat; I've got a mark on mine that nobody can mistake."

But there was some sort of a mistake somewhere, notwithstanding. It was sometime before Mr. P. found his hat at all, and even then he labored under the impression that it had grown a trifle older since he went to dinner. But the placard was in the crown, all right, and "Asa Parker, Attorney at Law, Concord, New Hampshire," stared him in the face as he looked inside.

"All right, fellows," said Parker, raising the tile to his gourd. "Nothing like making sure of things when you are going into a crowd. My hat's safe, anyhow." But he only put the hat on the *top* of his head, for it was entirely too small to go on.

"What's the matter Parker?" enquired one of the party, as the Attorney attempted to pull on the hat.

"Oh, nothing," responded Parker, again looking into the hat—"nothing—it's all right, of course, 'Asa Parker, Attorney at Law, Concord, New Hampshire.' Certainly, I knew it must be my hat." And again he attempted to pull the hat on.

The party around could illy suppress laughter at the comical motions of the embarrassed lawyer, but he did not appear to notice it, and industriously endeavored to make the hat fit, somehow. In a state of the most absolute bewilderment he at length turned to one of the party, and presenting the hat, desired him to tell what name was in it. The man read "Asa Parker, Attorney at Law, Concord, New Hampshire."

"All right—of course," exclaimed Parker, again attempting to pull on the hat, only to his still greater bewilderment.

"Will you have the kindness to tell me who I am?" said he, still more perplexed.

"Certainly," said the man addressed; "you are Asa Parker, Attorney at Law, of Concord, New Hampshire."

"Of course," said P. "I knew it." And he made one more trial at the hat.

It would be very difficult to say whether Mr. Parker knew himself from "a hole in the ground" about this juncture. He looked again into the hat and read the inscription, and then at his friends, who still preserved straight faces, and finally *caved*.

"Gentlemen," said P., with intense gravity, "If I am Asa Parker, Attorney at Law, Concord, New Hampshire, and if this hat belongs to Asa Parker, Attorney at Law, Concord, New Hampshire, all I have to say, is, that *my head has swelled most confoundedly since I went to dinner!*"

Who changed Mr. Parker's card into somebody else's hat?—*N. Y. Spirit of the Times.*

PARTINGTON TOASTS.—The Boston Post gives the following toasts, drank at Spunkville, on the 4th, at a Stebbings dinner.

By Cornet Wiggin.—The American Eagle—His talons are sharp and his beak strong—let the tyrants of the earth, and elsewhere, beware of his swoop. Air—"Constitution and Guerriere."

By Lieut. Spigot.—The spirit of '76—Distilled by our fathers, may it never be diluted by their sons. Air—"Battle of the Kegs."

By Sergt. Cartridge.—The Star Spangled Banner—Liberty's own counterpane, beneath whose folds she may repose in safety. Air—"Yankee Doodle."

The following received from Mrs. Partington was drunk standing with honors—

The Relics of the Last War—ready, in case of trouble, to make sacraments of themselves for the salvation of the country.

"Semper Paratus" is the motto of an eating-house in New York. "Semper parates!" was the variation of this same bit of latin when used by an Irish scholar in reduced circumstances, as he sat down to a meal of watery potatoes. *"Semper parates!"*—and then he added with a sigh, "if they were *melior* they would be better!"

The Nova Scotia giant, one Mr. O'Gaskill, a little fellow of seven feet eight inches in height, and weighing four hundred and fifteen pounds, passed through Philadelphia Thursday, on his way to New York, where he intends to offer himself as banner bearer for the grand opening solemnities at the Crystal Palace.

PROF. ALEX. C. BARRY'S

Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot and manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity, and by the principal Merchants and Druggists through the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22*

PORTSMOUTH:
WEDNESDAY, JULY 13, 1853.

CALIFORNIA LAND TITLES.

The Washington correspondent of the N. Y. Journal of Commerce writes:

I learn that the Attorney General of the United States has determined to take an appeal to the United States Supreme Court, from the decision of the Board of California Land Commissioners, in the cases of Col. Fremont, of Cruz Cervantes, and of Mr. Redding. These three are the most prominent cases, and are therefore selected for revision. The Supreme Court has heretofore been very strict in examining claims to land-titles set up in opposition to the United States—while at the same time all these lands are covered with squatters, who elect their own Judges as well as their Governor and Legislature; so that between the Court and the people, the prospects of the land claimants are not exceedingly bright. It it stated that there are eight thousand squatters' claims on Col. Fremont's land.

The following paragraphs from the letter, are in the writer's own words:

The Californians are a law-abiding people, especially when they are allowed to make their own law. They have got a local law that favors the squatters, and that is the law which they will abide by and probably enforce.

The sovereigns are not without means for the enforcement of their laws. They elect their own Judges—they will never elect one who will oppose their interests. They elect their Legislature and Governor—and will not the squatters elect their own friends? In fine, it is my belief that the private monopolies of the California land claimants, will, between the United States on one side and the squatters on the other, fall to the ground.

REPTILES' SKINS.—In one of his lectures in Lowell, says the Courier, Dr. Boynton related an incident of a pet toad, which is of immense value to naturalists and men of science. He kept his toad about two years, having a pen for him near the back door of his house. One day his sister was standing by the door looking at the toad, when lo! she saw him strip the skin off his own back, and rolling it up in a ball, deliberately bolt it.—Hereupon she called him (the Doctor) to the scene; and he also witnessed a continuance of the same operation, until the toad had stripped himself *bare*. This fact of reptiles shedding their skins, is novel to men of science, and no work has, according to the statement of Dr. B., given any account of it.—Subsequent inquiries have enabled the Doctor to establish the fact, that *all reptiles* cast their skin at intervals of different duration.

We did not know that *all* reptiles shed their skins—but every farmer's boy about here, knows that snakes shed theirs, and that the skins are frequently picked up and kept, as harmless as so much leather.

FLOATING LIQUOR SHOP.—A sloop has been fitted up with a house on her deck, and anchored in the harbor about three miles from Boston, between Apple and Deer Islands, for the purpose of supplying boats, parties and vessels with liquors of all kinds. This floating store is reported to have done a large business. As the "Maine Law" only applies to the main land, the proprietors do not violate anything but the spirit of the existing laws by this novel arrangement.

This paragraph which we find in the Boston Transcript, looks as though the proprietors feared the law on shore.

LITERAL AND PATRIOTIC.—On the morning of the 4th a friend of ours who wished a few of Kennedy's hard crackers for breakfast, sent Biddy, the little Irish "help," out for sixpence worth. What was his astonishment on her return to have her produce from under her apron a bunch of Chinese crackers! The word "crackers" admitted of but one construction with her on the 4th of July. Our friend laughed at the joke, fired the crackers, and then came and told us of it.—*Boston Transcript.*

The jury in the suit of Mrs. Bacon against the Madison and Indianapolis Railroad Company for damages for the death of her husband, last winter, occasioned by the falling of the Railroad bridge across Pleasant run, brought in a verdict in her favor, for three thousand dollars.

SUICIDE IN THE INSANE ASYLUM.—A few days since, Miss Prince, a lunatic at the McLean Asylum in Somerville, eluded her attendants, and succeeded in drowning herself in a cistern, in which there was but a few inches of water.

NAILS GROWING INTO THE FLESH.—A late writer in the Ohio Cultivator gives the following remedy:

"Cut a notch in the middle of the nail every time the nail is pared. The disposition to close the notch draws the nail from the sides. It cured mine, after I had suffered weeks with its festerings."

FIRE IN ATTLEBORO'.—*Providence*, July 9.—The new Cotton factory in Attleborough, Mass., belonging to B. B. & R. Knight, of this city, was entirely destroyed by fire on Saturday night. It is supposed to have been struck by lightning. Loss between $40,000 and $50,000, and partially insured in this city.

People who are so afraid of free discussion that they shut themselves out of its influence in a creed, are like a man who should be so pleased with a taper, that he should shut himself up in a closet with it, lest the wind should extinguish it, or the sun render it unnecessary.

The following toast was given at Watertown, N. H., on the 4th:—

THE BOSTON TEA PARTY—That renowned sociable to which the guests went without invitation, *took their tea* without cream or sugar.

ERRORS IN PRINT.

(*Translated from the German, for the Chronicle.*)

A young husband, with a wife as young as himself and quite unused to household work, was taken very sick one day immediately after he had partaken of some food, which had been nicely prepared by the wife. Besides nausea, he exhibited other alarming symptoms, as talking confusedly, and falling sometimes one way and sometimes the other. The wife hastily summoned a number of doctors, who, with herself, feared he was poisoned, and applied their remedies accordingly; but with only this effect, that the patient soon fell into a heavy, deathlike sleep.

Then it was, that one of the doctors questioned the wife more particularly, as to what food had been prepared for her husband. She confessed her ignorance of cooking; but asserted that she had prepared every dish exactly as the Cookery Book stated, and handed the book to the Doctor, pointing to the dishes cooked that day.

The Doctor read "Take one spoonful of milk and a quart of rum," (instead of one spoonful of rum and a quart of milk.) The mystery was unravelled at once—the man had partaken of a dish too strong for him. He recovered very rapidly from his sickness, and in his second sober thought he hired a cook, because, as he said, he did not wish to die one of these days, by *an error in the print.*

☞ The lectures on Geology, by Dr. Boynton, will be commenced by a free lecture at the Temple this evening, at which doubtless there will be a large attendance. We hope also, there will be found an adequate number of regular listeners, to keep up the interest of lectures, and to reward the lecturer with a substantial recompense.

At Manchester at the close of his lecture, Saturday evening, Dr. Wm. M. Parker rose and stated that many had desired to make a public expression of the interest they had taken in the Course of Lectures just closed.

Mayor Smyth was called to the chair, and Dr. Wm. M. Parker, Hon. Wm. C. Clarke, and James O. Adams, Esq., were appointed a committee to draft resolutions expressive of the sentiments of the audience. In accordance therewith the following were reported:

Resolved, That the course of brilliant lectures upon Geology, just closed, by Dr. Boynton, have afforded the highest satisfaction to the crowded audiences in attendance—eliciting enthusiastic admiration and applause from all who have attended them.

Resolved, That we tender to Dr Boynton our warmest thanks for his instruction; and earnestly invite him to favor us with another course of lectures at his earliest convenience.

The resolutions passed with loud acclamations and applause.

A SOUTHERN STORY.—A scene occurred upon the Louisville mail-boat Sciota, before she started, which deserves a passing notice. A gentleman, whom we afterwards learned was Mr. Orville Thomas, of Bayou Sara, came on board, followed by a stalwart looking mulatto with a trunk, which was given in charge of Smith, the porter. When that was taken care of, Mr. Thomas approached Capt. Summons, with whom we were talking at the time, and said; "Captain, I'm going down to Louisville with you, but here is a boy I wish to give his liberty, and you can tell to whom I shall apply to get his free papers made out." The boy seemed astonished, and asked his master why he wished to get rid of him.—"Well," said Mr. Thomas, "I am told that you have been herding with the abolitionists since we came here, and that they have agreed to do better by you than I do; so you can leave me at once, for if you want to go with them, you can be of no use to me, as I have no time to watch you, and if I had I would not be bothered with you."—The result was that the boy actually begged not to be turned off in that way, and Mr. Thomas consented to take him along, on good behavior.—*St. Louis Inquirer.*

"Now go to meeting, dear," said Mrs. Partington, as Isaac stood smoothing his hair preparatory to going out on Sunday. He looked down at his new shoes, and a thought of green fields made him sigh. A fishing line hung out of one pocket, which Mrs. Partington didn't see. "Where shall I go to?" asked Ike.—Since the old lady had given up her seat in the Old North Church, she had no stated place of worship. "Go," said she sublimely, as she pulled down his jacket behind, "go any where's where the gospel is dispensed with." Such liberality is rare. Bigotry finds no place in her composition, and the truth, in her view, throws its light into every apartment of the Christian edifice, like an oysterman's chandelier into his many bottles. The simile is not the very best, but the best to be had at present.—*Boston Post.*

RETORTS.—A dandy, not very remarkable for the acuteness of his feelings or his wit, wishing to banter a testy old gentleman who had lately garnished his mouth with a complete set of false teeth, flippantly inquired—"Well, my good sir, I have often heard you complain of your teeth; pray when do you expect to be again troubled with the toothache?" "When you have an affection of the heart or a brain fever!" was the reply.

NOT QUITE A DISASTER.—The Biddeford Journal is happy to record that no accident occurred in Biddeford or Saco, on the 4th. The only approximation to a catastrophe, was the running away of the horse that hauls the Biddeford hourly, though some declare the Omnibus ran away with the horse. Bill was regarded rather as a good spur-horse than nag, but this fourth of July feat will give him rank with the fast ones.

LOCAL.

Copy of a Letter from Rev. John G. Adams of Worcester, Mass., (a Portsmouth boy) to the President of the Boston Delegation.

WORCESTER, July 1, 1853.

TO FRANCIS E. PARKER, Esq., Chairman of the Delegation from Boston to Portsmouth, July 4, 1853.

My Dear Sir:—Were it a practicable thing, I should be with the Sons of Portsmouth at their first and olden home, on our great national festive day this year. But other duties forbid this luxury. So I send my greetings to the multitude who may go up to this good banquet of souls, amid the recollections of the past, which will be so joyfully revived on this occasion. My heart will be in the midst of your festivities on that day; and while I live, so shall live my warmest wishes for the peace and prosperity of all Portsmouth sons and daughters of the present or of the coming generations. Allow me this word of contribution:

'Mid his wanderings o'er the earth,
To the home that gave him birth,
Will the son of Portsmouth turn,
While his lingering life-fires burn.
That his vital power be fed,
Comes he to her *Fountain Head.*
O'er rough ways when courage wanes,
Turns he to her ancient *Plains.*
Through the haze that time has made,
He espies the old *Parade*,
Where the mirth-blaze looms so bright,
As on Independence night.
Long Wharf, Pier, and Old *Spring Hill*,
With their sights his visions fill.
Little Harbor's still retreats;
Where *Long Lane* the morning greets;
Up Newington's piney way,
When the summer sun beams play;
On the river, bank and tree,
Tints of home his dreamings see.
When at last these dreamings end,
This one thought his soul befriend,
That, his longest wanderings o'er,
He may land on *Christian Shore.*

Fraternally yours, J. G. ADAMS.

AN ELEGANT ENGRAVING.

Our noble arches, all about the city, are rapidly coming down. It seems a pity to throw away so much beautiful work; but so it must be. Before the elegant series of arches in Market street was broken in upon, however, an artist seized upon the view, and the likeness of that beautiful arcade is to be transferred to paper by the arts of engraving and printing, and copies of the same will be scattered in every part of the country.

This engraving will be of large size, about 20 by 24 inches probably; and it is to be engraved by Mr. J. L. Bufford of Boston, from a daguerreotype by Mr. Albert Gregory of this city.

It is to be published by T. P. Moses and Albert Gregory, and will make a fine accompaniment to the Celebration Book which is shortly to be got up by Messrs. C. W. Brewster & Son.

NAVAL.

The United States steamship Princeton, Commander Engle, arrived at this naval station on Monday night, from Norfolk. We understand Commodore Shubrick will join her here, making her the flag ship of the squadron which is to cruise on the fishing grounds the present season.

The sloop-of-war Decatur, the last of the squadron, will probably arrive from Boston in a day or two, as she is reported ready for sea.

PORTSMOUTH CUSTOM HOUSE.—We understand that orders have been received, to dismiss the Coastwise Inspector, the Night Watch, and the Inspector at the Railroad stations; and that their duties henceforth will be performed by the lately appointed Inspectors; which no doubt will be cheerfully acceded to by them.

LAUNCH.—Will be launched from the yard of Messrs. Fernald & Petigrew to-morrow (Thursday) afternoon at 5 o'clock, a fine clipper ship called the *"Dashing Wave."* She is of beautiful model, 185 feet long on deck; 38 feet 10 inches extreme breadth; 22 feet depth of hold; and will register about 1200 tons. She is not yet disposed of.

I. O. OF O. F.—At a regular meeting of Piscataqua Lodge, No. 6, I. O. of O. F., held on Monday evening last, the following officers were installed for the current term:

A. Q. Wendell, N. G.; J. P. Morse, V. G.; S. G. Folsom, P. S.; S. M. Demeritt, R. S.

TRUANTS.—In the Police Court in this city a truant boy was sentenced on Monday to 15 days in the House of Correction; and another received a similar sentence on Tuesday.

FIRE AT HAMPTON.—On Monday, a barn belonging to Mr. James Perkins, at Hampton, was burnt with its, contents, consisting of four or five tons of hay. A large lot of pine wood was also burnt. Loss from $500 to $700. It is supposed to have caught by the careless use of friction matches by a boy.

PORTSMOUTH TO THE SHOALS.
SUMMER ARRANGEMENT.
Steamer Grace Darling,
CAPT. SAMUEL BILLINGS.

THE superior steamer Grace Darling, Capt. Billings, will leave Sheafe's Wharf, daily, (until further notice) at 10 o'clock, or on the arrival of the first morning trains on the Portsmouth & Concord and Eastern Railroads—and return from the Shoals in season to take the last trains for Concord, Boston and intermediate places.

This arrangement affords a fine opportunity for persons from abroad to visit one of the most desirable Summer resorts for the Invalid, and all others who are fond of Fishing, Bathing, and other amusements conducive to health and pleasure. The Islands (eight in number) are about an hour's sail from Portsmouth, by Steamer, where all the advantages from a sea-voyage can be secured, subject to none of its perils. The temperature is never more than 80 degrees in the shade, and seldom varies more than 10 degrees in 24 hours.

Hon. Thomas B. Laighton's Hotel on Appledore Island, designed and kept particularly for the Invalid, and also for the pleasure seeker, is one of the first class, where every convenience, both for luxury and comfort can be found.

The passage out is truly delightful—the scenery unsurpassed. As you pass down the river, view after view presents itself:—The Navy Yard, Dry Dock, Forts Washington, Sullivan, McClary and Constitution; the settlements of Kittery Point, New Castle, Rye, and many Islands and Beaches along shore, present attractions that are beautiful to behold, and render the trip one of the most beautiful and pleasing nature.

PASSAGE ON BOARD STEAMER, 50 CTS.

NAVAL INTELLIGENCE.—*Washington, July 12th.*—Commodore Shubrick is still here, but will leave for the East as soon as he gets instructions. The Cyane will join his fleet, and also, if necessary, the Saranac, Columbia and Albany. The fleet will rendezvous at Portsmouth.

AN IMMENSE FRAUD in the coal operations about Pottsville, Pa., has just been exposed. The fraud which was perpetrated in the weighing department has been going on for years, and investigations connected with it have been in progress since 1851, by Mr. Tucker, who finally traced it to Mine Hill Railroad. Several individuals are said to have made immense fortunes by the operation, while others have been made bankrupts.

The fraud was perpetrated by returning false certificates of weight; thus at the Mine Hill Railroad office, it was ascertained that the coal of Messrs. Hulned, Payne & Steinburger was almost invariably understated, while that sent by other parties was overstated, so as to preserve the equilibrium of the aggregate tonnage. The books and data of the Mine Hill Railroad have been seized by Mr. Tucker, and the investigation is still going on.

The Reading Railroad is said to be a loser of from $250,000 to $400,000, and private parties as much more.

DEATHS IN NEW YORK.—We learn from the City Inspector's report, that the number of deaths during the past week was five hundred thirty-eight, which is an increase of one hundred thirty-three on the preceding week. As usual, a large number of deaths was caused by consumption—fifty having died of that fatal disease. The mortality was greater among children than among grown persons, no less than two hundred forty-seven under one year having died, while of those from one to ten years old the number is one hundred twenty-five, making the total number under ten years three hundred seventy-two, or about two-thirds of the whole mortality. This, of course, is attributable in a great degree to the intense heat of the weather. To those who are blessed with good health, we say take care to eat or drink nothing which will have a tendency to produce diarrhœa or dysentery. Beware, also, of the kind of milk which you give your children, and never forget that swill milk is a rank poison.—*N. Y. Herald.*

JENNY LIND IN OPERA.—A pleasant rumor comes to us from over the sea, that JENNY LIND GOLSCHMIDT is again to grace the Operatic Stage. The Briton correspondent of the *Morning Chronicle* writes:

"If there be any truth in an assertion of the *Dresden Echo*, the prophecy of an illustrious composer, to the effect that Madame LIND GOLDSCHMIDT would again appear on the stage, is likely to be realized. The *Echo* says that JENNY is to take the heroine's part in GOLDSCHMIDT'S *Tochterlein* (little daughter). Upwards of a year since, the great composer alluded to, observed to a friend, "The LIND is sure to return to the stage, and from two opposite causes—love and revenge.' 'How so?' demanded the other. 'Why,' retorted the maestro, 'if she should be disappointed in her husband, and not find the domestic happiness she anticipates, she will seek for consolation and revenge in public applause; whereas, if she be happy and continue to love her husband, who has a turn for composition, she will seek to satisfy her vanity and affection by urging him to write an opera, and she will appear in the first part, in order to ensure its success, be it good or bad."

WOOL.—The Lebanon (N. H.) Whig states that the farmers of that vicinity have disposed of their wool at prices ranging from sixty to sixty-five cents. Most of it has been taken at sixty cents, while some extra lots have brought more. The amount received for the wool of the sheep of Lebanon alone, reckoning at 3 1-2 pounds for each, at 60 cents a pound, would be $21,000, a very respectable item, certainly.

SUDDEN DEATH.—A man whose name, from papers found in his pocket, is supposed to be Wm. Haggat, died suddenly on Sunday evening at the Mansion House in Sandwich, Mass. He remarked previous to his death that he was from Vermont, but did not state the name of the town. He was about 70 years of age, and weighed about 285 pounds. His effects are in the care of the Proprietor of the House.

FIRE IN ATTLEBORO'.—*Providence, July 9.*—The new Cotton factory in Attleborough, Mass., belonging to B. B. & R. Knight, of this city, was entirely destroyed by fire on Saturday night. It is supposed to have been struck by lightning. Loss between $40,000 and $50,000, and partially insured in this city.

ANOTHER FOREIGN AGITATOR.—Rev. Dr. Achilli, and family, presumed to be the same person with whom Rev. Dr. Newman had his famous legal controversy, arrived at New York on Thursday, from London, in the packet ship Devonshire.

RATTLE SNAKE KILLED.—A rattlesnake three and a half feet long, with six rattles, was killed in Lynnfield on Sunday last, by a young man named Neal, of Lynn.

Dr. Forbes, who has written a book on Ireland lately, thinks that a very large proportion of Father Matthew's teetotal converts in that country have gone back to whiskey.

What can be more honorable than to have courage enough to execute the commands of reason and conscience; to maintain the dignity of our nature, and the station assigned us; to be proof against poverty, pain, and death itself; so far as not to do anything that is scandalous or sinful to avoid them; to stand adversity under all shapes, with decency and resolution. To do this is to be great above title and fortune. This argues the soul of a heavenly extraction, and is worthy the offspring of the Deity.

LYON'S KATHAIRON FOR THE HAIR.

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all minera properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURANGER, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

IMPORTERS AND JOBBERS OF
Rich Silks, Paris Dress Goods, Shawls, Gloves, Embroideries, White Goods, Ribbons, &c., invite the attention of Merchants from all sections to their unrivalled assortment of

Silk and Fancy Dry Goods,

Imported with special reference to the wants of first class buyers, and in three important particulars, viz.: TASTE, VARIETY AND PRICE, believed to be unequalled.

Messrs. E. L. & Co., having been engaged in this business for many years in Philadelphia, where the taste is not unlike, in many respects, to that of the Northern and Eastern States, they would call particular attention to their styles, many of which are controlled entirely by them.

It having been remarked that our business is almost exclusively Southern, we would beg leave to say that our goods are adapted to every section of the United States, *Northern, Southern, Eastern and Western*, and in style and price they will be found equal to any other House.

On and after Dec. 1st next, we shall occupy our New Marble Warehouse, now being erected, No. 55 CHAMBERS ST., 4 doors from Broadway, directly opposite the Park.

MARRIAGE.

Happiness and Competence.

WHY IS IT!

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge which we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S
Private Medical Companion.

BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., *pp.* 250. *Price* 50 *Cents.*

[ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been SENT BY MAIL within the last few months.

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Buy no book unless "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y." is on the title page, and the entry in the Clerk's Office on the back of the title page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents*, together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

When Knowledge is Happiness, 'tis culpable to be ignorant.

☞ On receipt of One Dollar (for the fine Edition, extra binding,) "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION" is sent (*mailed free*) to any part of the United States. TO DULLNESS.—BY WIDESWARTH.

Oh, spirit of delight! Dullness come,
Come thou and hold my elbow as I sit,
I cannot in the heat with Fancy roam,
I'm reeking now, and cannot think of it.
Thou, Dullness, art the spirit I invoke,
In the hot days of sweet somniferous June;
My muse's chariot wheel has lost a spoke,
And my old harp is sadly out of tune.
She comes—her gentle presence now I feel—
My listless pen flags wearily along;
The oozy drops adown my features steal,
And drowsy in sweat the slumbering germs of song!—
Sweet Dullness! 'neath my nose your poppies steep—
Consciousness fades—existence—I am fast asleep.

The Reason Why.

"Oh, how could you fall thus?" the good man spoke,
To a rum'un who'd fallen away;
"How could you again take the devil's yoke,
And again on his trammels stay?"
"Why you see," said Guzzle, with look hard to guess,
Whether fun or contrition it bore,
"'Twas not because I loved temperance less,
But because I loved liquor more."

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them as early and favorable consideration at the Patent Office.

A New, Delicious Temperance Beverage.

AMBROSIAL MEAD!

THIS excellent Compound is prepared from the best SPANISH SARSAPARILLA, without its dark, repulsive appearance, being beautifully transparent and entirely free from all impurities. Its qualities as a beverage, a single trial will give it a pre-eminence over all other preparations, by its freedom from noxious ingredients, agreeableness of flavor, and its *exceeding cheapness*, one bottle being sufficient to make thirty glasses of the beverage.

CAUTION!—The proprietors of this excellent preparation have spared no expense to bring it to perfection, and would caution purchasers to buy none without the fac simile of Wilson, Fairbank & Co. on every bottle.

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER.

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom
AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & *Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,*

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND,
Genoa, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,
VERNON ESKRIDGE, Chaplain U.S.N.

are constantly coming to light, from different parts of the country, showing the astonishing effects of the fair and faithful use of these Lozenges.

from a citizen of Portsmouth—and but a sample of hundreds:

PORTSMOUTH, N. H., May, 1853.

This is to certify that I consider Devines' Compound Pitch Lozenges a valuable article for what they are designed—the best remedy before the public. My son had a very severe cough, which threatened speedily to carry him off; and nothing seemed to give relief, until I tried these Lozenges, —which produced signs of relief in a few hours, and after the taking of a few boxes, wholly removed his cough. LIGHT AND SHADOW.

OR, WHO IS RESPONSIBLE—BY FANNY FERN.

It was a simple dress of snowy muslin, innocent of the magic touch of a French *modiste*. There was not an inch of lace upon it, nor rosette, nor a flower; it was pure and simple, and unpretending as its destined wearer. A pair of white kid gloves of fairylike proportions, lay beside it, also a tiny pair of satin slippers. There was no bridal *trousseau*; no—Meta had no rich uncles, or aunts, or cousins—no consistent god-parents who promising at her baptism that she should 'renounce the pomp and vanities of the world,' redeemed their promise by showering at her bridal feet, diamonds enough to brighten many a starving fellow-creature's pathway to the tomb.

Did I say there was no bridal *trousseau?* There was one gift a little clasp Bible, with 'Meta Grey' written on the fly leaf, in the bridegroom's bold, handsome hand. Perchance some gay beauty, who reads this, may curl her rosy lip scornfully; but well Meta knew how to value such a gift. Through long dreary years of orphanage, 'God's Word' had been to her what the Star in the East was to Bethlehem's watching shepherds. Her lonely days of toil were over now. There was a true heart, whose every pulsation was love for her—a brave arm to defend her helplessness, and a quiet, sunny home, where Peace, like a brooding dove, should fold his wings, while the happy hours flew uncounted by.

Yes; Meta was looked for, every hour,—She was to leave the group of laughing boydens (before whom she had forbidden her lover to claim her,) and thereafter confine her teachings to one pupil, whose 'reward of merit' should be the love-light in her soft, dark eyes. Still, it was weary waiting for her; her last letter was taken, for the hundredth time, from its hiding place, and read and refolded, and read again, although he could say all, with his eyes shut, in the darkest corner in Christendom. But you know all about it dear reader, if you own a heart, and if you don't, the sooner you drop my story the better.

Well; he paced the room up and down, looked out the window, and down the street; then he sat down in the little rocking chair he had provided for her, and tried to imagine it was tenanted by *two*; then, delicious tears sprang to his eyes, that such a sweet fount of happiness was opened to him—that the golden morn, and busy moon, and hushed and starry night, should find them *ever* side by side. Care?—he didn't know it! Trouble?—what trouble could *he* have when all heart craved on earth, was bounded by his clasping arms? And then Meta was an orphan—he was scarcely sorry—there would be none for her heart to go out to now but himself; he must be brother, sister, father, mother, *all* to her; and his heart gave a full and joyful response to each and every claim.

But what a loiterer! He was half vexed; he paced the room in his impatience, handled the little slippers affectionately, and caressed the little gloves as if they were filled by the plump hand of Meta, instead of his imagination. Why didn't she fly to him? Such an angel should have wings; he was sure of that. Wings? God help you, widowed bridegroom! Who shall have the heart to read you this sad paragraph?

ONE OF THE NORWALK VICTIMS.—The body of a young lady, endowed with extraordinary personal beauty, remains yet unrecognized. On her countenance reposes an expression of pleasure in striking and painful contrast to the terrible scene amid which she breathed her last. She was evidently about twenty years old, doubtless the glory of some circle of admiring friends, who little dream where she is, and of her shocking condition.—*N. Y. Musical World and Times.*

AMERICAN PROTESTANT MISSIONARIES, according to Layard's new work on the East, have accomplished a great amount of good in Turkey. Scarcely any town of importance is witnout a Protestant congregation, and the American mission have opened schools, and are educating youths for the ministry in many of the principal cities. As a natural consequence of these efforts, the Armenian clergy have established schools of their own in opposition to the Mission schools, and are instructing the people themselves as the only way to prevent the schism. The same clergy are printing and circulating elementary and theological works of a far more liberal character than hitherto. These Missions in Turkey have not been attracting as much attention as they deserve; but it is the more gratifying to find that their unnoticed labors have been perseveringly continued, with results so pregnant with benefit to the population of that interesting country. Layard's tribute to the industry and success of our Missionaries, also, comes most opportunely upon the heels of some previous misrepresentations by a travelling correspondent of a New York paper.

At the present time, when Russia is striving desperately to usurp the sway of the Turkish dominions, and bring its many millions of people under the domination of the Greek church, the appearance of American Missionaries in Turkey possesses a peculiar interest, and will cause many evangelical Christians in the United States to regard the contest now pending with earnest attention.—*Philadelphia Gazette.*

DAILY
Morning Chronicle.
PORTSMOUTH:
THURSDAY, JULY 14, 1853.

FROM WASHINGTON.—The correspondent of the New York Courier at Washington, in addition to what we quoted from him in yesterday's paper in relation to the prospect of Mr. Buchanan's declining the British mission, says, under date of Sunday evening:—

"The subject of fishing negotiations was omitted from his instructions. Such a determination would be profoundly regretted by President Pierce and Secretary Marcy, but Mr. Buchanan is not indispensable to the administration."

If it be true, says the Boston Daily Advertiser, that Mr. Buchanan is despatched on his mission, without instructions on the fishery question, he may naturally feel that he would be placed on his arrival there in an awkward position, and it is not surprising that he hesitates to subject himself to the embarrassment which he would thus encounter.

CRYSTAL PALACE.

The President of the United States will be publicly received in New York on the Battery at 9 o'clock this morning, where he will review the troops, after which the procession will move up Broadway to Forty-Second street, and then to the Crystal Palace, which will be reached by the President some little time before the opening, one o'clock.

He will attend in his official capacity, accompanied by several members of his cabinet, and the parade attending his reception will add to the eclat of the occasion.

A number of days more must elapse, however, before the exhibition will reach a state to give it its full effect. Many articles for which places are assigned, it is understood have not yet arrived, and many others are not fully arranged. On Saturday last the strength of the building was tested by placing a heavy mass of iron, upon every square in the gallery, with an effect which was deemed sufficient to prove its competence to sustain the weight of a dense crowd of people.

CHINESE TAILS.—The rebel chief who is trying to overturn the present Tartar dynasty in China, promises, among other things, that the ancient customs of the Chinese are to be restored. The present mode of wearing the hair is an innovation upon the old custom of the nation. When the Tartars overcame the Chinese some two centuries ago, (says the Boston Post) they compelled their captives to shave their heads in token of submission, leaving one long lock to grow from the crown.—This, established by compulsion, has become a habit; and the "pigtail," with all its disagreeable associations, has been cherished for two centuries as an "institution." The original mode of wearing the hair in China was to allow it to grow long, and then bind it up gracefully on the top of the head. The Chinese took a pride in this appendage, and called themselves from it the "black haired people." This tail of the Chinese has been a prominent thing to attach ridicule to, and we believe those who reside among us for a little while have sensibly cut it off, in token of their relinquishment of barbarism. But whether General whats-his-name's restorative proposition extends to pigtails or to law alone, remains to be seen. We must wait for the result, as thereby hangs the tail.

A NEW PAPER AT WASHINGTON.—*Der National Demokrat* is the name of a new weekly paper in the German language, published in Washington, and edited by Friederick Schmidt. We have received the first number of it, which is very handsomely printed. This paper will meet a want of the German people in the United States, and cannot fail to have a very great influence among them.

This new paper cannot support the national Democratic party, because that party, it says, is used as the main stay of slavery, or has allowed itself to be so used. It says "there is found one—yes, indeed, ten thousand in Israel who have not bowed the knee to Baal. They are called the Free, the Independent Democracy." Then, after enumerating the principles of the Independent Democracy, as they are put forth in the Pittsburgh platform, it says "these are the principles which the National Demokrat will support."

It is to be a German Family Newspaper, advocating Christian and Free Democratic principles. It will cost two dollars a year to single subscribers. Address Buell & Blanchard, Washington, D. C.

ACCIDENTAL DEATH.—Mr. John Jones jr. died in Newburyport on the 11th inst. He had been for some years a watchman and tender upon the Railroad Bridge. On Thursday last, while sliding the draw to allow a vessel to pass, the crank accidentally struck him; and though the injury was not considered serious at the time, he continued to fail till mortification set in, causing his death.

FRANCONI'S HIPPODROME.

This famed troupe will arrive in this city to-morrow. The following notice of them we copy from the Boston papers:

THE HIPPODROME.—Franconi takes his benefit this evening, and with it his farewell of the Boston audience, to whom, in his card, he expresses his warmest acknowledgements, not only for their patronage, which is unsurpassed in the history of public amusements, but also for their kind appreciation of his slassic entertainments. No amusement, either theatrical, operatic or equestrian, (not even excepting the advents of Jenny Lind and Ole Bull,) has ever drawn such a succession of crowds, and that too, without a variation of programme, as Franconi's Hippodrome has drawn in Boston. We learn from reliable authority that within the two weeks that the company has appeared here, not less than from ninety to one hundred thousand spectators have witnessed these exciting and extraordinary feats.

Not the least remarkable feature in this exhibition is the constantly increasing excitement created by each successive entertainment; the attendance during the last few days being greater, and the audiences far more fashionable, than upon the opening nights. The admirable arrangement of the interior, and the excellent order which prevails throughout the vast amphitheatre, no doubt contribute greatly to this result. The ample dimensions of the colossal pavilion, calculated to accommodate nearly ten thousand people, are alone sufficient to attract and rivet admiration; but when every part of the enclosure is filled with spectators, seated in amphitheatrical order around the great course, gaily attired, and animated with the excitement of the chariot races, the steeple chase, and the daring feats of Nicola, Stout, and Fisher, it is impossible to imagine a more imposing spectacle, or to describe the effect of the *coup d'œil* presented by such a regularity arranged upon an unaccustomed spectator.

We would add, that a better appreciation of the performances of the Hippodrome could be had by a perusal of the "Key," furnished by ushers in attendance for a trifle.—*Boston Courier.*

THE HIPPODROME.—The success of Franconi's Hippodrome has no parallel in the history of amusements. The crowds seemed to increase with each representation of the classic games; and a better class of audience and a greater degree of enthusiasm is manifested on every successive exhibition. What is most remarkable is that the high priced seats are even better filled than the low priced. The order of the house is also a striking feature at the Hippodrome; there is no yelling or rowdyism exhibited by any portion of the spectatators, and notwithstanding the multitudes present, not the slightest indecorum is observable. The plaudits and cheers which accompany the exciting and intrepid feats of the riders and charioteers attest the satisfaction of the audience and proclaim the popularity of the Hippodrome. Persons are daily seen in the Hippodrome who were never before known to visit any place of public amusement, and great numbers have attended every exhibition given during the stay of the company in this city.

Franconi's benefit will, of course, be filled to an overflow this evening; the same performances, however, will be given in the afternoon for the accommodation of families.—The reserved seat tickets may be obtained during the day at Mr. Wade's music store, Washington street.—*Post.*

The Richmond Enquirer says the ice trade is becoming very extensive at that port, as well as in all southern seaboard towns. The ice is chiefly procured in the Eastern States.

No doubt this is true. New Orleans and Savannah do not export much ice; but we would suggese the ice-trade as a topic in the next Memphis convention.

Bishop Ives, of the North Carolina Episcopal Church, has not only become a Roman Catholic, but is to be ordained as a priest, and his wife is therefore to return home from Rome a widow! The bishop shoots ahead of other eminent converts.—*Boston Post.*

Is not a part of this, erroneous?

COLORED MASTERS OF VESSELS AT THIS PORT.—Joseph P. Taylor, of this city, and James Turner, of Cambridge, Mass., both colored, have purchased the schooner Jerome, of which Mr. Taylor owns three quarters, and is master and managing owner. Elbridge P. Talbot, colored, has recently purchased a quarter of schooner Sarah, and is master. John Douglass, colored, is master of the schooner Utica, owned by John B. Brown, Esq.—*Portland Argus.*

DEATH OF SAMUEL APPLETON.—Samuel Appleton died at his residence in Boston, on Tuesday evening. He was an honorable, intelligent and successful merchant, of a liberal spirit, always ready to lend his aid to objects of public utility, as of private charity. He has been for several years retired from active business, and disabled, in consequence of lameness, from walking abroad. His memory will be long cherished by all who knew him.

A SENSIBLE MAN.—The editor of the Newark Daily Advertiser shows that he is a person of excellent sense, by the following remarks:—"Can any thing be more intolerable than the great *blanket* newspapers of the city this hot weather? O, give us, these sultry days, and nights especially, a nice, clean *sheet*—it need not be large, with clear, cool rivulets of information running down in parallel columns, not in angry foam, nor dashing masses, but yet in sufficient quantity to satisfy any reasonable thirst for novelty and news.

Miss Laura Shields, of Cincinnati, died very suddenly on the evening of July 4th, while dressing for a ball. Not coming down when the gentleman called who was to attend her, her mother went to the door of her room, and found her lying upon the floor nearly dressed and dead.

☞ Dr. Boynton's Free Lecture on Mechanical Astronomy, preparatory to his course on Geology, was given last evening, at the Temple, to an audience of 500 people; and must have been highly satisfactory.

Dr. B. is a clear-headed, self-posessed lecturer, who has something to say, and says it, plainly, simply, and sometimes very forcibly.

We have no doubt he will give us as much Geology as can be compressed into half a dozen lectures, and in as popular a form as can consist with the subjects discussed.

He will deliver his *second* lecture this evening,—but will *not* lecture on Friday evening.

The *third* lecture will be on Thursday evening next.

☞ The Messenger learns that Samuel E. Coues, Esq., of this city, has been appointed Examiner in the Patent Office at Washington, with a salary of $3000.

But we learn from Mr. Coues himself, that there is no foundation in truth for this statement, any more than for a similar statement made in the Chronicle some time ago, about the same gentleman being appointed librarian. He has had no appointment whatever—but might be induced to accept the office of Royal Astronomer,—probably no other would suit him exactly.

☞ George W. Marston, Esq., of this city, has been appointed Clerk in the Office of the Commissioners of Customs, at Washington, at a salary of $1200 per annum.

☞ Forrester's Boys' and Girls' Magazine for July, begins a new volume: just the thing for the youth and children.

☞ To each new subscriber who pays for the Daily in advance for a year commencing August 1st, 1853—we will supply the paper without charge to that date.

PORTSMOUTH TO THE SHOALS.

SUMMER ARRANGEMENT.

Steamer Grace Darling,

CAPT. SAMUEL BILLINGS.

THE superior steamer Grace Darling, Capt. Billings, will leave Sheafe's Wharf, daily, (until further notice) at 10 o'clock, or on the arrival of the first morning trains on the Portsmouth & Concord and Eastern Railroads—and return from the Shoals in season to take the last trains for Concord, Boston and intermediate places.

This arrangement affords a fine opportunity for persons from abroad to visit one of the most desirable Summer resorts for the Invalid, and all others who are fond of Fishing, Bathing, and other amusements conducive to health and pleasure. The Islands (eight in number) are about an hour's sail from Portsmouth, by Steamer, where all the advantages from a sea-voyage can be secured, subject to none of its perils. The temperature is never more than 80 degrees in the shade, and seldom varies more than 10 degrees in 24 hours.

Hon. Thomas B. Laighton's Hotel on Appledore Island, designed and kept particularly for the Invalid, and also for the pleasure seeker, is one of the first class, where every convenience, both for luxury and comfort can be found.

The passage out is truly delightful—the scenery unsurpassed. As you pass down the river, view after view presents itself:—The Navy Yard, Dry Dock, Forts Washington, Sullivan, McCleary and Constitution; the settlements of Kittery Point, New Castle, Rye, and many Islands and Beaches along shore, present attractions that are beautiful to behold, and render the trip one of the most beautiful and pleasing nature.

PASSAGE ON BOARD STEAMER, 50 CTS.

Tickets may be obtained on board, or at the Ticket Office of the Portsmouth & Concord Railroad.

Parties from the neighboring towns can be accommodated on reasonable terms, by application to Capt. Billings on board, or to S. R. CLEAVES, Agent,
jul13 *At Portsmouth & Concord Station.*

*** Steamer Grace Darling will start from Sheafe's Wharf for Dover, every afternoon this week, soon after her arrival from the Shoals, and return from Dover next morning in season for a trip to the Shoals.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

FROM EUROPE.

By the Arabia, at New York, we have Liverpool dates to July 2, at 5 P. M.

The cream of the Turkish question is that everything is yet doubtful. Nothing has resulted yet from the Porte's rejection of Russia's ultimatum. Nothing in fact can be done until about July 1st, at which date it was thought the Russians would cross the Danube.

It was reported that Turkey had formally demanded the armed intervention of the five powers, but the statement was not confirmed. Things do not look, on the whole, so peaceable as they did. The French and English fleets were at Taredos.

FROM DESERET.—Papers from Deseret have been received at San Francisco to the 14th of May.

Brigham Young, Governor of Utah, has issued a proclamation from the city of Provo, ordering the raising of a company to put down a horde of Mexican and other outlaws who are infesting the settlements, and stirring up the Indians to make aggressions upon the inhabitants. The party is authorized to arrest and keep in close custody every strolling Mexican party they may encounter.

The weather during the latter part of April was mild. There was a slight hail storm on the 17th. Peach trees, currants, and other shrubbery in full bloom on the 21st, although one foot of snow fell during the day, yet it was so warm that it mostly disappeared before sunset. The cold weather did not materially injure the crops.

FIRE AT NEWARK, N. J.—On Tuesday afternoon, at 5 1-2 o'clock, P.M., a fire broke out in the boiler room of Ripley & Co.'s steam planing and saw mills and lumber yard, and spread so rapidly that in a short time Wheeler's packing box factory, Burnett's trunk establishment and Poiner's lumber yard were enveloped in flames. Loss $140,000—partly insured.

SINGULAR CASE.—The Exeter News Letter states that a gentleman residing in that town owns a cow which he dares not send out to pasture or into the street, such is her malicious disposition and perfect hatred of the human species, and especially of women and children. The owner of the cow has also a cat upon his premises, and although the gentlest treatment and all the blandishments of the dairy have been proffered it, no one has been able to lay hands upon it or even to lure it into the house.

Strange as it may seem, these two wild animals have the best understanding between themselves, and appear to be perfectly happy in each other's company. While few persons dare approach the head of the cow, the cat sleeps in her manger, or upon the cow's back, eating with the cow from one pail, and receiving the kindest treatment from her.

TRYING SITUATION FOR A MOTHER.—A few days since, a daughter of Mr. Isaiah Sawtelle of Belgrade, Me., about two years old, fell into a well eighteen feet deep. The mother was informed of the accident, but when she arrived the little one had sunk in four feet of water. She ran to a neighbor's, twenty rods or more, for assistance, but found none. Returning she lowered the well-pole to the bottom, and brought the child to the surface, the little thing clinging to the pole with its hands. The mother raised it a few feet, when its hold relaxed and it again sank. Again she lowered the pole, which coming in contact with the little hands, it was taken with a death grasp, and the child was thus drawn up twenty feet to its mother's arms. Notwithstanding it was apparently dead at the time, by proper exertions it was restored to life.

The body of Lyman B. Fisk, a brother of Dr. Fisk of Northampton, who was lost on the night of the 29th of April, by the burning of the steamer Ocean Wave on Lake Ontario, was discovered June 30th, on the beach, on the northern shore of the lake, *forty miles* west of the scene of disaster. Owing to the coldness of the water, the body was but slightly changed or disfigured, and was easily recognized by his acquaintances. His remains have been deposited in Mount Auburn. Of the forty or more persons lost at the same time, this is only the fourth body recovered. One was found on the south shore of the lake, a second, near the spot where the boat was burned; the third, in the St. Lawrence River, a few miles below Odensburg, and one about one hundred and fifty miles *east* of the place where the disaster occurred.—*Boston Chronicle.*

A Halifax paper announces the decease of Rebecca, relict of the late Dr. W. J. Almon, at the age of 90 years. She was daughter of Rev. Mather Byles, of Boston memory, and was great grand neice of Dr. Cotton Mather. whose father was first President of Harvard College. She was born in New London in 1762, and with her father quitted Boston at the same time of its evacuation by the British troops, for Nova Scotia.

GREAT HAUL.—Fifteen hundred bass were taken at one haul at Hampton Beach on Monday, so writes a correspondent of the Herald.

Harriet Beecher Stowe is the guest in Paris of Mrs. Maria Weston Chapman, formerly of Boston. Mrs. C. is spending a few years in Europe for the education of her children.

A postmaster in Essex county, while puzzling out a very uncertain superscription on an Irish letter, jocosely remarked to an intelligent son of Erin, who stood by, that the Paddies brought a hard set of names to this country. "Ah! yes," replied Pat, "but they *git* harder ones after they arrive here."

Brooklyn, N. Y., has, by a vote of its citizens, decided against the introduction of water into the city by aqueduct from ponds on the island, the inhabitants feeling confident in their supply from wells. A vote on the subject was taken on Monday; 7693 ayes and noes were cast, and the latter outnumbered the former by 2415.

THE subscriber having taken a lease of the well-known, popular and beautifully-located Boarding-House on Kittery Point, belonging to Mr. R. The house is mostly new, and all in thorough order. The rooms, especially the sleeping rooms, are commodious and admirably ventilated; the opportunities for *Bathing* are unusually safe and convenient; the neighborhood quiet; and the scenery and rides thereabout and in the vicinity of the *sea-shore*, (which is in full view), are delightful. CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

for giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. MARRIAGE.

Happiness and Competence.

WHY IS IT!

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him an opportunity of securing that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—a healthy mother. Such knowledge is contained in a little work entitled

THE MARRIED WOMAN'S
Private Medical Companion.

BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., pp. 250. Price 50 Cents.

[ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beaming consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been SENT BY MAIL within the last few months.

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Buy no book unless "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y." is on the title page, and the entry in the Clerk's Office on the back of the title-page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to entail fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents*, together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

When Knowledge is Happiness, 'tis culpable to be Ignorant.

☞ On receipt of One Dollar (for the fine Edition, extra binding,) "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION" is sent (*mailed free*) to any part of the United States. CONSUMPTION!

THE above Expectorant, prepared by an experienced Physician and Chemist, has now become a standard Preparation, and is offered for the COMPLETE CURE of those diseases of the **Throat and Lungs**, which, if neglected, usually terminate fatally in **Consumption**. It contains no *Opium, Calomel*, or any mineral whatever, but is composed entirely of those *Roots, Herbs*, and *Vegetable substances* which have a specific influence upon the Lungs and their connected organs. Its immediate effect is to allay all irritation, and gently remove the phlegm and other morbid secretions from the Throat and Air-passages, thus relieving the Cough, by subduing the inflammation and other causes which give rise to it. It is approved of and recommended by Physicians of the highest standing, and may be given with perfect safety to the youngest child or the most delicate female.

PROF. ALEX. C. BARRY'S

Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind—The higher it point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot at the manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity, and by the principal Merchants and Druggists throughout the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22*

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore,

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom

AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & *Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,*

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND,
GENOA, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,

INTERESTING FACTS

are constantly coming to light, from different parts of the country, showing the astonishing effects of the famous and faithful use of these Lozenges.

HERE IS ONE LETTER,

from a citizen of Portsmouth—and but a couple of hundreds:

PORTSMOUTH, N. H., May, 1853.

This is to certify that I consider Devines' Compound Pitch Lozenges a valuable article for what they are designed—the best remedy before the public. My son had a very severe cough, which threatened speedily to carry him off; and nothing seemed to give relief, until I tried these Lozenges, —which produced signs of relief in a few hours, and after the taking of a few boxes, wholly removed his cough. DAILY
Morning Chronicle.
PORTSMOUTH:
FRIDAY, JULY 15, 1853.

DIALOGUE

Between the Pilot and Chronicle.

The Pilot of July 9, says:

We find in the Chronicle, of Portsmouth, several extracts from an article of ours upon Gavazzi, accompanied with a few comments. Our friend will understand us when we remark that he evinces great tact in the selections which he makes from our columns, and in the comments which he generally appends to them. We intend to cultivate his acquaintance, one of these days, with his permission, and when we have time. He says:

"We know there is a most intense mutual hatred between the Irish Orangemen and Catholics—and we know also that the Roman church, that is, the priests, forbid the common people's attending a heretical meeting. And we regard the one thing about as absurd as the other."

The Pilot replies:

"You have not read the history of Ireland for the last hundred years, then. If the Orange spirit were now mere matter of history, it would be another thing. But the Orangemen in Canada and elsewhere, who will try to turn out on the 12th, are as ferocious as their grandfathers were in times when the same price was paid for the head of a priest and the head of a wolf. We are accustomed to think that there was cause for mutual hatred between our fathers here and the Indians, in times when men dared never lay aside their arms, and when men, women and children were at any moment exposed to the danger of suffering the cruelties peculiar to Indian warfare. Well, for Indians, read Orangemen, and for New England, read Ireland, multiply the horrors ten or twenty fold, and you will see some cause for the mutual hatred you speak of."

Well; that is pretty well answered. But if this feeling of mutual hatred is not unreasonable and foolish, but is wise and must be perpetuated, then we suppose the battle ground of the Orangemen and Catholics is merely transferred from Ireland to America, and they must fight on, till, like the famous Kilkenny cats, they leave nothing but the tips of each other's tails; or until like the Indians and New Englanders, one exterminates the other. If this be true, it strikes us as not remarkably Christian, or humane, or enlightened.

The Pilot says, again:

"We did not, in our article, speak of heretical meetings generally, so we do not care now to discuss the reasons for the well known fact that it is unlawful for Catholics to attend them."

We believe, as the Pilot says, it was speaking only, or specially, of Gavazzi meetings—but its speech was in terms so general, and so exactly in accordance with what the priests often say and write, that we took it as a special application of a general principle,—which principle indeed is laid down in the last extract, wherein the Pilot alludes to *"the well known fact*, that it is unlawful for Catholics to attend heretical meetings."

This is the very evil and oppression that we find fault with. We, as Americans and men, deny the right of any man or set of men to tell us whom we shall not hear. If a Mahometan or a Mormon, a Chinese or a Catholic, an Adventist or a Presbyterian has any thing to say, we may hear it if we see fit. And those who would forbid us, whether they call themselves Church or Conventicle, Session or Inquisition, will please to stand or fall as best they can to their own Master, as we will to ours.

When the Catholic laity, now nearly all of foreign birth or immediate foreign descent, shall have so changed by future birth and education, as to become American and Independent in feeling, the old yoke of priestly domination must be lightened and smoothed, or else it will be broken and thrown away.

The idea that a priest is any thing but a man, and a fallible man, too, (see Leahey, &c.) is a false idea. Not less erroneous is the idea, that these same fallible men, gathered into a church or council, become infallible.—Yet on this strange assumption of *infallibility* stands the whole Roman church structure.

Free intercourse with "heretics," and a fair hearing of them, would shake and destroy the people's confidence in this infallibility.—This the priests know, and therefore prohibit their going and hearing, lest they *lose their souls*, as they tell them they will.

The Portsmouth Chronicle said—

"We see no good reason why a Protestant should hate a Catholic, or why a Catholic should hate a Protestant."

The Pilot responds—

"Nor do *we*. We are happy to agree with the Chronicle herein. He hates Catholicity, but he does not hate Catholics. We despise Protestantism, but we neither despise nor hate Protestants. Catholics, who obey the precepts of their religion, cannot hate any person. Catholics do not like to go to hell.—Meanwhile, we accept the Chronicle's admission that Protestants hate Catholics."

We think the Pilot accepts somewhat more than we gave. We spoke of the hatred of one class of Protestants, Orangemen; but if we were to make the general statement, we should qualify it by the word *some*—for surely *all* Protestants do not hate Catholics. The best haters are commonly ignorant and prejudiced men, the slaves of some superiors who profit by their blindness.

The Chronicle says:

"Nor can we see why one sect should be afraid to hear or understand another."

The Pilot answers,

"Nor can we. Perhaps it is because the *sects* are rivals and competitors for the public favor. This does not interest us, however, as the Catholic Church is not a sect."

If the editor of the Pilot will look into Webster's Dictionary, he will see that the first definition of *sect* there given, makes it nearly synonymous with *denomination;* and in this sense we used it. We know, well enough, that the word sect, in its etymology, means *a piece cut off*, a cutting, &c. And we know full well that the Roman or Western Church assumes to be the only true, Infallible Church—while the Eastern or Greek half of Christendom is counted by it as a sect. The English Church and others on the continent, she considers as all sects and no churches, and calls them heretics.

In England, Episcopacy is the church, and all other sects are dissenters' meetings.

But in this country, as we have no religion established by the State, and as our constitution expressly leaves all denominations, sects and creeds on a level, the terms Protestant, Dissenter, and Sectarian, as diminutive terms, are all out of place.

The Roman church here, is nothing but a sect among the sects, or a church among the churches, or one denomination among many. Lordly and Pontificial assumptions may have their place under regal and ghostly governments—but they are anti-republican and anti-American.

We will not be tenacious about the term *sect*, however, but we will speak in the Pope's own language, of the "Roman Church," and say, We cannot see any good reason why its members need be afraid to hear and understand the truth or falsehood taught in conventicles or elsewhere. "Catholics do not like to go to hell," says the Pilot. We have understood that a penalty of this kind has been threatened by some priests on those of their flocks who dared to wander into heretical folds.

If this be true (and we will thank the Pilot to correct us if it is not,) then we have only to say, we pity alike, the *priest* who fancies he or his church has such power, and the *people* who are afraid of it.

It is a bondage, unworthy of a man or a christian. I may worship my Maker and my God, according to the dictates of my own conscience—and if any priests offer to forbid me or stand in my light, I shall say to them, "Jesus I know, and Paul I know—but who are ye?"

SLAVERY IN BRITISH INDIA.

The Friend of India exposes a part of the slavery now practised, contrary to law, in British India. In Travancore, about 12 per cent. of the population are in actual slavery. The field slaves, especially in the rice-growing districts, are exceedingly numerous. They are worked harder than the free laborers, receive a pittance which is barely sufficient to sustain animal life, and are frequently cruelly treated; for, although the law nominally protects their persons, it is almost impossible for them, from ignorance, extreme poverty, and the intrigues of their masters, to set it in action. The slave lives through a life of unpaid toil, or scanty food, in a hovel to which even the Bengalee hut is a mansion, and if he survives to old age, is turned out to beg of men as wretched as himself, or starve.

In 1849, it is understood, the Madras Government, moved by the tales which reached its members of the deep degradation of this class, forwardek to the Rajah some remonstrances on the subject, so stringent that his Highness wavered, and the large slaveholders became alarmed; they went in a body to Tevandram, and represented to the Rajah, in unusually free language, the consequences which must result from his interference.—They declared that if the slaves were paid, they would refuse to work, that the rice cultivation must perish, and the land would be in danger of a famine. The argument is precisely that of the American slave-owners, and of the Jamaica planters, but the Rajah, a kind-hearted, but indolent man, was alarmed, and the efforts of the Madras Government were of no avail.

We wish the Government and Rajah would try the experiment of paying the laborer.—We do not believe the Heavens would fall, if justice were done, even if it were done suddenly.

DROWNED.—Mr. George T. Weed, son of the late Thaddeus Weed, was drowned at Buffalo, on Saturday last, by the upsetting of a boat in consequence of a canal boat running foul of it. He was 24 years of age, and is spoken of as an upright and highly estimable young man. The Buffalo Courier states that this is the *tenth* case of drowning which has occurred in that city within two weeks.

A Black Snake, about 5 1-2 feet long, was discovered among the cargo of a coasting vessel at one of the Sea street wharves, in Boston, on Tuesday morning, and killed after a smart battle.

LOCAL.

LAUNCH.

☞ According to previous notice, the beautiful clipper ship *Dashing Wave* was launched yesterday afternoon, at 5 o'clock, from the yard of Messers. Fernald & Petigrew. This ship is of the same model as the Water Witch, launched a few weeks ago. She is thoroughly built, copper fastened, and sheathed with yellow metal to her deep load line.

After the launch, a collation was given by Capt. Ichabod Goodwin and Messrs. Fernald & Petigrew, the owners of the ship, on which occasion the following sentiment was offered by Wm. H. Hackett, Esq., and received with rapturous applause:

Our Friends, Messrs. Fernald & Petigrew:—Their ingenuity, enterprise and liberality is without bounds; in former days they were content, like the rest of us, to make little *"Catharines"* and *"Elizas,"* but they soon changed the *"Fashion"* and shew our New York friends a *"Columbus."* They have caused the *"Danube"* to run, and created an *"Empire State."* They have made a *"Western World"* and a *"Frank Pierce"* to sail it, and even compelled a *"Levi Woodbury"* to walk the plank; and having created a beautiful *"Water Witch,"* they now send an elegant *"Dashing Wave"* to roll its builders' fame to the Pacific's shores.

THE BERWICK TRAGEDY.—James Waters, one of the three men committed to jail for trial on the charge of murdering Lewis Maxwell in Berwick, on the first of June last, was taken before Judge Shepley, at Portland, on the 9th inst., and by him admitted to bail in the sum of $1000.

☞ To each new subscriber who pays for the Daily in advance for a year commencing August 1st, 1853—we will supply the paper without charge to that date.

CHINESE EMPIRE.

Accounts from Hong Kong, to April 22, present matter of great interest to all who wish to understand the condition of this singular people.

The rebellion is now beginning to assume a more serious aspect: the rebels having taken Nankin, crowned their leader as Emperor—following it up by proclamations, &c.—After taking Nankin they took Che-kiang-foo and then proceeded to the Grand Canal with the intention of cutting off all supplies intended for Pekin, but were met by several armed Portuguese lorchas sent up by the Tauoutie of Shanghae, which assisted by the Imperial troops stationed there, drove them back, leading to the abandonment of Che-kiang-foo, which is again in posession of the Imperialists, and causing the rebels to retreat to Nankin, which is now to be considered their stronghold. It is reported that on the 12th of March the two forces, Rebel and Imperialist, were to meet in battle array, to have a grand decisive battle.

The Pekin Emperor, having sent his ablest officer with 30,000 men to manage the business for him, the foreigners at Shanghae were organizing for defence, it being reported that the rebels were unfriendly to them. At Shanghae they have the U. S. steamer Susquehanna, three British ships-of-war, and one French ship.

Commodore Perry is now here with the Mississippi and Saratoga, and intends to proceed at once to Shanghae and Japan, without waiting for the squadron placed under his command, and yet to arrive. The policy of this move is very questionable, as it will be contrary to the expectations of the Japanese, who are fully advised of all our movements, and will in all probability result in the total failure of the expedition; independent of which it leaves the protection of American interests to other friendly powers in case of a disturbance, which is not at all improbable. This hasty movement is probably founded upon the fact that he considers himself commander of the Japan expedition and not of the East India squadron.

The Hong Kong Register, speaking of the character of the insurrection, says:—

The true state of the case seems to be that they are proud Confucianists, determined to establish the ancient manners and customs prevalent under Han and Ming dynasty, and so exasperated against the Manchows that they are likely to look with disgust upon anything foreign; and while they are bent upon rooting out Buddhism, they would be as little disposed to have Christianity. We have letters last night from Soochow, detailing their cruelties to the Manchou women they took Nankin. Having decoyed 700 of these unfortunates into a building, under pretence of getting them married to Chinese people, they ruthlessly set fire to the whole and reduced them to ashes. They then registered the inmates of every house in Nankin, and the next day went through the city, comparing the lists with the inhabitants found in each dwelling; when they found more than the number given in, they killed the odd number. They then pressed every Chinese from the age of 15 to 45 into the army, killing the children as useless, appropriating the younger women, and making the older ones cooks and scullions.—This may be a mere report, exaggerated by the fears of the Chinese; still the indiscriminate slaughter of the Buddhist priests gives some color to it.

The Chinia Mail thinks that the rebellion cannot succeed, though a long time will be required to put it down, and argues that its success would be injurious to foreign interests.

TRIBUTE OF GRATITUDE.—Rev. Dr. Griswold has acknowledged, in a suitable and appropriate manner, the obligations which his family are under to Mr. Linus Benedict, the stage proprietor of Norwalk, who was instrumental in saving the life of Miss Griswold, at the time of the dreadful catastrophe of May 7, at Norwalk. Miss Griswold, it will be recollected, was taken from the water, and was supposed to be drowned. The physician present pronounced her dead, but Mr. Benedict was not satisfied that such was the case, and continued his efforts to resuscitate her, until his labors were successful. Dr. Griswold has presented to him a richly chased, heavy gold watch, with a massive chain and key, bearing the following inscription:

"Presented to LINUS BENEDICT, by Rufus W. Griswold, for saving the life of his daughter, Emily Griswold, at Norwalk, May 7, 1853."

GAVAZZI RIOT IN MONTREAL—CORONER'S VERDICT.

The coroner's inquest into the Gavazzi tragedy closed at Montreal July 12. Nine Protestant jurors found, among other things, that the firing upon the citizens on that occasion, was by order of the Mayor, and that the said firing was unnecessary and unjustifiable.—Ten Catholic jurors return a verdict agreeing mainly with the other, but stating the order to fire was given by some person unknown.

We think in this case, judging from the evidence reported, the catholic jurors have the right of it,—and we are pained to see a jury vote on a matter of fact and evidence, by sect and party lines.

The chief point of interest was to ascertain who gave the fatal order to the troops to fire. Their commanding officer (who alone should have been obeyed) denies that he did, and there has been quite conclusive evidence that he did not. The Mayor also says that he did not give the order. The order was probably given, in military style, by some person having no authority, whose voice was mistaken by the soldiers for that of a proper person to obey.

A Scotchwoman testified, I saw the soldiers drawn up, and I placed myself for safety between the two divisions. I was on the woodyard side and nearest the lower division.—There was a great deal of noise and disturbance about the Mayor. The Mayor said to the mob, "If you will not disperse, I will cause the military to fire." He threatened them several times before he swore. He used a hard word, (which by the laws of my church I dare not say) that he would be d——d if they did not disperse, he would read the riot act. I heard the words "Our Sovereign Lady the Queen."

—I didn't hear him finish what he was reading. My back was turned from the Mayor, and as I was stooping down to pick up my cloak, I heard two or three cry "fire, fire;" one I noticed in particular; he had a blue coat on and a chain on his breast. The words were uttered by more than two persons. At that time I lost sight of the Mayor. The person with the blue coat who had used the words, then passed me, and with his big boots trod upon my toes. I told him to get off, and he used insulting language; he then put his hat under his arm, and putting his hand to his mouth said "ready, present." Another came and catching the string of my bonnet, pulled it nearly over my face. When I remonstrated he told me to go to ——. I heard the word "heretic" used, and a big, common-looking Irishman said "ready, present;" he came out of the crowd where the words "fire, fire" had been used. Immediately the troops fired before I had time to turn round.

—Before I had gone a few paces the upper division fired. I spoke to two persons near me, saying "take hold of this Irish villain who has caused all this." Another Irishman as I've said (they were all Irishmen) smashed my bonnet over my face. I was standing near the bugler, and heard the Col. tell him to "sound cease firing" and he seemed very much annoyed at their firing, and wondered what was the cause of it. When I accused the man of having given the word of command, he said, "Hould your tongue—it was the Holy Virgin."

—I would be able to recognize the person who gave the command again; he appeared to be a laboring person; Col. Hogarth or Col. Horn couldn't have given it in a more military style. I don't wish to say anything against the Cameronians, for I was born among them, and I was daughter of one who commanded in the 42d Highlanders. The man who gave the words did not appear to be intoxicated; his voice and walk were steady.—He had on a blue coat made in the old Irish fashion; he had on either corduroy, or dark moleskin pantaloons; they were not breeches—they stretched down to his boots. They were either boots or cobourgs, I am not sure which. He had a home made straw hat. By his size he was not tall enough to be in a Grenadier Company, but tall enough for a common soldier. The appeared greatly delighted at what he had done, and made use of one or two sentences which I cannot repeat. He said "for nineteen years Pat has served in the Army for a lousy shilling, and it takes Pat to suck Sandy." The command was given as complete as I ever heard it in Glasgow Green or St. James Park; it was loud enough to be heard by both divisions. I heard no one but him give the words, "ready, present." When the lower division fired, Col. Hogarth had his head turned sideways and I heard him repeat "what is this" or "what is it?"; I'm not sure which. He man who gave the command was about 5 or 6 feet from the division. I have in my possession credentials of character from the highest persons in the country.

INCIDENTS OF THE SAILING OF THE DECATUR.—The U. S. ship Decatur, one of the squadron under the command of Comodore Shubrick, hauled off from the Navy Yard, on Tuesday, into the stream. Her Marine guard of 25, of the finest looking troops we have had the pleasure to see, were marched on board by Lieut. Rich, of the barracks.

They were received and inspected by Captain Whittle, who, in his usual kind and polite manner, addressed them a few words,—which, if as 'tis said, brevity be the soul of wit, Captain Whittle must have no small allowance of the latter.

"You have come on board this ship, where we are to be together for some years; you have no marine officer to command you, and you will therefore obey the orders of the Orderly Sergeant, and the Corporals, and show the same respect to their orders as you would pay to my own. I am much pleased with your appearance, and you come to me with high recommendations from your officers, and I hope, when we return to be able to make an equally favorable report. I am sure I shall, for if you disgrace yourselves, you will be the first example afforded by the Marine corps since its institution."—*Boston Chronicle.*

MARRIAGE.

Happiness and Competence.

WHY IS IT!

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so lights as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

and her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglects to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children the blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents,* together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

PATENTS.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 22 State Street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal throughout in within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, WASH.

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent I am very respectfully,

Yours, &c. THOMAS EWBANK,

A New, Delicious Temperance Beverage.

AMBROSIAL MEAD!

THIS excellent Compound is prepared from the best JAMAICA SARSAPARILLA, without its dark, repulsive appearance, being beautifully transparent and entirely free from all impurities. Its qualities as a beverage, a single trial will give it a pre-eminence over all other preparations, by its freedom from noxious ingredients, agreeableness of flavor, and its *exceeding cheapness*, one bottle being sufficient to make thirty glasses of the beverage.

CAUTION!—The proprietors of this excellent preparation have spared no expense to bring it to perfection, and would caution purchasers to buy none without the fac simile of Wilson, Fairbank & Co. on every bottle.

WILSON, FAIRBANK & Co., 13 and 15 Hanover st., Boston, sole manufacturers. Sold by all Druggists and Grocers throughout the country.

PROF. ALEX. C. BARRY'S Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot and manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity, and by the principal Merchants and Druggists through the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22*

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom

AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

READ! READ! READ!

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the best family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & *Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,*

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND, Genoa, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been given up to consumption, has found health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,

PORTSMOUTH:
SATURDAY, JULY 16, 1853.

THE MAINE LAW—IN MAINE.

That well-informed paper, the Portland Advertiser, makes the following statements and suggestions on this subject. They are worthy the attention of all parties, moral and political:

If the question could be fairly put to the people of this State, entirely disconnected from party politics, we believe that more than three quarters of our legal voters would be found opposed to the repeal of the Maine law. The amendments of the last legislature have removed constitutional objections which existed in the minds of some, while they have strengthened its provisions, and added to its efficiency. And yet, the danger of repeal in this State is at this moment more imminent than ever before. There was much excitement last year upon this subject, but we did not then suppose that the law was in any *immediate* danger. But a very different state of facts exists at this time.

It is morally impossible that the Maine law can ever be repealed in this State without the aid of the organization and political machinery of one of the great political parties. Last year the rum power failed to secure this object. The regular candidates of all the political parties were in favor of the material provisions of the law. The opposition to the law was therefore found outside of, and opposed to, all the political organizations. In this position, it was very evident to us that they could do nothing more than to make a beginning, and prepare for a desperate effort to secure the organization of the democratic party for the next contest. This they have unquestionably succeeded in doing. They have now a powerful weapon with which to fight their battle. We have felt its force too often to underrate it—and we can assure the friends of the Maine law, that the day of their trial has come. They have now to deal with an opponent that has not been accustomed to defeat.

"Now, gallant Saxon, hold thine own!
No maiden's hand is round thee thrown!
That desperate grasp thy frame might feel
Through bars of brass and triple steel."

Those who are prompted by appetite, passion and self-interest, in a contest of this character, are generally united, determined and persevering. Those who are moved only by devotion to a sentiment, or principle of duty, are too often divided, irresolute and lukewarm. They lack that wonderful *cohesive* power of selfishness, which impels and binds together their opponents. Here lies the principal danger at the present time. If its friends are united, resolute and determined, the law will be sustained, and in a manner which will prevent future efforts to make war upon it. But, if they are divided, irresolute and faltering, the chances are that they may sustain a most inglorious defeat, the law be swept from the statute book, and Maine return to a state of things, the consequences of which human wisdom can hardly comprehend.

A man across the Fulton Ferry died with the cholera a few days since, and on opening his "bread basket" it was found to contain one pint of cherries, two green apples, four bananas, a congle of pears, a glass of ginger pop, a gill of of peanuts, two hard boiled eggs, a quantity of green peas, a piece of currant pie, and six cucumbers. The coroner pronounced him dead, and demanded his fees for an inquest.—*Brooklyn Journal.*

We pronounce the man's appetite extraordinary—as the story certainly is—if true.

A Singular Taste.—Parson Brownlow, the "fighting preacher," or preaching fighter, in his last paper, accepts a challenge to fight a brother editor, and names the time, place and weapons as follows:

"We select a *hog pen*, immediately after a *hard rain*, and *dung forks* as the weapons—and whoever lifts the other out, is to be the acknowledged victor."

Attempt upon the life of Louis Napoleon.—A letter from Paris says:

"There are rumors afloat of secret attempts on the life of Louis Napoleon. One evening a number of ropes were discovered stretched across the road to St. Cloud, intended to trip up the horses of the imperial carriage. It is said the Empress is very nervous when she rides out with him."

Some of the papers are publishing the fact of the return of nineteen one-hundred dollar bills, lost by Mr. Flanders Newbegin, of Biddeford Me., as a "case of conscience."—We imagine (says the Boston Journal,) that conscience had very little to do with the matter. The missing bills were the only one of that denomination issued by the bank, and the payment of them was stopped. They were of no value, therefore, to anybody but Mr. Newbegin. When the balance of the missing money turns up, there will be a "case of conscience" to record.

A Rare Case.—A gentleman who is engaged in settling the books of a firm once doing a large mercantile business in Pittsburg, but of which both of the original partners are now sleeping quietly in their cemetery vaults, was called on, on Friday, by a gentleman from the south, who came to pay principal and interest, amounting to $600 of a debt contracted in 1819, by a merchant in Vicksburg, Miss., who had failed subsequently, and whose debt was supposed to be lost beyond all hope. He has been recently enriched by the rapid rise of some cotton lands which he had purchased, and is now paying off old liabilities, here and at the east, amounting to several thousand dollars. His name, we understand, is John Downing. He should be remembered to his honor.

If a speculator misses his aim, every body cries out "he's a fool," and sometimes "he's a rogue." If he succeeds, they besiege his door, and demand his daughter in marriage.

DOG CATCHERS.

The New York Journal of Commerce says that the Dog Catchers in that city are doing a heavy business. The office of the Chief of Police has been overrun this week with ragged, sunburnt urchins, bringing their fifty cent demands against the Corporation, for catching unmuzzled dogs.

The New York Herald describes the dog-pound in the following terms:

One of the most remarkable places to be seen in the city, next to the Crystal Palace and its outside "fixings," is the Dog Pound, at the corner of Thirty-first street and First avenue. It embraces a small vacant lot enclosed with boards, near the East river, where all stray dogs are received and confined. The 11th inst. was the first day that this "doggery" was opened. In the course of the day, about 250 dogs were received at the pound, of every size and almost every known breed. They were chiefly gathered by gangs of boys, who received fifty cents per head. At night, all not redeemed or purchased, were cruelly slaughtered. One of our reporters being a friend and admirer of the better class of well bred and sagacious dogs, yesterday visited the pound, where he found over one hundred poor forsaken animals awaiting their doom, and looking as if they were begging for some one to redeem them, or save their lives. Each was either chained or tied separately, and without supplies of food or water. The collection embraced every variety, from the large, fine, well-marked Newfoundland, down to the French poodle, the fierce-looking terrier, long-eared King Charles, and woolly lap dogs of all colors. We sympathized with a fine, grave looking Newfoundland, as he philosophically sat, looking sober and resigned, towards the door, as though he expected his master, or master's children, to appear and claim him. Other less sagacious and smaller specimens of the race, were putting forth piteous whines and lamentations over their unhappy fate, hoping that the kind friends from whom they had been so ruthlessly torn, would come to their rescue. Some large, fine fellows, were nobly resigned to their fate, and were stretched out at full length, fast asleep, after the hard chase and struggles they had endured before being imprisoned.

One gentleman's dog had re-appeared at the pound yesterday, although redeemed by him the day before. For the sum of two dollars you can either redeem or purchase any dog in the pound. To country people fond of fine dogs, the pound offers a splendid opportunity for supplying themselves. And many a poor Tray will pour forth all his gratitude to any person who will rescue him from a certain and cruel death. While we were present, the boys brought in several additional prisoners amidst shouts of triumph. A dog dealer could make a splendid speculation by purchasing dogs at the pound, and keeping them in the winter, and then sell them again at $10 and $20 dollars apiece. Kind reader, when thou thinkest of the most faithful and grateful friend to thee of all the human race, think of poor Tray in this his day of greatest tribulation. Each setting sun seals the doom of all in the pound.

We are apt to think there ought to be one more institution in New York, viz., a pound to put the boys in, who catch these poor dogs. They ought to be kept at school or made to work at something, every one of them; or they will become a much worse nuisance than the dogs.

Original Letter of John Hancock.—The Marietta Intelligencer has been shown an original letter from John Hancock, transmitting a copy of the Declaration of Independence to General Ward, of revolutionary memory. It is in the possession of a grandson of the General, and reads as follows:

Philadelphia, July 6th, 1779.

Sir—The enclosed Declaration of Independence I am directed to transmit to you, with a request that you will have it proclaimed at the head of the troops under you command, in the way you shall think the most proper. I have only time to add, that the importance of it will naturally suggest the propriety of proclaiming it in such a manner as that the whole army may be fully apprised of it. I have the honor to be Sir, your most obed't and very humble sirv't,

John Hancock, Presid't.

Gen'l Ward, or officer commanding the Continental Troops at Boston.

It has been said of an eminent journalist, now no more, that "he rushed into clubs, rolled about all day, copiously talked nonsense or sense, and listened to the like, with the multifarious miscellany of men; came home at night, reduced it into a leader, and was found to have hit the essential purport of the world's immeasurable babblement that day, with accuracy beyond all other men."

A Turn of Fortune's Wheel.—A hard working and industrious American family, the father of which is a coal-heaver and the mother a washerwoman, residing in the rear of Marion street, Boston, has just received information that a brother of the former recently died in Calcutta, leaving them the very acceptable sum of $52,000. The family comprises several children. We trust that their future may be as happy and contented as their past has been wearisome.

"We wish," says the Presbyterian Quarterly Review, "that Mr. Dickens would be persuaded, for once, if only for the sake of variety and truth to nature, to become acquainted with one decent minister of any denomination, and give us his portrait as an offset to the disgusting hypocrites he delights to paint. Is there no such thing as an honest man in England preaching the gospel?"

Western Eloquence.—A Wisconsin lawyer is said to have commenced an address to the court in the following style:

"The court will please observe that the gentleman from the east has given them a very learned speech. He has roamed with old Romulus, soaked with old Socrates, ripped with Euripedes, and canted with old Cantharides; but what, your honor, does he know about the laws of Wisconsin?"

A VOYAGE TO THE SHOALS.

BY UNCLE TOBY.

Dr. Boynton told his audience on Thursday evening, that he had been out to the Isles of Shoals that day, and learned a fact in the geology, from a personal ramble over its rocks.

He saw deep cuts, or dry canals, across one island, which on examination proved to be old fractures in the granite crust, nearly but not quite filled up with rocks of another kind, which, in a fluid state, rushed up the cavity and closed the seam. He saw these wonders of Appledore, and feasted on them, while most of the company, considering the land merely as hard and rough, got into the shade of the hotel, and waited for dinner. Not so the geologist: he snatched in an hour the survey over which he would gladly have mused for a week. Uncle Toby also rambled and tired himself, as he always does, in scrambling up to get a good view of the landscape, or as in this instance, the seascape.

He observed that there was a great abundance of granite rock, cut up into clever handy pieces, and fancied that if he should ever live there, (which is possible, but not probable) he would build a hut of them, on a solid foundation. He observed also that the soil was excellent, what little there was of it; but that it was extremely scarce. The inhabitants, in the olden time had enclosed many gardens or little fields, of course with stone walls; and though partly broken down by storms, many of the walls remain, cheap, but effectual monuments of these old settlers. It is pretty easy to see how a live man might get a living there, namely, by catching fish, which always have abounded there, and still abound. But he wondered where the earth could be found deep enough for a grave, and he certainly saw no monuments for the dead.

Yet here, on these bleak and barren rocks, laved by the sea and swept by the winds, many men and women had lived and loved, and hoped and feared, and toiled and died,—and from this spot, which they called home, and which to them might be the centre of earth, their spirits had returned to God who gave them, by as direct a line of ascent, and through a path as resplendent, as if they had dwelt in a marble halls, and breathed their last in gilded palaces. And in a reverie like this, he, like and unlike the geologist, had in an hour gone over, not the history of the rocks, but of the men who lived on them. He had recreated the village on the south-west side, towards the other islands, and set the wives and children of the fishermen to watch the boats wherein their husbands and brothers were dancing over the waves, and tempting their finny prey from the depths below.

From this vision of the past, the real hour and the substantial dinner at the Appledore House brought him to present realities. Now, geologists and naturalists, fishermen and idlers, men, women, and children, were all transformed into eaters of one great chowder, and of a great many smaller things besides.

And then, pretty soon after dinner was despatched, the steamboat was seen coming round the island, and we, philosophers and triflers, packed ourselves on board some great safe flat boats to get on board her. Here also, we were unanimous, though the notions in our heads were as diverse as those we carried in our hands.

On board the steamer, the geologist read a book about Rocks washed by the sea,—and the moralist read the people's faces, and the varying landscape as we drew near land, and steamed rapidly up the river with wind and tide, under a good captain's guidance, and in a neat and beautiful vessel.

But the reader will say, this is not a Voyage to the Shoals. Very true it is not—but it is the story of a brief ramble there, and a rapid and prosperous voyage back. The passage out was as much like it in the essentials, as one thing can be like another, except that the wind was ahead. Both passages seemed shorter than they were; for on board the steamer Grace Darling, Capt. Billings, there was no noise and confusion, no hurry nor delay—but everything in good order and well-conditioned. With a company of families, as on that day, respectable and quiet, the excursion is truly delightful, and health and pleasure are combined in about equal proportions.

We cannot doubt that the warm season now passing, will witness many such,—and that they will be abundantly enjoyed. Such a steamer and such a commander, on this river and adjacent waters, are worthy of encouragement.

Doctor Boynton's Lecture on Geology, at the Temple on Thursday evening, was well attended, the audience being nearly as large as it was at the free lecture the night before. This lecture was on the formation of the crust of the earth; which subject was handled with great ability and success, and completely confirmed to us in this place, our previous impressions of his reputation as a lecturer, acquired elsewhere.

The next Lecture, on Monday evening, will be on the First Created Animal and Vegetable Life.

Old Paved Street, we are sorry to say it, is in a very dirty state of *dishabile*. The leaves of spruce, dried and pulverized, float about at the sport of the winds; and the paving stones, not having quite recovered from their fourth of July frolic, are rolling round *ad libitum*.

We don't know exactly whose business it is, but it ought to be some body's; and we wish he would take the responsibility of fastening the paving-stones, and of sweeping the dirt overboard, or somewhere.

The Last Officer.—It is in print that at a meeting of the Society of Cincinnati, on the 4th inst., it was stated by Gen. Anthony Lamb, that Robert Burnett, an original member of the Society, now living in the vicinity of Newburgh, and in his 93d year, is the only surviving officer of the Army of the Revolution.

A gentleman has given $2,000 to Bowdoin College to aid indigent young men in getting an education. No one is to derive any benefit from the fund who uses either rum or tobacco.

THE PRESIDENT IN NEW YORK.

President Pierce has visited the City of New York in state, and opened the exhibition at the Crystal Palace in a style as brief and royal, if not quite so magnificent, as did Queen Victoria her consort's exhibition in London. By the way, we commend him for his brevity on this occasion, and hope his example will be followed by all public men who speak on such occasions.

On Thursday morning at ten o'clock, the President and suite landed at Caftle Garden, where an immense concourse was awaiting their arrival. Here he was welcomed to New York by Mayor Westervelt, to which he replied in a speech complimentary to the commercial metropolis of the Union.

Gen. Cushing, afterwards, in response, replied to repeated calls, and said a few words, when the reception ceremonies closed. The President subsequently reviewed the troops on the Battery.

At half past 11 the procession took up the line of march, and arrived at the palace at half past 2 o'clock, having been delayed by the shower that fell about 12 o'clock. The scene inside was magnificent.

Theodore Sedgwick, Esq., Chairman of the Crystal Palace Committee, made a speech, in the course of which he paid a tribute to the memory of Daniel Webster, who was, he said, among the first to lend his influence and name to the enterprise. About 8000 persons were present.

Among the distinguished persons at the ceremonies were Gov. Cobb of Georgia; Senators Brodhead and Chase, Generals Scott and Wool, Major General Henderson of the marine corps, Com. Sloat, Gen. Quitman, Gov. Seymour, &c.

Lord Ellesmere and suite were also present.

No other speeches were made at the Crystal Palace than that by the President and Mr. Sedgwick.

The musical performances, as advertised, concluded the ceremonies, while the assembled company inspected the building, and the articles thus far arranged. The President quietly retired to his quarters at the Astor House.

STARVATION IN SPAIN.—It appears that the miserable condition to which Ireland was reduced a few years ago, is paralleled by what is now taking place in Spain. A writer in a French paper says:—

"In vain the venerable Bishop of St. Jacques, in presence of more than six hundred unfortunates resembling moving corpses, who daily besiege his gate, has sold his mules and his carriage. In vain has he reduced himself and his servants to the merest necessaries, in order that he might give the rest to those who perish of hunger. All that he or the other bishops and clergy, all that the government can do, according to the *Esperanza*, is but a drop of water to extinguish the conflagration. When we speak of the government, however, we must remember that a last contribution made by it of 3,000,000 of reals, had not been distributed. In the mountains, the starving die by dozens, and in many places, fevers of the most dangerous character are joined to the famine.

FIRE IN DISMAL SWAMP.—A gentleman from Elizabeth City, N. C., informed us, on Monday, that a great fire was raging in the Dismal Swamp, whose intense and rapid spreading was very much aided by the long drought that has prevailed. Our informant stated that when he left, nearly the whole region from the Moccasin track to Elizabeth City was one sheet of flame. It is to be hoped that the idea as to its extent is somewhat exaggerated. We were also informed that the smoke from the swamp had been wafted to a great distance, and was exceedingly disagreeable. We learn from the Norfolk *Herald* of Monday that that City was much troubled with it; and we understand, from other sources, that it had been even conveyed to Hampton and Old Point Comfort, where it was very annoying. The fire was visible at Norfolk, some twenty-five miles distant.—*Richmond Dispatch.*

WASHINGTON MONUMENT.—The board of Managers of the Washington National Monument Association have appointed Mr. John L. Brown special agent to receive contributions at the World's Fair. A model, a *fac simile* of the Monument is placed there for exhibition. Around it are contribution boxes, of plate glass, so that each visitor may have an opportunity to contribute his mite towards erecting a National Monument to the memory of Washington. The Monument is already 132 feet high, and when completed will be 620 feet, the loftiest structure in the world. The amount expended thus far is $200,000; the total estimated cost is $1,500,000. It has been estimated that if each visitor should contribute the small sum of ten cents, a sufficient amount would be realized to complete this great undertaking.

RAIN.—There was a splendid shower, of about half an hour's duration, in New York on Thursday, while the immense procession was moving from the Battery to the Crystal Palace. The drops at the outset were of the largest kind, and as fast as they diminished in size, their number was multiplied. It was a fine, warm rain, and there was plenty of it. The military in the procession, however, continued on their march, and they, together with the President, got their clothes pretty well wet. If the rain had fallen in the morning, it would have been very acceptable in laying the dust and cooling the atmosphere, which was unpleasantly warm.

DAMAGED CORN.—Thousands of bushels of heated corn have been shipped from Chicago within a few weeks. The Buffalo market is overrun with damaged and heated corn, and it is being sent to New York as fast as transportation can be had. There it is used by distillers, who buy it at almost their own price. The practice of manufacturing whiskey from damaged corn is getting to be quite common throughout the country.

PORTSMOUTH TO THE SHOALS.
SUMMER ARRANGEMENT.
Steamer Grace Darling,
CAPT. SAMUEL BILLINGS.

THE superior steamer Grace Darling, Capt. Billings, will leave Sheafe's Wharf, daily, (until further notice) at 10 o'clock, or on the arrival of the first morning trains on the Portsmouth & Concord and Eastern Railroads—and return from the Shoals in season to take the last trains for Concord, Boston and intermediate places.

This arrangement affords a fine opportunity for persons from abroad to visit one of the most desirable Summer resorts for the invalid, and all others who are fond of Fishing, Bathing, and other amusements conducive to health and pleasure. The Islands (eight in number) are about an hour's sail from Portsmouth, by Steamer, where all the advantages from a sea-voyage can be secured, subject to none of its perils. The temperature is never more than 80 degrees in the shade, and seldom varies more than 10 degrees in 24 hours.

Hon. Thomas B. Laighton's Hotel on Appledore Island, designed and kept particularly for the Invalid, and also for the pleasure seeker, is one of the first class, where every convenience, both for luxury and comfort can be found.

The passage out is truly delightful—the scenery unsurpassed. As you pass down the river, view after view presents itself:—The Navy Yard, Dry Dock, Forts Washington, Sullivan, McClary and Constitution; the settlements of Kittery Point, New Castle, Rye, and many Islands and Beaches along shore, present attractions that are beautiful to behold, and render the trip one of the most beautiful and pleasing nature.

PASSAGE ON BOARD STEAMER, 50 CTS.

Tickets may be obtained on board, or at the Ticket Office of the Portsmouth & Concord Railroad.

Parties from the neighboring towns can be accommodated on reasonable terms, by application to Capt. Billings on board, or to

PROF. ALEX. C. BARRY'S
Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself.—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot at the manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity. and by the principal Merchants and Druggists through the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Wright & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22

LYON'S KATHAIRON FOR THE HAIR.

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to campare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all minera properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

MARRIAGE.

Happiness and Competence.

WHY IS IT?

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S
Private Medical Companion.

BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., pp. 250. Price 50 Cents.

[ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been **SENT BY MAIL** within the last few months.

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Buy no book unless "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y." is on the title page, and the entry in the Clerk's Office on the back of the title-page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery and we hold these new and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, *containing the Title page and Index of Contents*, together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

When Knowledge is Happiness, 'tis culpable to be ignorant.

☞ On receipt of One Dollar (for the fine Edition, extra binding,) "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION" is sent (*mailed free*) to any part of the United States. DOCTOR ALFRED G. HALL,

AUTHOR of the New Theory of cure by the NUTRITIVE PRINCIPLE, in Physiology and Medicine, sustaining the laws of life and removing the cause of disease, confirmed as a NATURAL SCIENCE by the Nutritive Process; expelling dead and depositing living matter at the same time in the Body, increasing its weight and strength while under treatment, being the great discovery of the constitutional power resisting disease; ample proof can be given in the person of any invalid.

Three months' attention and treatment is requisite in all cases, with printed instructions, for diet and washing, and the use of the Alkaline Girdle for the spine and kidneys—a restorative action is produced in all parts of the system immediately by the natural laws sustained by nutrition.

He is the inventor and sole proprietor of 12 nutritive fluids; they can be made by any family—are adapted to the several temperaments, and to every form of disease. DR. CONINE'S
SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER.

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom *AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.*

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

READ! READ! READ!

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER AND KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & *Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,*

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize many gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND,
Genoa, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours.

CHARLESTOWN ABDUCTION CASE.

The Boston Journal says, the Rev. T. F. Caldicott, D. D., pastor of the First Baptist Church in Charlestown, has prepared for the press an authentic narrative of the events connected with the conversion of Hannah Corcoran from Romanism, her abduction from Charlestown, and the treatment she received during her absence. This narrative has been published in pamphlet form by Gould & Lincoln. We believe that no authentic account of these events—which created so much excitement in Charlestown—has before been published, and it is fortunate, perhaps, that the publication of this narrative has been delayed. It will be seen by the following extract from the statement of Miss Corcoran, which is sworn to before a Justice of the Peace, that the reports in circulation at the time are confirmed, and that the girl was foully dealt with:

Tuesday, Feb. 15.—"In the afternoon my mother came to Mr. Welch's and found me almost sick. Soon after, Mr. Welch brought me some medicine in a tumbler; the tumbler was two-thirds full. I drank some, and refused to take any more; but my mother compelled me to take it, saying it was molasses and water. It tasted a little acid, and she said it was vinegar. I immediately began to feel strangely, and while they were about me, sprinkling holy water on me, &c., I lost my consciousness, and knew nothing until after dark, when I came to myself in a dark room, which I knew to be the same into which I went when mother took me to Mr. Lyndon's on the Wednesday evening previous.

My mother was beside me, and I asked her where I was. She said I was safe. I inquired if I was in Mr. Lyndon's house. She answered "No." Soon a person came in, dressed in priest's garments, whom I recognized as Mr. Lyndon, by what I could discover in the comparative darkness, and by his voice.

He took a chair, and set down not far from me. He asked me if I wished to go to confession. I replied that I did not wish to; he said that I must come to confession, trying to induce me in that way to put myself again under the control of the church.

I told him he would have to take out my heart and put a different one in its place, before I could be a Catholic again.

He then rose and came towards me, took me forcibly by the arm, and compelled me to kneel by his side. I was very much frightened, and almost afraid to speak or move.

He tried to compel me to repeat after him the form of confession; but I did not utter a word, for I had nothing to confess to him.

He asked me if I knew where I was. I said "In your house."

He said, "No." Then I said, "In your church." He still said "No," but he told me I was in the vestry-room.

I was dreadfully frightened, and began to cry aloud. I was still kneeling, and my head was on Mr. Lyndon's lap. He put his stole over my head, and several times asked me if I felt better. I said "No," and cried louder than before."

On the 10th, Hannah says,—"In the evening my mother came, and told that an application had been made to the Mayor of Boston to send out the police in search of me; and she appeared much frightened. She said she should take me away the next morning about eight o'clock. She said she had been at Father Lyndon's, and he had given her ten dollars (I saw the bills—two fives) to pay for my going away; and that she would stay with me that night."

AN OLD NEGRO.—The Wilmington (N. C.) Journal, states that there is an old negro in the county of Sampson, belonging to a Mr. Williamson, who will be one hundred and fourteen years old on the coming fourth of July. He has been recently visited by a correspondent of the Journal, who states that he found him cheerful and in fine health, and busily engaged in making himself a pair of pants—without spectacles—he being a tailor by trade. His first master, Archibald Bell, died about ninety-eight years ago, at which time Delph was sixteen years old. He remembers seeing Lord Cornwallis and his army, as well as other persons and things of note in those early days. He was taken prisoner near the residence of William Fryer.—He saw the tories kill John Thompson—he (Thompson) lingering some three days. The old fellow lives by himself, not another soul being near him; he is a sort of doctor, and travels as much as fifty miles to see sick persons, and many persons visit him for medical aid. He cooks, washes, milks, and makes his own clothes in a very independent manner.—He is four feet high, and weighs one hundred and five pounds. His present owner, Mr. Williamson, is seventy-four, and therefore an old man to the rest of the world, but quite a youth in comparison to Delph. There is little reason for doubting the old negro's age, of which he himself is confident, besides having been known in Sampson for time immemmorial almost.

THE CONDITION OF EUROPE.—The New York Evening Post, in a well written notice of the positions assumed by the author of the article on "England, France and America," in the North American Review of July, justly observes:—

One thing, at least., is very certain in regard to the nations of Europe. It is this: that immense standing armies are only needed in those which are deprived of political liberty. Now, if the people of them were contented and happy, would there be need of the 500,000 soldiers in France, the 700,000 in Austria; the 400,000 in Prussia, maintained at an immense expense, mainly to protect the authorities from the indignation of the masses? A happy set the latter must be to need such watching! In Sardinia, in Belgium, in Norway, in England, on the contrary, where there are constitutional governments, and some recognition of political rights, there is no such solicitude about the people! A soldier is almost as rare as he is in the United States; popular outbreaks are few, and for the most part local; and the people, though not so lively perhaps, as the Neapolitans and the Viennese, are quite satisfied to go about their own business.

PORTSMOUTH:
MONDAY, JULY 18, 1853.

LAW QUESTION—INTEREST.

Some time ago, we noticed, and commented on, the fact, that Judge Merrick, at a Court in Middlesex County, Massachusetts, had dismissed several liquor cases, which were sent up to him by appeal from a Police Court in Lowell, in which the Justice had fined the sellers. Judge Merrick grounded his decision on the sound principle that no judge should sit in any case wherein he was an interested party—and applied it in this singular manner; viz.: The fines assessed in Lowell were payable to that city; the judge of the police court is a citizen of Lowell; as a citizen he has an interest in the fine; therefore he ought not to sit as a judge; and consequently I dismiss all the cases he has sent up.

We thought it was new fashioned law, of Judge Merrick's own manufacture. But it seems not to be so. The Worcester Spy says:

"A case arose several years ago, under the old Sunday Law, commonly so called, in which this question of interest was distinctly presented to the Supreme Court, and by that Court (composed at that time of Parker, Thatcher, Jackson, Putnam, and Wilde, all of them eminent for their great legal learning and judgment,) distinctly considered and settled. One George A. Pearce was arrested, on a warrant issued by E. Parsons, Esq.; of Belchertown, for travelling within the town of Belchertown on the Lord's day. The constable, one John Atwood, who made the arrest, was sued by Pearce, for trespass and false imprisonment in arresting him, and a verdict in damages was obtained by Pearce, against the constable, on the ground that the magistrate was disqualified, by reason of interest, from issuing the warrant; and the arrest was therefore illegal and void. See Pearce vs. Atwood, 12 Massachusetts Reports.

The constable, Atwood, appealed, and presented the question, as before stated, to the Supreme Court, where it was elaborately argued by the most distinguished lawyers of the time. Under that law, half of the penalty went to the complainant, and half to the town; and the Court decided, in a very elaborate opinion drawn up by Chief Justice Parker, that the magistrate was disqualified, by reason of interest, and the warrant, therefore, was void; and judgment was rendered against Atwood, the constable. Now, the principle here established, applies directly to the Justices of the Police Courts, and with double force, as the whole penalty goes to the city.

The objection was made to a large number of cases that went up by appeal from the Police Court of Lowell to Judge Merrick, while holding a Court in Middlesex County. Judge Merrick of course recognized the superior authority of the Supreme Court, and dismissed the cases. Judge Perkins has also sustained the same principle in Essex county.

Now it would be great presumption in us to say that these decisions are not law: and therefore we shall not say it. On the contrary, admitting it to be law, we would like to follow it out, into one or two of its consequences.

If a city Judge cannot impose a fine, payable to the city, then a County or State Judge cannot impose a fine payable to the county or state; and when we pass into the United States Courts, it is manifest that our grave and reverend seignors the Judges, being all citizens of the United States, have an interest in all the fines, and therefore can impose no fine whatsoever.

Here the argument runs against a stump—from which we confess our legal knowledge cannot remove it; but if we have any legal or editorial friends who can ease the matter off, and show how any Judge shall impose a fine under these decisions, we would like to see them do it.

Destructive Fire at Durham.—A fire occurred in Durham, on the afternoon of Tuesday 12th inst., by which all the buildings on the farm of Mr. Daniel Chesley, were entirely consumed. At about 3 o'clock in the afternoon, while the owner was absent on another farm, haying, the fire was discovered on the roof of the house near the chimney, supposed to have caught from sparks. When first discovered it could have been extinguished had there been a ladder in order to reach it; but as there was none, the fire raged until it completely demolished the house, together with the barn and outbuildings. A part of the furniture was saved, but nothing from the cellar. In the barn there was about eight tons of new hay, which was destroyed. No insurance. Loss about $3000.

How they are Known.—The following fragment of conversation was overheard, the other day, on board of a steamboat:

"I met Lord Ellesmere and his party at Niagara, the other day. I knew the ladies were persons of distinction the moment that I saw them, because they wore no jewelry, nor any other ornament whatever!"

Thh Cincinnati Gazette of Saturday says there never was a time when so many counterfeit notes were in circulation. It is supposed that $400 per day are received in regular business, and thrown out at the various banking houses in that city when offered for deposit.

MINGLED TRUTH AND ERROR.

"We notice (says the N. H. Democrat) quite a number of our exchange papers in other States are agitating the subject of the Catholic interference with common schools.—For our part we have never had much apprehension that the Catholic movement in this country would amount to much, for it is not a doctrine which increases with the increase of light; neither are the mass of the Catholics a description of people who can exert an influence upon their neighbors; but they will be influenced by those around them. We have not the slightest idea that the vigorous, practical Yankee nation is about to take its religion from a set of people whose greatest ambition seems to be to engage in a nasty street fight, and whose religious ceremonies are absurd mummeries handed down from the times when men had no more idea of the spiritual life, and no more comprehension of the simplicity and beautiful truths of Christ's doctrines, than so many horses. It is well, however, to see that a scheming Catholic priesthood do not get the control of our common schools."

The Democrat is right in many of these statements; but not in all. There has been no time when men had *no idea* of spiritual life; and the imputation that the Catholics, as a "set of people," have it as their greatest ambition to engage in a street fight, is unworthy of a democratic editor, or of any other. It is too sweeping.

Nor is it true that the mass of Catholics exert *no* influence. They may exert *less* influence because they are ignorant, than they would if more learned. But they have influence, more or less, and will help to influence us, as we hope to influence them.

Well Said.—We have no objection to Bishop Ives becoming a Catholic, if he chooses. This is his business, and not ours. But we should be recreant to all manliness and Christianity, did we fail to express our disgust and indignation with the faithlessness which thus sets aside the wife of one's youth, the mother of one's children, the companion of one's life, and the vow long since registered in Heaven to cherish and protect her until death.—*Springfield Republican.*

That is right, or rather it would be, if the ex-bishop were sane. The crowning absurdity of the whole transaction is that his present celibacy, or widowhood, or whatever it may be, is a holier state than marriage, which Paul, old bachelor as he was, pronounced "honorable in all."

Mrs. Ives is coming home, it is said, with her brother, leaving her *late* husband, (who is now too holy to live with her any longer,) in the pure moral atmosphere of Rome, to be consecrated a priest in due time. She, of course, has good cause for an action of divorce, or would have, in most of our States, on the ground of desertion by the husband. We have already expressed our good opinion of Bishop Ives' honesty and disinterestedness—but we regard him as a fanatic, rendered insane on religious subjects, by his excess of superstitious reverence, and by his lack of sound judgment and common sense.

Murder by Slaves.—The Petersburg, Va. Express gives an account of the murder of a man and his son, in Sussex, Va.

At a late hour on Friday night last, Mr. Henry Birdsong and his little son, who was lying in bed by his side, were both shot through one of the windows of his chamber. The shooting was done with a double-barrel gun heavily loaded with buck shot. The load entered one leg of Mr. B's son, at the thigh, passed entirely through, and terribly lacerated the other. Mr. B. also received an entire load in his abdomen. They died the next day.

There seems to be no doubt that the deed was committed by Mr. B.'s own slaves, as it was done with his own gun, which was found near the window. A negro woman has been arrested, who confessed having furnished the gun to the murderers.

The Fisheries.—The Washington correspondent of the Journal of Commerce says "that a circular will be issued to the Collectors and other officers of the Government at the eastward, in reference to the reported intention of the fishermen to go out armed, and take their defence into their own hands." The order will come too late, as the vessels have gone armed. They have no intention to violate any treaty stipulations, as they have been understood for the last thirty years. But should they be unjustly boarded on the high seas, as they were last year, and have their *American papers torn and trampled upon* by petty officials, they will zealously defend their flag and their own honor,—and where is the American who would not justify and admire their bravery?—*Boston Transcript.*

A Voyage of Vicissitudes.—During the voyage of the brig Eastern State, Capt. Nathaniel Gamage, of Bristol, Me., from Darien, Ga., (which arrived at Boston on Friday night with a cargo of lumber,) the captain, mate, and crew of six men by turns all fell sick with fever and ague, so that at times there were scarcely enough well men to manage the vessel. The captain's wife assiduously attended and nursed the successive invalids, until they were restored to health, when she and her young child were stricken down with disease, resulting in the death of the mother. Capt. Gamage buried his wife at Holmes's Hole, and now remains there awaiting the fate of his child, which is dangerously sick. Mr. Thompson, the mate, in whose charge the brig arrived, had his leg broken while loading at Darien, before sailing.

John C. Sterling has given twenty acres of land to Watertown, N. Y., for a village park. He is a gentleman.

LOCAL.

THAT "MUSICAL NEWS."

There is still a mystery hanging about the letter published in the New York Musical World & Times, to which we referred last week. It was signed "Karl Meinerth,"—which signature Mr. Meinerth has in our columns declared a forgery. The letter contains much idle boasting and self-glorification, with general sneering at and belittling of Portsmouth music teachers and scholars, besides outrageous personalities and libellous blackguardism.

No paper of any pretensions to respectability, should admit such a production into its columns. Whatever apology there may be for the writer, in his personal feelings of spite, jealousy and self-conceit—there can be no excuse for the publication of so vile and mean a document. Mr. Meinerth himself, in his card in the Chronicle last week, says "it is evident that no man with common sense would ever believe that another man with common sense would write such an article for publication with his name under it." This seems to have a dreadful squinting at somebody. We will add to Mr. M.'s assertion, that at any rate, such a course ought to be social suicide—a person who would "write such an article" should be shunned by all who respect themselves.

We looked to see some attempt at explanation in the paper referred to, for the insertion of this batch of scurrilous, malicious nonsense,—for some of which, by the way, the publishers are directly liable to heavy demages under the libel law—but not a word appears in their last issue. It may be they went to press too early in the week to insert it in this number.—Mr. Meinerth says the editor told him, at his office in New York, last week, that the manuscript was cut in pieces for the compositors, and had been destroyed after publication, with the other manuscripts.

We have been repeatedly requested to publish the letter, but do not deem it advisable at present. There are those interested in the matter, who will spare no pains to discover the author.

☞ Dr. Boynton gives his next Lecture at the Temple this evening, as has been pretty thoroughly announced already. Those who have heard him once will not fail to do so again—and we advise all who take any interest in "the world we live in" or on, to attend this course of lectures. We never heard a lecturer present his subject in a more interesting manner, or give more sound reasoning "for the faith which is in him." As it always is with the Dr., we predict a growing audience for him through the course.

The particular subject of this lecture will be the "First created Animal and Vegetable Life." The lecture will be illustrated with several large and magnificent Paintings.

It should be remembered that Dr. Boynton's engagements are such, that when his lectures are concluded, he cannot repeat them in Portsmouth.

Served Him Aright.—One evening last week, a couple of young ladies walking on one of our most public streets, were insulted by a young rowdy who didn't count the cost. He purposely ran with full force against the ladies,—when one of them seized him by the collar, smashed his hat down over his eyes, drove his cigar into his mouth, and passed on amid the applause of the bystanders, among whom were many chums of the crest-fallen hero. He couldn't stand the laugh, and dared his Tartar back again; upon which she instantly turned towards him—but before she could clutch him again, he was off at his best pace.

Now although it may not be advisable for all the gentler sex to possess and exhibit such pugilistic courage, yet it is a pity more such puppies are not "brought up standing."—There are not a few calling themselves young gentlemen, among whom such an exploit as this is the boast of an evening—minus the afterpiece.

Launch.—Samuel Badger, Esq., will launch from his yard on Wednesday next, at 11 o'clock, a beautiful ship of about 1100 tons, built by him for Edward F. Sise and John Chase, to be commanded by Captain Chase.

In the Police Court, Saturday, (before Justice Parker,) John Lowd, Phineas Hunt and George Perry were charged with assault and battery upon James Jones, an Irishman, who was dreadfully beaten and disfigured.

Their defence was, that Jones made the attack on them,—to which sundry witnesses testified.

The accused were discharged.

Arrest.—On Friday, at the Hippodrome, then on exhibition in this city, officer Adams arrested a young man about 19 years of age, named Smith, who was employed in that establishment, charged with breaking into a house in Newburyport on Thursday. He was taken to Newburyport for examination.

Real Estate Sale.—The Stocking Factory lot and privileges, were sold on Saturday, by Towle & Co., at Auction, to John Pepper, for $2400.

FROM MONTREAL.—The first train from Montreal is expected to arrive in Portland, Me., this day at 7 o'clock, P. M. Flags are to be displayed, bells rung and guns fired in Portland, on the arrival.

FIRES.—At Cambridgeport, Wednesday afternoon, the house of Mr. Issachar Green was considerably damaged by fire, which was set in a barrel of shavings by a child.

In Ludlow, the barn of Reuben Sikes was destroyed by fire on Wednesday afternoon, together with seven tons of hay. Loss about $350—partly insured at the People's Mutual Office, Worcester. The fire was caused by a little daughter of Mr. Sikes, who saw a snake near the barn, and took some matches "to burn up the snake," as she said.

At Newbury, N. Y., the print works of Robert Caldwell were burnt on Thursday night. loss $12,000; insurance $5000.

At Pittsburg, Pa., on Wednesday afternoon, the steamer Manchester was burned to the water's edge. The fire was caused by a workman carelessly throwing a match down, after lighting a cigar. The boat was owned by Capt. Bowman and George Reichnecker.—She was nearly new, and cost about $24,000; insured for $15,000.

A TRAIN SMASHED—MANY PERSONS INJURED.—As the passenger train of Toledo on the morning of the 4th, an axletree on the baggage car snapped in two. The car flew about three rods to the left of the track, a perfect wreck. The collision threw the first passenger car 40 feet from the track with great violence, smashing it to pieces, and reducing it to an unsightly pile of broken wood, iron and glass. How a single person escaped is astonishing. One man was mortally wounded. A huge splinter struck him below the breast, tearing out his entrails in a horrible manner. He died at Toledo the next day. Another man had his leg broken, a third a foot smashed, a fourth, a severe contusion on the head, which will probably reduce him to a condition of permanent idiocy. Several others were injured and bruised. All were shocked and hurt more or less. The scond bassenger car was thrown across the track and broken in the middle, and came near throwing all its inmates upon the track. A boy had his arm broken. A lady had her head badly bruised and cut. A man received a severe wound in the side from some broken glass.

A boy named Weeks, of some nine or ten years, employed in one of the factories at Ware, while holding his mouth upon the edge of a box, resting on an "elevator," the latter started, and his head was brought up against the floor with such force as to split his mouth open about an inch and a half on each side, loosening the most of his teeth.

"SUSTAINING THE COMPROMISES."—The Washington Union, as the organ, and in the name of the administration, denounces the Buffalo Republic as an abolition paper, and excommunicates it from the Democratic fold. Directly after the administration sends the Republic a thousand dollar advertisement.—The Republic would doubtless be willing to have the dose double all round.—*Springfield Republican.*

PROF. ALEX. C. BARRY'S
Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot and manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity, and by the principal Merchants and Druggists through the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22

LYON'S KATHAIRON FOR THE HAIR.

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff,* and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache,* and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to campare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful scents to flowers, and is free from all minera properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

MARRIAGE.

Happiness and Competence.

WHY IS IT?

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she omits to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S
Private Medical Companion.
BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., pp. 250. Price 50 Cents.
[ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriage. But no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been **SENT BY MAIL** within the last few months.

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Buy no book unless "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y." is on the title page, and the entry in the Clerk's Office on the back of the title-page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain unhappy under the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents,* together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

When Knowledge is Happiness, 'tis culpable to be ignorant.

☞ On receipt of One Dollar (for the fine Edition, extra binding,) "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION" is sent (*mailed free*) to any part of the United States. OLD FAMILIAR FACES.

Give me old familiar faces! that I've gazed on oft before,
They are dearer to the heart, than *all* the wide world o'er;
Those, whose love-lit smile hath cheered us, in days that now are gone,
When on the wings of youth, we so joyously were borne.

Give me old familiar faces! the *one* have not the charm
Like those whose light hath followed us through tempest and the calm,
Those whom time flew away, oh! so happy and so bright,
That we thought its path all *flowers*, of beauty rare and bright.

Give me old familiar faces! the laughter-beaming eye,
Whose tears have flowed with mine, when *sorrow's* hand was nigh,
Those loved expression from the heart, can never fade away,
Though *death* may claim the body, and the dear form know decay.

There are old familiar faces, within the silent tomb,
There are eyes so well remembered, now closed amid the gloom;
But though they change in dying, ne'er from memory will they fade,
Though awhile we lose their presence, and the tomb the brow doth shade.

Give *me* some old familiar face, when death doth o'er *me* steal,
When its icy hand upon my brow, and in my heart I feel;
Let me know that eyes I've gazed into, are closing *mine* with love,
And the soul will pass *more* joyously, to its happy home above.

PATENTS.

American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 22 State Street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can have avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual grand delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

A New, Delicious Temperance Beverage.

AMBROSIAL MEAD!

THIS excellent Compound is prepared from the best SPANISH SARSAPARILLA, without its dark, repulsive appearance, being beautifully transparent and entirely free from all impurities. Its qualities as a beverage, a single trial will give it a pre-eminence over all other preparations, by its freedom from noxious ingredients, agreeableness of flavor, and its *exceeding cheapness*, one bottle being sufficient to make thirty glasses of the beverage.

CAUTION!—The proprietors of this excellent preparation have spared no expense to bring it to perfection, and would caution purchasers to buy none without the fac simile of Wilson, Fairbank & Co. on every bottle.

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom
AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & *Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,*

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,

PORTSMOUTH, N. H., May, 1853.

This is to certify that I consider Devines' Compound Pitch Lozenges a valuable article for what they are designed—the best remedy before the public. My son had a very severe cough, which threatened speedily to carry him off; and nothing seemed to give relief, until I tried these Lozenges, which produced signs of relief in a few hours, and after the taking of a few boxes, wholly removed his cough. EPITAPHS *vs.* POETRY.

A writer for the New York Spirit of the Times gives the following readable chapter on epitaphs. The first is copied from a stone at Bristol, R. I., dated 1726. The writer says the first two couplets are evidently of anterior manufacture; the third seems to have been added by the local stone-mason of the time.

"The dame which takes her rest within this tomb
Had Rachel's face and Leah's fruitful womb;
Abigail's wisdom, Lydea's purer heart,
Martha's just care, and Mary's better part,
Being the first that was interred
In St. Michael's church-yard."

An epitaph near Philadelphia ends with this distich. We hope for the sake of the deceased that there is "more truth than poetry" (or grammar) in it.

She was—words is wanting to say what.
Think of what a wife should be—she was that.

Another grave yard in Pennsylvania is occupied by an Orthodox and a Unitarian congregation jointly. One of the Orthodox tombstones contains a long homily in verse, addressed to those on the other side, ending thus—

"And now my friends a long farewell
I'm bound to heaven, you to —!"

Handel's epitaph—"He is gone to the only place where his harmony can be surpassed,"—was parodied by the blundering widow of an eminent pyrotechnist,—"He is gone to the only place where his fireworks can be surpassed."

This reminds me of the savage inscription proposed for the tomb of an overseer—

"He is gone to a place where he will find but little difference either in the climate or the complexion of his company."

The "benighted British" are probably responsible for the following—

"Here lies the body of Martha Gwynn,
She was so very pure within,
She burst her outer shell of sin,
And hatched herself a cherubim."

And this is also referable to "the other side of the pond"—

"Here lie two babies as dead as nits;
God took them away in giving them fits."

It needs no conjuror to tell in what country this was put up—

"Here lies the body of Robert Pound,
Lost at sea and never found."

THE SHEEP TRADE ACROSS THE PLAINS.—F. X. Aubrey, the well known Western trader, left Santa Fe sometime during last December with a flock of sheep of near 5,000, and a number of mule teams. He travelled down the Rio Grande some distance—went around through the State of Sonora—crossed the Colorado at the mouth of the Gila—and lost but 25 sheep and one mule, and that mule was shot by the Indians for food. Notwithstanding the winter through which he had to pass, he landed in California about the 15th ult., with some 3500 head of sheep and ten mule teams—all fat and fine, and ready for market—after having sold 1000 old and lame sheep for $8,000, and about $3,000 worth of small and broken down mules, which he sold to the Mormons as he passed through their lower settlements.

We witnessed a very *affecting* sight yesterday. A girl was about crossing Merwin street bridge with a little wagon, containing what a casual observer would suppose to be a child—a neat little counterpane folded delicately down from the "neck" of the innocent, and its face concealed by a blue veil. Presently, in ascending the bridge, the vehicle unfortunately upset, and out rolled the precious contents, in the shape of—not a "babby," gentle reader, but a well filled *whiskey jug!*—which was dashed to pieces against a stone. The grief of the "old folks at home" for the loss of the "dear craythur" whose "spirit" thus unceremoniously took its flight, was no doubt inconsolable.—*Cleveland True Democrat.*

THE TOMB OF BENJAMIN FRANKLIN.—At intervals, says the Philadelphia North American, we find in print a reference to the obscure corner where lies, hidden from public notice, the remains of the illustrious statesman and philosopher, whose labors here in our own midst are among the proudest memoirs of our metropolis. The following, which we find in the New York Evangelist, presents the subject briefly, yet strongly and truthfully:

"A dilapitated, dark slab of stone, at the southwest corner of Fifth and Arch streets, Philadelphia, marks (or did a few years ago) the spot where rest the remains of Benjamin and Deborah Franklin; but you cannot see their grave nor read the inscription without scaling a high brick wall, in violation of the law, or securing a good opportunity and the favor of the sexton, each of which is said to be attended with difficulty. So well hidden is this gave, and so little frequented, that we have known many native Philadelphians, of men's and women's estate, who could not direct one to the locality where it may be found."

MAINE.—The opposition to Mr. Pillsbury, the Democratic candidate for Governor of Maine, is beginning to spread in his own party ranks. It is understood that Mr. Pillsbury owes his nomination to his opposition to the liquor law, and the friends of the liquor law among the Democrats, are indignant at the trickery by which he was foisted upon the party. The Oxford Democrat has assumed a position of hostility to the nomination, and it is expected that other presses of the party will oppose his election.

ANOTHER BRUTAL MURDER.—One of the most brutal murders ever perpetrated, was committed in Woodstock, Ulster co., N. Y. last week. A man named George A. Wentworth, 50 years of age, had a dispute with his wife, and, waiting until a son who was present had retired, seized her by the hair and nearly severed her head from her body with a razor! A daughter who endeavored to prevent the bloody deed, was badly cut. Wentworth has been committed for trial.

DAILY
Morning Chronicle.
PORTSMOUTH:
TUESDAY, JULY 19, 1853.

SAMUEL APPLETON.

"A liberal man devieth liberal things."—Samuel Appleton, who has just deceased in Boston, did this in his lifetime, and has done it over again, at his death. The Boston Transcript informs us that he left a will, dated February 28, 1851, and a codicil, dated October 8, 1852, and a million dollars of property. He leaves to his widow specific bequests amounting in value to $200,000. He makes 42 other bequests to nephews, neices and others, amounting in all to $320,000 more;—among which may be mentioned $5000 "to his friend and pastor, Rev. Ephraim Peabody," and $5000 to the servants living in his family at his decease, to be distributed among them in the manner and according to proportion, to be fixed upon by his widow. He then bequeaths to his executors, manufacturing stocks to the value of $200,000, "to be by them applied, disposed of and distributed for scientific, literary, religious or charitable purposes."—This is to be done, at their discretion.

The residue he bequeaths to his relatives before named, in proportions corresponding to the particular sums previously given them.—He makes William Appleton, Nathan Appleton, and Nathaniel Ingersoll Bowditch, executors.

For the Chronicle.

STRAY THOUGHTS.

How oft the departed joys of bygone days rush over our memories. Joyous and bitter recollections alike are reviewed, with thoughts of dear friends that have passed away from us forever. Ever changing are our hopes and fears. Why do we thus cling to this our shadowy existence? Is it that *hope*, the brightest of earthly gifts lures us? or is it that we are patiently bideing our time, that we may prepare for the last sad change that awaits us. Each heart can well answer for itself. There surely is a strange fascination in this our earthly pilgrimage, despite its many sorrows. Clouds and storms rise, but pass away, and the clear sunshine of hope again illumes our pathway, and thus on to the end, alternately filling us with all the varied emotions which serve to make up life. Life is often compared to the waves of the ocean, wherein each receding wave is lost to that which succeeds it. Let us then be charitable one toward another, and more especially to those with whom chance may call us more intimately to associate—with a due regard for the feelings of our fellow man, lest we may wring a heart with anguish, whose only fault might be a want of hypocrisy. SINCERITY.

For the Chronicle.

SLANDER.

Slander, thou viper, that creepeth in through the by ways and hedges of every town and village. Surely, thou art a courier hailing only from the depths of the lower regions.—Why do we harbor a feeling of distrust and envy toward our neighbor? Is it that our hearts are as black as those that conceive and circulate false reports against their fellow citizens from day to day? or is it a desire to ruin the reputation of some that we may build on the ruins of what was once theirs, but which has by nefarious reports been trampled upon and crushed forever. Reader! if this is your motive, strive to do away with such thoughts and acts, and "Love your neighbor as yourself." The domestic fireside is often invaded by this demon in disguise—the church and the pulpit—no class is exempt from this insidious foe, such is the heartlessness of the world. Ye heartless hypocrites and defamers, beware that your own vile deeds do not find you out. What a pity that your characters could not be written on your foreheads, that all might know. Your turn may come when least expected, to learn a bitter lesson, which may come home to yourselves, clothed in your own language, or in other words, the "biter bit." Look for the beam in your own eye, that you may see clearly the mote in thy brother's. SINCERITY.

TAMMANY HALL RIOTERS.—Some months ago, several of the disciples of St. Tammany, headed by John S. and Isaac Austin, fell upon and beat another disciple named Schell, so that his life was in danger. He recovered, however, and on Saturday last, the Court of General Sessions in New York city, sentenced John S. Austin to three months in the penitentiary, and Isaac to pay a fine of $100.—John S. Austin, in his defence before the court, exhibits himself as both the rowdy and the demagogue, with a little of the hypocrite intermixed. If he is not all these, he is a greatly injured man. He has gone to prison.

☞ The New York Home Journal asserts on good authority, a net profit of $100,000 from Sontag's concert and opera movements in this country.

STEAMER EMPIRE LOST.

This steamboat of the "People's Line," running between Albany and New York, met with a sad disaster on Saturday morning, about two o'clock, when five miles below Poughkeepsie, on her down passage.

It is said she was run into by a sloop with such force as to knock one of her boilers and some parts of her machinery overboard.

It is not known what sloop it was. Indeed some passengers state that *they saw no appearance of any sloop* that could have run into the boat; and they are of the opinion that the accident resulted from a defect in the boiler, causing it to explode.

Whatever the accident was, it caused the steamer almost immediately to take fire, spreading the utmost consternation among her passengers, who were roused from their slumbers by the force of the sloop running into them.

Four persons are known to be killed, viz., the bar tender, two females and one boy, names unknown. There were also several bodies taken from the river and placed on a sloop for Poughkeepsie. A dozen more were badly scalded, so that half of them will probably die.

The boat drifted ashore, and now lies stranded, head up stream, on the flats, about seven miles below Poughkeepsie, a mere wreck, paddle boxes blown off, pipes shattered to pieces, and decks crushed in. The river, for about two miles, was dotted all over with fragments of the wreck.

The passengers who were saved went down to New York by railroad.

AN EARTHQUAKE IN PORTLAND.—Two distinct shocks of what is generally supposed to have been an earthquake, were felt in Portland, on Sunday morning. The first is reported to have occurred about 5 o'clock in the morning. This, says the Advertiser, we did not hear. The second one occurred a little before six. This we heard very distinctly.—There was a sudden shaking, with a rumbling, crashing sound, which aroused many from their beds, who could not have been started up at that hour in the morning (remember it was *Sunday* morning!) by anything short of an earthquake! We have seen several, however, who were out when these shocks occurred.—They describe them both as creating the sensation of a powerful explosion, shaking the earth as by a sudden clap of thunder; but the sky was clear, and no indication of lightning or bursting of meteors.

AN INCIDENT OF THE PRESIDENT'S VISIT TO NEW YORK.—The New York Journal of Commerce tells the following story:

"One incident in the procession, trifling in itself, occasioned a great deal of amusement. When Gen. Pierce had got as far up as the head of Wall street, his horse became restive, and came in collision with the horse rode by Gen. Sanford. As the President was riding with his hat in hand, the hat received the brunt of the shock, and suffered severely, being badly stove in and indented. The General was too much engaged to notice the catastrophe, and soon put on the hat in its unfortunate condition, and retained it in its place for about a block, exciting roars of laughter among the boys."

The horse which the President rode is known by the name of "the Black Warrior." He is upwards of twenty-one years of age, and is owned by Major Merrill, of the United States Dragoons. The Black Warrior participated in the Florida war, where he received two wounds, and is the only survivor of the battles with the Indians. The President, it is said, also rode this favorite horse in the Mexican war.

ARREST OF GAMBLERS.—On Saturday, a party of ladies and gentlemen from Bellows Falls, Brattleboro' and Greenfield, Vt., visited Long Island. They were followed thither by several gamblers, who contrived to introduce among some of the visitors the game of *Three Card Monte*, and as a natural consequence the strangers were well fleeced. One gentleman from Bellows Falls lost a large sum of money, gold watch and chain and other personal property. Constables Harrington and Laighton being on the island, hearing of the loss of the Vermonter, soon arrested three men, who gave their names as John Montague, Charles Sherman, and William Pecuritan, a noted trio of professional gamblers in this city. They were brought to the city in the evening, and conveyed to the North Watch House, when it was ascertained that the gentleman would not appear against them, as the property was all restored, together with some $20 extra, and they were discharged.—*Boston Daily Adv.*

This is all wrong. The gentleman deserved to lose his money, and the gamblers to go to prison. The gentleman was wise in declining to appear, but he should have been compelled to attend and testify.

☞ Rev. E. L. Magoon, of N. Y. city, received the honorary degree of D. D. at Rochester University, last week, and is to deliver the annual oration before the Literary Societies of Brown University the first week in September.

REPORTED APPOINTMENT.—Samuel Dinsmore of New Hampshire, to be consul at Marseilles.

Accounts from Aux Cayes to the 27th ult., state that the fever continued to rage there, both on shore and among the shipping in port. Two brothers named Rich, of Truro, Mass., died of it within a day or two of each other.

LOCAL.

☞ We understand that the contract for building the Great Falls and Eliot Railroad was executed yesterday, the road to be completed in November next. This will be a direct road from Portsmouth to Conway or the Lake.

☞ Com. Shubrick, who is to command the squadron now at this station, arrived in the city yesterday.

STEAMBOAT EVENING EXCURSION.—The excursion of the Grace Darling, this evening, as advertised, will be a fine opportunity for lovers of the beatiful and romantic, to see a moonlight view of the picturesque scenery on the Piscataqua.

STEAMER TO KITTERY POINT.—Kittery Point is now accessible from this city by steam as well as by coach. The natural beauties of the place, and the comfort and pleasant location of the hotel there, will not fail to attract visiters.

DROUGHT.—In consequence of the drought the hay crop in this vicinity is coming in nearly if not quite as light as last year, and the corn, potatoes, and most other vegetables are far from presenting the encouraging aspect which belongs to them at this season.—*Exeter News Letter.*

A QUEER ASSOCIATION.—In the industrial procession on the 4th, at Portsmouth, appeared a feature that struck the outsiders very comically. An apothecary's establishment was put upon wheels, and upon a canvass was depicted a skeleton form, whose ghastly and emaciated look seemed to belong to that underground region where dead men live. The driver of the cart, by a queer coincidence, was the sexton of the parish and undertaker, and the horse that drew the vehicle was the same that many a time had drawn a hearse. The doctor who owned the establishment is a wag, and it must have been premeditated, from the capital fitness of every thing.—*Boston Post.*

TAXATION.—The amount of money raised in Newburyport this year, is to be $46,014,76; viz, State tax $2787, county $5227,76, and city $38,000. The assessors' valuation is $5,655,000;—real estate, $2,780,000 and personal property $2,875,000. The rate of taxation is 7 1-2 mills on the dollar. The number of polls is 2998, a larger number than was ever before returned.—*Union.*

HORRIBLE SUICIDE.—Franklin C. Gray, aged about 45 years, a wealthy merchant of San Francisco, where he was Alderman for two years, and who had an income of $36,000 a year—which he received regularly in monthly remittances of $3,000—killed himself on the New Haven Railroad at New Rochelle, 20 miles from New York, on Friday. He threw himself right across the track, in front of the locomotive, the whole train passing over him, literally smashing him to pieces. He had been residing in Washington, where he recently married a young, beautiful and highly accomplished lady. Not long since he purchased a house in New York, in the Fifth Avenue, which he fitted up in a most magnificent style. Last week, while laboring under an aberration of mind, he disposed of his house and furniture at a sacrifice of $7,000 to $8,000.—A coroner's jury returned a verdict that he came to his death by his voluntary act. Mr. Gray's wife, who was *enciente*, arrived the same day at Brooklyn, and engaged rooms, stating that she expected her husband to meet her there. She soon received the distressing news of his untimely end. He has left her all his property by will.—*Boston Courier.*

We would like to ask one question, viz:—What were the man's habits of living? abstinent, temperate, or free? On the answer, if any body can give it correctly, the moral of the whole drama must rest.

Mr. Faraday, the phiosopher, has discovered he thinks, the secret of table tipping. He deems it owing to "a quasi involuntary muscular action," as he contends that the hands of operators press unconsciously toward the point to which the will is tending, and thus the movements are produced. He has invented a little machine, which, placed upon a table is intended to indicate this fact, but since its invention no results have been obtained, as the minds of the operators, directed towards the machine, maintain a perfect equilibrium, and the "quasi involuntary muscular action" remains in statu quo.

SUDDEN DEATHS.—Gilston, son of Charles P. Swain, Esq., Postmaster at Nantucket, aged 16 years, was found dead in his bed on Saturday morning. He retired on the night before at the usual time, and apparently in good health.

On Saturday evening week, Miss Susan Farnsworth, an interesting daughter of Mr. Joel Farnsworth, of Ellsworth, Me., aged about sixteen years, while engaged in conversation with her friends, suddenly fell over on the sofa on which she was sitting, without a struggle or a groan, a lifeless corpse.

A PREDICTION.—The next President of this country will be Edward Everett, of Massachusetts. Mark that! Gen. Pierce, who reads the News-Letter every week, will please take notice—but mind you, General, we said the *next* President; if your friends don't kill your chances, a second term is allotted to you.—*Exeter News Letter.*

DREADFUL FATALITY ON BOARD SHIP.—The schooner Empire, Capt. Barker, belonging in Wells, Me., arrived at Boston on Saturday forenoon, in six days from Darien, with no one on board excepting the captain, who is in a greatly exhausted condition.—Capt. Barker reports that every man of his crew died of the southern fever soon after leaving Darien.

BY MAIL, EXPRESS & TELEGRAPH.

FROM HAVANA.

Steamer Black Warrior, from Havana 12th instant, arrived at New York on Saturday.

A lamentable accident occurred at Havana on the 10th inst. A horse race was to come off on the "Military Parade Ground," just outside the city walls. For the accommodation of the spectators, temporary seats were erected, some of them twenty feet high. Just as the Captain General entered, and the sports were about to commence, a portion of the seats gave way, precipitating some five hundred persons below. About forty or fifty were killed either or wounded, comprising all ages and sexes.

Three American sailors belonging to the bark Jasper, (which vessel recently landed a cargo of slaves on the island of Cuba) have been imprisoned in the "Moro." The say they shipped in New York, and when the nature of the trade the vessel was to be engaged in was made known to them, which was after leaving New York, they endeavored to get away from her, but were prevented by the other part of the crew, consisting of Spanish and Portuguese. Their names were William Freeburn of Philadelphia, Williams Atkins of New York city, and Harvey Park of Palmyra, N. Y.

The ship "Lady Suffolk" was before reported as having, after landing a large cargo of slaves, been scuttled and sunk. This, it now appears, was not the case, as she went to one of the small ports on the south side of the island, where she was taken possession of by the British man-of-war brig Daring.

SICKNESS IN HAVANNA.—Letters from Havanna to the 8th inst., state that the Island is very unhealthy. There had been heavy rains for more than two weeks, and the yellow fever was exceedingly prevalent and fatal in the cities. The cholera had made its appearance in the country, causing many deaths among the slaves upon the plantations.

NEW YORK.

The Democratic State Committee of New York met at the Astor House on Friday, and the Albany Argus has the following account of its doings:—

Resolutions were adopted approving the Baltimore platform, the President's Inaugural, and the proposed constitutional amendments in reference to the Canals.

A State Convention was called at Syracuse on the 13th of September next.

There was a stampede of the Free Soil or Barnburning members of the Committee, who seceded and left the room.

The New York Evening Post (Barnburner) comments on the proceedings thus:—

The State Committee, not content with minding their own business, volunteered to charge themselves with the business of the September Convention, and adopted a series of resolutions which indicate anything but a desire on the part of majority of the Committee to perpetuate the supremacy of the Democratic party in the state. If the Convention should show no more discretion than the Committee that calls them together has done, there would not be much use in making an effort to elect Democratic state officers to succeed the present incumbents.

SINGULAR RAILROAD ACCIDENT.—The Andover Advertiser states that on Saturday evening last, as the last regular train passed the station-house in Tewksbury, on the Lowell and Lawrence Railroad, the switch tender got upon the train and left the station. An extra train came over the road about ten o'clock; on hearing its approach, the man who occupied the house knowing that the switch was wrong, roused his family and sent them across the track in double quick time, and just in season to avoid the collision. On came the cars, and pitched into the station-house without ceremony, knocking a man out of bed, breaking the bedstead on which he was lying, and every breakable article in the house except two tumblers, and removing the building from its foundation! No one was hurt.

SUMMER ARRANGEMENT.

Steamer Grace Darling,

CAPT. SAMUEL BILLINGS.

THE superior steamer Grace Darling, Capt. Billings, will leave Sheafe's Wharf, daily, (until further notice) at 10 o'clock, or on the arrival of the first morning train from the Portsmouth & Concord and Eastern Railroads—and return from the Shoals in season to take the last trains for Concord, Boston and intermediate places.

This arrangement affords a fine opportunity for persons from abroad to visit one of the most desirable Summer resorts for the Invalid, and all others who are fond of Fishing, Bathing, and other amusements conducive to health and pleasure. The Islands (eight in number) are about an hour's sail from Portsmouth, by Steamer, where all the advantages from a sea-voyage can be secured, subject to none of its perils. The temperature is never more than 80 degrees in the shade, and seldom varies more than 10 degrees in 24 hours.

Hon. Thomas B. Laighton's Hotel on Appledore Island, designed and kept particularly for the Invalid, and also for the pleasure seeker, is one of the first class, where every convenience, both for luxury and comfort can be found.

The passage out is truly delightful—the scenery unsurpassed. As you pass down the river, view after view presents itself:—The Navy Yard, Dry Dock, Forts Washington, Sullivan, McClary and Constitution; the settlements of Kittery Point, New Castle, Rye, and many Islands and Beaches along shore, present attractions that are beautiful to behold, and render the trip one of the most beautiful and pleasing nature.

PASSAGE ON BOARD THE STEAMER, 50 CTS.

Tickets may be obtained on board, or at the Ticket Office of the Portsmouth & Concord Railroad.

Parties from the neighboring towns can be accommodated on reasonable terms, by application to Capt. Billings on board, or to

PROF. ALEX. C. BARRY'S

Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot and manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity, and by the principal Merchants and Druggists throughout the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralizes the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Eruptions, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy, and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. MARRIAGE.

Happiness and Competence.

WHY IS IT?

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted, by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years? And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S

Private Medical Companion.

BY DR. A. M. MAURICEAU,

PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., *pp. 250. Price 50 Cents.*

[ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire the full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they should be, in a work strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, conducive upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Buy no book unless "Dr. A. M. Mauriceau, 129 Liberty Street, N. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and thus no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents*, together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs,* by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom
AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & *Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,*

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND,
Genoa, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,
VERNON ESKRIDGE, Chaplain U.S.N.

PROF. ALEX. C. BARRY'S
Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself.—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot at manufactory, No. 137 Broadway, New York. Price 25 cents a large bottle.

Liberal discount to purchasers by the quantity, and by agents, the principal Merchants and Druggists throughout the United States, and Canada, Mexico, We' Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22*

DAILY
Morning Chronicle.
PORTSMOUTH:
WEDNESDAY, JULY 20, 1853.

THE STEAMER EMPIRE,

Which met with a sad disaster on the Hudson, last Saturday morning, was run into by the sloop General Livingston. The sloop was quite disabled, and drifted for a while with her jib-boom and mast dragging after her. She managed to reach Poughkeepsie, about six miles distant, in safety. One of the sloop's men was badly scalded.

The sloop struck the steamboat on the larboard side, a few feet forward the wheel, and the collision was so violent that it caused the boiler to explode, blowing off the harricane and promenade decks, also shattering both sides extensively, and carrying away the smoke-pike. The pipe immediately sunk, as did also the exploded boiler. The explosion was simultaneous with the collision.

Fortunately the passengers were, with the exception of three or four, in their berths; but three passengers and four of the attaches of the steamboat lost their lives, and about ten or twelve persons were more or less injured. The passengers, nearly a hundred, were startled from their slumbers by the collision and explosion. Only two, Mr. George Safford of Troy, and one of the boat's firemen, were instantly killed; five others died soon afterwards; and those who were wounded, altho' their injuries are severe, may all recover.

A jurry of inquest, on board the boat found only the following verdict:—

"We find that the deceased, George Safford came to his death from injuries received by the bursting of the boiler on board of the steamboat Empire, of Troy."

This verdict evidently amounts to nothing: but we copy a little of the evidence.

The Pilot of the steamboat, Mr. Hudson, on being sworn, deposed that about half past one o'clock, he descried the sloop about a mile ahead of them, the wind blowing fresh from the southwest; she was coming up before the wind, and the steamboat going towards the western shore; the sloop, at the time the witness saw her, was heading up towards the middle of the river, to the eastward of the Empire; seeing the sloop steering towards him, he headed his vessel more to the westward, but in a few moments the sloop was abreast of him, the pilot on board the sloop then put his helm hard up, steering the vessel right into the steamboat, striking her forward of the wheel; the boiler then burst, the steam scalding several of the passengers, among them the deceased.

The pilot of the sloop stated that he steered his proper course, and thought as a matter of course the steamboat would give the right of way. The sloop struck her forward of the wheelhouse, bursting her boiler. The bowsprit and mast of the sloop were carried overboard by the collision. One of their hands, who was on the lookout, was badly scalded by the steam which escapen from the boiler.

James Van Vodenburgh, one of the firemen, was blown out of his berth into the river. He being a good swimmer, however, succeeded in reaching the shore in safety, from whence he swam back to the boat again. His head waa cut, but not in a serious manner.

Five valuable horses were on board, and, strange to say, were landed uninjured.

Some fifty barrels of beer having been cast overboard and floated ashore, the boys of the surrounding neighborhood knocked in some of the heads and drank the beer to excess, out of common tin wash basins. The result was that about thirty of them had their "lodging on the cold ground," as they were too much intoxicated to go to their homes.

The N. Y. Herald in an editorial relating to the accident, says—"It seems to us undeniable that the machinery must have been defective, the pilot unfit for his post, and the deck watch negligent. To these causes, and to these only, can we ascribe the loss of life and the bodily injuries which the "accident" has occasioned."

We think the pilots and deck-watches of both vessels were to blame for carelessness.

The same steamboat was struck about four years ago, near Newburg, by the schooner Noah Brown, which sunk her in about ten minutes—by which unfortune calamity thirty persons lost their lives. She was raised out of the water by means of an elevator, and being refitted, was placed on the line, and continued successful until Saturday, when this heart-rending calamity occurred—thus sinking her twice within the space of four years, and each time a number of lives were sacrificed.

A LITTLE MORE ATTENTION THAN WAS DESIRABLE!—The music by Chandler's Band attracted a crowd near the City Hall, in Portland, on Friday evening. Among them was a young lady, attended by a young gentleman, who with a love of innocent sport, had thrown over her head a Navarino bonnet of a somewhat *ancient* pattern. It soon attracted the attention of the boys. "It's no girl at all," said they, "but some boy dressed out in that rig." Their curiosity was excited, and the young lady soon found herself embarrassed by their scrutinizing attentions. The crowd increased until there was quite a commotion, attracting the attention of the police. Learning the cause of the row, one of them interferred and pulled the obnoxious bonnet from the head of the supposed boy. But the countenance of the alarmed girl soon dispelled the error, and she finally succeeded with the aid of her friend, in escaping the annoying attentions of these inquisitive censors of fashion.

CERTAINTY.

The difference between a moral and a legal certainty is considerable; and is shown to be so in a late law case in Boston. No citizen who travels often through Court square, has any doubt that Harvey D. Parker sells liquor every day, any more than he gets up a savory dinner, yet he has been twice tried for being a common seller; the first time eleven jurors were for conviction—but one did not have a conscience that agreed with the rest—and a new trial was ordered. On Monday, he had his second trial. O. A. Wilson, one of Mr. Parker's bar-keepers, was called to the stand, but, under advice of counsel, refused to testify to anything tending to criminate either himself himself or his employer, and would not repeat the evidence he gave on the former trial. Watchman Allen testified to having drank liquor at Mr. Parker's place in April last, as did also one or two other witnesses.—The case was given to the jury in the afternoon, and they were out all night, but could not agree;—so he still goes unconvicted.

LIGHTNING.—The Newburyport Herald says:

"In the late terrific thunder shower which passed over East Salisbury on the 22d ult., eight trees were struck by lightning, within about five eighths of a mile, from one extreme to the other, one on each of the homesteads of Samuel True, John True, Jabez True, and four on the homestead and one on the plain, of Samuel True 3d, the five last within about 20 rods of the eastern main road and four of them within about a dozen rods of his buildings."

It puts one in mind of the great thunder shower and gale of wind, which took place in Job's time, when his sheep were killed by the lightning, and his children by the house blown down upon them by the violent gust which smote it at the four corners. Job 1 : 16, 19.

PORTLAND AND MONTREAL.—The Atlantic and St. Lawrence Railroad is now open from one of these cities to the other; and on Monday evening, at Portland, the first train from Montreal arrived at a quarter past seven o'clock; it was received by a salute of 31 guns and the ringing of bells. The Mayor made an address of welcome in a brief manner, and was responded to by the Hon. Mr. Pennoyer. The band played God save the Queen and Hail Columbia. The immense crowd which surrounded and filled the depot, rent the air with loud cheers for the consummation of this great work.

CAPT. BARKER.—The Boston Daily Advertiser states that Captain Barker, who recently brought in the schooner Empire, from Darien, with loss of all his crew, is sick from fever and ague, as well as from over exertion and anxiety, having scarcely closed his eyes for several days before his arrival. For the last nine days of his passage he had no assistance whatever in working his vessel; and for the last six days was the only person on board. He spoke one vessel while in this condition, but no one would volunteer to come to his aid. We trust his energy and perseverance will not pass unnoticed by those whose property he protected.

COAT STEALING.—The New York Herald of Monday contains a Court Report, from which it appears that two men named Thomas Brown and George Jones, were charged with stealing one of Horace Greeley's coats from the editorial rooms of the Tribune establishment, and brought before Judge Beebe, who sentenced them to six months in the penitentiary.

BOASTING.—No deaths occurred in Natchez, Miss., for the week ending June 28th.—The Courier asks, "what city can boast of a population sending one thousand three hundred children to school daily, and not one single death among its people, from disease or casualty, within a week?"

What occasion is there for boasting in all this? We should rather deem it an occasional call for thanksgiving,—and say in words of borrowed inspiration, "Boast not thyself—for thou knowest not what a day may bring forth."

MADAME ANNA BISHOP.—"While at *Rome*, she appeared at the Valle Theatre for fifteen consecutive nights in *Lucia*, and was called out twenty-five times in one evening. The Pope, hearing so much praise of Anna, expressed a wish to hear her; but females not being permitted to enter the pontifical apartments, she remained in a room adjoining that of the Pope, where she sung a sacred air, a Palestrina; at which his Holiness was so greatly charmed that he conferred upon her, by the hands of Cardinal Zacchia, the ancient and noble order of *Santa Cecelia*, with a cross of precious stones."

That the Pontiff gave her an order and cross, was creditable to his taste and liberality: but can any body tell us why the songstress might not sing in the Pope's room as well as the next?

RETRIBUTION.—The New York Herald says, a man in Chemung county was hired to bury the clothes of a small pox patient. Instead of doing so he put them upon his back, and he is now sick with the disease.

LOCAL.

This ship is 210 feet long, 42 wide, and 29 feet 8 inches deep; her register tonnage will be between 17 and 18,000 tons. She is intended for Messrs. Spofford & Tileston's line of New York and Liverpool packets.

☞ The new ship at Capt. Sam'l Badger's yard, will be launched this day at about 11 o'clock.

For the Chronicle.

To the author (and his accomplice) of a scurrilous and silly letter on Music and Music Teachers, published in the Musical World & Times, July 9th, 1853.

Come out from your kennel,
And show me your eye,
Else, swift from my bow
Will the barbed arrow fly;
Come out scorpion scribbler,
And show me your face—
You *shall not* be screened
From impending disgrace.

Come out ye vile serpents—
Slide out of your holes,
Or I'll pour on your slimy backs
Red burning coals;
Come forward and "*own up*,"
Get out of your chair,
Our arrow is pointed—
We *guess* who you are!

Ye arrogant bipeds—
Ye short sighted asses,
How *little* your souls
When compared with the masses.
Ye *things*, with dyspepsia,
Weak eyes, and rheumatic,
Come forth, or I'll call out
Your names, most emphatic.

O ye *classical dolts*—
Have ye not learned from story,
That steps such as yours
Are the *wrong* steps to glory?
Ye *cobblers in music*,
Ye *bunglers* in time,
I'll leave ye just now,
For ye're not worth my rhyme.

THOS. P. MOSES.

TO THE LADY

"*Who propounded those Queries.*"

I know you not, dear lady,
Nor even do I know
That you really *are* "A Lady,"
Tho' you sign yourself as *so*;
But of one thing I am certain,
And *gossips* too may know,
That if you *are* "A Lady,"
I should like to be your beau!

The way you "popped the question,"
The "Queries" I should write—
Have wounded many gossips,
And killed sixteen outright;
The manner was so cutting,
Yet facetious all the time,
I know not which I most adore,
The lady or the rhyme.

I like your independence,
Like the way you wield the pen—
You would make "the best of women,"
For "the very best of men;"
And if that very *best* of men,
Your ladyship would see,
Forgive me for my vanity,
And turn your eyes to—*me*.

If your features are as pretty
As the features of your lay;
If your eyes are half as brilliant
As the wit that you display;
If your lips can wake such feelings
As your pleasing verses wake,
Then, in the words of Horace,
You're a trump, and no mistake!

Oh, if you're *not* a lady,
I'm not writing, sure, *a miss*;
But if you are a lady,
(What's the harm?) I want a kiss.
If "Lady" be a *nom de plume*,
Oh list to what I say,
I'll hunt up Rugg, the sexton,
And get *measured* right away.

Pray forgive me, unknown charmer,
If I show so little art,
In offering you a tribute,
From this scandal-hating heart;
For I'm but a poor intruder
In the paths of happy song,
So please a right construction put
On what I've written wrong.

INDEPENDENCE.

Portsmouth, July 19, 1853.

DEATH FROM CONTINUED DRUNKENNESS.—Coroner Herrick was called on Saturday morning to view the body of Michael Durkin, an Irishman, aged 60 years, who was found dead in his bed at his residence on Fourth st., South Boston. The verdict of the jury was—"Death from continued drunkenness."

WOMAN'S RIGHTS.—An exciting election contest was going on at last accounts, for the representation of Clare, Ireland, in parliament. Col. Vendeleur is the conservative candidate, and a letter states that on the 25th ult., "Lady Grace Vendeleur, in person, canvassed the electors of Kilrush, and, from her ladyship's open carriage, addressed a large assemblage of electors on behalf of her husband. She was enthusiastically greeted by the populace, and so inspiring an incident must tend to a favorable result."

HISTORICAL FACT—Sir Walter Raleigh was the first discoverer of the value of the potato as food for man. One day he ordered a lot of dry weeds to be collected and burnt.—Among these were some dried potatoes. After the bonfire these potatoes were picked up thoroughly roasted. Sir Walter tasted and pronounced them delicious. By this accident was discovered a species of food which has saved millions of the human race from starvation.

Mr. James St. John, from Ohio, while on a visit to his son's family in Canaan, Conn., on the 9th inst., put an end to his life by strangling himself. He did it by putting his cane into the knot of his cravat, and then twisting it tight. His body was found in a grove where he had gone to walk. His age was 77.

FREE AND SLAVE LABOR.—It is the custom, besides giving the servants abundant food and clothing, to give them a portion of their own time, or a certain quantity of land for ther own exclusive use and benefit. Not long since, meeting a servant of one of our church members lounging idly abont on the day given him to labor for himself, I said, "Fleming, I fear you are becoming lazy." He replied, "O, no, Mr. M.; I found free Jim's family starving last fall, and I hires him to work my land." On inquiry, I found it true as Fleming had said. He hired the free ne. gro to work for him.—*Cor. of Cum. Herald.*

"Better is a crust of bread and quietness therewith, than a stollid ox and strife," said Mrs. Partington, as she heard the noise of wrangling in a neighbor,s house. It was Surday morning and Ike was cleaning his shoes by the door with the clothes brush. "Why can't folks live in peace, without distention? How much people have to answer for that causes anymosity in a neighborhood. Thank heaven I've never done anything of the kind that my conscience acquits me of." With what a feeling this was uttered! And the sunlight came into the window and looked through her specs down into her soul, and it was calm there as the bottom of a well, not disturbed by Ike's whistling "Old Dan Tucker" as an accompaniment to his brush.—*Post.*

The Hon. Gerrit Smith has sent $1,000 for the relief of the sufferers at Oswego.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

WASHINGTON, July 18.—*Chinese Affairs.*—The action or Mr. Marshall, in Chinese affairs, displeases and embarrasses the administration much more than is understood. Mr. Walker was to leave on the 20th of September, but the Princeton having turned out another failure, the government at present has but one vessel at command for the purpose of conveying Mr. Walker to China, viz., the Saranac.

The Star says the President is quite unwell, owing to the fatigue of last week.

A CRIMINAL CAUGHT.—For several evenings the downward Albany Express train, on the Harlem Railroad, has encountered obstructions laid across the track at or near Searsdale station, 22 miles from New York. The obstructions consisted of planks or sleepers evidently laid on for the dreadful purpose of throwing the train off the track when going at lightning speed. Forunately nothing of the kind has thus far taken place, the cowcatcher of the passing locomotive having pushed off the obstructions without accident. On Wednesday evening last, the company placed watchmen in the bushes along the road near the scene of the previous outrages, for the purpose of detecting the author. In this they were entirely successful. Sometime before the downward express train was due—9 3-4—a fiend in human form emerged from the woods, and having rolled down a large sleeper upon the track, commenced to fasten it firmly in its place by means of stakes, evidently determined that this time there should be no escape. But the watchmen sprung upon him and caught him in the act. He was immediately conducted to the county jail at White Plains where he awaits trial. When interrogated, he refused to make any reply whatever. His name is as yet unknown. He was well dressed.

[Such an act deserves punishment, and the criminal ought not to be let off with less than twenty years imprisonment.]

MURDER IN A STATE PRISON.—James Wilson, an English prisoner at Charlestown, Mass., stabbed Wm. Adams, a mulatto prisoner, on Tuesday morning, killing him instantly. Wilson had served out his term, and was to have been discharged that day. The parties had for some time been on very bad terms with each other, and as we learn, recently had a very desperate fight in the prison yard, for which both were severely punished.

BRUTAL CONDUCT—ATTEMPT TO TAKE THE LIFE OF A FEMALE WITH BURNING FLUID.—On Wednesday at 1 1-2 o'clock, a man named John McCue made a murderous attack upon a female named Mary Ann Stewart, at a house of ill-repute, Orange street, New York. The ruffian dealt the poor girl a blow in the face, and seizing a lighted camphene lamp, filled with the fluid, dashed it into her face. The burning fluid scattered over her face, neck and breast, burning the flesh in a shocking manner. The injured girl was left insensible. McCue fled, but was shortly after captured by the Sixth Ward Police, and lodged in the Tombs. In the meantime the girl was conveyed to the City Hospital in a dying condition.—*Express.*

MIXED MARRIAGES IN FRANCE.—According to the Paris correspondent of the *London Daily News*, the clergy are now throwing difficulties in the way of mixed marriages between protestants and catholics. Most of the priests refuse to pronounce the nuptial benediction on these unions unless where a formal engagement is taken to bring up the children in the Roman faith. They are no longer contented with the common compromise, according to which boys are educated in the father's and girls in the mother's religion. In the latter days of Charles X's reign, the priests made a similar attempt to oppose the liberal spirit of the civil code, but on Louis Philippe's accession they judged it prudent to be quiet, and since 1830 they have never till recently made any move in this direction. Their demonstration, although it may wound some consciences, will very probably defeat itself. Several mixed marriages, it is said, have lately been celebrated by a Protestant clergyman alone.—*Boston Journal.*

CASS ON TEMPERANCE.—*Detroit, July* 3, 1847.—*Dear Sir*:—I have received your letter, and certainly if my experience or example can lend any aid in the great cause of temperance, they shall not be withheld from those who seek to know them.

I have never tasted ardent spirits in my life, and therefore know they can be dispensed with. Probably few men have undergone more fatigue than I have. The most active portion of my life was passed in a new country, on the very verge of civilization, and much of it beyond, and I have had my full share of its exposures, excertions, and privations, in peace and in war. I have had, too, my full share of health. I might almost say that I have enjoyed uninterrupted health, and I am, therefore, a living proof that ardent spirits are not necessary for physical endurance, under any circumstances of toil or trial. Would that there were no living proofs that their use is too often destructive, almost always dangerous, as he who travels in that path can never say with confidence, I will go thus far and no farther.

It was this conviction which led me, when Secretary of War, to authorize the commutation of the ration of ardent spirits previously issued to the troops, for its equivalent in coffee and sugar, which has since made part of the supplies furnished to our army.

I am, dear sir, truly yours,
LEWIS CASS.

James O'Donnell, Esq., Gray, Me.

EASTERN RAILROAD.—The work of excavation for the track of the Eastern Railroad at Somerville, is progressing rapidly, and it is confidently expected that cars will be run over this and also the Grand Junction by the 1st of December. An excavation will be made of six or eight rods in width under Broadway, Somerville, to allow of laying three lines of railway.—*Boston Chronicle.*

MARRIAGE.

Happiness and Competence.

WHY IS IT?

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S
Private Medical Companion.

BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., pp. 250. Price 50 Cents.

[ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriage, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been **SENT BY MAIL** within the last few months.

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Buy no book unless "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y." is on the title page, and the entry in the Clerk's Office on the back of the title-page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents*, together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

When Knowledge is Happiness, 'tis culpable to be Ignorant.

☞ On receipt of One Dollar (for the fine Edition, extra binding,) "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION" is sent (*mail ed free*) to any part of the United States. All letters must be post-paid, and addressed to Dr. A. M. MAURICEAU, Box 1224, New York City. Publishing Office, No. 129 Liberty Street, New York.

LYON'S KATHAIRON FOR THE HAIR.

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralizes the effect of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all minera properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

A New, Delicious Temperance Beverage.
AMBROSIAL MEAD!

THIS excellent Compound is prepared from the best SPANISH SARSAPARILLA, without its dark, repulsive appearance, being beautifully transparent and entirely free from all impurities. Its qualities as a beverage, a single trial will give it a pre-eminence over all other preparations, by its freedom from noxious ingredients, agreeableness of flavor, and its *exceeding cheapness*, one bottle being sufficient to make thirty glasses of the beverage.

CAUTION!—The proprietors of this excellent preparation have spared no expense to bring it to perfection, and would caution purchasers to buy none without the fac simile of Wilson, Fairbank & Co. on every bottle.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

IMPORTANT DISCOVERY.
DOCTOR ALFRED G. HALL,

AUTHOR of the New Theory of cure by the NUTRITIVE PRINCIPLE, in Physiology and Medicine, sustaining the laws of life and removing the cause of disease, confirmed as a NATURAL SCIENCE by the Nutritive Process; expelling dead and depositing living matter at the same time in the Body, increasing the weight and strength while under treatment, being the great discovery of the constitutional power resisting disease; ample proof can be given in the person of any invalid.

Dr. H. receives visits, makes examinations, ascertains the cause of disease, describes the *precise* condition of the *patient*, furnishes prescriptions, medicines and recipes for his Nutritive Fluids and cordials.

Three months' attention and treatment is requisite in all cases, with printed instructions, for diet and washing, and the use of the Alkaline Girdle for the spine and kidneys—a restorative action is produced in all parts of the system immediately by the natural laws sustained by nutrition.

He is the inventor and sole proprietor of 12 nutritive fluids; they can be made by any family—are adapted to the several temperaments, and to every form of disease. His works, "Views of the New Theory, &c.," "Womanhood," and the "Mother's Own Book," are furnished to walks under his supervision. It is now before Congress.

Doctor Alfred G. Hall may be consulted by letter, or in person at his rooms, **No. 15 Winter St., Boston,** from 10 A.M. to 2 P.M. ☞ Medicines, &c. forwarded by Express to any part.

DR. CONINE'S
SYRUP OF GINSENG & MALVA.
The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom

AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

DR. CONINE'S
SYRUP OF GINSENG & MALVA.
The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom

AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

READ! READ! READ!

DR. HAMPTON'S
VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in the health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial &
Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND, }
Genoa, Sardinia. January 17, 1853. }

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,

A GRAND CHURCH CEREMONY.

On Sunday last, at Brooklyn, N. Y., Archbishop Hughes, of the Roman Church, blessed and laid the corner stone of an elegant church, to be built of brick and stone, to be dedicated to the Virgin, or, as it is designated, to "Mary, Star of the Lea."

It is to be built (says the N. Y. Herald) in the Gothic, or nearly English style of architecture. The naive and aisle are to be one hundred and twenty feet in length by seventy feet in breadth, the chancel being thirty-five by twenty-five, and it is intended to seat eighteen hundred persons. There is to be a tower on the northwestern corner, twenty-five feet square and two hundred feet in height. The church ground comprises sixteen lots, and the cost of the whole edifice—which may be finished in the course of a year—is estimated to be from thirty to forty thousand dollars.

There were many thousand spectators, who waited till long after the hour, 5 P. M., which was set for the services, but at length, from a temporary wooden building to the rear of the church, issued a procession of priests and acolytes escorting the Archbishop, clad in his archiepiscopal robes, wearing on his head a most gorgeous mitre, glistening with precious stones, his train being borne by clean-faced little boys in stoles. First came four of those little fellows, carrying large silver candlesticks with long wax candles, and these were followed by others bearing the cross and crozier, and then came the Archbishop in his magnificent robes, and wearing his ring. Then followed the usual ceremonies of sprinkling with holy water, blessing the stone, the litany hymns, chants, &c.

From the archbishop's address, we select only a sentence or two. After alluding to the fact that in this country, Catholics are as free as Mormons, Methodists or Presbyterians,——and to the fact that here "the divinity of Jesus Christ is denied,"—he says,

Hence it is that we know Jesus Christ to be God and man. He is God from eternity, the second person in the blessed Trinity. He is man born in time, conceived by the power of the Holy Ghost in the womb of a virgin, and that virgin's name was Mary. And the Catholic church has ever been taught, and has ever held, that Mary being the mother of God, though in one sense the child of Eve—Eve's daughter—yet, as she was to be the mother of God incarnate, He had preserved her immaculate, untouched by the stain and the defilement of original sin. And hence the church, from the beginning, has always been accustomed to regard Mary, the mother of our Lord Jesus Christ, as conceived without sin. And now, so far as I know, these rude foundations are the first that have ever been laid on this continent in attestation of that conviction, and faith, and feeling of the Catholic Church.—And this church is to be a church dedicated, when completed, to the ever blessed Virgin Mary.

MISTAKE OF AMERICAN YOUTH.

It is a grand mistake into which many American youth fall, that manual labor is not honorable. To be a merchant, a lawyer, a doctor, an engineer, a military or naval officer, or a ship-master, is, in their esteem, much more honorable than to be a mechanic or farmer. It cannot be denied that all these other occupations require exertion. The doctor is oftentimes as weary when his day's work is done, as the farmer or blacksmith can be; but he is not half so sure of a quiet night's sleep as they are, and we all know to what hardships engineers are exposed, as well as persons who follow the seas.

We often see vigorous young men seeking places as clerks in stores. They all hope for (and generally expect) some favorable tide in the affairs of life, which will "lead them on to fortune."

Other men have accumulated vast sums of money in buying and selling goods—why not I? is the language they use. They rarely consider that but a very small number of those who embark ever complete the voyage. Where one succeeds, ten, fifty, perhaps a hundred fail.

But an industrious, thrifty farmer seldom fails to secure for himself and family the common comforts of life. The skilful and practical mechanic too, is generally sure of a remuneration for his labor, and with common prudence, he can provide a competence for the future. That princely fortunes can be heaped up by handling the plow, the jack-plane, or the sledge, we do not say; nor is it pretended that men are likely to acquire fame on the farm, or at the work bench, as at the bar.—But the history of the world will show, that the men who have done the most for the welfare of their race, and whose memories are cherished with the most respect, came from the hard-working ranks. Princely fortunes are more easily wasted than won, and while the moderate possessions of the farmer or mechanic supply all the comforts of life, they are attended with few temptations to luxury or extravagance, and still fewer risks from the folly or fraud of others.

There can be no doubt that agricultural employments are the most natural to men, and there is no country on the globe in which the facilities for pursuing these employments are so great as in the United States. It requires but a very small outlay of money to obtain a respectable farm to begin with. A good knowledge of the methods of husbandry can be easily acquired. The implements of labor are as good and cheap as can be found the world over. The products of the earth are sure of a good market, and one that is easily reached. The title of land is well secured, and large monopolies, such as some of the countries of the Old World are burdened with, can never exist here.

The farmer—the honest, godly farmer—is one of the most independent men in the wide world. He has the promise of the Great Creator that seed time and harvest shall not fail. He may always plow in hope and reap with joy. To till the earth, then, is really honorable—a noble calling.

But it does not require that a man should be enslaved to the plow, nor that he should make companions of his sheep and oxen.—The shrewdest and most intelligent men that sit on our juries and help make our laws, come from their farms and return to them as soon as their public duties terminate. The good sense, sobriety, contentment, industry, and love of order which characterizes an American farmer, are (under God) among the most important safeguards of public peace and prosperity.

PORTSMOUTH:
THURSDAY, JULY 21, 1853.

STUDY OF CHARACTER.

In great emergencies and extremities, the characters of men show out. For the purpose of such exhibition, we copy the following items, relating to the unfortunates who were mortally wounded on board the Empire, and have since died.

George Safford, born in Troy, 22 years of age—unmarried. Mr. Safford was in a state-room, immediately over the boiler, and was literally flayed alive with steam or boiling water. He lived about one hour in excruciating agony, writhing and shouting from his excessive pain, until released by death from his sufferings. John M. Shanahan of Troy, 21 years of age—unmarried; was in the state-room with Safford, and was injured to about the same extent. Cornelius Van Shaick, aged about 14 years—a boy who sold books and papers on board—noble little fellow, and son of the wheelsman. He behaved with the utmost fortitude, and was constantly asking his father not to cry. Mary Beeder, an Indian Woman, about 23 years of age, from Caghnawanga, Canada, where she has a husband and two children. Betsey Woster, sister of the above, has a husband and one child—about 21 years of age. These unfortunate women were on their way to the World's Fair with a large quantity of their bead-work and other manufactures, and were persons well situated in life among their people. They bore their sufferings without complaint, and poor Betsey, when the attendants endeavored to screen the death of her sister from her, and told her that Mary had gone to sleep, when they saw she was watching to observe her move, said, "Yes, she has gone to sleep dead; by and by I go to sleep dead, too."

TRAGEDY AT NIAGARA.

On Monday night, at Buffalo, a boat, in which were three men, asleep, got adrift and floated into the current, where it was upset.—Two of the men were carried immediately over the Falls of Niagara, and dashed to pieces on the rocks below. The third, named Joseph Able, caught at a stump in his passage, and clung to it. He was discovered almost on the brink of the falls, on the morning of Tuesday. Several boats were launched, in order to rescue him, but they were swamped the moment they touched the rapids. A life-boat was sent for, and hopes entertained that he might be rescued. Thousands of citizens stood on the banks, in full view of the unfortunate man, but without means to relieve him. A party on the bridge, however, succeeded in floating a boat of provisions to him. He remained in the rapids at noon, when the life-boat sent from Buffalo was launched, but proving too light, was swamped immediately and went over the falls. At that time the man was evidently drooping, and his situation became critical every moment.

Finally, at about 6 o'clock on Tuesday evening, after an anxious and awful suspense, not only to him, but to the thousands of helpless spectators, he was swept from a raft which was floated to him, when he attempted to swim to a small island, and was carried over the falls, to certain, inevitable death.

BLUE JAYS.

The new special policemen, commissioned in New York, to keep order and protect property in the Crystal Palace, wear a blue uniform. A reporter for the Boston Post says of them:—"The new Crystal Palace police were there, dignified as became men just raised to the consciousness of uniforms; the "youth of our country," however, appeared not to appreciate the beauty of this official dress; they christened the worthy policemen "blue jays"—not that their voices had anything particularly bird-like in their tone, but from some real or fancied resemblance of color between the feathered and unfeathered bipeds.

FIGHT WITH RUNAWAY SLAVES.—A party of slaves, recently escaped from Fleming county, Kentucky, and were followed and reached night of 8th inst., near Rainsboro', about fifty-five miles from the Ohio river.—The negroes, who were in the charge of a white man named Sumner, fired on their pursuers, and a bloody fight ensued, in which the negro man of Mr. McDowell, and a girl of Mr. Pearce were shot and badly wounded, but succeeded in escaping. Sumner was shot at and badly beaten. A negro man belonging to Mr. Dobyns, near Lewisburg, had joined them, and after being severely cut, was taken prisoner and lodged in jail at Marysville, Ky.

The above facts, which we find condensed into this form in the Boston Courier, will form a good item, as the papers say, for the next edition of the Key to Uncle Tom's Cabin.

NO ESQUIRE.—The Boston Courier speaks of "Wm. Lloyd Garrison, Esq." Mr. Garrison has no handle to his name, has no title to it, and does not claim it. Washington, Webster, Clay, Calhoun, Garrison, Howard, Pean, —men differing widely, but all great men, are each too conspicuous to need being "stuck o'er with titles;" and no titles ought to be applied to them, except such as are official.

The ladies at Saratoga "wear their shoulders bare to the lower edge of decorum."

MASSACHUSETTS.—A proposition making Judges elective by the people, has been voted down in the Massachusetts Convention by a large majority.

The majority principle was secured in Convention, on Tuesday forenoon, by the casting vote of President Banks. In the afternoon, a motion to reconsider, was negatived by a majority of *forty votes!*

From present appearances, we infer that the Convention, after all its show and cost, will accomplish but little of good or evil.

ESCAPE OF A FUGITIVE.—The Boston Herald states that the brigantine Florence arrived on Monday last, with a cargo of white pine, now being discharged at Charlestown Navy Yard, from Wilmington, N. C. The crew are six colored men. When the brigantine arrived in Nantasket Roads, it was discovered that another colored man was on board, and that he was a North Carolina slave. The captain was astonished and alarmed—consulted with his officers, and took his boat for the city, leaving his vessel in charge of his mate, first securing the slave in the forecastle. He came up to the city and enquired for the U. S. Marshal, at the same time telling his business. Some of the abolitionists got hold of the fact that a slave was in the harbor, immediately took measures for getting down to the vessel, and by strategy obtained possession of the slave, and brought him to the city and sent him to a place of safety.

☞ We have received of the publishers, G. P. Putnam & Co., New York, the first double number of the "Illustrated Weekly Record" of the Industry of all nations. It proposes to give an account of the progress and results of the World's Fair; and furnish essays, descriptions and criticisms in natural science, machinery, manufactures and fine arts. It is ably edited and well printed—in fact, is got up in Putnam's usual style—and is richly worth the subscription price. $3 for the 26 numbers.

OBSTRUCTIONS ON THE TRACK.—Near Eliot, Me., on Monday evening, the engineer of the five o'clock train from this city to Portland discovered that some sleepers had been put upon the track, with the design of throwing off the train. Fortunately the intent was frustrated.

He should be watched and trapped, and put through a course of sprouts in the State's Prison.

MOUNT AUBURN CEMETERY.—At the July meeting of the trustees, Dr. J. Bigelow, of a committee to repair the bronze statue of Dr. Bowditch, submitted a report in which he says that he has examined the said statue, with the assistance of competent mechanics, that he finds the whole in a bad and almost worthless state, being apparently made of base metal and full of holes, which were concealed by cement in the original casting, but are now open, not only disfiguring the statue, but admitting the rain, which, by freezing in winter, has caused several cracks from six to nine inches in length; that the statue is now in process of destruction, and is not worth any more expensive repair than a coat of putty and paint, which may keep it together a few years longer. The committee regret that this statue had not been rejected, at the beginning, agreeably to a recommendation of a committee of the subscribers. The report was accepted.

A SAD PICTURE.—A young man, who left Nantucket some three years ago for the gold mines of California, came passenger on the Steamer "Bay State," from New York to Boston on Saturday. Some ten months since, not meeting with good luck at the mines, he left San Francisco for home. Not having funds enough to pay his passage through, he got as far as Central America, where he was a stranger without friends or a place to lay his head. In a few days, on account of the fatigue and a broken down constitution, he entirely lost his reason and became a maniac, and wandered about the place for some weeks. At last, in consequence of some information from letters found upon him, he was taken in charge by the American Consul, and sent to New York, where his aged father met him. The young man is a mere skeleton, only weighing sixty pounds, his reason gone, and he resembling an image of death. It was a sad sight to see the father with his son in his arms bringing him on board the steamer, for his sweet home, there only to remain, perhaps, a few days on earth. This true picture is but one of many of the results of California immigration.

HAIRLESS HORSE.—We saw on Friday last a mare, with a colt by her side, owned by Mr. Howk, of Rutland, which was entirely without hair. She was seven years old and shed her hair the past spring just before foaling. Her color was sorrel, but now her skin is of a dark brown, resembling a rat. She appeared perfectly healthy, and the owner informs us she was so at the time she shed her coat. She was purchased by a dealer from New York, (Col. Whidding) and we should not be surprised to hear of her figuring among the curiosities at the World's Fair.—*Watertown Journal.*

FATAL ACCIDENT.—As the train from Worcester was leaving Natick, Mass., on Monday afternoon, a young man attempted to get upon the train after it started, and falling upon the track, was run over and instantly killed. He was from Holliston, about 18 years of age—name not known.

RAIN.—The Bangor Mercury of Monday says:—"A moderate rain commenced here on Saturday evening, which continued all night. The parched earth drank it up so speedily that but little was seen of it yesterday, except in the refreshed appearance of the verdure and the change of the atmosphere. The weather today is beautiful and cool."

LOCAL.

THE CONCERT.—The concert advertised to be given last evening, did not come off. The house was opened and lighted at the appointed hour, and a select audience of about one hundred and fifty assembled. After waiting a short time, the spectators were informed that nothing had been heard from the performers or their agent;—the audience *mizzled*, the house was closed, and thus ended Madame Anna Bishop's *first* and *only* concert in Portsmouth.

LAUNCH.—Agreeably to notice, a fine ship was launched yesterday at 11 o'clock, A. M., from the yard of Capt. Samuel Badger. She measures 1100 tons, and is to be commanded by Capt. Chase. The new ship was towed across the river and up to the wharf, in good style, by the steamer Grace Darling.

AN ODD CRAFT.—We were interested yesterday, in looking at a long, low, black looking schooner, lying at the pier wharf. On the stern she bore the name of "Collector: Arichat." She is from Cape Breton, has three masts, the largest forward, then a smaller in the middle, and the smallest aft. The mainmast is the shortest of the three, and on it is the solitary top-mast or flag-staff. All her sails are fore-and-aft; her booms short and light—her galley and companion way low; every thing is cheap, easy and common; and although an odd-looking craft to us, she appears to be a safe and burdensome vessel, though we should think not very rapid in her movements.

A LUXURY.—Entering our sanctum on Saturday last, we found in place of our old ricketty seat a neat and substantial office-chair, *with a cushion in it!* No note or bill accompanied it, nor any intimation as to where it came from; but we think we can detect marks of our friend Porter in the liberality of the gift as well as in the style of the painting.—All we can do in return is to thank the doner, and remind our readers that they may obtain any style of chairs, very cheap, and have their old furniture made to look as good as new for next to nothing, by calling at the Ladd street chair store.—*Messenger.*

We read this, sitting in one "of the same sort," from the same source, which has well withstood nearly a year's editorial labor—and will doubtless help us out with our duties for a long time yet. Good luck to Porter, we say.

☞ Dr. Boynton's Fourth Lecture on Geology, takes place this evening, at the Temple. The audience at his last lecture, on Monday evening, was larger than before, and could those of our citizens who have not heard him, understand the value and the interest of his lectures, they would fill the house for the remaining three lectures.

REAL ESTATE SALE, in Pleasant street, this day at noon, by Towle & Co. See advertisement.

NEW PHASE OF THE CHINESE IN CALIFORNIA.—We learn by the last Alta Californian, that the Chinese in San Francisco have been exercising judicial powers, by means of an organization among themselves; which fact has only recently been brought to light by disputes which called for the interference of the lawful authorities. This is in accordance with their practice in other countries where they have formed colonies. In the British, Spanish, and Dutch East India possessions, the Chinese have had this privelege conceded to to them—of trying all criminals of their own number, and exercising general judicial functions; thus establishing themselves, *imperium in imperio.* But it has not been found to work well. In Batavia, a Chinese murdered a Japanese, and the Dutch authorities arrested him, but the Chinese claimed him, and he was given up, on the promise that justice should be duly administered; but not long after, the same rogue was detected engaged in a robbery; when the Dutch insisted on retaining him, and placed him in prison. The Chinese then mustered a strong force and assaulted the Governor's house and afterwards the prison; nor was the riot quelled until a detachment of military was called out. This emeute resulted in their privileges being very considerably abridged. Similar scenes have occurred at Manilla and Singapore. In San Francisco, the discovery of a complete national administration, being in existence among the Celestials, has induced the authorities to give the leaders official notice that they would not be allowed to exercise judicial functions, but that all must alike be amenable to the laws of the United States.

CRYSTAL PALACE.—The number of visitors on Saturday was about 8000, exclusive of exhibitors; about 4000 tickets were sold, and $2000 received at the doors.

The Board of Directors have it in contemplation, it is said, to issue five dollar season tickets, to run sixty days, and to extend to the ten dollar ticket the right of admitting a lady with the gentleman owning it. Such an arrangement would increase the number of visitors.

THE EMPIRE DISASTER.—The coroner's jury in the case of the victims of the disaster to the steamship Empire have returned a verdict that the collision was caused by gross carelessness in the management of the sloop, and the want perhaps of proper vigilance on the part of the pilots of the steamboat.

ANOTHER DEATH AT THE HIPPODROME.—We learn that the young French woman, M'lle Caroline, who was so severely injured at the Hippodrome on Thursday evening last, has since died. This is the third accident which has resulted fatally since the opening.—*New York Evening Mirror.*

THREE PERSONS DROWNED.—In Philadelphia on Tuesday, a small pleasure boat on an excursion, containing a party of ladies and gentlemen, was run into by steamer Wm. Penn and swamped. Three women were drowned.

It is stated that the two last firemen's receptions in the city of New York cost the companies who did the honors on the occasion, at the least computation, $5000 each, making in all the nice little sum of $10,000.

The effect of the Franklin's news on the markets in Philadelphia and Baltimore, was to advance the price of flour 25 cents per bbl., and wheat 3 a 4 cents per bushel. The rise in New York was not so great.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

☞ A deaf and dumb man, by the name of Willey, was killed on the Eastern Railroad, yesterday afternoon about a mile west of North Beverly. He was walking on the track, and before the train could be stopped he was struck by the engine and thrown across the rail, his head smashed and his legs cut off by the wheels. He died almost instantly.

On Tuesday evening, at Waltham, Mass., a barn was set on fire, probably by sparks from a locomotive on the railroad near by; the barn was consumed and two horses with it.—The flames reached the house of Mr. Lawton, and burnt the L; but the firemen saved the rest of the house. The chimney of the L in falling, struck two firemen, killing one and wounding another so badly that he is not expected to recover.

HAVANA, July 11.—The cholera is still raging, carrying away hundreds of slaves. Its ravages have been more fierce in the sugar estates of the district of Cardenas, especially in Banaquises, where nearly all of the largest and most flourishing estates are located. Among the sufferers are Don Marcano Hernandez, the deaths on whose estate, we are told, amount to over 140. Other estates have suffered still more severely.

EXPLOSION OF A STEAM BOILER.—*N. York*, 20.—Yesterday afternoon a steam boiler in the foundry of Mr. Bath in Attorney street, exploded, injuring four of the workmen so severely that it is thought they cannot live. A man named Riley, a grocer, who keeps a store opposite the foundry, and who was sitting in his store at the time, reading, was struck on the head by a fragment of the boiler and fatally injured. The foundry and several buildings in the vicinity were much shattered.

FROM EUROPE.

The steamer Franklin arrived at New York on Tuesday, from Liverpool, brings the late European news,—no actual fighting having yet taken place, but Russian and Turkish forces in dangerous proximity, and all the rest of Europe looking on with intense interest.

Cotton, price unchanged,—market good.—Breadstuffs advanced. Large sales of flour had been effected at 26 6d a 27 for western and Canadian, and 28 a 29 for nice Baltimore and Philadelphia. Corn was selling at 31 for yellow and 29 for white.

The Europa at Halifax and Boston, has still later news, of the same general import.—The latest telegraphic intelligence, dated London, July 7, holds out better hopes of peace in Europe, intimating that through the intervention of England, France and Austria, the Russian demands upon the Porte may be admitted in tenor, though not in form.

Dates from Athens to the 2d, state that the United States Envoy, under the menace of immediate forcible measures in case the demand is not complied with, insists upon the revocation of the sentence pronounced against Rev. Mr. King.

The London Standard states that a rumor of Earl Aberdeen's retirement from the Ministry prevailed in London on the 5th, the Ministry being violently and about equally divided on the Turkish question.

The London Morning Herald of the 6th, adds:—"The disagreement, which almost amounted to a break up of the Cabinet, has been patched up, and things go on as usual now. An agreement is likely to be blasted at any moment."

The Board of Trade returns for the month ending June 5th, shows an increase of over a million of pounds on exports. Australian consignments still influenced the course of transactions.

Mr. Hobbs in three minutes picked the premium lock to which was awarded a prize of ten pounds from the Society of Arts, Mr. Chubbs, the celebrated locksmith, presiding. Hobbs opened it in the presence of the Society, with a needle and a thin strip of steel.

A letter in a Dublin paper says, that in March last, Smith O'Brien was residing at a hotel in New Norfolk, Australia; John Mitchell was at Richmond; and O'Doherty was acting as surgeon at St. Mary's Hospital, Hobart Town. All well.

The Royal Institution for the preservation of life from shipwreck, voted a premium to Robert Sands, colored, for exertions at the wreck of the ship William & Mary.

FRANCE.—Several arrests took place at the door of the Opera Comique, Paris, on the night of the 5th, of persons who were found to have weapons concealed. The arrests were magnified by the stock brokers into an attempt on the Emperor's life, and the Bourse was affected.

ITALY.—The following sentences have been recorded at Florence: Guerazzi, 15 years hard labor, Montagia, journalist, 90 months; Montanel Mazzoni, Marmocchini, Franchina and Mordini, ex-Ministers of Tuscany, hard labor for life; Romarelle, ex-Minister of Justice, acquitted. These sentences caused painful sensations.

The Neapolitans are much afraid that war in the East will awaken new revolutions in Italy.

AUSTRIA.—The Countess Blanche Telesky was sentenced to ten years imprisonment, for communicating with patriots abroad. Her governess is also to be imprisoned 3 years, and female attendant 13 months, as accomplices.

Among the troops on the Turkish frontier are Calmucks and others from distant Asia, showing how well the Czar has been prepared for the present emergency.

Provisions have already become enormously dear at Constantinople. The paper currency sinks in value from day to day, and trade is completely stagnated. Shipping is extremely scarce in Constantinople. In consequence of frosts, the silk crop was almost a failure. Cocoons were selling at 60 to 70 per cent. dearer than last year. The opium crop was abundant.

PORTSMOUTH TO THE SHOALS.
SUMMER ARRANGEMENT.
Steamer Grace Darling,
CAPT. SAMUEL BILLINGS.

THE superior steamer Grace Darling, Capt. Billings, will leave Sheafe's Wharf, daily, (until further notice) at 10 o'clock, or on the arrival of the first morning trains on the Portsmouth & Concord and Eastern Railroads—and return from the Shoals in season to take the last trains for Concord, Boston and intermediate places.

This arrangement affords a fine opportunity for persons from abroad to visit one of the most desirable Summer resorts for the Invalid, and all others who are fond of Fishing, Bathing, and other amusements conducive to health and pleasure. The Islands (eight in number) are about an hour's sail from Portsmouth, by Steamer, where all the advantages from a sea-voyage can be secured, subject to none of its perils. The temperature is never more than 30 degrees in the shade, and seldom varies more than 10 degrees in 24 hours.

The passage out is truly delightful—the scenery unsurpassed. As you pass down the river, view after view presents itself:—The Navy Yard, Dry Dock, Forts Washington, Sullivan, McCleary and Constitution; the settlements of Kittery Point, New Castle, Rye, and many Islands and Beaches along shore, present attractions that are beautiful to behold, and render the trip one of the most beautiful and pleasing nature.

PROF. ALEX. C. BARRY'S
Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself.—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot a manufactory, No. 137 Broadway, New York. Price 25 cents a large bottle.

Liberal discount to purchasers by the quantity, and by the principal Merchants and Druggists through the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m jel29

MARRIAGE.

Happiness and Competence,

WHY IS IT!

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the causes of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S
Private Medical Companion.

BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., pp. 250. Price 50 Cents.

[ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been **SENT BY MAIL** within the last few months.

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Buy no book unless "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y." is on the title page, and the entry in the Clerk's Office on the back of the title-page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents*, together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

When Knowledge is Happiness, 'tis culpable to be Ignorant.

☞ On receipt of One Dollar (for the fine Edition, extra binding) "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION" is sent (*mailed free*) to any part of the United States. All letters must be post-paid, and addressed to Dr. A. M. MAURICEAU, Box 1224, New York City. Publishing Office, No. 129 Liberty Street, New York.

LYON'S
KATHAIRON
FOR THE
HAIR.

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralizes the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff*, and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache*, and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its unmerited—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all minera properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond-st. N.Y." This admirable preparation can be had of all reputable dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

DR. CONINE'S
SYRUP OF GINSENG & MALVA.
The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing
DISSOLVENT POWER,
By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs*, by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom
AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

DR. HAMPTON'S
VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & Lung Affections, *Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,*

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,

INTERESTING FACTS

are constantly coming to light, from different parts of the country, showing the astonishing effects of the fair and faithful use of these Lozenges.

HERE IS ONE LETTER,

from a citizen of Portsmouth—and but a sample of hundreds:

PORTSMOUTH, N. H., May, 1853.

This is to certify that I consider Devines' Compound Pitch Lozenges a valuable article for what they are designed—the best remedy before the public. My son had a very severe cough, which threatened speedily to carry him off; and nothing seemed to give relief, until I tried these Lozenges,—which produced signs of relief in a few hours, and after the taking of a few boxes, wholly removed his cough. PASSED JUNE SESSION, 1853.

AN ACT to aid in the erection of a monument commemorative of the Declaration of American Independence.

Sec. 1. Be it enacted by the Senate and House of Representatives in General Court convened, That for the purpose of uniting with the others of the thirteen original states in the necessary measures for the construction and maintenance in the public square adjoining Independence Hall, in the city of Philadelphia, of a monument to commemorate the Declaration of American Independence, the Legislature of this state will appoint at such time as shall be designated by concurrent resolutions of the two houses a suitable citizen a trustee or agent to represent this state in the board of trustees [that may be appointed by said states respectively for the same purpose, with like powers.] It will be the duty of the said board of trustees, when nine or more shall have been appointed by as many of the said thirteen states, to determine the design, plan, materials and expense of the said monument, and to prepare a statement exhibiting the proportion to be contributed by each of the thirteen original states to defray said expense, assuming as a rule for said proportion the numerical representation at the time of each such state in the house of representatives in the congress of the United States, and the periods when, in their judgment, the instalments of the said contributions will be required; in determining the design, an appropriate place on the exterior of said monument shall be provided for each contributing state, to contain such inscriptions as the states may direct, commemorative of some citizen or citizens of their own who took part in the responsibility of the Declaration of Independence of the said states. The said trustees are to report to each of the states represented by them, with all reasonable expedition, the design, plan and expense of said monument as proposed by them, and the said statement of proportionate contributions: when the said states shall have made provisions for contributing their respective quotas of the said expense, the said board of trustees shall be authorized to proceed and construct the said monument and a sufficient railing around the same, and shall receive and expend the moneys appropriated for that purpose by the different states. They will appoint the different superintendents and agents, and may authorize a committee of their body to receive and take charge of all moneys contributed. When the said monument shall be finished, the board of trustees shall render an account to their respective states of the moneys received and expended by them or under their direction, which shall be verified by the oaths of the principal superintendent and one or more of the financial committee of the board, and shall be certified by the mayor of the city of Philadelphia, and the presidents of the select and common councils of the said city, or any two of them, to have been compared with the original vouchers and entries and found correct.

Sec. 2. The person so appointed trustee shall hold and exercise said trust during the pleasure of the legislature of this state, and in case of vacancy by death, resignation or otherwise in said trust, the same will be supplied by the legislature; but if said vacancy occur during the recess of the legislature, the same may be supplied temporarily by the Governor until the legislature shall have acted in the premises by the appointment of a new trustee. No part of the fund contributed by the state shall be applied to compensate any trustee for his services, but the actual expenses of the trustees [appointed] on the part of this state will be defrayed by the legislature thereof.

Sec. 3. Upon receiving the report of the board of trustees, of the design, plan, material and expense of said monument, and an estimate of the proportion to be contributed by this state, as herein provided, the legislature will make provision for the payment of the same in such instalments as the said board of trustees shall have declared to be necessary; Provided, the whole expense of said monument shall not exceed one hundred and fifty thousand dollars.

Approved, July 1, 1853.

CAUSES OF INSANITY.

To investigate these, is an interesting as well as saddening study. The question which we raised about the habits of Mr. Gray, who was killed, or killed himself, on the Railroad at New Rochelle, we have not seen answered, but have seen some interesting particulars of another kind, which we here copy.

"About six week ago he was attacked with a severe depression of spirits, a melancholy from which the united efforts of his friends failed to rouse him. During the whole of this time he has acted most strangely and often would refuse to converse with his most intimate associates. Some two or three weeks ago he told his wife he had made up his mind to return to California, and requested her to go to Washington, and he would sell the house and furniture and follow her. Much against her own feelings she obeyed him, as he promised to follow her on the following Wednesday. * * * *

One thing appears certain; no person saw him throw himself under the locomotive, and he might have been in a lost or abstracted state, and when reached by the engine, in his confusion sprang the wrong way.

He had no domestic difficulties; he almost worshipped his wife; he always spoke of her as "an angel of purity," but said also "she had one thing that he had not, and that was religion, which he most sincerely desired." His wife and her whole family loved him as truly and dearly as their blood relations.

His friends think the depression of spirits was caused by inactive life, (having been used to excessive and continued excitement in California,) together with a feeling in regard to his future state.

If Mr. Gray really did commit suicide, the only cause that can be assigned by his friends, was temporary insanity, caused by the facts stated above; but they cling to the opinion that his death was accidental."

In these items we find that a religious monomania of the despairing kind, was his malady; and we find also, in the clinging of his friends "to the opinion that his death was *accidental*"—evidence that they made a moral distinction between insane suicide, and insane bewilderment, terminating in accidental death. This distinction we do not make nor entertain. On the other hand, we deem suicide to be *prima facie* evidence of insanity; and considering that all suicides are insane, except a very few who embrace one form of death to escape another, or a still smaller few, who, as the Savior says, "lay down their lives" for their friends, we always pity the suicide, and never speak of him harshly; we would tread lightly on his ashes, and speak kindly of his memory—for he must have been a sufferer—generally a great sufferer.

THEOLOGY IN SCHOOLS.

The New York Tribune says, that a great and influential movement is now in progress, to introduce specifically, Theological teaching into the common schools. The plan is, to set apart Friday afternoon of each week for religious instruction, to all pupils whose parents wish to have their children so taught, and let as many persons as choose attend as teachers. If there shall be any parents who object to the course, their children can continue to be instructed in the usual way.

On this, the Bangor Courier remarks—

"The objections to this project are so many and obvious, that it will not probably meet with any general favor."

The Courier is right. But the Tribune's article reminds us, that in Uncle Toby's childhood, when "Aunt Betsey" kept a private school, she had a more excellent way to get round the sharp points of theology, viz.: on Saturday, once a month, at 11 A. M., she used to make proclamation, that all the scholars who went to *Catechising*,* might be dismissed. At this announcement a stampede commenced, including two-thirds of the pupils; leaving a remnant of the heathen and outsiders, to an hour of lonely stillness, and comparative quiet and ease.

We recommend an improvement of the plan, for adoption by our New York friends, viz.—that Saturday forenoon be devoted to the religious instruction of children, not in school houses, but in the chapels and vestries, and that the schools be dismissed for that purpose.

But in New England we do the thing better still. Every church, every sect, has its Sunday School, where it teaches any doctrine it pleases—while the Common School teaches something of art and science, with little or nothing of theology. We prefer our own system.

*Some of our young readers need to be informed, that, forty years ago, and from that time back we cannot say how far, it was the custom for the pastor of every church to gather the lambs of the flock together, once a month or so, for the purpose of teaching them the doctrinal or other catechisms of the several churches. The week-day schools, being composed of children from families of all persuasions, did not generally give such instruction; though it was done in some of them. The establishment of Sunday-schools has nearly or quite put an end to catechising in day schools and by pastors.

CORRECTION.—We have, as readers know, given currency to the report from Europe, that Mrs. Ives will return home with her brother, Dr, Hobart, she having received notice from the Pope that Doctor Ives would be ordained priest in the summer, and could no longer be considered her husband.

We did not know enough of the minute regulations of the Roman church, to contradict it;—and as we believed the report we deemed it a fit occasion to oppose what seems to us the unscriptural and unnatural folly of deeming celibacy a holier state than matrimony—and the equally great folly of making one law for a priest and nun, and another law for all other men and women. We are happy to see, however, that, the Roman church, in cases like that of Dr. Ives, does not commit the flagrant injustice and wickedness charged upon it in the report. The Boston Pilot makes the following statements on the subject:

I. Dr. Ives will *not* be ordained priest in the summer. II. He cannot be ordained priest without the consent of his wife. III. To make her consent worth anything, she must be a Catholic. IV. Even then it will be worth nothing, unless she voluntarily retire to a convent. V. Even so, there will be some difficulty in obtaining for him permission to be a priest. VI. If all these conditions be observed—as they must be, no harm will be done. VII. Why do the Heathen rage?

We do not think the heathen will rage a great deal more about this matter; nor do we think Rome will get many American priests out of the married clergy, on these conditions. The man who has a good wife, and the woman who has a good husband, will not, as we think, while they remain sane, leave these endeared relations, for the fancied holiness of priests, monks or nuns. Mrs. Ives, we hope, may retain her reason, and if her husband cannot get into the priesthood, yet watch over him in his declining years and wayward fancies.

NONSENSE IN MAINE.—After nominating a very capable, honest and worthy gentleman for Governor, some discontented democrats in Maine are agitating a call for another Convention to nominate some one else. This is all folly. Albert Pillsbury will make as good a Governor as Maine ever had. Go to work, and elect him. What's the use of making a row about a few cabbages?—*Boston Times.*

Is it, then, an unimportant matter, whether so good a law as the "Maine Law" is deemed by some—or so bad as deemed by others—shall stand or fall? Mr. Pillsbury is the candidate of such democrats as wish the Maine law *repealed*. The call for a new Convention, is designed to bring out another democratic candidate who will support the law. Almost every man in Maine thinks the question very important, and the election, on all accounts, is one of great interest. It is any thing but "a row about a few cabbages"—it is a moral question, mixed up with political parties, and is likely to produce great excitement.

THE BLESSED RAIN.—The southern papers report the welcome appearance of rain, which had been general and continued, and which had caused great improvement in the crops.

After two months of almost uninterrupted drought, this neighborhood, including Boston &c., was on Wednesday visited with a copious fall of rain. Its extent along the seaboard was considerable. We hardly remember a time when showers were more welcome.

MEXICO AND THE UNITED STATES.—In regard to the difficulties between Mexico and the United States, we take the following from the Trait d'Union, of the City of Mexico:—

If war is imminent in Europe, we think it may be considered equally so, under certain circumstances, between the United States and Mexico. The violent language of the official journal at Washington bodes nothing good; it would seem that the government of Gen. Pierce is to have the Mecilla valley, and that a military expedition is preparing to contest the point with Gov. Trias, provided he opposes any resistance, which he will. Certain American correspondence, it is true, declares that Gen. Gadsden, United States Minister, comes charged with full power to settle the whole matter. His negotiations consist in an offer by the Cabinent at Washington to cut short all further difficulties, to indemnify Mexico for the loss of Mecilla valley, and to purchase from her another portion of territory in the valley of the river Gila. The United States thus presents in one hand the purse, and in the other hand the sword. We doubt much whether Mexico will accept the first, and must, then, *per force*, take up the latter.

COKE AS FUEL.—Experiments have been tried with Coke, as fuel, on the Baltimore and Ohio Railroad, in passenger trains; and the Miner's Journal says they are entirely successful.

☞ A bill abolishing capital punishment has passed both branches of the Legislature of Wisconsin.

THE SOLID MEN OF PORTLAND.—There appear to be "solid men" in Portland, as well as in Boston. There are 258 men in that city who pay a tax of over $100. The rate of taxation is 70 cents on $100. John B. Brown is the heaviest man in the city, in the way of cash.

THE COLORED CONVENTION.—Speaking of the recent convention of colored people at Rochester, the Democrat says, "Some few of the delegates are quite wealthy. One individual is said to be worth about seven hundred thousand dollars."

LOCAL.

NAVAL.—Com. Shubrick's squadron, of three vessels, remains in this harbor. The Princeton, his flag-ship, is at the Navy Yard, where her machinery is to be so altered as to improve her speed somewhat, and to enable her to proceed to the fishing grounds next week.

☞ Several of the crews of the United States vessels now in this port, have deserted within a few days. Half a dozen of them obtained leave to go on shore at the Navy Yard—from the back side of which they took the boat belonging to the Marine Barracks, and crossed the river to Kittery, where they set the boat adrift and made tracks for down east.—On Thursday, two of them were overtaken by the telegraph, in Wells, Me., and delivered to Marshal Beck at the Eastern Railroad depot. U. S. Deputy Marshal Towle took charge of them, and they were returned to their vessel.

MUNICIPAL.—In Board of Aldermen, last evening, a petition from John W. Huntress and others for widening Dennett street, was read and referred to committee on Public Lands and Buildings.

Application of James N. Tarlton, for sidewalk, was referred to Street Commissioner.

Voted to accept Wentworth street.

There was no quorum in the Council.

THE STAR POLICE.—We perceive our City Marshal wearing his official cockade with becoming dignity, on his hat, as required by the city ordinance; but we do not perceive the stars, which were ordained to shine on the coats of the Assistant Marshals. It is doubtful whether they are to be respected or obeyed in carrying out the law, while they are unadorned contrary to law.

LECTURES ON GEOLOGY.

Dr. Boynton's fourth lecture, last evening, was an ingenious dissertation on the Coal Formation, in its chemical and mechanical aspects. In the course of the lecture he described the contrasts and affinities between animals and vegetables, in the formation and consumption of carbon; showed what animals could and what could not exist under the circumstances of that grand formation; and described the possible present and future formation of an immense coal-bed in the Atlantic. The whole lecture was not stiff and dry, but free, life-like and graphic.

☞ The Lecture this evening will be on the Reptiles and Monsters of the Pre-Adamite Earth. Dr. Boynton will also exhibit his wonderful Iron Galvanic Battery, and make most interesting and valuable experiments.

MYSTERY AND ROMANCE.

The following is given in the Indianapolis Sentinel:—

About thirty years ago, a man named S—— came to Lawrenceburg, and went into business there. After living there a year or two, and sustaining an irreproachable character, he married a highly respectable young lady in that town. Shortly after his marriage, two women whom he had married bfeore he came to Lawrenceburg, made their appearance, each claiming him as her husband. The friends and relatives of his Lawrenceburg wife, justly indignant at his rascality, prosecuted him for bigamy, and by their means he was convicted and sentenced to the penitentiary.—He served out his time and was released in 1832.

As soon as he was released, in company with his Lawrenceburg wife, who still clung to him—the other two had returned to their friends—S—— left Dearborn county, and went no one knew whither, and as neither he nor his wife ever corresponded with any one in Lawrenceburg, nothing was known of their subsequent fate, and they were forgotten almost entirely.

A short time since, a lady in a carriage, and from her dress apparently wealthy, drove up to the door of the gentleman relating this circumstance—who is an old and influential citizen of Lawrenceburg—and asked him if he knew a man named S——, who formerly lived in that town. The gentleman replied that he remembered no such man. The lady then recounted the circumstances we have detailed, when the gentleman replied that he remembered them, and also then recollected S——. The lady then asked the gentleman if S——, when he left Lawrenceburg, did not owe him something. The gentleman replied that he had forgotten all about it, if he did. An examination of old account books, however, showed that S—— owed the gentleman about $70. The lady then remarked that she was the wife of S——, and had returned to Lawrenceburg for the purpose of paying that debt and several smaller ones that he owed when he was sent to the State Prison, and inquired if the gentleman would be satisfied with the principal. On being told that that sum would be satisfactory, the lady paid it. She had a list of the names of her husband's creditors, to whom he was owing small sums, from one dollar to twenty, and, after making inqnirys as to their residences, she departed, refusing to say where her present place of residence is.—During the day she adjusted all her husband's old debts, and left in the evening.

This would be a case of rare honesty in a man who had never been sent to the penitentiary. As it is, it is very remarkable.

EDDY, THE SPIRITUALIST BANKER.—Ira B. Eddy, the well known banker of Chicago, has been confined for four or five days past in the insane retreat at Hartford, on suspicion of insanity. A writ of habeas corpus, returnable before Judge Phelps, of the county court, was sued out by some of his friends, and after an examination of the condition of Mr. Eddy, he was liberated.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

FIRE IN PITTSBURG.—The extensive warehouse of James McCully, on Penn street, was burned on the 20th. It contained 4000 barrels of flour, and 5000 barrels of salt—all of which was consumed. The roof of the United States Hotel and the three adjoining buildings were also burnt. Loss about $40,000; which is covered by insurance in Pittsburg.

FATAL ACCIDENT IN BOSTON HARBOR.—On Thursday morning about 6 o'clock, a boat containing three men came in contact with the Steamer Europa, as she was coming up the harbor. The boat was upset and one of the men drowned. The accident occurred near Fort Independence. The deceased was about 30 years of age, and leaves a wife and four children. He left home to spend a day or two on one of the Islands in the harbor for benefit of his health.

LATE FROM THE FISHING GROUNDS.—Arrivals at Gloucester, from the fishing grounds, represent mackerel as scarce. The schr. Leonard McKenzie had been boarded by an English naval officer, who was gentlemanly. He stated that vessels with more than two guns or muskets on board were liable to be seized. It is reported that American fishing vessels were not allowed to enter the bay of Chaleur.

SMALL POX IN MONTREAL.—It appears from the Medical Chronicle that the small pox has prevailed extensively in Montreal, during the past season, and proved very fatal. The deaths from that loathsome disease in that city, during the last eight months, are stated at 54.4 in every 1000, almost equal to the rate of mortality from the same complaint in Connaught, Ireland, where the proportion is 60 in 1000.

U. S. ship Congress, the flag ship of Commodore McKeever, Commander Pearson, from the River of Plate, via Rio Janeiro June 12, arrived at New York on Wednesday morning; officers and crew all well. She has been absent over three years. She left the U. S. ship Jameson at Buenos Ayres, and the U. S. steamer Water witch in the River of Plate, surveying.

THE STATE PRISON MURDER.—The story in general circulation of a scuffle between two convicts in the Massachusetts State prison, had no relation either to Wilson or Adams.—About two months since another convict named Wilson was insubordinate, and had a scuffle with another colored convict, but it in no way related to the present case. Wilson, the murderer, has for some time declared without reason that some of the other convicts were combining against him, and finally his place of work was changed. When he committed the deed he leaned forward, there being one man between him and Adams, and with great force struck the fatal blow.

The victim never spoke. Wilson then threw the bloody knife over the wall, but it was recovered. He was immediately taken to a cell, where he has since remained, refusing to utter a word. It is presumed, though nothing is known, that there has been in former days some trouble between the parties, which rankled in the bosom of Wilson until that day, which he probably thought to be his last opportunity to revenge himself, as Adams has still four years to serve.

The warden says, no cause is known for the attack, and there was perfect order and quiet in the division at the time, and not a word was spoken before the fatal blow.

Adams has a mother in Boston. He is represented to have been quiet and inoffensive, and an excellent workman. He was sentenced in 1849 to eight years in prison, for arson.—He was a native of Macon, Ga., was 21 years of age when sentenced, and had previously served one term in the State Prison.

TUFTS COLLEGE—CORNER STONE CELEBRATION.—The laying of the corner stone for the new Universalist College on Walnut Hill, Somerville, Mass., took place on Tuesday forenoon. A very large number of people were present.

The venerable donor of the extensive grounds for the College, Charles Tufts, Esq., of Somerville, was first introduced to the audience seated under Yale's mammoth tent, after which the following services were performed: Opening Prayer, by Rev. Mr. Greenwood, of Dover; Reading of the Scriptures, by Rev. T. Whittemore, of Cambridge; Hymn, by Mrs. N. T. Munroe, of Somerville; Prayer, by Rev. Henry Bacon, of Philadelphia; Hymn, by Mrs. Mary T. Goddard; Address, by Rev. A. A. Miner, of Boston; Laying the Corner Stone; Prayer, by Rev. W. H. Ryder of Roxbury; Benediction. The services altogether were very interesting, Mr. Miner's address being one of his best intellectual efforts.

The work for the College building will now go forward with great despatch, and it is expected that the institution will be formally opened in the fall of the next year. The location is a most commanding and beautiful one, and alone worth a special visit to the spot.—*Boston Transcript.*

DEATH OF ABIJAH LEARNED, THE BANK ROBBER.—A friend in Oxford informs us of the death of this celebrated robber, which took place in the hospital connected with the prison at Auburn, N. Y., on the 12th inst. His disease was consumption. His remains were brought to Oxford where his funeral took place on Thursday of last week, from the Baptist church. Upon his death-bed he declared his innocence of the robbery for which he was imprisoned, and not only were the authorities of the prison convinced of this fact, but the Governor of the State granted a pardon, which reached Auburn an hour or two after his death. At the time of his trial, it may be remembered, he established an *alibi* on the testimony of three witnesses from Oxford and Southbridge, which witnesses were, after his conviction, indicted for perjury.—*Worcester Palladium.*

Charles Andrews is the name of the fiend who was detected in the act of fastening obstructions upon the track of the Harlem Railroad, a day or two since. His object is supposed to have been the plunder of the wreck.

PORTSMOUTH TO THE SHOALS.
SUMMER ARRANGEMENT.
Steamer Grace Darling,
CAPT. SAMUEL BILLINGS.

THE superior steamer Grace Darling, Capt. Billings, will leave Sheafe's Wharf, daily, (until further notice) at 10 o'clock, or on the arrival of the first morning trains on the Portsmouth & Concord and Eastern Railroads—and return from the Shoals in season to take the last trains for Concord, Boston and intermediate places.

This arrangement affords a fine opportunity for persons from abroad to visit one of the most delirable Summer resorts for the Invalid, and all others who are fond of Fishing, Bathing, and other amusements conducive to health and pleasure. The Islands (eight in number) are about an hour's sail from Portsmouth, by Steamer, where all the advantages from a sea-voyage can be secured, subject to none of its perils. The temperature is never more than 80 degrees in the shade, and seldom varies more than 10 degrees in 24 hours.

Hon. Thomas B. Laighton's Hotel on Appledore Island, designed and kept particularly for the Invalid, and also for the pleasure seeker, is one of the first class, where every convenience, both for luxury and comfort can be found.

The passage out is truly delightful—the scenery unsurpassed. As you pass down the river, view after view presents itself:—The Navy Yard, Dry Dock, Forts Washington, Sullivan, McCleary and Constitution; the settlements of Kittery Point, New Castle, Rye, and many Islands and Beaches along shore, present attractions that are beautiful to behold, and render the trip one of the most beautiful and pleasing nature.

PASSAGE ON BOARD STEAMER, 50 CTS.

Tickets may be obtained on board, or at the Ticket Office of the Portsmouth & Concord Railroad.

Parties from the neighboring towns can be accommodated on reasonable terms, by application to Capt. Billings on board, or to

PROF. ALEX. C. BARRY'S
Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself.—The effects of the first bottle exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot at the manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity, and by the principal Merchants and Druggists through the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22*

MARRIAGE.

Happiness and Competence.

WHY IS IT?

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the causes of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the fall consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years? And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S
Private Medical Companion.

BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., pp. 250. Price 50 Cents.
[ON FINE PAPER, EXTRA BINDING, $1 00.]
First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married. Those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been **SENT BY MAIL** within the last few months.

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents*, together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

When Knowledge is Happiness, 'tis culpable to be ignorant.

A New, Delicious Temperance Beverage.
AMBROSIAL MEAD!

THIS excellent Compound is prepared from the best SPANISH SARSAPARILLA, without its dark, repulsive appearance, being beautifully transparent and entirely free from all impurities. Its qualities as a beverage, a single bottle will give it a pre-eminence over all other preparations, by its freedom from noxious ingredients, agreeableness of flavor, and its *exceeding cheapness*, one bottle being sufficient to make thirty glasses of the beverage.

CAUTION!—The proprietors of this excellent preparation have spared no expense to bring it to perfection, and would caution purchasers to buy none without the fac simile of Wilson, Fairbank & Co. on every bottle.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,
No. 24 State Street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

DR. CONINE'S
SYRUP OF GINSENG & MALVA.
The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing

DISSOLVENT POWER,

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs,* by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom *AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.*

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the BEST family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial &
Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 28, 1852.

K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

PORTSMOUTH:
SATURDAY, JULY 23, 1853.

CHANGELINGS REBUKED.

The following sharp cut on Converts or Perverts in Theology, is from the editorial lash of the Charlestown Advertiser:

"A preacher of the Sacred Scriptures swerving from one system of religious belief, and clutching at another, may make himself popular with a few whose peculiar views he has adopted, but in the judgment of sound-thinking, reasonable men, he holds the position either of a crazed intellect or a hypocritical heart."

Then alluding to Bishop Ives, the Advertiser says:

"Who could listen patiently to the preaching of such a man? and who, being capable of reflection, would not rather grope on towards heaven alone, than trust to such a wavering guide for spiritual comfort and direction."

If these reflections and deductions are sound and correct, then Wesley and Calvin, Luther and Paul, were maniacs or hypocrites. Not only so; if the mere fact of Dr. Ives' change makes him unworthy of all confidence, then just turn the argument round, and every Catholic who leaves the Roman church must be also unworthy. If a Mormon Apostle should forsake Brigham Young's creed, and preach against polygamy, this too would be evidence against him. No error must be corrected, no fiction renounced, no new view of truth avowed.

The editor of the Advertiser is a man of good sense, and will see that his argument proves too much.

But after finding thus much fault with his first sentence, we must express our hearty agreement with the spirit of the last, while we ask liberty to amend its letter. On reflection, we are sure we need not grope on towards heaven alone, nor need we *trust* to any human guide, whether he wavers or not. One man is steadfast in the truth; another man of the same general character is stubborn in error; a third, different from either, abandons falsehood for truth; while a fourth, with apparent gravity and sincerity, sells the truth and buys a falsehood. This is no fancy sketch—we have seen the whole of it in real life; and conclude that the wisest and best men, as spiritual guides, are quite fallible and imperfect. If we have learned but one lesson, it is to be charitable and respectful to all human teachers, but dependent on none—and if we have learned a second, it is that divine aid and illumination are easily and freely accessible to all who seek them.

PARDONING A MURDERER.—"In the plenitude of their mercy, the governor and council of NewHampshire have pardoned out of the state prison, Mr. Coming, who was convicted at Haverhill, about eight years ago, of his wife. His sentence to be hanged had been commuted to imprisonment for life. Elder Dudley, who murdered his wife in the same county, was hanged, without confessing his guilt."—*Boston Post.*

Wm. F. Comings was committed to the State Prison on Christmas Day 1844. We know not what induced the Governor and Council to remit his sentence. It certainly ought to be a very cogent reason, or it is unjustifiable. We do not believe any criminal fairly convicted of murder, should ever be again let loose among his fellow men. Comings published an edition of his trial; with a confession, or statement, such as it was, not admitting that he killed her, but stating enough against himself, to drive her to desperation, or break her heart, if she had one.

Dudley, the other murderer, was a clerical scoundrel, unquestionably very guilty, though not clearly proved to be any more so than Comings.

The murder of Mr. Parker, at Manchester, for his money, occurring after Comings' murder of his wife, and the murderer not being discovered, sent such terror through New Hampshire, as to change thousands of voters from opposition to capital punishment, and induce them to look up to the gallows as a safeguard for life. The last mentioned murder has, in this way, hung all the murderers who have been convicted since, except one girl.

MASSACHUSETTS.—The Constitutional Convention is near the close of its labors. The Courier says—

In regard to the judiciary, it will be seen that the Constitution is to be amended so that all judicial officers, except those concerning whom a different provision shall be made, are nominated and appointed by the Governor, by and with the consent of the council, for the term of ten years, that they may be reappointed at the expiration of such term, and that all such nominations shall be made and publicly announced at least seven days before such appointment, and the Judges now in office shall hold their offices according to their commissions. It will be observed that this article does not extend to Judges of Probate and Insolvency. They are to be elected by the people.

It is said the new Constitution is to be voted on in a lump. If so, it will be rejected by the people.

MR. GRAY'S SUICIDE.—The reason for it is plain enough now. See how the Washington Star explains it. After mentioning his marriage with Miss French, the Star says;

"For some time he had been laboring under great depression of spirits, arising from the fact that he was haunted by a lady with whom he had been connected in marriage, it is said, in California. She lately arrived in New York from that quarter, and at once threatened to prosecute him for bigamy.

We have every reason to believe, we are happy to be able to write, that in contracting his last marriage, Mr. Gray was not aware that his former matrimonial obligations had not been sufficiently obliterated by the action of the law to leave him entirely at liberty to form that connection legally. Distress of mind at finding himself in such a situation undoubtedly drove him to the desperate deed."

AN INCIDENT.—At the Phi Beta Kappa celebration at Cambridge, it was somewhat striking to observe upon the platform that Hon. Josiah Quincy, Jr., the President just elected, was sitting at the right of the pulpit, while his father, Hon. Josiah Quincy, LL. D., who vacated the same office forty-one years ago, sat opposite him, upon the left, an ex-President of the University, and one of the oldest members of the Fraternity present,

THE STEAMER WALKER.—The Charlestown, Mass., Advertiser, says the Surveying Steamer Walker, which left Charlestown last February, has been recently, as it were, deserted. Officers and crew left her at Pensacola, to await the future disposition of the government. In her trip South she came very near going to the bottom.

THE NEW HAMPSHIRE STATE FAIR.—The Manchester papers state that Hon. Edward Everett, with President Pierce and some members of his Cabinet, are expected to attend the New Hampshire State Fair. The orator of the occation is B. P. Johnson of Albany, Secretary of the New York Agricultural Society.

☞ It is said that Madame Jenny Lind Goldschmidt has a little daughter; but we cannot vouch for the truth of the report.

RACHEL.—An intelligent American lady now in Europe writes to us thus of the celebrated Rachel: The day after my arrival in London I attended *matinee dansante* at the house of a noble lady, where there was a morning concert. Bosio, whom you know so well in New York, sang delightfully, and Gardoni, the charming tenor. He has a soft, sweet, velvet-like voice that melts into the heart, "like music on the sea." He is wondrously handsome too. The ladies all danced with bonnets on. I must not forget to tell you I have seen Rachel. I am enchanted with her acting. It is so chaste, classical, and life-like. Her every gesture is the soul of grace. Her voice is still thrilling through my heart; and her words are set like gems in my memory. She is one of those rare magnetic women which draw you insensibly towards them. She is very ugly—is a small, delicate looking creature; but her genius is matchless. I have not seen an actress to compare with Julia Dean, save Rachel."—*N. Y. Mirror.*

AN ECCENTRIC ARTIST.—It is stated that a landscape painter of no extraordinary merit as an artist, is making quite a sensation at Paris. He has gained distinction by his hostility to the ideal, and passion for the actual. He paints the most ugly landscapes that can be found. He enlivens them with figures of very plain females, dressed in the most shabby gowns, and ill-fitting bonnets; and all this because unattractive sights are more frequently met with than agreeable ones; because ladies without charms are more numerous than ladies with them; and because the prevailing styles of dress are unbecoming, and in bad taste. This he calls *realisme.* At the last two exhibitions, the man's hideous pictures had a colossal success, merely on account of the eccentricity of the artist.

METHODISM IN NEW HAMPSHIRE.—At the late Conference of Methodists at Newport it appeared that there are in this State, of that denomination, 8,869 members in full communion, 1897 probationers, and 97 local preachers; total 10,860, being an increase of 638 over the former year.

A COLOSSAL STATUE.—An interesting discovery in the Valley of the Nile has brought to light another of the stupendous monuments of ancient Egypt; it is a huge statue, and is supposed to be the owner of the gigantic fist in the British Museum. *Ex pede Herculum!* the biggest of the Ninevite bulls would appear a kitten by the side of this monster. He was met with while boring the strata in pursuance of Mr. Horner's inquiry into the growth and formation of the banks of the Nile.

BRILLIANT RAILROAD PARTY.—On board the Danish ship-of-the-line Dandbrog, which is at Ciel harbor, a great ball was given on the 24th June. On this occasion occurred a circumstance, perhaps unexampled in the annals of railway travelling—namely, that a large company of the fashionables and aristocracy from Altona and Hamburgh went by the Hamburgh-Kiel Railway in full ball dress for the festival. The distance is about 108 miles.

BUTTER.—A correspondent of the N. Y. Journal of Commerce states that there is, in San Francisco, a four fold larger stock of butter than has ever been had there before. The consequence must be ruinous to shippers.—Prices have ranged from 25 to 28 cents, and no considerable quantity could be sold at these figures, purchasers anticipating still lower prices. All this in face of most extraordinary high prices at the east.

A Scotch gentleman, lately returned from the Island of Saints, describes a Ribbonman as "a man wi'nae croun till his hat, and nae ,seet till his breeks, wi' a cutty pipe sticking out at tane end o' him, and the tail o' his sark at the tither."

LOCAL.

EXCURSION TO THE SHOALS.—The excursion of the Grace Darling, to the Shoals this evening, to tarry there till Monday, in connexion with the low price of the passage, cannot fail of being well patronized if the weather is fair.

The Boat is excellent, and the route unsurpassed for beauty. The visitors at the Shoals can make their election between attending church, staying at home in the public houses, and sitting on the rocks.

☞ Dr. Boynton's lecture last evening was delivered to an increased auditory, and has not been been exceeded in interest by any of the course. The experiments also, were highly satisfactory. The reptiles and birds inhabiting the pre-adamite earth were exhibited in something of their pristine beauty (?) and sketched with the hand of a master.

AFTERNOON EXHIBITION.—LAST CHANCE.—It will be seen by the advertisement, that Dr. Boynton will give this *afternoon*, at half past 2 o'clock, a select entertainment for ladies, parents, children, &c. The exhibition consists of a variety of instructive and amusing experiments in Natural Philosophy and Electricity. These afternoon lectures have been highly commended in other cities, and those who have heard Dr. Boynton here, will not doubt his ability to render such an entertainment intensely interesting. Among other experiments, he will send up a balloon, with a net and car.

This evening, Dr. B. gives the concluding lecture of his course—said to be his best lecture—on the subject of the Present order of the Animal Creation, including the Human Race. Remember, this afternoon and evening afford the last opportunities of hearing Dr. Boynton.

LAUNCH.—The fine ship Webster is to be launched from the yard of Geo. Raynes Esq., between 12 and 1 o'clock this day.

APPOINTMENT.—The N. H. Gazette learns from Samuel E. Coues, Esq., of this city, that he will be connected for the present, and temporarily, at Washington, in the Patent department in a scientific capacity.

☞ The Rev. James H. Marston will preach at the South Church to-morrow.

☞ Elder Edwin Burnham will preach at the Advent Chapel.

☞ The seashore houses about here are doing a fine business. A correspondent at Hampton Beach informs us that Messrs. Gookin & Leavitt, at the Winnicummet House, have a large and pleasant company, who are "gay and happy." The Winnicummet is admirably conducted and Boar's Head as popular as ever.

A gentleman from Portsmouth, N. H., informs us that the Princeton has been condemned.—*Boston Post.*

The information is not correct. She is to go her voyage. But we could build a better vessel here.

ANOTHER MYSTERY EXPLAINED.

All the mysteries will be explained by and by. The reasons why Madame Bishop did not sing here, are two, given in Boscha's note. One is, that the lady has a cold, and did not like to travel in the rain on Wednesday morning; the other we cannot better give than in his own words:

"Madame Anna Bishop and myself are so sick in this *miserable* part of the United States to hear constantly of twenty-five cent Concerts, and to be assimilated to common negro singers, that if your community is so backward and such jackasses not to appreciate first rate artists, and to *pay* to hear them, it is really better to abandon our trip to Portsmouth altogether."

On this the Journal truly remarks:

The large attendance at the Cameneum on that evening is good evidence that there is no lack of musical taste in our community, nor of willingness to pay for its gratification. We apprehend, too, that there is no lack of appreciation of courteous and gentlemany conduct in natives or foreigners.

Should Madame B. and her attendant now visit our city and give a *free* concert, we presume she would have the same view of a Portsmouth audience that she had of the Pope at his court in Rome—nothing visible.

The insolence and arrogance of these foreign showmen is outrageous. How long will the American public endure it?

SHADY.—The Newburyport Herald says the number of shade trees on High street, in that city, embracing that portion within the limits of Newburyport, (from the "Three Roads" on the north, to Marlboro' street on the south,) is *eleven hundred and forty-seven,*—a greater number, the Herald thinks, than is contained in any other street in the United States.

☞ The steamer C. B. Stevens, of Newburyport, was sold at auction, at Boston, Friday, for $2274. The was built at Wilmington in 1851, and cost about $8000. The purchaser is a Providence man, who is said now to be the owner of fourteen steamboats.

HISTORY OF NEWBURYPORT.—Messrs. John G. Tilton, & Co., booksellers, in Newburyport, propose to publish a history of that city from its first settlement to the present time, and for this purpose have opened a subscription paper. The book is designed to contain about 300 pages 12 mo., with plates, illustrating prominent objects of interest in the city and vicinity.

☞ On July 13th, Mr. H. W. Dalton was ordained to the work of the Gospel Ministry, and as pastor of the Baptist church in Northwood, N. H. Sermon, by Rev. W. Lamson, of Portsmouth, from EPH. 2: 3.

LATEST NEWS!

BY MAIL, EXPRESS & TELEGRAPH.

PHILADELPHIA, July 21.—SLAVE CASE.—A man named Brown was arrested this morning charged with being a fugitive slave, and the property of J. C. Howard of Cecil county, Maryland. He declares that he is free, and owns a small farm in New Jersey. The case will be heard to-morrow.

ALBANY, July 21.—The New York Legislature adjourned *sine die* this evening. Both the New York Park bills, and the Jones, Wood and Central, were passed, as was also the Pacific Railroad bill. The liquor bill was lost.

TRIAL OF IRA B. EDDY.—A special session of the county court was convened this morning by Judge Phelps, on a writ of habeas corpus, for the purpose of commencing the trial of Ira B. Eddy, the well known banker of Chicago, who was reported to have become insane, and has been confined in the insane retreat in this city for the past four or five days. Two witnesses from Chicago, Messrs. Marrell and Cook, gave testimony to the effect that Mr. Eddy had formerly been regarded as a peaceable man, but that he had recently become a believer in the "spirit rappings," and his friends had deemed it advisable to put a conservator over his property, although it did not appear that he had squandered his money. Mr Eddy himself testified pretty much to the same effect. After some further witnesses had been examined, the Court deliberated, and finally decided that Eddy should be discharged. He was accordingly liberated. The case excited much interest here.—*Hartford Times*

SHOCKING ACCIDENT.—A correspondent in Plymouth, N.C., writes us the following account of a melancholy accident which occurred at Williamston, on Saturday last:—A young man, of the name of Bragg, employed in the steam mill at that place, accidentally tripped and fell, and in falling his arm struck the circular saw and was instantly cut off, as if it had been done by a sickle. The jerk produced by the collision, threw him over, and brought his neck in immediate contact with the saw, when in a twinkling, his head was severed from his body, and thrown some four feet from the instrument!—*Norfolk Herald, Saturday.*

The marriage of Lord Aberdeen, eldest son of the earl of Morton, with Lady Alice Lambton, youngest sister of the earl of Durham, took place on the 7th at St. James's Church, Piccadilly.

Advices from the various departments of Erance state that the fears respecting the harvest have been dissipated by the late improvement in the weather.

The Irish elections end in the return of liberals. and Mr. Sadleir is returned for Sligo, having 145 votes to 141 for Somers. Clare was tranquil, but Sligo had been the scene of tumult. In the one place the Catholic priests led the people, in the latter the people, in the latter the people abused the priests.

The London Globe of the 8th, P. M., understands that her majesty's visit to Dublin is postponed, owing to Prince Albert having the measles.

The grand duchess Maria, eldest daughter of the emperor of Russia, and the grand duchess Crtharine, his niece, were daily expected in London.

RIOT AT MATTAWAMKEAG.—We learn from the Bangor Mercury that a riot occured at Mattawamkeag on Friday last. The rioters were a party of about 100 log-drivers who got angry because they could not get any liquor. They went into the hotel kept by J. Q. Adams, smashed the clock, severely beat the bar-keeper, and then commenced destroying the inside of the house, breaking all the windows but one in the bar-room, from thence they went to the entry, demolishing the stair railing, thence to the gentlemen's sitting and dining rooms, defacing the walls of the rooms, breaking chairs, tables, crockery, and everything that came in their way. Two of the leaders were subsequently arrested and held for trial.

FIRE IN CINCINNATI.—On Thursday, July 21, a fire broke out in the edge tool factory on the corner of Broadway and Eighth streets at noon, and most of the houses in the block east of Broadway and Seventh and Eighth streets were destroyed. The wind blew strong, and it was with great difficulty that the flames were subdued. The Catholic church on Syracuse street, four squares distant, was at one time on fire. The buildings destroyed were mostly frame built. The loss is estimated at $50,000.

LIQUOR SEIZURES.—Marshal Farnham found three barrels, on Saturday, full of green cucumbers, in the midst of each of which was an eight gallon keg of liquor. On Wednesday, six barrels of liquor were seized by the same officer, and two kegs found in a large leather covered trunk.—*Bangor Mercury.*

RELIGIOUS EXCITEMENT.—A despatch from Louisville, of the 18th, says: "Kirtland, the Anti-Catholic preacher, is holding forth here, but the Mayor has forbidden his preaching. Bishop Spaulding publishes a card requesting all Catholics to keep away from the meetings."

An examination of the premises of Mr. Pratt, Attorney street, N. Y., where an explosion took place on Wednesday induces the belief, that the disaster was, as usual in such cases, the result of carelessness, cold water being suddenly let into the heated boiler, and steam thus generated so rapidly as to occasion a collapse of the flues.

The deaf and dumb man killed while sitting on the railroad track, at North Beverly, on Wednesday evening was Lorenzo Willey of North Wolfboro', N. H. He was a shoemaker, about 33 years of age, and has a family residing at Lynn. He has of late appeared partially insane.

PORTSMOUTH TO THE SHOALS.
SUMMER ARRANGEMENT.
Steamer Grace Darling,
CAPT. SAMUEL BILLINGS.

THE superior steamer Grace Darling, Capt. Billings, will leave Sheafe's Wharf, daily, (until further notice) at 10 o'clock, or on the arrival of the first morning trains on the Portsmouth & Concord and Eastern Railroads—and return from the Shoals in season to take the last trains for Concord, Boston and intermediate places.

This arrangement affords a fine opportunity for persons from abroad to visit one of the most desirable Summer resorts for the Invalid, and all others who are fond of Fishing, Bathing, and other amusements conducive to health and pleasure. The Islands (eight in number) are about an hour's sail from Portsmouth, by Steamer, where all the advantages from a sea-voyage can be secured, subject to none of its perils. The temperature is never more than 80 degrees in the shade, and seldom varies more than 10 degrees in 24 hours.

Hon. Thomas B. Laighton's Hotel on Appledore Island, designed and kept particularly for the Invalid, and also for the pleasure seeker, is one of the first class, where every convenience, both for luxury and comfort can be found.

The passage out is truly delightful—the scenery unsurpassed. As you pass down the river, view after view presents itself:—The Navy Yard, Dry Dock, Forts Washington, Sullivan, McClary and Constitution; the settlements of Kittery Point, New Castle, Rye, and many Islands and Beaches along shore, present attractions that are beautiful to behold, and render the trip one of the most beautiful and pleasing nature.

PASSAGE ON BOARD STEAMER, 50 CTS.

Tickets may be obtained on board, or at the Ticket Office of the Portsmouth & Concord Railroad.

Parties from the neighboring towns can be accommodated on reasonable terms, by application to Capt. Billings on board, or to

PROF. ALEX. C. BARRY'S
Tricopherous, or Medicated Compound.

FOR beautifying, curling, preserving, restoring and strengthening the Hair, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Prof. Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself.—The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind.—The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.

Depot a manufactory, No. 137 Broadway, New York. Retail price 25 cents a large bottle.

Liberal discount to purchasers by the quantity. and by the principal Merchants and Druggists through the United States, and Canada, Mexico, West Indies, Great Britain, France, &c., and by Weeks & Potter, Brewers, Stevens & Cushing, and Wm. Brown, Boston. d&w6m je22

MARRIAGE.

Happiness and Competence.

WHY IS IT?

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life as an age why physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (within the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife, without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglects to avail herself of that knowledge in respect to herself, which would spare her such suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

THE MARRIED WOMAN'S
Private Medical Companion.

BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.

One Hundreth Edition. 18mo., *pp.* 250. *Price* 50 *Cents.*

[ON FINE PAPER, EXTRA BINDING, $1 00.]

First published in 1847, and it is not

SURPRIZING OR WONDERFUL,

Considering that EVERY FEMALE, WHETHER MARRIED OR NOT, can here acquire a full knowledge of the nature, character and causes of her complaints, with the various symptoms, and that nearly

HALF A MILLION COPIES

should have been sold.

It is impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriages, but no female desirous of enjoying health, and that beauty, consequent upon health, which is so conducive to her own happiness, and that of her husband, but either has or will obtain it, as has or will every husband who has the love and affection of his wife at heart, or that of his own pecuniary improvement.

UPWARDS OF ONE HUNDRED THOUSAND COPIES

Have been **SENT BY MAIL** within the last few months.

CAUTION TO THE PUBLIC.

BE NOT DEFRAUDED!

Buy no book unless "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y." is on the title page, and the entry in the Clerk's Office on the back of the title page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau, as there are spurious and surreptitious infringements of copy-right.

LET EVERY WIFE AND HUSBAND PONDER!

No excuse for Ignorance, when Ignorance is Misery to those we hold near and dear, and when to dispel our Ignorance is within our reach.

To enable every one to decide upon the *indispensable necessity* of possessing a copy, and that no wife, or mother need remain uninformed upon the many causes, which, sooner or later, are destined to make fearful ravages upon her health, unless guarded against, and that no considerate and affectionate husband have cause to upbraid himself with neglect of the welfare of his wife—a pamphlet of thirty-six pages, containing *full Title-page and Index of Contents,* together with extracts from the book, will be sent *free of charge* to any part of the United States, by addressing, post-paid, as herein.

When Knowledge is Happiness, 'tis culpable to be ignorant.

☞ On receipt of One Dollar (for the fine Edition, extra binding,) "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION" is sent (*mailed free*) to any part of the United States. All letters must be post-paid, and addressed to Dr. A. M. MAURICEAU, Box 1224, New York City. Publishing Office, No. 129 Liberty Street, New York.

CAUSING it to grow luxuriantly, and giving it a soft and curling appearance, of the most delightful character. The KATHAIRON neutralises the effects of disease, climate, and old age, in preserving and restoring the Human Hair, even after a *Baldness* of many years,—cleanses the scalp from *Dandruff,* and its natural impurities,—immediately relieves sympathetic attacks of *Nervous Headache,* and cures all cutaneous diseases of the skin, such as Erysipelas, Salt Rheum, Itch, &c.

AS A TOILET ARTICLE,

For giving the Hair a rich, soft, glossy and curling appearance, nothing has been discovered to compare with its incontested—its incontestible virtues. It imparts the fragrance of the most delightful and exotic flowers, and is free from all minera properties, or any substance which can color the skin, or stain a lady's hat.

FOR BALD OR GREY HEADS

It is pre-eminently beneficial. "The Kathairon restored my hair after a baldness of 12 years. A. J. Cournand, 70 Bond-st. N. Y." This admirable preparation can be had of all repute ole dealers, throughout North and South America, and the Islands of the Ocean, in large bottles, for 25 cents.

A New, Delicious Temperance Beverage.

AMBROSIAL MEAD!

THIS excellent Compound is prepared from the best SPANISH SARSAPARILLA, without its dark, repulsive appearance, being beautifully transparent and entirely free from all impurities. Its qualities as a beverage, a single trial will give it a pre-eminence over all other preparations, by its freedom from noxious ingredients, agreeableness of flavor, and its *exceeding cheapness*, one bottle being sufficient to make thirty glasses of the beverage.

CAUTION!—The proprietors of this excellent preparation have spared no expense to bring it to perfection, and would caution purchasers to buy none without the fac simile of Wilson, Fairbank & Co. on every bottle.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 22 State Street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully Yours, &c. THOMAS EWBANK,

DR. CONINE'S

SYRUP OF GINSENG & MALVA.

The Great Chinese Remedy.

THIS Medicine depends more upon its own virtues and actual merit than any other ever before offered to the public.

The recipe is from Dr. CONINE, a gentleman who travelled many years in China, and in the islands of that vicinity where this compound is the potent and effectual remedy for the numerous diseases arising from a disordered or debilitated stomach, and

Affections of the Lungs.

But what will particularly attract attention is its astonishing DISSOLVENT POWER.

By which it at once removes ALL PHLEGM or extraneous matter from the Throat, Stomach or Lungs. It is therefore

Anti-Expectorant,

And from attentions of trial here, it is now offered as NATURE'S KINDEST REMEDY for the removal of *Consumption, Whooping Cough, and all Coughs,* by precipitating the Phlegm, instead of creating irritation by expectoration.

It is AROMATIC, and increases the general warmth, possessing the exhilarating qualities of the Tea Plant, which is one great cause of its universal popularity in all India beyond the Ganges, where as an

APPETISER

It probably has no equal in the Vegetable Kingdom *AS A DYSPEPTIC REMEDY, IT IS UNEQUALLED.*

Its natural, genial warmth keeps the digestive powers ever in proper tone, soothing all irritation of the nerves, &c.

It will prove a more pleasant, safe and effectual Tonic than any Sarsaparilla or other boasted tonic remedy, and even nutritious, as well as exceedingly palatable. It will continue to be prepared in the best manner—no expense being spared—and in quart bottles.

Besides the numberless testimonials which we are receiving daily, of the good effect of the above medicine, we are allowed to refer to several physicians, who are now using the *Syrup of Ginseng and Malva* with great success.

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

THIS article, which has made so many wonderful cures, was discovered by DR. JESSE HAMPTON, of Louisville, Ky., now in fine health in the 79th year of his age, and is acknowledged by those who have used it to be the best family medicine in use, and is WARRANTED FREE FROM ALL MINERAL SUBSTANCES. By its mild action on the STOMACH, LIVER and KIDNEYS, it will cure the diseases of those organs, with all chronic complaints, as

Dyspepsy, Cough, Asthma, Bronchial & *Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Fits, Bowel Complaint, Worms, Nervous Debility,*

With all Diseases arising from Impure Blood.

As a FEMALE MEDICINE it has no equal! It will change the Complexion from a pallid to a blooming one.

Wherever introduced its success is unbounded. It has certificates from Hon. Henry Clay, Hon. R. M. Johnson, Vice President of the United States; Hon. John H. T. Jerome, Mayor of the City of Baltimore; the Spanish Consul; Judge Davis; Lund Washington; from a Chaplain of the U. S. Navy; from the State Department, Washington; from the brother of the Physician to the Emperor of France, who was cured by it after all other remedies had failed; and from hundreds of others, making up an amount of Testimony never before given to any other discovery of Medicine. A trial of it will convince the most skeptical.

We invite the public to call and get Pamphlets and see certificates of Cures. Read the following certificates of undoubted testimony:

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, Aug. 23, 1852.

I take great pleasure in stating, that I have examined the names of those who have signed certificates respecting Hampton's Vegetable Tincture, and among them I recognize gentlemen of the first respectability, viz: Jos. K. Stapleton, William A. Schaffer, G. Dunan, and others. I also cheerfully testify to the high standing of the house of Messrs Mortimer & Mowbray, who, for the past twenty years, have enjoyed the entire confidence and esteem both of our merchants and citizens generally.

JNO. H. T. JEROME.

A Voice from the Birth-place of Christopher Columbus, the Discoverer of America.

U. S. SHIP CUMBERLAND,
Genoa, Sardinia, January 17, 1853.

Messrs. Mortimer & Mowbray—Gentlemen: The first Lieutenant of this ship, who has been suffering many years from the Dyspepsia, and who has been nearly restored to his usual health by the use of "Hampton's Vegetable Tincture," desires you to send him one dozen bottles of that medicine.

Lieutenant ——, of the U. S. Navy, now on board this ship, also wishes you to send him one dozen of "Hampton's Vegetable Tincture," by the store ship which leaves the United States in February or March, for Spezzia.

The Tincture you sent me was received in good order, and I take pleasure in informing you that it has been used with great success by several of our officers in cases of DYSPEPSIA.

I am respectfully yours,
VERNON ESKRIDGE, Chaplain U.S.N.

are constantly coming to light, from different parts of the country, showing the astonishing effects of the fair and faithful use of these Lozenges.

HERE IS ONE LETTER,

from a citizen of Portsmouth—and but a sample of hundreds:

PORTSMOUTH, N. H., May, 1853.

This is to certify that I consider Devines' Compound Pitch Lozenges a valuable article for what they are designed—the best remedy before the public. My son had a very severe cough, which threatened speedily to carry him off; and nothing seemed to give relief, until I tried these Lozenges, —which produced signs of relief in a few hours, and after the taking of a few boxes, wholly removed his cough.
